SELECTMEN'S REPORT.

TO THE CITIZENS OF HYDE PARK :

The Board of Selectmen submit the following as their annual report for the year ending January 31, 1906.

FINANCE.

The funded debt of the town January 31, 1905, was :

Sewerage Loan	\$151,000
Public Library Building Loan	14,000
High School Building Loan	51,000
Trescott School Building Loan	14,000
High School Furniture and Furnishings Loan	4,000
	————— \$234,000

During the year \$15,000 of the above bonds and notes became due and were paid and \$30,000 additional sewerage bonds were issued to provide for extension of the sewerage system, most of the work being in the Clarendon Hills and Holmfield Districts.

HIGHWAY DEPARTMENT.

The Board of Selectmen reappointed Mr. Arthur T. Rogers as Superintendent of Streets. He had served the town in this office the previous year and given general satisfaction.

The town appropriated \$22,500.

The items of expenditure, as well as a detailed account of the work, will be found in another part of this report.

NEW STREETS.—SAFFORD STREET.

This street was accepted by the town December 28, 1904, and \$300 appropriated. This amount was not enough to properly construct the street on account of a ledge found, which was not anticipated, so that to complete the street \$36.87 additional was appropriated at a town meeting January 31, 1906, by transfer from an unexpended balance from Waterloo Street.

WACHUSETT STREET.

The town accepted this street Dec. 28, 1904, and the appropriation voted was \$421.57. The street was completed for less than the appropriation, — namely \$315.10, and the unexpended balance, \$106.47, was transferred by vote of the town as follows: — \$16.45 to highways and \$90.02 to street waterings.

WATERLOO STREET.

This street was accepted by the town Dec. 28, 1904, and \$400.00 appropriated to build it. This work was done for \$311.00. The unexpended balance was transformed by the town as follows: — \$36.87 to Safford Street. \$52.13 to highways.

REGENT STREET.

This street was accepted by the town during the term of the previous Board of Selectmen, and \$2,700 was appropriated Dec. 28, 1904, to build the street. The Board was unable to properly construct this street for the amount which had been estimated; to complete it cost \$341.40, which was appropriated by the town as follows: — July 12, 1905, \$97.56 from street watering, Jan. 31, 1906, \$243.84 from National Bank and Corporation tax.

DAMON STREET.

The town accepted and appropriated, on Dec. 28, 1904, \$700.00 for this street, which has been partially completed and will have to be carried over to another Board. We believe the appropriation sufficient to complete the work.

LEXINGTON AVE., MASSASOIT ST., SUMMER ST. PLACE.

The Board after public hearings, granted to the petitioners for the above-named streets, recommended at the town meeting Jan. 31, 1906, that they be accepted, and that \$675, \$600 and \$150, respectively, be appropriated to build them. The meeting voted "no" on the acceptance and appropriation. The Board are of the opinion that it would have been for the best interests of the town if the meeting had taken a favorable action.

WESTMINSTER STREET DRAIN.

An appropriation of \$500 was made by the town for their work on December 28, 1904. The drain was completed for \$566.54, this additional amount of \$66.54 over the estimate was occasioned by extra rock excavation which was not expected. The town transferred from the unexpended appropriation for the Neponset Avenue drain \$66.54 to meet the extra cost.

MILTON STREET DRAIN.

The Selectmen recommended at the town meeting, July 12 last, an appropriation of \$1,000 for a drain on Milton Street (west section) to care for surface water. It was built and a balance of \$92.38 remained on hand after its completion.

NEPONSET AVENUE DRAIN.

The question of surface drainage of this avenue has been before different Boards of Selectmen for several years. In the town meeting, December 28, 1904, \$600 was appropriated for the work. This Board constructed and completed the drain for \$500.36, leaving a balance of \$99.64, which, on recommendation of the Board, the town transferred as follows: \$66.54 to Westminster Street drain and \$33.10 to highways.

STREET WATERING.

The town appropriated \$4,500.00 for this purpose, which was the same as last year. July 12, 1905, the town transferred \$97.56 from this department to Regent Street, and on January 31, 1906, returned to the department \$90.02 from Wachusett Street, making the appropriation \$4,492.46 for the year. From the appropriation, a new cart was purchased, making eight which the town now own. Seven were in use all the time, the eighth cart (an old one) was used as a reserve on special work and in case of accidents to the others. Out of the appropriation \$1,093.92 was paid for water. This department was under the direction of the Superintendent of Streets and the work was well performed.

COLLECTION OF ASHES AND GARBAGE.

The appropriation for this work was \$5,000, which was sufficient to carry the department to Jan. 31; to provide for the work to April 1st the town appropriated \$750 additional. This extra amount was caused by the increase in the demands for this service, and to keep up with the work it was necessary to employ extra men at various times during the year. This department was under the supervision of the Superintendent of Streets.

GYPSY AND BROWN-TAIL MOTHS.

During the latter part of last year the Board received several communications from the State Superintendent for suppressing the Gypsy and Brown-tail Moths. In these letters our attention was called to the fact that there existed evidences of the moths in our town. The Board appointed Harry G. Higbee as local superintendent, who with assistants commenced the work of extermination. \$189.69 was paid on this work. There being no special appropriation, this amount was drawn from the Incidental account. At the town meeting Jan. 31, 1906, an appropriation of \$1,200 was made, and it was voted to place this work in charge of our local board of Park Commissioners.

STONY BROOK.

In response to a petition from the inhabitants of the Clarendon Hills District, asking for an appropriation for the purpose of cleaning and dredging Stony Brook, the Board placed an article in the warrant at the Jan. 31, 1906, town meeting. Upon the motion of one of the petitioners, action was deferred until the next appropriation meeting.

SEWER DEPARTMENT.

The Selectmen reappointed Mr. Clarence G. Norris as Town Engineer at a salary of \$1,500. All work in this department, as well as all engineering work in the Highway department, has been under his supervision. \$30,000 of sewerage bonds were issued to pay for the extension of our sewerage system. Most of the work being in the Clarendon Hills and Holmfield Districts. We have also made the necessary takings for the extension of the system in

the Sunnyside District. A detailed report of work of this department during the year will be found in the Engineers' report.

FIRE DEPARTMENT.

The Selectmen appointed as Engineers of the Fire Department John H. Wetherbee, John C. McDougald and Frank Kunkel. This board organized and John H. Wetherbee was re-elected Chief. The department has done most efficient and satisfactory work. The list of fires and report of the Engineers will be found on another page.

FIRE HYDRANT SERVICE.

The number of hydrants now furnished the town is 133, no additional ones having been voted this year. The town paid for this service \$5,725 for the year, this amount being taken as voted by the town from money received for Corporation and National Bank taxes. The ten-year contract with the Hyde Park Water Company for this service expired July 27, last, and as the special committee appointed by the town to consider the question of water supply have not yet reported to the town, and pending this, the Selectmen entered into an agreement with the Hyde Park Water Company for a temporary continuance of the fire hydrant service, on the same terms as stated in the contract.

GLENWOOD AVENUE AND BRIDGE.

At the town meeting Jan. 31, on recommendation of the Selectmen, it was voted to accept as a public way that part of Glenwood Avenue between Hyde Park Avenue and the Neponset River Reservation (near Glenwood Station). \$275 was appropriated for the work.

The special committee appointed by the town to consider the question of a foot bridge, crossing the river at this location, having reported favorably, the town voted to lay out a foot bridge at this point and appropriated \$3,300 to construct the bridge. The work of building the piers has commenced.

ADVISORY COMMITTEE.

Following the custom of the two previous years, the Board appointed an Advisory Committee to act with the Selectmen, Town Treasurer and the Chairmen of the following Boards, viz: Assessors, School Committee, Public Library Trustees, Board of Health, Overseers of the Poor. They were to consider our municipal obligations and make recommendation for the coming year. The report of the Committee will be found on another page.

POLICE DEPARTMENT.

The appropriation for the department was \$13,836, an increase of \$2,636 over last year; this extra amount was voted with the understanding that additional men were to be placed on the force. Daniel O'Connell and Roger J. Flaherty, Jr., were appointed. Patrolman Robert M. Sampson was promoted to the rank of sergeant at a salary of \$1,000, he was assigned to night duty at the station. The long route of the Clarendon Hills-Holmfield district was divided and made into two routes. Patrolman J. A. Cullen was assigned to day duty in the center of the town, he being the first regular week-day officer that the town has ever had. The special appropriation for alterations to the station was not expended on account of the new central fire station being undetermined. This question was settled by the town meeting January 31, when an appropriation was made for a building in a new location. The

department has been under the charge of Chief Jason W. Butters, whose detailed report will be found on another page.

STREET LIGHTING.

For street lighting the town appropriated \$11,350. Several additional electric lights were placed during the year as voted by the town. There is now a total in service:— 142 arc, 110 incandescent, 6 all night incandescent, 21 all night gas lamps. The oil lamps in use for many years in the Clarendon Hills district are to be replaced by gas lights, as voted by the town Jan. 31, 1906. Additional lights were also voted at that meeting for West Street, Frazer Street, Stoughton Avenue, Sprague Street, Readville Street, Wood Avenue and Lexington Avenue. The ten year contract with the Hyde Park Electric Light Company for the street lighting service will expire Jan. 6, 1908.

ACTIONS AT LAW.

The petition for the abolition of grade crossings at Fairmount Avenue and Bridge Street is still before the commissioners, although the matter is believed to be substantially closed. At the time of the last report, Commissioner Moulton had died, and Commissioner Flaherty was absent from the Commonwealth. The vacancy caused by Mr. Moulton's death was filled by the appointment of Hon. Boyd B. Jones, and hearings were held before the new commission, resulting in an agreement to adopt the town plan with modification suggested by our townsman, William W. Lewis, and the manner of the abolition of Bridge Street was left open. The commissioners took this matter under consideration, and finally advised that they had tentatively adopted a plan for Bridge Street, following

substantially the plan suggested by the railroad. This led to a town meeting, at which the town voted to build a new bridge across the river, and a wider street between Walnut Street and the river, and this action was promptly brought to the attention of the commission. Numerous conferences have been held between the parties in the endeavor to have the plan modified, as suggested by the town. These conferences have continued from time to time, and it is now believed that the town plan for Bridge Street will be adopted. At present plans are in the possession of the Electric Light Company (awaiting its approval), as to method of change of street near its plant, and its access to the same.

The suit of William L. Holmes against the Board of Health has been dismissed for failure to prosecute the same. That of George A. Tillson for injury said to have been received by reason of an alleged defect in Hyde Park Avenue, near Kennedy's Block, is still pending. So long a time has elapsed without any attempt on the part of the plaintiff to press the same, it is believed that the case has been practically dropped. The action of Ethel A. L. Smith, claiming damages for alleged wrongful exclusion from school during the prevalence of smallpox in the town, is still pending, and will probably await final decision of the cases of Mary D. Hammond and others against the town, which are somewhat of the same character.

At the time of the last report, the petition of the selectmen to secure a compliance by the Old Colony Street Railway Company with the terms of the original street railway location granted the Norfolk Suburban Street Railway Company, was pending before the full bench of the Supreme Judicial Court. The court decided the case in favor of the contentions of the town upon all points, and in June last a decree was entered requiring the Company

to put the portion of our streets between its tracks, and for a distance of eighteen (18) inches outside thereof, so far as included in the original location, in repair, and thereafter to keep said portion of our streets in repair, and flush with the top of its tracks. The decree further ordered that the tracks and roadbed should be reconstructed, so far as included in said original location, by the use of girder rails weighing not less than ninety (90) pounds to the yard, and by paving the part of the street within the tracks and for a distance of eighteen (18) inches outside thereof, where that construction was not already in existence. The decree further ordered that the reconstruction required by it on River Street between Everett Square and West Street, and on Hyde Park Avenue between River Street and Arlington Street, should be completed on or before October first last, and the remainder of said work should be completed within such time or times as might thereafter be determined by the Selectmen. This decree brought to an end a contention of long standing, and was of great importance to the interests of the town, covering as it did the expense of repair of a substantial portion of the highways where the tracks are laid, and also providing for the replacing of the worn-out lightweight rails with a construction and paving conforming to that required in the city of Boston.

On the thirteenth of November last, in accordance with the terms of said decree, the selectmen ordered that said reconstruction be continued on Hyde Park Avenue from the termination of the work done last year to a connection with the double tracks of said Company in Clarendon Hills Square, and on East River Street to the westerly abutment of the East River Street bridge. This work is ordered to be completed on or before June 1st of the current year. This reconstruction will be kept up from year to year,

until all of the tracks and roadbed of said Company held under its original location conform to that required by the decree.

While the commissioners appointed to apportion the cost of building the new bridge over the Weymouth Fore River, between Quincy Point and North Weymouth, have not reported, they have announced the substantial parts of their decision, and it is known that they will not make any assessment of any part of the expense of this bridge upon Hyde Park. Hearings have also been held as to the apportionment of expense of care and maintenance of Metropolitan Park reservations and boulevards, and also for the apportionment of Metropolitan sewer assessments. The commissioners appointed as to both of these matters have filed their reports, and the percentage apportioned upon this town has been decreased in both instances.

Margaret McDermott has brought suit claiming damages in the sum of four thousand (\$4,000) for an injury claimed to have been received by reason of an alleged defect in West Glenwood Avenue. Said action is still pending.

Willard J. Welch has also brought suit to recover the sum of three hundred dollars (\$300), which he claims by reason of alleged defects in proceedings of assessment and sale of property for nonpayment of taxes. This action is still pending.

Selectmen of Hyde Park.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows *in a condensed form* the action of the town on various articles which have been before it for consideration the past year.

MARCH 6, 1905. The annual meeting for choice of town officers was held in Waverly Hall.

ART. 1. To choose a moderator to preside at said meeting.
Frederick G. Katzmann, Esq., was chosen.

ART. 2. To choose a moderator and all necessary town officers for the year or term ensuing.

To vote upon the following question:—"Shall licenses be granted for the sale of intoxicating liquors in this town?"
The vote on this question to be by ballot, "Yes" or "No," in answer to said question.

The number of votes received for each person voted for at this election was as follows :

Selectmen and Surveyors of Highways			
		John G. McCarter,	668
		David W. Murray,	697
Michael J. Coleman,	68	* Charles E. Palmer,	704
William C. Deagle,	69	William D. Preston,	679
John J. Gallagher,	190	* Frank B. Rich,	955
John I. Gidney,	75	William Sanborn,	69
* James D. Grant,	718	Daniel R. Southwick,	381
* Edwin C. Jenney,	751	* Howard S. Thompson,	750
Calvin H. Lee,	543	Victor M. Weil,	360
John W. McAfee,	589		

* Declared elected.

Town Clerk.

* Henry B. Terry, 1546

Town Treasurer.

* Gideon H. Haskell, 1068

Frank S. Norton, 570

Collector of Taxes.

* Randolph P. Moseley, 1653

Overseer of the Poor, 3 years.

* George E. Haven, 1186

**Overseer of the Poor,
1 year (unexpired term).**

William U. Fairbairn, 365

* John W. McMahon, 442

James H. Newbegin, 167

Lydia A. H. Weld, 333

George E. Whiting, 312

Board of Health, 3 years.

* John A. Morgan, 1233

Assessors.

* George W. Chapman, 1019

Charles Friede, 141

Frank Greenwood, 545

Charles Haley, 737

Howard M. Hamblin, 312

* Joseph J. Houston, 792

* Charles F. Morrison, 904

James Nugent, 112

Charles E. Yeaton, 343

Auditors.

Charles Beals, 653

Andrew Cogan, 490

* William J. Downey, 871

William C. F. Rudolph, 230

* Gorham E. Stanford, 841

* Frederic C. Stone, 997

Moderator, 1 year.

* Charles G. Chick, 1283

School Committee, 3 years.

* Gilbert Balkam, 1292

* Edward S. Fellows, 1287

* Herbert T. Rich, 1268

**Trustees of the Public Library,
3 years.**

* J. Roland Corbitt, 1203

* Edward S. Hayward, 1238

* Henry B. Miner, 1222

Park Commissioner, 3 years.

* Stillman E. Newell, 1260

Tree Warden

* Edwin J. Chandler, 1246

Constables.

* Jason W. Butters, 1043

Charles A. Clark, 734

* James A. Cullen, 1106

* Robert E. Grant, 1310

* William W. Scott, 1208

* William Wragg, 1158

* Declared elected.

"Shall licenses be granted for the sale of intoxicating liquors in this town?" Yes 633; No 1158.

The following were chosen by *viva voce* vote to the office set against their names:

Fence Viewers and Field Drivers: Bartholomew B. Kivlin, Henry V. Harwood, George H. Foster.

Pound Keeper: Bartholomew B. Kivlin.

MARCH 29, 1905. A town meeting was held in Waverly Hall, when the following articles were acted upon :

ART. 1. To see if the town will accept the list of jurors as prepared by the selectmen and posted according to law.

List was amended and accepted.

ART. 2. To hear the report of the selectmen in regard to guide boards, and act thereon.

Report made and accepted.

ART. 3. To see what disposition the town will make of money received from dog licenses in the year 1904.

To the public library for purchase of books.

ART. 4. To see if the town will appropriate the money now in the hands of the treasurer, received by him as sidewalk, street or board of health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

ART. 5. To see if the town will appropriate so much of the money to be received this year by the town treasurer for or on account of Corporation and National Bank taxes, as is necessary for the payment of the fire hydrant service of the town.

So appropriated.

ART. 6. To see if the town will authorize its collector of taxes to use all means of collecting the taxes which a town treasurer when appointed a collector, may use.

So authorized.

ART. 7. To see if the town will authorize its treasurer, with the approval of the selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

ART. 8. To see what compensation the town will vote to pay for collecting its taxes and other assessments levied the current municipal year.

\$1500. (Same as last year.)

ART. 9. To fix the salaries of the town officers for the current municipal year.

Same as last year, viz: Selectmen, \$200 each; Assessors, \$300 each; Overseers of Poor, \$150 each; Town Clerk, \$250; Town Treasurer, \$600; Board of Health, \$100 each; Auditors, \$50 each; Cemetery Commissioners, \$50 each. Voted to pay the moderator \$50.

ART. 10. To see what compensation the town will vote to pay the secretary of the board of assessors, and for extra clerical services for the board, for the current municipal year.

\$250. (Same as last year.)

ART. 11. To fix the compensation of the engineers and the several members of the fire department for their services the current municipal year.

Same as last year, viz: Chief Engineer, \$175; Two Assistant Engineers, \$150 each; for "Permanent Men," \$700 each; "Call Men," \$100 each.

ART. 12. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1905; and what interest the town will vote to charge on taxes for the current year when the same shall be overdue.

No discount allowed. Five per cent. interest charged on overdue taxes.

ART. 13. To see if the town will appropriate two hundred dollars to Post 121, Grand Army of the Republic, for the expenses of decorating the graves of deceased soldiers.

So appropriated.

ART. 14. "To see if the town will appropriate the sum of \$150, the same to be used by Camp John Cleary, No. 37, Legion of Spanish War Veterans, for the decoration of graves of deceased soldiers and for the necessary improvements of cemetery lot and the dedication of the same."

So appropriated.

ART. 15. To see what sum of money the town will appropriate for the celebration of the fourth day of July next.

Indefinitely postponed.

ART. 16. To see if the town will authorize the selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our street lighting contract, for street lights to be placed as follows: one arc light on Summit street, near corner of Mt. Pleasant street, and two incandescent lights on Wood avenue.

So authorized.

ART. 17. To see if the town will apply any portion, or all, of the amount received, or to be hereafter received, from sewer assessments and receipts or any payments made in lieu thereof, to the payment of the interest upon the bonds or notes, or to the payment or redemption of any bonds or notes, issued by the town for the construction of our sewers.

Voted to apply the money as set forth in this article.

ART. 18. To see if the town will appoint a committee to take into consideration the erection of a municipal building, and report at a future town meeting.

Indefinitely postponed.

ART. 19. To see if the town will authorize its selectmen to purchase for the use of the town a combination ambulance and patrol wagon, and appropriate a sum not exceeding \$700 therefor.

So authorized, and \$700 appropriated therefor, the same to be taken from money to be received this year as fines in criminal cases

ART. 20. To hear the report of the committee on the "Glenwood Avenue Crossing," so called, and act thereon, and appropriate a sum not exceeding \$3,500 to carry into effect the recommendation of this committee.

This committee reported that a suitable crossing could be had at a cost to the town of not more than \$3,500. Voted to accept the report. Voted to "authorize and instruct" the selectmen to lay out and "construct a bridge over the river at or near Glenwood station," as recommended by this committee.

ART. 21. To hear the report of any outstanding committee, and act thereon.

The committee on a new "central fire station" reported in writing but made no recommendations, and this report was accepted. The committee on a "new form of municipal government for large towns" made a "majority" and a "minority" report. Voted that the "minority" report be accepted and its recommendations adopted. The committee on re-location of the Damon school house reported in writing, and the report was accepted.

ART. 22. To see if the town will reimburse General Henry B. Carrington for such taxes as have inadvertently been assessed and collected upon his salary as a retired officer of the United States Army, as authorized by an act of the present legislature.

Voted to so reimburse.

ART. 23. To see what sum of money the town will appropriate for public band concerts.

Indefinitely postponed.

ART. 24. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the current year the sum of one hundred and sixty-one thousand, one hundred and ninety-six dollars (\$161,196 00) and to appropriate same as follows:

Schools:

Salaries and fuel.....	\$44,800 00	
Incidentals.....	7,000.00	
Text books and supplies.....	3,600.00	
Evening schools.....	1,300.00	856,700 00
Highways.....		22,500.00
Collection of ashes and garbage.....		5,000 00
Street watering.....		4,500.00
Incidentals.....		13,500.00
Police.....		13,836.00

ART. 25. To see if the town will appoint a committee to take into consideration the subject of a water supply for the town; to confer with the Hyde Park Water Company with view of ascertaining the value of the plant and franchise of the company; and the terms on which the contract between the town and the water company, in relation to the hydrant service, expiring this year, may be renewed. Said committee to report in writing at a town meeting to be holden within sixty days from the date hereof.

The moderator appointed Messrs. John Johnston, Stephen Murphy, Lawson B. Bidwell, Richard W. Wright, George H. Rausch, Charles F. Jenney and Randolph P. Moseley a committee to take into consideration the subject of a water supply for the town; to confer with the Hyde Park Water Company with view of ascertaining the value of the plant and fran-

chise of the company; and the terms on which the contract between the town and the water company in relation to the hydrant service, expiring this year, may be renewed. This committee was authorized to incur any necessary expense in the performance of its duties.

ART. 26. To see what amount the town will authorize its treasurer to borrow, in anticipation of the tax to be levied the current year.

\$125,000 authorized.

ART. 27. To see if the town will instruct its treasurer to open an account to be known as a general account and to transfer thereto all unused and unappropriated balances and miscellaneous receipts as they may appear from time to time.

Indefinitely postponed.

Adjourned at 10.45 P. M.

JULY 12, 1905. A town meeting was held in Waverly Hall, when the following article were acted upon:

ART. 1. To see if the town will authorize its selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our street lighting contract, for street lights to be placed as follows: one arc light on Bradlee Street; one incandescent light on East River Street, near Winthrop Street; one incandescent light on Hyde Park Avenue near corner of Factory Street, and one incandescent light on Fairmount Avenue between Water Street and Highland Street.

The selectmen were authorized to contract for all the lights mentioned in this article.

ART. 2 To see if the town will appropriate the sum of \$1,000.00 for the drainage of Milton Street from the Dedham town line to Readville Street, and how the same shall be raised.

\$1,000 appropriated for this purpose, the same to be taken from money now in the treasury received on account of National Bank and Corporation taxes.

ART. 3. To see if the town will transfer the sum of \$97.56 from the appropriation for "street watering" to that for building Regent Street.

This transfer was made.

ART. 4. To hear the report of any outstanding committee, and act thereon.

Indefinitely postponed.

ART. 5. To see what action the town will take in regard to the purchase of land as a site for a new engine house for the use of the Fire Department, and the erection of a new engine house for said Department.

Voted to refer this matter to a committee of nine, to be appointed by the moderator, to investigate and report to the town at a future meeting. This committee was requested to secure and submit plans and estimates of cost, and to recommend a proper site for said engine house. Messrs. Frank B. Rich, Edwin C. Jeuney, Francis W. Darling, John H. Wetherbee, John C. McDougald, Frank Kunkel, Charles Haley, Robert Bleakie, and James S. Coveney were appointed as this committee.

ART. 6. To see if the town will vote to issue any bonds, notes or scrip, and fix the form, amounts, times of payment, and rates of interest thereof and thereon, for the purpose of the purchase of a site for a new engine house for the use of the Fire Department, and the erection of a new engine house for said Department, as authorized by Chapter 27 of the Revised Laws of this Commonwealth, and of any statutes in addition to or in amendment of the same.

Indefinitely postponed.

NOVEMBER 7, 1905. The annual election of State, District and County officers was held in Waverly Hall. No other business was transacted.

The polls were opened at 6 o'clock A. M., and closed at sunset.

The number of votes received for the various candidates was as follows :

For Governor :

Charles W. Bartlett, "Democratic,"	752
James F. Carey, "Socialist,"	88
William H. Carroll, "Socialist Labor,"	14
Curtis Guild, Jr., "Republican,"	1013
Willard O. Wylie, "Prohibition,"	18
Blanks,	38

For Lieutenant Governor :

Thomas E. Brennan, "Socialist Labor,"	18
*Eben S. Draper, "Republican,"	826
Patrick Mahoney, "Socialist,"	98
John H. Smith, "Prohibition,"	32
Henry M. Whitney, "Democratic,"	885
Blanks	64

For Secretary :

Charles C. Hitchcock, "Socialist,"	105
Jonathan S. Lewis, "Prohibition,"	39
Henry B. Little, "Democratic,"	474
William M. Olin, "Republican,"	1140
Moritz E. Ruther, "Socialist Labor,"	14
Blanks,	151

For Treasurer :

Christopher D. Albro, "Prohibition,"	32
David S. Brodeur, "Socialist,"	94
Arthur B. Chapin, "Republican,"	1147
Joao Claudino, "Socialist Labor,"	13
Daniel F. Doherty, "Democrat,"	491
Blanks,	146

*At the recount of the Draper and Whitney vote held before the board of registrars Eben S. Draper gained 3 votes, and Henry M. Whitney lost 3 votes, making net gain for Draper 6 votes.

For Auditor:

Patrick J. Ashe, "Democrat,"	489
Herbert B. Griffin, "Prohibition,"	41
E. O. Frederick Hanson, "Socialist Labor,"	18
Ambrose Miles, "Socialist,"	99
Henry E. Turner, "Republican,"	1111
Blanks,	165

For Attorney-General:

Allen Coffin, "Prohibition,"	52
Henry C. Hess, "Socialist Labor,"	21
John P. Leahy, "Democratic,"	517
Dana Malone, "Republican,"	1066
John Weaver Sherman, "Socialist,"	117
Blanks,	150

For Councillor—Second District:

Sidney O. Bigney, "Republican,"	1107
Guy E. Newhall, "Democratic,"	551
Blanks,	265

For Senator—First Norfolk District:

Stephen Murphey, "Democratic,"	611
Edward B. Nevin, "Republican,"	1065
William M. Packard, "Socialist,"	106
Blanks,	141

For County Commissioner—Norfolk County:

John Cavanaugh, "Democratic,"	523
John E. Merrill, "Republican,"	1150
Sumner F. Shaw, "Socialist,"	107
Blanks,	143

For Representative in General Court—3d Norfolk district:

John J. Gallagher "Socialist,"	107
John P. Rattigan, "Democratic,"	675
Samuel A. Tuttle, "Republican,"	1053
Blanks,	88

NOVEMBER 22, 1905. A town meeting was held in Waverly Hall, when the following articles were acted upon:

ART I. "To see what action the town will take con-

cerning the question of the proposed abolition of the Bridge Street grade crossing."

On motion in writing, it was voted that "it is the sense of this meeting that the crossing at Bridge Street should be abolished on the lines indicated in the so-called town plans, and the selectmen are hereby instructed to use every endeavor to secure the adoption of this plan by the honorable Commissioners having this matter in charge."

ART. 2. "To see what action the town will take in regard to the construction of a bridge over the Neponset River in line with Walnut Street, replacing the present Bridge Street bridge, and appropriate money therefor."

On motion in writing, voted that "We, the citizens of Hyde Park, in town meeting assembled, do hereby instruct the Board of Selectmen to locate and construct a new fifty foot bridge over the Neponset River, and the approaches thereto, in line with Walnut Street and to connect with the new highway contemplated for the abolishing of the so-called Bridge Street Crossing."

On motion in writing, voted that "the town treasurer is hereby authorized with the consent of the selectmen to borrow the sum of twenty-two thousand dollars to carry out the provisions of this act, the same to be paid from the tax levy in ten equal annual installments." Yes 201, no 9.

Adjourned at 8.50 P. M.

On Wednesday, January 31, 1906, a town meeting was held in Waverly Hall, when the following articles were acted upon:

ART. 1. To hear the several reports of the selectmen laying out Lexington Avenue, Massasoit Street, Fowler Street, and a portion of Glenwood Avenue, as public town ways, and to see if the town will accept and allow the laying out of any or all of said ways with the several boundaries and measurements of said ways as shown by reports, plans and profiles now on file in the town clerk's office, and appropriate money to build any or all of said streets.

Lexington Avenue, Massasoit Street and Fowler Streets were not accepted! Glenwood Avenue was accepted and \$275 appropriated to build it, the same to be taken from National Bank and Corporation taxes.

ART. 2. To hear the report of the selectmen laying out a foot way at the Glenwood Avenue crossing, so called, as a public foot way, and to see if the town will accept and allow said laying out with the boundaries and measurements of said way as shown by report, plan and profile now on file in the town clerk's office, and appropriate money to build the said foot way.

This report was accepted and \$3,300 was appropriated to build said foot way, the same to be taken from the incidental appropriation.

ART. 3. To see if the town will authorize its selectmen to contract with the Hyde Park Electric Light Co. or the Dedham & Hyde Park Gas and Electric Light Co. for street lights to be placed as follows: one arc light on West Street, and for incandescent or gas lights as follows: one on Frazer Street, two on Stoughton Avenue, twelve on Huntington Avenue and adjacent territory, four on Sprague Street (on bridge), one on Readville Street (near the chapel), four on Wood Avenue, and two on Lexington avenue.

The following lights were authorized: one arc light on West Street, one incandescent light on Frazer Street, two incandescent lights on Stoughton Avenue, twelve gas lights on Huntington Avenue and adjacent territory, four incandescent or gas lights on Sprague Street bridge, one incandescent or gas light on Readville Street, four incandescent lights on Wood Avenue.

ART. 4. To appropriate money "for suppressing the Gypsy and Brown Tail Moths."

\$1.200 appropriated therefor, the same to be taken from the National Bank and Corporation tax.

ART. 5. To "designate or appoint" "a public officer or board" to act for the town, under the provisions of Section 4

of Chapter 381 of the Acts of the Legislature for the year 1905, the same being an Act for Suppressing the Gypsy and Brown Tail Moths.

The Board of Park Commissioners was designated to act for the town.

ART. 6. To hear the report of any outstanding committee, and act thereon.

The committee on by-laws offered its report, but it was requested to report in print at a future meeting. The report of the committee on a new form of municipal government was presented and received, as was also the report of the committee on a new fire engine house.

ART. 7. "To see what action the town will take in regard to the erection of a new engine house for the use of the fire department."

Voted to build a new fire engine house on a lot of land to be selected by the town, and Messrs. Francis W. Darling, John H. Wetterlee, David Perkins, Stephen Murphy, Frederick N. Tirrell, James S. Coveney and Edward S. Fellows were appointed a committee to carry this vote into effect.

ART. 8. "To see what action the town will take in regard to the purchase or taking by right of eminent domain of land as a site for a new engine house for the use of the fire department, within the following boundaries, to wit: Northerly on West Street; Easterly on the New England Railroad; Southerly on Bridge, Walnut and Green Streets; and Westerly on the Providence Division of the New York and New Haven Railroad Company."

Voted to take by eminent domain the lot on southeast corner of Harvard Avenue and Winthrop Street.

ART. 9. "To see if the town will vote to issue any bonds, notes or scrip, and fix the form, amount, time of payment, and rates of interest thereof and thereon, for the

purpose of the purchase, or taking by right of eminent domain, of a site for a new engine house for the use of the fire department, and the erection of a new engine house for said department, as authorized by Chapter 27 of the Revised Laws of this Commonwealth, and of any statutes in addition to or in amendment of the same."

Voted to issue bonds to the amount of \$32,500. (at not more than four per cent interest,) payable by installments annually for twenty years, to raise money for this purpose.

ART. 10. "To see if the town will appoint a committee to select a suitable site or sites for a new schoolhouse in place of the present Damon School, and secure options, if possible, on the same: said committee to report at the next town meeting."

Messrs. J. Roland Corthell, Henry S. Buntan, Alonzo W. Dunbar, Alvin D. Holmes and William D. Preston, were appointed a committee for this purpose.

ART. 11. "To see if the town will appropriate a sum not exceeding eight hundred (\$800) dollars for school textbooks and supplies, and how the same shall be raised."

\$262 from money in the treasury received from the Commonwealth for tuition of children, and \$300 from School incidentals, were appropriated for this purpose.

ART. 12. "To make an additional appropriation for the collection of ashes and garbage.

\$750 from National Bank and Corporation tax appropriated for this purpose.

ART. 13. To make an additional appropriation for Regent Street.

\$243.84 from National Bank and Corporation tax appropriated therefor.

ART. 14. To make an additional appropriation for incidentals.

Indefinitely postponed.

ART. 15. To see if the town will, by transfer, make any or all of the following changes in existing appropriations: \$66.54 from the appropriation for Neponset Avenue drain to the appropriation for the Westminster Street drain; \$36.87 from the appropriation for Waterloo Street to the appropriation for Safford Street; \$127.46 from Regent Street appropriation to the appropriation for highways; and \$90.02 from the appropriation for Wachusett Street to the appropriation for street watering.

All said transfers were made.

ART. 16. "To see if the town will appropriate money for the purchase of land or interest therein, at or near the corner of Gordon avenue and Child Street, to be used as a part of said streets or either of them, and how the same shall be raised.

\$100 from fire hydrant service for 1904, appropriated therefor.

ART. 17. To see if the town will vote to transfer unexpended balances from special appropriations to highways.

\$101.68 so transferred.

ART. 18. To see if the town will appropriate the sum of \$150 received from the New York, New Haven & Hartford Railroad Company the present municipal year to the use of the highway department.

So appropriated.

ART. 19. To see if the town will appropriate a sum not exceeding three thousand dollars for the purpose of dredging and cleaning out Stony Brook in the Clarendon Hills section, from a point near Metropolitan Avenue to the Boston line.

Voted to refer to the next special town meeting.

ART. 20. To appropriate money for the payment of bonds and notes maturing and for interest due for the current municipal year.

\$9,588.42 appropriated therefor, the same to be taken from money in the treasury not otherwise appropriated.

ART. 21. "To see what action the town will take in the proposed annexation of a portion of Dedham (Readville district) to Hyde Park, in accordance with bill now pending in Legislature."

Voted that the selectmen be requested to advocate by all lawful and proper means "the granting of the petition now pending before the General Court for the annexation of a part of Dedham to the town of Hyde Park, and that they be authorized to employ counsel and incur expense for this purpose."

ART. 22. "To see if the town will instruct the selectmen to apply in the name of the town to the General Court for a city charter, in concurrence with a petition now on file for such charter.

Indefinitely postponed.

Adjourned at 10.44 P. M.

ACTIONS AT LAW.

[Continued from Page 15.]

The cases of Mary D. Hammond and J. Forest Hammond v. Hyde Park, two actions by minors, each claiming damages in the sum of \$10,000, arising from the action of the School Committee at the time of the small-pox epidemic in 1901-2, which cases have been fully described in preceding town reports, were tried before a jury for the third time, in January of 1905. At the conclusion of the evidence, the Court stated to counsel that before final judgment these cases would, in all probability, be taken by one party or the other, to the Supreme Judicial Court for the definite determination of the rights of the parties, and that the question of law might well be raised at that stage of the case. It was thereupon stipulated between the parties for the purpose of raising this question of law, that there was no evidence of bad faith on the part of the School Committee, and no claim that the School Committee did not act in good faith throughout the premises, and that in case the town was liable, on the evidence disclosed at the trial, damages might be assessed for the plaintiff Mary D. Hammond in the sum of \$150, and for the plaintiff J. Forest Hammond in the sum of \$50. On the other hand, if the School Committee acted within its statutory powers, judgment is to be entered for the town. The question raised is one of public interest. Counsel have not yet been able to agree upon all the details of the report to the Supreme Judicial Court, but efforts are being made toward that end.

The case of Joseph J. Dunn v. Hyde Park, was a suit for \$5,000 damages for personal injuries caused by an alleged defect in the highway, Westminster Street near Greenwood Square, in which case a motion by the plaintiff was made to restore the case to the trial list after its dismissal in Dec. 1904, as more fully described in last year's town report. The motion has not been allowed, and the case stands dismissed, and is thus disposed of in favor of the town.

REPORT OF THE ADVISORY COMMITTEE APPOINTED BY THE SELECTMEN.

TO THE CITIZENS OF HYDE PARK:—

At a meeting of the Board of Selectmen, held December 11, 1905, an Advisory Committee was appointed with powers and duties similar to those conferred upon its predecessors. The Committee consisted of the five members of the Board of Selectmen, the Town Treasurer, the Chairmen of the following Boards, viz: School Committee, Public Library Trustees, Board of Health, Overseers of the Poor, Auditors, and Board of Assessors, together with twenty-five citizens. The full membership was as follows:—

FRANK B. RICH
EDWIN C. JENNEY
HOWARD S. THOMPSON
CHARLES E. PALMER
JAMES D. GRANT
GIDEON H. HASKELL
WILBUR H. POWERS
HENRY B. MINER
CHARLES F. STACK
JOHN W. McMAHON
CHARLES F. MORRISON
WILLIAM D. PRESTON
GEORGE JEFFERS
LOEA P. HOWARD
DAVID W. MURRAY
THOMAS J. McDONOUGH
FRANCIS W. DARLING
W. F. McINTYRE

P. J. FITZGERALD
SAMUEL A. TUTTLE
STEPHEN MURPHY
L. P. WINCHENBAUGH
HARRY E. ASTLEY
JOHN A. KEEFE
E. L. BARRETT
WILLIAM E. NORWOOD
ALBERT DAVENPORT
J. R. CORTHELL
ARTHUR T. BYRNES
CHARLES F. SPEAR
A. L. LOVEJOY
CHARLES STURTEVANT
JOHN O'CONNELL
E. E. BARTLETT
HARRY J. WEST
FRED C. STONE

The first meeting of the Committee was held in the Selectmen's room on Wednesday evening, December 20th. The Committee organized by the choice of Francis W. Darling for Chairman and William E. Norwood for Secretary.

Within a few days the Chairman announced the appointment of the various sub-committees, and consideration of the appropriations for all departments for the ensuing year was begun. The Committee has held many meetings and has diligently investigated the needs of the various departments of the town government and submit the following recommendations.

We recommend the appropriation, for debt and interest requirements, of \$24,962.81.

In the matter of salaries, we are of the opinion that two of the boards of our town government are not adequately remunerated for the labor and responsibility put upon them, nor does their compensation compare favorably with that given by the adjacent towns, where the duties are less burdensome. We therefore recommend that the salaries of the Assessors be increased from three hundred dollars each to five hundred dollars each, and the salaries of the Auditors from fifty to one hundred each. The salaries voted last year aggregated \$5,510.00. If our recommendations are approved, the amount required this year will be \$6,260.00.

We recommend the usual appropriation of \$200.00 for the Grand Army Post.

No money has thus far been appropriated to be taken from the tax levy of next year. Last year we were obliged to raise \$1,000.00 for money appropriated and expended during the previous year. We believe the practice is one which should be discouraged and condemned, except in case of urgent necessity.

We recommend the appropriation of \$300.00, the same as last year, to be expended for the trimming and removal of trees by the Tree Warden, under the direction of the Board of Selectmen.

We now submit our recommendations as to the requirements of the various boards having to do with the expenditure of money.

First, the Board of Selectmen. The amounts voted last year, were : —

Highways.....	\$22,500.00
Incidentals.....	10,000.00
Police.....	13,836.00
Fire Department.....	12,700.00
Street Lighting	11,350.00
Street Watering.....	4,500.00
Garbage and Ashes.....	5,000.00
	<hr/>
	\$79,886.00

We recommend the appropriation of the following amounts for these purposes the present year : —

Highways.....	\$20,000.00
Incidentals.....	10,000.00
Police.....	15,000.00
Fire Department.....	12,600.00
Street Lighting.....	12,350.00
Street Watering.....	4,500.00
Garbage and Ashes.....	5,000.00
	<hr/>
	\$79,450.00

We also recommend that amounts received for excise and franchise taxes and betterments be appropriated for use on the highways, as has been done during the past two years.

SCHOOL DEPARTMENT.

We recommend for this department an appropriation of \$57,600.00 as against an appropriation last year of

\$56,700.00. In our estimate for the year we have provided \$500.00 for manual training. This committee also voted that in approving the sum of \$2,200.00 for a Superintendent, said sum should include the cost of a Secretary for the School Committee.

For the Board of Health, we recommend an appropriation of \$1,675.00.

For the Overseers of the Poor, we recommend an appropriation of \$8,000.00.

For the Public Library, we recommend an appropriation of \$4,000.00.

We recommend that the sum of \$1,500.00 be appropriated for necessary work in the extermination of the gypsy and brown-tail moths, to be expended under the direction of the Park Commission. It is impossible to estimate very closely the amount needed for this work. Some money has been already expended, and the work is progressing favorably under the personal supervision of Superintendent Higbee. We believe, however, that the amount recommended above will carry the work along effectively until fall. If it is then found necessary, an additional appropriation can be made.

We also advise the appropriation of \$1,000.00 for the purpose of dredging and cleaning out Stony Brook in the Clarendon Hills Section.

A comparative statement of the amounts appropriated last year and those advised by us for the coming year, is as follows :

	1905	1906
Selectmen	\$79,886.00	\$79,450.00
Schools	56,700.00	57,600.00
Poor	7,800.00	8,000.00
Health	2,150.00	1,675.00
Library	4,000.00	4,000.00
Bonds, Notes and Interest	24,400.00	24,962.81

Salaries	5,510.00	6,260.00
Grand Army	200.00	200.00
Voted in previous year to pay from next tax levy	1,000.00	
Trees	300.00	300.00
Gypsy Moths		1,500.00
Stony Brook		1,000.00
	<hr/>	<hr/>
	\$181,946.00	\$184,947.81

In the recommendation for the Board of Selectmen, we realize that the incoming Board will find practically no available balances on hand at the beginning of the fiscal year and our recommendation for highway work is \$2,500.00 less than the sum appropriated last year. We firmly believe, however, that this department can be maintained on the amount advised without the town's interests suffering thereby. We also realize that the new Board will be confronted with a deficit of between \$1,500.00 and \$2,500.00 in the Incidental account, in the nature of bills already contracted and unpaid. We think the sum of \$10,000.00, as recommended, is ample for the current expenditures during the coming year, and that if it be found impossible to pay these and also the unpaid accounts referred to from this amount, additional money can be asked for later in the year. We recommend that such deficiency, if it occur, be provided for at such time by transfer from the Corporation and National Bank Tax, or from some other unexpended balance, thus not affecting the year's tax levy.

In the Street Watering Department, the incoming Board will also find a deficiency, instead of a balance as has usually been the case. We believe, however, that the department can be run satisfactorily on the amount advised, as the deficit is small.

We recommend that there be inserted in the warrant for the next appropriation meeting, an article for the selection

of a special committee to consider the inauguration of a perfected system of accounting and the appointment of a permanent town accountant, who shall have authority over the accounts of all departments. Our system of town book-keeping is primitive and inadequate, and we make the above recommendation in agreement with the report of our sub-committee and in response to the urgent demand of the Board of Auditors.

We have also recommended to the Overseers of the Poor that the names of town beneficiaries be omitted from the Town Report. This is in accordance with the custom in many other towns, and we believe the experiment may well be tried here for one year at least.

We herewith submit as a part of our report certain information and suggestions made by our sub-committees on Selectmen's and Assessors' departments, for which we ask the careful consideration of all citizens :

Mr. Chairman and Gentlemen of the Advisory Board:

The committee appointed to consider the affairs of the Board of Selectmen, submit the following report: Before taking up the matter of appropriations, we desire to present to the advisory board certain statements concerning the administration of affairs, and our recommendations regarding the same. In making these recommendations we shall consider one important matter, not alone concerning the immediate affairs of the Selectmen's department, but covering the conditions existing in the other departments as well, believing that recommendations of this kind are within the scope of this committee, and should emanate from this department. We refer to the system of

ACCOUNTING.

Approving bills and accounting now in use in the different departments. We believe the system to be faulty in the

extreme, and entirely inadequate to our wants and needs, if Hyde Park is to be kept in the front rank of towns, as it deserves. In criticising this system or lack of system, we wish to state that we intend no reflection upon any officer or board of officers of the town, either past or present. It is simply a system which has existed since the town was incorporated, but which we have long since outgrown, and which should be immediately remedied. In nearly every successful business house or corporation, it is considered essential to have a uniform and up-to-date system of accounting and book-keeping in all its departments. If such a system does not already exist, the services of an expert who makes a business of such matters are generally secured to inaugurate one. No proper system exists in the town of Hyde Park, the second town in the Commonwealth, spending upwards of a quarter of a million dollars per year, and constantly increasing its expenditures. The system in use today has prevailed since the town was started. The different Boards of Selectmen have long been conscious of its faults and have been willing and anxious to remedy them were it in their power. Your Auditors have several times recommended a change, but thus far their recommendations have been unheeded. The possibility or probability of approving and paying bills twice, as has several times happened, the lack of a ledger showing the conditions of the town's finances, indirect and juggled appropriations, the absence of any record of correspondence in the different departments, are only a few of the glaring faults of this lack of system. The conditions are well known to those who are at all familiar with the town's affairs. We believe that to continue the present conditions is dangerous and directly contrary to proper business methods. We therefore recommend that the town appoint a committee to consider the matter and to recommend such steps as

may be necessary to bring about the inauguration of an up-to-date system of accounting and the appointment of a permanent accountant, who shall have authority over the accounts of all departments.

HIGHWAY DEPARTMENT.

The cost of doing the work in this department has for some years furnished a fertile field for criticism. The expenses have increased during the past ten years about 70 per cent. There are citizens of this town who from age or other causes cannot readily obtain employment and who have faithfully served the town in past years. It has been the custom to employ these men in the street department. We believe they can be judiciously employed in the regular street work, but we do not believe that the street department should be made an asylum for able-bodied men, who refuse work elsewhere in order to get temporary but more desirable work in this department, nor should it be used to further personal political ends. The burden of the high cost of running this department bears upon all, large and small taxpayers, home-owners and rent payers. We recommend that all new construction, extraordinary repairs, drainage questions and similar propositions and matters involving an expenditure of over \$500 be offered for bids to our local contractors, and we believe that in this way the town would be much benefitted. This is illustrated the present year in the building of Regent Street, for which \$2,700 was appropriated, this amount being considered sufficient by our engineer. A local contractor offered to build it inside the appropriation, but did not secure the contract. This street built by the town highway department will cost about \$1,000 in excess of the appropriation. We believe also that when a specific appropriation is in-

sufficient for any work, that the town should be asked for additional funds, and that expenses in connection with it should not be put into the regular highway department, or lost in the maze of incidentals, and that the actual total costs of streets laid out should appear on the town's books in order that the town may not be the loser in the assessing of betterments. We also believe that a policy should be adopted of building a certain amount of streets in a permanent manner every year, preference to be given to our main highways. Central, Harvard and Dana Avenues were built in this manner several years ago, Readville Street in 1904, and the good results are plainly apparent. If such a policy were adopted a marked change would be noticed in the appearance of our town and lessened cost of repairs would result.

DIRECT APPROPRIATIONS.

Your committee are of the opinion that it would be to the advantage of the town and its citizens, if direct and definite appropriations were made in all the departments, and that receipts, outside the tax levy, as well as any balance existing at the end of the fiscal year, should go to a general fund account, from which we could make definite appropriations, from time to time, as occasion required. In making this recommendation, we are aware that certain outside receipts must by statute go in certain directions. By this method, if a department was voted twenty-five to fifty thousand dollars, that amount and that only would be available for its use. If a policy of this kind were adopted we would have a system plainly understood by the voters, upon which they could act intelligently, and which for purposes of comparison from year to year would be of value. By the present method our voters assemble in

appropriation meeting, resolved upon a one night stand. Matters of moment are rushed through without deliberation, only a small minority of those assembled knowing anything of the matter upon which they are acting. An unknown amount of corporation and bank tax is transferred to pay for an equally unknown amount of fire hydrant service; betterments, excise and franchise tax, etc, to highways; dog taxes, to public library; unknown amounts of fines to whichever department can first grab them. Meanwhile other balances are lost sight of, and we receive but little, if any, present benefit from them. The average citizen has but little opportunity or inclination to inform himself of balances and outside amounts available, and while thinking he is voting to cut expenses, may unknowingly be voting to increase them. We believe that definite appropriations would be fairer, simpler and better, and could be acted upon much more intelligently by our citizens in appropriation meeting assembled,

REPORT TO THE ADVISORY BOARD UPON ASSESSOR'S
DEPARTMENT.

MR. CHAIRMAN :

Your committee respectfully present the following report: The total area of this town is 2,800 acres, 745 acres of which is taken up by parks and streets. There are 2447 buildings. The population at present is about 15,500.

The total assessed polls number 3,600. The total number registered voters is 2826. The total valuation in the

Year 1905.		Year 1904.	
Buildings,	\$6,649,150	Buildings,	\$6,564,200
Land,	4,601,120	Land,	4,495,425
<hr/>		<hr/>	
Total	\$11,250,270	Total	\$11,059,625
Personal estate,	1,632,000	Personal estate,	1,594,600
<hr/>		<hr/>	
Total valuation,	\$12,882,270	Total valuation,	\$12,654,225

being an increased valuation over 1904 of \$228,045.

The tax levy of 1905 as compared with 1904 is as follows :

	1905.	1904.
Town tax, including overlay,	\$161,912.96	\$175,573.93
State tax,	14,720.00	9,200.00
County tax,	11,856.07	8,340.31
Metropolitan Sewer tax,	15,556.83	13,472.36
" Park tax,	5,476.18	5,267.70
" Water tax,	3,256.77	3,091.24
Grade Crossing,	10,843.32	11,068.55
	<hr/>	<hr/>
	\$223,622.13	\$226,014.09

The tax levy of 1905 was less than 1904 by \$2,391.96. The tax rate of 1903 was \$20.40. The tax rate of 1904 was 17.30. The tax rate of 1905 was 16.80. We note this year's tax rate showing the good results of the labor of the advisory board.

In 1886, twenty years ago, the condition of this town was as follows :

Population,	8,376	to-day,	15,500
Polls,	2,098	"	3,600
Houses,	1,468	"	2,447
Total valuation	\$5,627,688	"	\$12,882,270
Tax levy,	91,425.16	"	223,622.13

SALARIES OF TOWN OFFICIALS.

Selectmen,	\$100.00	To-day, \$200.00
Overseers of poor,	50.00	" 150.00
Auditors,	25.00	" 50.00
Board of health,	50.00	" 100.00
Treasurer,	350.00	" 600.00
Town clerk,	200.00	" 250.00
Assessors,	300.00	" 300 00

Your attention is called to these figures, to show that in the assessors' department, although their labors have vastly increased, there is no corresponding increase in their salary. In every other board there has been a substantial increase.

SALARIES OF ASSESSORS IN OTHER CITIES AND TOWNS.

Cambridge, 3 assessors at \$2,000 each,	\$6,000	
11 assistants at \$175 each,	1,925	\$7,925.00
Somerville, 5 assessors, \$2,000, other four \$800 each,		5,200.00
Brookline, 3 assessors, at \$1,500 each,		4,500.00
Quincy, 3 assessors, chairman \$800, other two \$600 each,		2,000 00
Woburn, chairman \$700, clerk \$700, one other \$300,		1,700.00
Malden, 3 assessors, chairman \$600, other two \$500 each,		1,600 00
Milton, 3 assessors, chairman, \$500, other two \$400 each,		1,300.00
Dedham, 3 assessors, at \$500 each,		1,500.00
Hyde Park, 3 assessors at \$300 each,		900.00

SURVEY OF THE TOWN.

There should be a complete survey by a competent engineer, showing the actual area of the entire town and the area of each separate estate. A complete set of plans for the use of town officials is essential.

There should be a new and complete re-assessment of the town under the so-called "Block system," namely, the town be divided into five sections: Section 1st, Clarendon Hills; Sec. 2d, Sunnyside; Sec. 3d, Rugby; Sec. 4th, Fairmount; Sec. 5th, Readville. These five sections be divided into blocks. Each block to be numbered.

This system was first devised by Mr. Thomas Hills, Chairman Board of Assessors city of Boston, for many years, and has since been adopted generally by cities and towns throughout the United States. Under this system no lot of land or buildings thereon can possibly escape assessment.

Each section to be carefully surveyed, and when divided into streets and house lots, the area of each sub-division to be carefully computed, thereby no land will be overlooked, when the assessors complete their work.

The urgent necessity for the early completion of this survey has been recently demonstrated, when the town engineer, by order of the Board of Selectmen, surveying but a very small section of the town, namely 17 acres, found no less than 16,293 ft. that had not been assessed, and 1,657 ft. over assessment, leaving an net area of 14,636 ft. that had escaped assessment, worth at a fair market value \$16,000—a loss to the town of \$208.80 per year.

If this ratio would continue throughout the town, the annual loss of taxation would amount to \$25,000. The estimate of the expense of the survey by the town engineer is \$5,000; this would include a complete set of plans of the entire town.

This committee has gone into the question of values and assessments only in a general way, and have not entered to any great extent into the detailed workings of the department.

So far as we have made examination of the street books and office work, we find that the board are entitled to great credit for the work done, which has been carried on under great difficulties during the past year.

Assessor George W. Chapman, having been ill for several months, and finally passing away, leaving the

entire work of the year to fall on the two remaining members of the board.

We are of the opinion that the residential property is taxed to its full value, and in some isolated cases in excess of a fair market value.

This condition of affairs may be easily remedied by a closer examination by our next year's board.

The assessment values of the business district are generally well up to a fair market value.

In the assessment of manufacturing property, great care must be used not to make it proscriptive, as their success or failure greatly effect the welfare of the town.

In our examination of the assessors' department, and a close inspection of their street and office books and accounts, we have received the cheerful co-operation of the board of assessors.

Respectfully submitted,

STEPHEN MURPHY, Ch.
WILLIAM F. McINTYRE,
EDWIN C. JENNEY,
Committee on Assessors' Department.

In the matter of State and County taxes, and Metropolitan and Grade Crossing assessments, we have been unable to secure accurate information, but we believe that the charges for all of these purposes will be somewhat less than last year, amounting in the aggregate to several thousand dollars.

The increase in the town's assessed valuation will probably be in the neighborhood of \$250,000.00.

The present Advisory Board was not appointed until late in December. This has given us but little over a month in which to consider many important matters, providing our conclusions were to be printed in the Town Report. We recommend that the next Board of Selectmen appoint the Committee, certainly not later than November, in order that it may have ample time for its labors.

We wish, in closing, to commend all town officials for their uniform courtesy and assistance in the prosecution of our work, and to state that every recommendation made by us has met with the approval of the Boards interested and been adopted unanimously by this Committee.

For the Citizens' Advisory Committee,

FRANCIS W. DARLING,

Chairman.

WILLIAM E. NORWOOD, Clerk.

Married in January, 6; February, 11; March, 9; April, 13; May, 7; June, 33; July, 14; August, 7; September, 15; October, 20; November, 13; December, 9.

The following are the names and residences of the parties whose marriages were solemnized in 1905, certificates of which have been filed in this office:

- Jan. 3. Leon E. Lyons and Mary E. McGrath both of Hyde Park.
 7. Walter W. Knight and Eva G. Veazie both of Hyde Park.
 10. Alexander F. Stewart of Boston and Lizzie F. M. Brown of Hyde Park.
 11. Henry U. Holzer of Hyde Park and Emma G. Bandiera of Boston.
 19. Patrick F. McCarthy and Margaret A. Hayes both of Hyde Park.

- Jan. 28. Arnulf Schoyen of Hyde Park and Eva H. League of Norwood.
- Feb. 4. Carl J. Tunberg and Maria J. Anderson both of Boston.
6. Robert Grieve and Sarah B. Wilkinson both of Hyde Park.
7. Frederick O. Carter and Sarah Ella Davenport both of Hyde Park.
8. Ralph E. Towner and Minnie A. Stoddard both of Hyde Park.
14. Isaac H. James of West New Portland, Me. and Emeline N. Goodwin of Hyde Park.
14. John R. Bates of Hyde Park and Claire M. Doane of Brookline.
18. Roscoe L. Mills of Boston and Annie Nelson of Hyde Park.
21. Alexander S. Hyndewicki and Konstancia A. Grabowska, both of Hyde Park.
22. Henning G. Peterson of Hyde Park and Matilda G. Pearson of Boston.
25. Thomas F. Grady of Dedham and Anastasia McDermott of Hyde Park.
28. Ivory H. Fenderson of Salem, Me., and Minnie M. Hughes of Hyde Park.
- March 1. Albert L. Tibbatts of Hyde Park and Ellen J. A. Fitzgerald of Boston.
1. Thomas Flaherty and Bridget Curran both of Hyde Park.
1. John W. Bosselman of Hyde Park and Florence May Matheson of Cambridge.
4. Perry A. Davidson and Margaret C. Duggan both of Hyde Park.
6. James Connolly of Hyde Park and Dora Rooney of Roxbury.
7. James M. Curley of Hyde Park and Margaret F. Kelleher of Canton.
8. Charles H. Puffer of Hyde Park and Cornelia Williams of North Adams.
26. John Linfield of Boston and Annie Harbin of Hyde Park.
30. Frederick G. Suar and Maud E. Goddard both of Hyde Park.
- April 4. Philip L. Crooker and Bertha C. Andrews both of Hyde Park.
7. Frank H. Gallup and Mabel I. Jeffers both of Hyde Park.
11. Charles A. Fiske and Winifred F. Hues's both of Hyde Park.
12. Arthur W. Crabtree of Providence, R. I., and Ineze A. Holway of Hyde Park.
15. David Armstrong and Inez M. Greene both of Hyde Park.
17. Henry E. Jenkins of Hyde Park and Annie E. McGarry of Boston.
18. John T. Fairbairn of Hyde Park and Annie E. Hart of Salem.
18. Joseph G. Brewster of Hyde Park and Marion F. Ball of Medford.

- April 24. Harry C. Bonnell of Hyde Park and Helen L. Creed of Brookline.
26. Edward J. Welsh and Helen F. Christy both of Hyde Park.
26. Cyrus S. Bates and Lulu M. Williams both of Hyde Park.
26. Arthur B. Wheeler of Hyde Park and Florence Worth of Melrose.
27. Patrick F. McCarthy and Bridget A. Hayes both of Hyde Park.
- May 1. James L. Barney of Dorchester and Helen Balkam of Hyde Park.
14. John A. Gaffey and Hannah A. Finn both of Hyde Park.
14. Vinceniy Pomagzak and Frances Matulinski both of Hyde Park.
19. Howard C. McKechnie and Annie M. Skillings both of Hyde Park.
24. Joseph White and Beattie E. Littlefield both of Hyde Park.
24. Henry B. Macomber and Emma C. Brown both of Hyde Park.
25. Bartholomew Malloy and Bridget Ryan both of Hyde Park.
- June 1. Howard B. Gorham of Providence, R. I. and Helen A. Whittemore of Boston.
4. Daniel C. Fisher of Hyde Park and Catherine E. Fisher of Milton.
5. Albert L. Plöner and Theresa B. Warnock both of Hyde Park.
7. Stephen Endey and Lillian F. Rossignoli both of Hyde Park.
7. William G. Nunn and Ethel F. House both of Hyde Park.
7. Kenneth R. Elwell of Hyde Park and Mina G. Bunker of Cottage City.
10. John D. Robertson and Alice F. Norris both of Hyde Park.
11. William Brodeski and Martha Lavzona both of Hyde Park.
11. Francis J. McDermott of Hyde Park and Margaret E. Moran of Boston.
12. Andrew J. Coyle of Hyde Park and Nellie Tarpy of Boston.
14. Herbert C. Timson and Verona H. Sturtevant both of Hyde Park.
14. Daniel H. Morrison of Hyde Park and Louise E. Rieger of Boston.
14. John J. Connolly and Mary Conley both of Hyde Park.
15. Edwin N. Neill and Helen L. Burgess both of Hyde Park.
17. John Bernhardsen of Hyde Park and Jessie A. Smith of Gloucester.
20. Graham C. Woodruff of Rahway, N. J. and Gertrude B. Miller of Hyde Park.

- June 20. Frank L. King of Hyde Park and Edith L. Griffin of Boston.
 20. David A. McDonald and Margaret A. Earle both of Hyde Park.
 21. Thomas E. Cogan of Hyde Park and Ella C. Cook of Milton.
 21. Michael J. Coleman and Nora E. Jordan both of Hyde Park.
 24. Bengt P. B. Wallin and Maria A. Johnson both of Hyde Park.
 24. John A. Wilkstrom and Anna V. Karlberg both of Hyde Park.
 24. Fred Cross of Hyde Park and Carrie M. Davis of Leominster.
 26. Charles M. Butters of Somerville and Adelaide Winchenbaugh of Hyde Park.
 28. Harry S. Litchfield of Hyde Park and Mary E. Boyden of Norwood.
 28. Warren G. Crooker of Hyde Park and Nellie C. Griffin of Westwood.
 28. Charles D. Wallace and Emma L. Wallace both of Hyde Park.
 28. John Carrigan of Hyde Park and Julia Dacey of Medford.
 28. Paul V. Jewett of Somerville and Margaret L. Thomas of Boston.
 28. John L. Chittick and Bernice E. Holmes both of Hyde Park.
 28. Archie H. Bellows of Hyde Park and Edith M. Bugbee of Norfolk Downs, Quincy.
 28. Abram F. Chandler of Hyde Park and Margaret A. Lynch of Boston.
 28. Louis A. Conn of Hyde Park and Annie Sullivan of Boston.
- July 1. Anders E. Lund and Julia M. Wyrwas both of Hyde Park.
 3. Arthur Schiller and Theresa Marley both of Hyde Park.
 3. George S. B. Stirling and Jessie T. K. Blair both of Boston.
 6. James Marshall and Pauline M. Starke both of Hyde Park.
 6. Theodore A. Vautrin Jr. of Dedham and Alice Carpenter of Hyde Park.
 12. Angus McDonald of Hyde Park and Margaret V. Snow of Dedham.
 12. John H. Marks and Rose McNulty both of Hyde Park.
 13. George A. Tillson and Annie M. Corbett both of Hyde Park.
 13. Richard P. Osgood of Methuen and Bessie H. Hanson of Hyde Park.
 17. Henry C. Smith and Agnes T. Flatley both of Hyde Park.
 25. Frank A. Friedman of Dedham and Myrtle F. Davenport of Hyde Park.
 27. Edwin C. MacNeal and Catherine Matthews both of Hyde Park.
 29. Everett T. Snell and Hannah M. Chowen both of Hyde Park.

- July 30. Franklin J. Smith of Boston and Ida J. Dunkerley of Hyde Park.
- Aug. 5. John Walentakewicz and Mary Lipana both of Hyde Park.
 9. Clarence S. Towner and Lilian Martin both of Hyde Park.
 22. John Connelly of Boston and Katherine Moylan of Hyde Park.
 23. George A. Pagington and Annie A. Thomason both of Hyde Park.
 27. Inpolet Grigarawic and Petrulka Sarkuto both of Hyde Park.
 28. Arthur Benoit and Rosanna Du Chamme both of Hyde Park.
 30. Omar R. Campbell and Margaret E. Crocker both of Hyde Park.
- Sept. 2. Elmer E. Giles of Concord, Mass. and Nellie M. Richardson of Hyde Park.
 4. Henry Martin Olsen Jr. and Wilhelmina Moore both of Hyde Park.
 6. William King and Blanche J. Fyler both of Hyde Park.
 10. John F. Leighton and Elizabeth A. Howard both of Hyde Park.
 12. Abner Henry Scott and Hilda A. Henrickson both of Hyde Park.
 14. Frederick R. Mathison of Waltham and Catherine Zwicker of Hyde Park.
 14. Harold G. Irons of Freetown and Winifred Kendall of Hyde Park.
 17. Michael Lally of Hyde Park and Ellen Mahoney of Boston.
 18. Clyde R. Place of New York City and Mabelle H. Boyd of Hyde Park.
 19. Daniel H. Quinn and Mary Agnes McGrath both of Hyde Park.
 19. William B. Towns and Ella M. Porter both of Hyde Park.
 20. Rawling E. Hersey and Anna D. Taylor both of Hyde Park.
 21. Charles H. Bryant and Marion F. Jones both of Hyde Park.
 26. Hudma Auger and Clara F. Lagner both of Hyde Park.
 27. James P. Ryan and Hannah T. Dolan both of Hyde Park.
- Oct. 1. Antonio Franchina and Vincenza Rausa both of Hyde Park.
 3. John L. Ness of Hyde Park and Agnes G. Murray of Everett.
 4. Charles Hedges and Louisa F. Molden both of Hyde Park.
 4. Percy W. Daniels of Hyde Park and Mary H. Meikle of Tewksbury.
 10. Henry A. Carroll of Brookline and Isabelle Mulcahy of Hyde Park.
 10. Arthur F. Bent of Hyde Park and Eliza B. Newhall of Lynn.
 10. Douglas Strachan and Anna E. Sanderson both of Hyde Park.

- Oct. 11. Gilbert Balkam and Gertrude S. Mitchell both of Hyde Park.
 11. Chester C. Jackman of Hyde Park and Edna E. Burnette of Holyoke.
 18. Dick Pagington and Julia E. Daggett both of Hyde Park.
 18. Everett O. Hiller of Hyde Park and Fanny M. Brown of Newton.
 18. Bertie Toy of Hyde Park and Katherine Uren of England.
 19. Elmer J. Wambold and Jennie Stephenson both of Milton.
 25. Thomas E. McDonough and Lucy A. Thorpe both of Hyde Park.
 25. William J. Downey of Hyde Park and Alice A. McDonald of Boston.
 25. Edison M. Wicker of Cambridge and Susan G. Fuller of Hyde Park.
 25. John J. Gallagher and Kate McArdle both of Hyde Park
 25. Joseph T. Clark of Boston and Mattie I. Purington of Hyde Park.
 28. Reginald P. Plummer of Dedham and Emma P. Way of Manchester, Vt.
 29. George V. Usher of Hyde Park and Elizabeth M. Stapleton of East Boston.
- Nov. 1. Albert I. Mackintosh of Hyde Park and Marcia S. Richards of Andover.
 3. Lamoni Walter and Grace Fisher both of Hyde Park.
 6. William E. Brown of Boston and Blanche E. Brown of Hyde Park.
 9. Ralph A. Rokes and Josephine Martin both of Hyde Park.
 15. Smith Rutan and Abbie A. Sprague both of Hyde Park.
 18. Joseph G. Freundsuh and Margaret F. Garity both of Hyde Park.
 21. John Brophy and Bridget E. Greenan both of Hyde Park.
 22. Edgar W. Reemie of Hyde Park and Edith E. Noyes of Boston.
 25. Fritz Johnson and Ida Johnson both of Hyde Park.
 27. Anthony A. Cavanaugh and Mary C. Kelleher both of Hyde Park.
 29. John H. Blake and Margaret J. Hussey both of Milton.
 30. Jeremiah Sheehan and Anna A. Maher both of Hyde Park.
 30. Ernest R. Hunt of Hyde Park and Rose B. Parks of Canton.
- Dec. 2. Adrian F. Jerauld of Canton and Mary E. Beard of Hyde Park
 2. John McAdam of Hyde Park and Mary T. Hickey of Forest Hills, Boston.
 5. Severin Rude and Amalia Safenbom both of Hyde Park.
 16. Arthur E. Wold and Ellen M. Finley both of Canton.

- Dec. 21. Linwood L. Workman of Watertown and Mary Alexander of Hyde Park.
24. John W. Osol and Bertha E. Smith both of Hyde Park.
25. Salvan Titi and Tani Gualturi both of Hyde Park.
25. John A. Bradford and Amy C. Blodgett both of Hyde Park.
25. Jarius H. Hull and Lelia H. Caffin both of Hyde Park.

Wagon calls since Sept. 17th.....	45
Ambulance and patrol wagon went into commission Sept. 17th, 1905.	
Search warrants for liquor service.....	12
Amount of liquor seized.....	8 gals.

RECOMMENDATIONS.

The present police force assigned to regular duty consists of seventeen men, namely, Chief, Lieutenant, Sergeant and nine patrolmen, and five Sunday men—an increase of two regular men. I renew the recommenda-

tion of last year in reference to the station,—the installation of sanitariums, padded cell for insane and separate room for female prisoners.

Our combination ambulance and patrol wagon went into commission Sept. 17th, 1905, and has given general satisfaction.

Police signal system has given in the main excellent service. Some difficulty is experienced, caused by induction from the wires of the Electric Light Company, which can be remedied by double covered wires, which may be obliged to be done later.

The most serious crime which has occurred during the year was the murder of Alfonse Turri by Guiseppe Sabbatino in car on track of New York, New Haven & Hartford R. R., in rear of 61 Milton Street. Sabbatino was found guilty in Superior Court and sentenced to State Prison for life.

CONCLUSION.

In conclusion, I wish to state that having come closely in contact with the department during the last year or more, I shall ever have its interests at heart, and for whatever favors I have received at the hands of the administration I am extremely grateful; also to the many loyal citizens who assisted me and the officers under me in the performance of our joint duty. I can only trust that their good will and assistance will continue. The officers have been vigilant and energetic in the discharge of their duties, and to them I desire to return my grateful acknowledgment for valuable work performed.

Respectfully submitted,

JASON W. BUTTERS, Chief.

REPORT OF THE BOARD OF ENGINEERS OF THE FIRE DEPARTMENT.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen :—The Board of Engineers herewith present their annual report for the year ending January 31, 1906.

The Department has responded to one hundred and thirty alarms during the past year, sixty bell, seventy still, ten “ no school,” four false, one in Milton, one in Dedham.

The Department has traveled 810 miles, laid 17,900 feet of hose, 16,400 feet of chemical hose, raised 4,100 feet of ladders, used 7,000 gallons of chemicals. At seventy fires we have used the chemical engine only.

The following table shows property losses, etc.

	Value.	Loss.	Insurance.
Buildings	\$183,750	\$12,535	\$135,700
Contents	63,000	12,427	47,550
Total	<u>\$246,750</u>	<u>\$24,962</u>	<u>\$183,250</u>

We have put in five new boxes, one being paid for by Mr. W. H. Harlow; have put up four miles of new wire and taken down 17,700 feet of old wire, have placed key-guards on twenty-one boxes to facilitate giving alarms. The care of the fire alarm system is increasing each year, and the system should be extended so that it may keep up with the growth of the town, and new boxes should be added each year. All fire alarm equipment is in good condition and working satisfactorily.

We have added a new room at the Readville house and put in the new heater, as voted by the town last April, putting that house in good condition for the present.

We would recommend that more hydrants be put in, as in certain localities a very long line of hose is required and the pressure is thereby reduced.

The apparatus now consists of three hose wagons, one hose reel, one chemical engine, one ladder truck, two five-gallon hand chemical tanks, seven horses, five sets of double swinging harness, one single harness, 6,200 feet of good hose, 500 feet of poor hose, one Eastman deluge set, a storage battery, forty-nine fire alarm boxes, forty call bells on tapper system, thirty-six miles of wire, ten single beds complete, all in good condition.

The work of the Department the past year has been very satisfactory to the Board of Engineers, the men still showing a great deal of interest in the work. The Board of Engineers wish to thank the Department for their faithful work for the past year, also the citizens for their assistance.

The Department now consists of Chief Engineer, two Assistants, five permanent men, thirty-five call men, making a total of forty-three members.

Respectfully submitted,

JOHN H. WETHERBEE, Chief.

JOHN C. McDOUGALD, Clerk.

FRANK KUNKEL.

REPORT OF THE TOWN ENGINEER.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen : I herewith submit to your Board my report as Town Engineer for the year ending Jan. 31, 1906.

MAIN SEWER CONSTRUCTION.

Two new connections to the Metropolitan Sewer have been made during the year, viz., at the foot of Monponset Street in the Holmfield area, and near Newbern Street in the Clarendon Hills area. The contract for the Holmfield area sewers was let to Mr. P. H. Rooney, who was the lowest bidder of the four contractors who submitted bids. Work was commenced early in July and was completed about the first of September. The construction of the trunk line sewer through Metropolitan Park land in this section called for great care in the laying of the pipe, due to the large amount of underground water, and at one point the double line of underdrain pipe was barely able to keep the water level down. The need of the construction of these sewers is shown by the fact that three months after the construction of the main, one-third of the houses in the sewered area were connected to the main sewer. The cost of construction of 3,930 feet of sewers in this area was \$5,050.00.

The contract for laying the main sewer in the Clarendon

Hills area was awarded to the same contractor, whose bid was the lowest of the four bids submitted for the work. Work was commenced with the completion of the Homfield area contract and the contract is completed with the exception of a short piece of six inch sewer between Westminster and Arlington Streets, on Hyde Park Avenue. No house connections have been made to this line owing to lateness of its completion, but a number of residents on Hyde Park Avenue are ready to connect in the spring. The building of the 24 inch pipe line in this area had no especial difficulties except the care and attention necessary to lay a line of pipe on a grade of 1 foot in 900 feet. At two places on this line we found that the ground level was lowered with the pumping out of the underground water. Both places were where there was a considerable depth of black muck, underlaid by a water-bearing gravel. The 4,570 feet of sewer main built in this area cost \$16,200.00. The small amount of leakage in these two difficult sections is largely due to the care and oversight of Mr. A. W. Badger, who was the inspector in charge of the construction.

SEWER EXTENSIONS.

During the year extensions of the sewer mains have been made in Folsom Street, Winter Street and Lexington Avenue. These sewers were put in by Mr. T. H. Corrigan under three separate contracts, and upon which he was the lowest bidder. The cost of construction was as follows :—Folsom Street \$380.00, Winter Street \$420.00, and Lexington Avenue \$1750.00. All three of these sewers are receiving sewerage from houses connected to them.

The cost of maintenance for the past year has been very

small, as we have had no obstruction, either of the main sewers or connections to houses.

TABLE OF SEWER MAINS CONSTRUCTED IN THE YEAR
ENDING JANUARY 3.

Hyde Park ave.	Thatcher st.	Westminster st.	687 "	8 "	9.7 "

Total length of sewer main built in 1905, 9,095 ft. or 1.72 miles.

Previously reported 18.68 miles, or a total length of sewer mains on Jan. 31, 1905, of 20 4 miles.

Deepest cut in last year's work 12.7 ft. on Hyde Park Ave.

Shallowest cut last year's work 2.0 ft. on Wachusett St.

HOUSE CONNECTIONS.

96 house connections were made during the year, with an aggregate length of 5,167 feet and receiving sewerage from 667 persons. Total number of house connections to date 895, with a total length of 45,704 feet, or 8.7 miles.

At the beginning of the year the Board of Selectmen voted that house connections should be put in under the supervision of the Town Engineer; that no charge should be made for superintendence or inspection, and that several parties should be allowed to do the work of laying house connections. Under this ruling of the Board, house con-

nections have been put in by P. H. Rooney, T. H. Corrigan, J. S. Coveney, D. W. Mahoney and T. J. McDonough, and owing to there being competition in price of this work, the average cost of sewer connections has dropped from sixty cents a foot to fifty-five cents a foot, and the number of house connections made increased ten over last year.

NUMBER OF CONNECTIONS COMPARED WITH THE NUMBER OF DWELLINGS
WITHIN SEWERED TERRITORY BY DISTRICTS.

	PREVIOUS REPORT		ADDITIONS		TOTAL	
	Houses	Conn.	Houses	Conn.	Houses	Conn't'ns
Central Dist.....	540	306	9	27	549	333

Sunnyside Dist.....	250	125	0	14	250	139
Readville Dist.....	185	70	5	7	190	77
North of Arlington St....	160	71	5	20	165	91
Holmfield.....	00	0	32	11	32	11
Clarendon Hills.....	0	0	40	00	40	0
Factories.....		29		0		29
TOTALS	1500	770	91	96	1591	895

Number of dwellings outside of the sewered districts about 835.

Estimated population in the sewered districts 11,300.

Estimated population using the sewers 6,667.

No connections were made in the Clarendon Hills area owing to the lateness of the completion of the construction of the main sewer, but there are a number of applications for connection in the early spring.

SURFACE DRAINS.

Mr. T. H. Corrigan, by contracts awarded him as lowest bidder under competitive bids, constructed surface drains as follows : What is known as the Neponset Avenue drain, a 12 inch pipe which collects the surface water at a point about midway between Water Street and Loring Street on Neponset Avenue, and delivers it at Water Street.

Westminster Street drain, a 12 inch pipe which collects the water at the junction of Westminster Street and Hyde Park Avenue, and delivers it on Westminster Street, near Providence Street.

Regent Street drain, a 12 inch pipe, which is an extension of the Readville Street drain, built last year through Damon and Regent Streets to the foot of Waterloo Street, and takes care of the water collecting on Damon, Regent and Waterloo Streets.

The following surface drains were built by the town under the direction of the Town Engineer; Milton Street drain, a 12 inch pipe collecting the water on Milton Street and delivering it to an existing drain.

Warren Avenue, a 12 inch pipe collecting the water at the junction of Warren Avenue and Highland Street and delivering it to a culvert at the junction of Warren Avenue and Beacon Streets.

All of these drains are doing the work they were designed to do and are relieving water nuisances, caused generally by the quick delivery of water from steep hills to flat vallies.

The aggregate length of surface drains built in 1905 is 4,000 feet.

HIGHWAYS.

Lines and grades were given for the construction of Wachusett Street, Safford Street, Regent Street, and Waterloo Street.

Plans and profiles made for the acceptance of Fowler Street, Massasoit Street, Lexington Avenue and portions of Glenwood Avenue.

Profiles were made and grades established where new street railway rails were laid upon Hyde Park Avenue and River Street.

Lines and grades were run for setting curbstone and measurements for assessing betterments were made wherever new tar sidewalk or curb were put in.

CLARENCE G. NORRIS,
Town Engineer.

REPORT OF THE SUPERINTENDENT OF STREETS.

TO THE HONORABLE BOARD OF SELECTMEN :

I herewith submit to your Board my second annual report as Superintendent of Streets ending January 31, 1906.

Street Work — 12,000 square yards crushed stone used in new construction and resurfacing; 28,000 yards of gravel have been put on the streets in the various parts of the town, and 3,000 square yards of stone used on the sidewalks.

Edge Stone — We have set 919 lineal feet and reset 568 lineal feet of gutter paving. We have paved 1001 square yards of gutters and repaved 463 yards.

Street Cleaning — We have expended on the cleaning of streets, gutters and catch basins \$3,471.34, and from the same 643 double loads and 2,133 single loads.

Snow and Ice — We have expended on the removal of snow and ice \$1,599.93.

Fences — We have constructed during the year 784 feet, and repaired 1,220 feet, to properly show the lines of streets and places that were dangerous to travel.

Street Openings — This department has issued 166 permits to various parties and corporations to open for various quasi purposes.

Bridge Repairing — During the year we have repaired many of the bridges at an estimated cost of \$950.

Stone Crusher — We have expended at our stone crusher for labor during the year \$1,896.63.

Cross Walks — We have layed during the year, 506 feet granite flagging, and 2,800 block paving in their construction.

Street Watering — Owing to the dryness and high winds of the early spring, and at the urgent request of many residents and business people, we put the sprinkling carts on the streets three weeks earlier than in 1904, and during the year there was one new water crane placed in position on Washington Street and one new sprinkling cart added to the equipment.

Ashes and Garbage — Under this department we have collected 5,805 cans of swill, which have been sold. 4,774 loads of ashes were collected, which is an increase over last year.

Catch Basins — During the year 18 new catch basins were constructed.

A partial detailed statement as taken from the record of the clerk of the board is as follows :

PARTIAL REPORT OF REPAIRS ON STREETS,

Principally labor, Highway employees.

Arlington Street, resetting curb, \$78.56.

Beacon Street, resetting curb, 6.75.

Bridge Street, repairs 16 double, 30.53.

Business Street, crosswalk, 18.25.

Central Avenue, repairs, 23.98 ; paving gutters, 21.37.

Fairmount Avenue, repairs, 60.70 ; crosswalk, 28.75.

Franklin Terrace, setting curb, 10.50.

Gordon Avenue, repairs 27 double, 55.75 ; crosswalks, 37.00 ; paving, 75.85 ; catch basin, 24.10 ; resurfacing 240 double, 316.30.

- Green Street, catch basin, 19.25.
- Greenwood Square, labor, 323.02.
- Highland Street, resurfacing 205 double, 39 single, 338.85 ;
setting curb, 108.83 ; drainage, 284.84.
- Hyde Park Avenue, repairs, 139.42 ; resurfacing (277
double loads), 910.61 ; setting curb, 12.37 ; catch
basins, 49.25 ; crossings, 100.27 ; fence, 4.17 ; side-
walks, 153.01.
- Maple Street, repairs, 10.75.
- Metropolitan Avenue, resurfacing 404 double, 29 single,
720.72 ; repairs, 22.85 ; paving 15.00 ; sidewalk (52
double loads), 122.19
- Neponset Avenue, repairs, 16.42.
- Park Street, repairs, 16.69 ; sidewalk, 14.22.
- Pond Street, paving gutters, 28.50.
- Providence Street, repairs, 19.03.
- Prospect Street, paving gutters, 68.42.
- Readville Street, paving, 24.50.
- River Street (West), resurfacing (167 double loads),
156.09 ; repairs, 9.50 ; catch basin, 48.79 ; crossing,
20.25.
- River Street (East) repairs, 236.40 ; paving gutters, 29.54,
setting curb, 30.96 ; fence, 11.00 ; catch basin, 14.69 ;
corners, 6.00 ; sidewalk, 37.80.
- Riverside Square, repairs, 5.59.
- Roxanna Street, resetting curb, 5.75.
- Summit Street, repairs, 5 double, 25 single, 26.05 ; side-
walk, 20 single, 15.75.
- Thatcher Street, repairs (38 double loads), 64.67 ; paving,
22.38.
- Warren Avenue, drainage, 42.09 ; fence, 2.09.
- Washington Street, repairs, 8.50 ; sidewalk, 29.84.
- Walter Street, fence, 4.17.
- Westminster Street, repairs, 15.93, crossing, 11.25.

Wolcott Square, resurfacing (142 double, 17 single),
276.77, square, 193.05; laying pipe, 1.37, sidewalk,
1.25.

GENERAL INFORMATION.

General Repairs, various streets	\$880 02
Cleaning Tyler drain	38 50
Cleaning Clarendon Hills drain (Stony Brook)	72 00

- Wood avenue, from E. River paper mills to Boston line.
- Woodland road, from Tileston.

REPORT OF THE BOARD OF HEALTH.

TO THE CITIZENS OF HYDE PARK:

We have the honor to present to you the following report of the work of this Board for the year ending January 31, 1906.

CONTAGIOUS DISEASE.

There has been reported to the Board during the year ending December 31, 1905, 112 cases of contagious disease, reported by months as per following table:

	Small Pox	Diphtheria	Scarlet Fever	Measles	Chicken Pox	Typhoid Fever	Cerebro-Spinal Meningitis	Tuberculosis	Total by Months
January	2	3	2	7
February	..	1	4	..	1	6
March	..	3	4	7
April	..	3	1	..	4
May	7	2	..	9
June	..	3	10	13
July	1	1	..	2
August	1	2	1	4	8
September	..	1	1	5	..	1	8
October	..	3	3	4	10
November	..	4	1	1	5	4	15
December	..	4	6	5	6	2	23
Totals	2	25	37	6	15	17	5	5	112

The total number of cases reported to the Board were 17 less than the previous year, but the table shows an increase in the number of cases of diphtheria and scarlet fever, also 5 cases of cerebro-spinal meningitis and 5 cases of tuberculosis. The last two diseases previous to 1905 were not reported to the Board. Very many cases of chicken pox and measles are not attended by physicians and consequently are not reported to this office.

Early in the year 1905, the attention of the Board was called to the infectiousness and prevalence of cerebro-spinal meningitis or spotted fever. As a result the Board passed a regulation making cerebro-spinal meningitis and tuberculosis reportable to the Board.

We do again wish to impress upon the minds of all citizens the good work already accomplished in the proper care of people suffering from consumption. No person so afflicted should spit on anything except a cloth provided for the purpose which can be immediately burned.

Plenty of fresh air should fill all living rooms day and night. The sun, too, effects its beautiful work particularly in the sick room. "Sunshine colors apples and the cheeks of children, also." By all means do not close up the sleeping room windows at night and thus prevent the entrance of fresh air. Have only the necessary simple articles of furniture in the sick room and keep it clean with soap and water.

We are glad to fumigate any room or house previously occupied by a case of consumption, no matter whether such person recovered or died from the "great white plague."

We heartily thank the physicians of our town for their willingness and promptness in reporting cases of contagious disease to the Board, and we earnestly hope they will continue to so co-operate with us, as it is prudent—among other things, that the Public Library and School officials be notified as soon as possible.

The Board always keeps a supply of culture tubes, anti-toxine, sputum cups, material for making Widal tests for typhoid fever and blood tests for malaria.

We thank the people for assisting us in carrying out our line of work and would suggest that persons having contagious disease in their families be most careful as to mingling with the public.

The causes of complaints during the year past have been as follows :

Overflowing or defective cesspools.....	43
Bad condition of tenements.....	3
“ “ “ vaults.....	17
“ “ “ public dumps.....	2
Dead animals.....	2
Neglected condition of yards.....	2
Accumulation of garbage.....	4
Throwing rubbish in places not a public dump.....	10
Piggeries.....	4
Dumping night soil.....	3
Emptying cesspools.....	1
Manure piles.....	1
Poor condition of stable.....	1
Bad odors.....	2
Polluting streams.....	1
Defective drainage.....	4

If any citizen has a complaint to make regarding any sanitary matter pertaining to our Board, let him do so in writing. The name of the one making the complaint is not made public. If a member of the Board is met on the street and informed of any unhealthy condition about the town, he may forget it, but when the complaint is made in writing it will not be overlooked.

SEWERAGE.

During the past year sewers have been placed in the streets of the Holmfield District ; this was much needed,

as the drainage conditions in that locality were very bad. Reddy Avenue, Rosa and Frazer Streets are without sewers, and should receive attention as soon as possible, for the land is of the kind which does not readily absorb water and the cesspools are continually overflowing. Parts of Readville also need public sewers and should receive attention from the town.

CHAS. F. STACK,
WM. W. SCOTT,
JOHN A. MORGAN.

REPORT OF THE OVERSEERS OF THE POOR.

TO THE CITIZENS OF HYDE PARK :

In submitting the report of this Board we wish to call your attention to the unusual conditions existing during the year, from January 31, 1905, to January 31, 1906, constituting the financial year, and this report being the 38th annual report, embracing the transactions of that period. At the commencement of the term the members of the Board were Mr. George W. Chapman and Mr. George E. Haven, the decease of Mr. Charles Lewis in the previous fall leaving a vacancy which was filled in March by the election of Mr. John W. McMahon. The unforeseen and unexpected happened in the death of Mr. George W. Chapman, which occurred August 27, 1905, and in the sickness and final decease of Mr. George E. Haven, which occurred November 25, 1905, leaving the weight of responsibility upon their associate, Mr. John W. McMahon. No appointment was made until October 23, 1905, when Mr. Thomas E. Faunce was appointed to fill the first vacancy, Mr. Edwin C. Farwell being appointed December 21, 1905, to fill the second vacancy. It will be seen, therefore, that this report must deal chiefly with such information as can be gathered from the books and not from our brief experience. We would say, however, that a kindly heart, inborn tact and the ability to grasp the difficult problems and deal with each successfully are the necessary qualifications for a successful administration of the affairs of this department. These were happily found in the three deceased members of the previous Board.

Suitable places to board our charges and nurses to attend the sick are likely to become serious questions. Hospital cases, of which we have many, are often expensive and cannot be estimated. As the town increases in population these must become of more importance. It seems to us that the time has come when this department should be provided with suitable quarters in which to transact its business. It is sad enough to be forced by circumstances to apply for aid, especially by those who have seen better days, but sadder still for the unfortunate ones to tell it to the world. Should we not accord them the same right to privacy as to any other citizen.

FINANCIAL STATEMENT.

A just meed of praise is due Mr. Richard Chapman, who has so well and faithfully performed the duties assigned him as clerk of this department, and we give it with one accord ; quick to understand what is required, ever ready to listen and to learn, he should be remembered in the future.

Respectfully,

JOHN W. McMAHON,
THOMAS E. FAUNCE,
EDWIN C. FARWELL.

Overseers of the Poor.

REPORT OF INSPECTOR OF PLUMBING AND HEALTH OFFICER.

TO DR. C. F. STACK, Chairman and members of the Board
of Health, Town of Hyde Park,

GENTLEMEN: I have the honor to submit the following
report of the work of this Department for the year ending
January 31, 1906.

There have been filed at this office 163 applications to do
plumbing work, with specifications calling for 530 fixtures as
follows: water-closets, 146; bath-tubs, 91; wash-bowls, 97;
sinks, 107; wash-trays, 79; urinals, 10. Number of inspec-
tions on the above work, 215.

The approximate valuation of the work performed as
specified in these applications was thirty thousand, one
hundred and seventy-five (30,175) dollars.

At the beginning of the year the Rules and Regulations
governing plumbing work were carefully revised and a new
set adopted May 1, 1905; these were printed in a small
pamphlet form separate from the Rules and Regulations of
the Board of Health; this was much needed, as in previous
years a plumber wishing to acquaint himself with the
Regulations was obliged to consult a town report.

There have been 64 cases of contagious disease quaran-
tined during the past year. These were diphtheria and
scarlet fever cases only; of these 64 cases there were two
deaths from diphtheria and no deaths from scarlet fever.
We have had five cases of cerebro-spinal meningitis or
spotted fever, all of which have been fatal.

Since July there have been reported 17 cases of typhoid fever, with one death. I have very carefully investigated these typhoid cases, but there seems to be no particular connection between any of them and it has been impossible to trace the source of infection.

I have fumigated 162 rooms, the High School building and four carriages used at the burial of contagious cases. Some of this fumigation has been done in houses where there have been cases of tuberculosis. I am pleased to state that there has been no recurrence of contagious disease in a house after the same has been fumigated.

There have been filed at this office 100 complaints during the past year. These complaints are of a great variety, but mostly for overflowing cesspools on streets where there are no sewers. All of the complaints have been investigated and given careful consideration, and as a general rule settled satisfactorily to all concerned.

Respectfully,

JAMES G. BOLLES,
Inspector of Plumbing and Health Officer.

REPORT OF THE INSPECTOR OF BUILDINGS.

TO THE HONORABLE BOARD OF SELECTMEN,

GENTLEMEN: The Inspector of Buildings submits the following report for the year ending January 31, 1906.

Whole number of permits granted during the year from Feb. 1, 1905 to Jan. 31, 1906,	67
For new buildings	40
For extensions, additions and alterations	27
	— 67
Number of visits made during the year	215
Number of notices sent to persons not complying with the Law in regard to building	5

I have submitted my annual report to Joseph E. Shaw,
Chief of District Police, State House, Boston, Mass.

Respectfully,

RICHARD F. BOYNTON,
Inspector of Buildings.

REPORT OF THE PARK COMMISSIONERS.

During the year 1905 there have been but few months requiring action by the Park Commission.

Of money appropriated in 1904 for the care of Camp Meigs, there was an unexpended balance of \$24.39. A further appropriation of \$25.00 was made in May, 1905, to be expended on the camp ground by the Readville Improvement Association, for which no bills have yet been rendered.

We have signed concurrences to the following deeds by the Metropolitan Commissioners :

June 5th, to the New York, New Haven & Hartford Railroad Company for the supports to the Glenwood Avenue foot bridge.

December 20th, to Catherine E. O'Brien, of land near Paul's Bridge, south of Milton Street, one and one sixty-fourth acres in exchange for other land on the north of the same street, as shown on plan No. 506.

December 27th, to the town of Hyde Park, of eight hundred and seventy-nine square feet of land, for the approach for the elimination of the Fairmount Avenue grade crossing.

Early in July a letter with copies of the Acts of the Legislature relating to the Gypsy Moths was received by this Commission from the State Superintendent for their suppression, saying that the moths had been found on Fairmount Avenue in our town. He had already taken prompt action by sending his own men, who had experience

and appliances, to spray the trees in that vicinity. The communication was sent to us, as he supposed the trees on the public land were in our care. We notified him at once, that with the exception of a few on Camp Meigs, they were in the care of the Tree Warden, to whom we had forwarded his communication.

At the suggestion of the State Superintendent, the Selectmen appointed Harry G. Higbee local superintendent, whose report is appended.

At the town meeting January 31st, 1906, under Article IV of the warrant, an appropriation of twelve hundred dollars was made, to pay bills for extermination incurred to date and for carrying on the work until the March, 1906, appropriation meeting.

Under Article V, the Board of Park Commissioners was appointed to act for the town in the suppression of the gypsy and brown-tail moths. There is no question as to the necessity of a vigorous prosecution of the work already well under way, or of the seriousness of the matter, for it means not only a very considerable and constant expense, but also danger of losing many of our trees, which add so much to the beauty of our town, and, if unchecked, a depreciation in the value of our real estate.

The purification of the Neponset River is still being agitated, and a large amount of work has been done in constructing settling basins at Winslow's, in the town of Norwood.

We understand that the town is again actively considering plans for a sewerage system.

LAWSON B. BIDWELL, Chairman,

JOHN J. ENNEKING, Secretary,

STILLMAN E. NEWELL,

Park Commissioners.

REPORT OF GYPSY AND BROWN-TAIL MOTH WORK.

TO THE BOARD OF PARK COMMISSIONERS :

Gentlemen : The following is an outline of the gypsy moth work as carried on in this town from the time the pests were first discovered here to January 31, 1906.

In the early part of July, 1905, gypsy moths were discovered on Fairmount Avenue and reported by me to the State Superintendent. An inspection of that vicinity was then made, in company with a representative from the state office, resulting in the burlaping of about one hundred and thirty trees in the immediate vicinity. These trees were looked after by me during the caterpillar season under the direction of the State Superintendent. Some spraying was also done at that time, and so effectual was this work, that no traces from this colony have since been found.

Shortly after this, the Selectmen were requested by Mr. Kirkland, the State Superintendent, to appoint some one to take charge of the work here, and in accordance with this request, I was appointed local superintendent by them in October.

I then started with a small force of men, to make a systematic investigation of the town to ascertain to what extent it was infested. It has been found to be much more seriously infested than was supposed ; a number of bad colonies of gypsy moths being located, and brown-tails being found over the entire section.

The owners of all infested property were notified according to the law, and required to have their places cleared of the moths within a specified time.

At the expiration of this time, we inspected all these infested properties, being required by law to do the work on all properties not already cleared, also doing the work

on the town property. The work has been carried on under the supervision of the State Agent, Mr. Frank A. Bates, to whom a weekly report has been made.

A weekly report has also been given to the Selectmen, keeping them informed of the exact condition of affairs throughout the winter.

The cost of the work to date has been \$521.92.

At the town meeting held January 31, by vote of the people, the oversight of this work was transferred from the Selectmen to your board. At this time an appropriation of \$1,200.00 was made for the work, \$200.00 of this amount being designated for the payment of bills already due, and the remaining \$1,000.00 for the carrying on of the work up to the annual appropriation meeting in March, 1906.

The winter work is now being pushed rapidly, that it may be completed before the eggs hatch in the spring, as it is at this season that the most effectual results may be accomplished.

There will, of course, be much work to be done through the caterpillar season, though on different lines than the present work. It is very important that property owners familiarize themselves with the proper methods of fighting these moths, as it is only through the co-operation of all that we can hope to successfully combat them.

It has been clearly shown in other towns what terrible ravages these insects will commit, if left undisturbed, and with what difficulty and expense they are eradicated after having once obtained a foot-hold. "Eternal vigilance" should be our motto in this work and there seems to be no reason why our town may not be kept practically free from these pests by the expenditure of a comparatively small sum each year.

Respectfully submitted, .

HARRY G. HIGBEE,
Local Superintendent.

REPORT OF THE CEMETERY COMMISSIONERS.

The work in the cemetery for the past year has consisted of the usual short extensions of avenues and paths, but in addition to such work and the care of the cemetery, more than usual time has been spent in the preparation of additional space for single graves. The water pipes have also been largely extended, and this has been a great convenience to lot and grave owners. The wall on Fairview Drive has also been extended.

Pursuant to the policy followed from the beginning, the Commissioners have purchased two additional lots, which have served to render available land already owned by the town. It has always been the policy to buy such lots when they could be obtained for the assessed value.

The cemetery fund is \$11,996.02, an increase of \$467.12 from last year.

The receipts and expenditures for the financial year ending January 31, 1906, are as follows :

RECEIPTS.	
Sale of lots	\$1,140 00
Sale of single graves	355 00
Interment and receiving tomb charges	611 00

Commissioners.

REPORT OF TREE WARDEN.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen : I herewith submit my annual report as Tree Warden for the year ending January 31, 1906.

Permission has been given to remove trees on Webster, West and Milton Streets, after the proper hearings had been held. Three hundred dollars was appropriated by the town for the purpose of removing and trimming trees. This amount was exhausted before the work was fully completed. To finish the work I would recommend that the sum of three hundred dollars be appropriated for the care and maintenance of trees, same as last year.

Respectfully submitted,

EDWIN J. CHANDLER,

Tree Warden.

ASSESSORS' REPORT.

The Assessors, and incidentally the town, very soon after election met with a great loss through the long illness and finally, on August 27, 1905, in the death of George W. Chapman. For fifteen years he had been an Assessor of Hyde Park and for the greater part of the time clerk of the Board. Constantly before the public, by unvarying courtesy, a thorough knowledge of his work and the happy manner of imparting his useful and valuable information to all desiring such, he was recognized by all with whom he came in contact as an able and efficient Assessor, an obliging and accomodating clerk, an authority on valuation, entitled to great praise for meritorious work, and one whose loss the town will greatly feel and whose place for many years cannot be filled.

Mr. Clarence G. Norris, town engineer, having been authorized to prepare plans for the Assessors of the central portion of the town, returns under date of May 8, 1905, a report of his findings.

In the development of the Assessors' plans of the area bounded by West River Street, Central Avenue, Webster Street and the N. Y. N. H. & H. R. R., comprising eighty-two different parcels, show nearly all properties in the section described affected to a greater or less degree. The gross gain is 16,293 feet, the gross loss is 1,657 feet, the net gain 14,636 feet. This gain in the town, in a section of so great value, netting the town an increased revenue of more than \$200 annually, justifies the continuation of this

work of development. Plans are now being prepared for Mount Neponset, and as rapidly as conditions and circumstances warrant the entire town should and without doubt will receive attention.

The Advisory Board has been of great assistance in making possible reduction of the tax rate, as in the report submitted by the Chairman a large increase in taxes for the State, County and Metropolitan taxes having been anticipated, the appropriation over which our citizens have direct control were happily made to enable the Assessors to lower rather than increase the tax rate. From the best knowledge obtainable the present year in State, County and Metropolitan taxes, a material reduction can be safely looked for. With the new property created and conditions favorable, a rate and valuation gratifying to our citizens ought to follow.

Received from Elizabeth Almsworth, Librarian	250 94
	<hr/> \$2,129 17

GIDEON H. HASKELL,
Town Treasurer.

We the undersigned, Auditors of Hyde Park, Mass., hereby certify that we have examined the statement of the Treasurer, Mr. Gideon H. Haskell, in account with the Hyde Park Public Library, and find the same to be correct.

FREDERIC C. STONE,
WILLIAM J. DOWNEY,
GORHAM E. STANFORD,
Auditors of the Town of Hyde Park, Mass.

AUDITOR'S REPORT.

We have examined the vouchers and accounts of the following: Selectmen, Treasurer, Tax Collector, School Committee, Overseers of the Poor, Trustees of the Public Library, Board of Health, and Cemetery Commissioners, for the year ending Jan. 31, 1906, and find the same to be correct.

We have noted that the present system of accounting does not meet with the best results with regard to proper accounting of the appropriations and expenditures. This is occasioned, in part, by the different town departments being independent of each other, these different departments keeping and rendering their accounts as they deem proper, and not being responsible to any one head.

We believe that the best interests of the town demand that the citizens consider the advisability of making a change in the town by-laws, whereby it shall be obligatory for all the various departments of the town to submit all bills and orders to a comptroller for his approval, if correct, after being approved by departments making the expenditures, and before payment by the town treasurer.

This new office of comptroller, we believe, should be created for several reasons. He should audit all bills before payment, and keep a proper record of the same. He should also keep a balance sheet showing the condition of the various appropriations at all times of the year, and render a monthly statement of such vouchers to the select-

men and various boards having the expending of town funds, for their information and inspection. This statement could be rendered more frequently if desired. By thus doing, the various boards will be in a position to pass on orders and expenditures in an intelligent manner, without being obliged to consult records that may not be complete or correct, owing to the lack of a proper system.

Department expenditures should be so regulated as to come within the limit of the appropriation assigned for each department, and we condemn the system of transferring of money from one department to meet the deficiency in another as dangerous.

The subject of unexpended balances should be given consideration, and the Treasurer should have before him constantly a balance sheet showing the financial condition of each department, and the amount of the unexpended balances should be shown each year.

The unexpended balances from special appropriations and other sources (not including moneys that should appear as assets of the various departments) should be transferred to a general or contingent fund, thereby preventing these balances being lost sight of, and doing away with much book-keeping on the part of the treasurer and comptroller, if appointed. This fund can then be drawn on as the town deems proper.

Payment of all moneys by the treasurer should be by check, excepting the pay roll accounts. Such checks, before being valid, should bear the countersignature of the comptroller. In this way, the comptroller will be in a position to know when each expenditure is paid, and can so enter the same on his records. He should have jurisdiction over the systematizing of accounts, and should direct and instruct all secretaries in the proper way of keeping their various accounts according to his system.

The recommendation in regard to the accounts of the town being placed under the control of a comptroller has been brought to the attention of the Advisory Committee, and by them in time will be placed before the citizens of the town.

We believe that the town will be the gainer by this change in the system of accounting, and by placing the responsibility on one head, instead of several, as at present. As the duties of a comptroller of a town the size of Hyde Park would demand his entire time and attention, we would recommend a competent salary for this office.

We would add that the duties of the three auditors would not be lessened in any way by the appointment of a comptroller.

FREDERIC C. STONE,
WILLIAM J. DOWNEY,
GORHAM E. STANFORD,
Auditors Town of Hyde Park.

Hyde Park, Jan. 31, 1906.

TAX COLLECTOR'S REPORT.

Dr. RANDOLPH P. MOSELEY, Collector of Taxes, in account with Town of Hyde Park. Cr.

SCHOOL CALENDAR, 1905-06.

FIRST TERM.

Begins Monday Sept. 11th; ends Friday, Dec. 22nd.—15 weeks.

SECOND TERM.

Begins Monday, Jan. 1st; ends Friday, March 30th.—13 weeks.

THIRD TERM.

Begins Monday, April 9th; ends Friday, June 22nd.—11 weeks.

CHRISTMAS VACATION.

Begins Monday, Dec. 25th; ends Friday, Dec. 29th.—1 week.

SPRING VACATION.

Begins Monday, April 2d; ends Friday, April 6th.—1 week.

HOLIDAYS.

September 11th and 12th, November 30th, December 1st, February 22d and 23d, April 13th, April 19th, and May 30th.

REPORT OF SCHOOL COMMITTEE.

TO THE CITIZENS OF HYDE PARK:

We have a splendid corps of teachers, some old in service and some new. At the beginning of this school year but two new teachers were employed in our grammar schools. All teachers who so desired retained their positions. No radical changes were found necessary or advisable. Neither the Superintendent nor any principal recommended any dismissals. Loyalty to superiors and to school work was everywhere apparent. Those with fresh enthusiasm ready to win their way, and those whose hair was white with experience, whose voices have been softened and whose minds have been drilled, toned and chastened with service and thought, were alike rewarded by an unanimous re-election.

In December last, we had an enrollment in our High School of 406 pupils, and we expect an increase next year. In December, 1901, the year previous to the completion of the new High School building, the enrollment in that school was 290, showing an increase of 116, or 40 per cent. In the same time the population of the town has increased only a few hundreds. It is the opinion of the School Committee that this fine building, which has been equipped with modern conveniences, appliances and apparatus, should be made useful and beneficial in every way possible to all our children who are seeking an education. The corps of teachers has in previous years been increased, and after considering the matter with the principal, the Superintendent of Schools and the Advisory Committee, all agree that

if the number of pupils increases as expected, it is wise to add another teacher next year. As this school puts the finishing touch on the education of many who immediately become breadwinners, and as many enjoy its privileges who do not attend our public grammar schools, your School Committee feels that its corps of teachers should be large enough to give all pupils the best instruction in all branches of the curriculum. It should rank with the best in the State, and that means with the best in any State, and it is confidently claimed that such is its position to-day.

The time has come to make a beginning in manual training. We therefore recommend that a room be fitted up for this purpose and an additional teacher employed to give instruction. We do not advise any extensive equipment immediately. It had better be a growth.

We do not foresee any necessity for an increase in the teaching force of our grammar schools.

We recommend that the town raise by taxation for current school expenses the sum of fifty-seven thousand six hundred dollars (\$57,600), divided as follows:—

Salaries and fuel.....	\$45,800
Incidentals.....	6,000
Text books and supplies.....	4,000
Evening schools.....	1,300
Manual Training.....	500
	<hr/>
	\$57,600

This is asking for an increase in appropriations over our recommendations last year of nine hundred dollars (\$900) and all of the increase is made by the proposed introduction of manual training. These are the same figures that have been submitted by the Advisory Committee. We are aware of the fact that if only four thousand dollars (\$4,000) is appropriated for text books and supplies that no radical changes can be made, and that none of us will be quite

satisfied with the condition of our text books, but we will do the best we can, and if the new Superintendent of Schools should consider it absolutely necessary to replace more text books than this appropriation will permit, the matter can be presented to the town at a later meeting.

During last year it was found absolutely necessary to make certain repairs upon buildings which were not foreseen, and the appropriation for text books and supplies was insufficient.

THE DAMON SCHOOL.

The Committee appointed by the town "to consider the matter of re-location of the Damon School" made its report March 29, 1905, and the same was accepted. In their report they say: "There are certain questions involved which would seem to us to render it wise to defer action in the matter of the erection of a new building for the present. One of these is the question already raised as to the extent of the future growth of the population in the district. A year or two will go far toward settling this question. Another is the question of the disposal of the present school building and lot, which is still undetermined. For these reasons the committee does not formally recommend the immediate construction of a new building, but we do recommend that a suitable location for a new school house be found at once and a lot purchased on which to erect a building, when the town shall be ready to do so." The School Committee are of the opinion that it is wise to go further than to merely adopt the report of this Committee. The lot should be selected and purchased. A site ought to be selected as soon as it can be fairly determined where the new school building should be located. It seems unwise to make extensive repairs upon the present Damon School building if it is only to be used for a year or two, as is suggested by the report of the Committee appointed to

consider the matter. We do not care to go any further than the suggestions made by the Committee, which have been accepted by the town, but we heartily endorse those suggestions, and hope that during the year the site will be selected and the lot purchased. It seems but fair to the citizens of Readville to take this step at the present time. School accommodations in that district at the present time are not satisfactory.

Frank O. Draper, for eight years Superintendent of Schools in our town, received on January first of this year an offer of a like position from the School Committee of Pawtucket, R. I. He placed upon his acceptance of this offer the condition that his term of service in Hyde Park should terminate on February 28. That gave the School Committee time to select a new Superintendent without undue haste. Mr. Draper is so well known to all our citizens, and has so fully identified himself with all our civic interests, that general regret has been felt and expressed at his departure. He carries with him to this larger field of usefulness the hearty good wishes of the School Committee, the teachers, the pupils and the community. As his successor the Committee have chosen George E. Johnson, who was Superintendent of Schools for Tewksbury, Tyngsboro, North Reading and Dracut.

WILBUR H. POWERS, Chairman,
For the School Committee.

Read and adopted as the Report of the School Committee at the regular meeting of the Committee held January 29, 1906.

EDWARD S. FELLOWS, Secretary.

SUPERINTENDENT'S REPORT.

TO THE SCHOOL COMMITTEE OF THE TOWN OF HYDE PARK:

My eighth annual report as Superintendent of the Hyde Park public schools is herewith respectfully submitted.

Following is a summary of statistics, the membership and attendance based upon the returns for the school year last completed, ending June 23, 1905.

GENERAL STATEMENT.

SCHOOLHOUSES.

No. 1.	High school, twenty rooms, Everett Street (fourteen occupied as class and recitation rooms)	
No. 2.	Damon school, eight rooms, Readville Street (four occupied)	
No. 3.	Hemenway school, one room, Wolcott Street	
No. 4.	Grew school, eleven rooms, Gordon Avenue (nine occupied)	
No. 5.	Greenwood school, nine rooms, Metropolitan Avenue (eight occupied)	
No. 6.	Amos Webster school, four rooms, Hilton Street (three occupied)	
No. 7.	Trescott school, four rooms, Rosemont Street (three occupied)	
No. 8.	Butler school, one room, East River Street (used for special purposes)	
No. 9.	Fairmount school, nine rooms, Williams Avenue (eight occupied)	
No. 10.	Weld school, two-rooms, Highland Street	
Number of schoolrooms occupied.....		52
Number of school buildings.....		10
Number containing high school department.....		1
Number containing eighth (highest grammar) grade.....		4
Number containing primary grades only.....		4
Number used for special purposes.....		1

TEACHERS.

Supervisors of special subjects.....	2
Number of teachers regularly employed.....	60
Men teaching in day schools.....	8
Women teachings in day schools.....	44
Men teaching in evening schools.....	2
Women teaching in evening schools.....	6
Number of day school teachers who have attended college.....	17
Number of college graduates.....	13
Number who have attended normal school.....	16
Number of normal school graduates.....	9
Number who have attended training school.....	7
Number of training school graduates.....	3

SCHOOL CENSUS.

Population of Hyde Park.....	14,000
Total number of persons 5 to 15.....	2,697
Total number of boys 5 to 15.....	1,327
Total number of girls 5 to 15.....	1,370
Total number of persons 7 to 14.....	1,879
Total number of boys 7 to 14.....	926
Total number of girls 7 to 14.....	953
Total number of persons in Hyde Park private schools.....	5
Total number of persons in Hyde Park parochial schools.....	861
Total number of persons in schools out of town.....	3
Total number of male illiterate minors over 14 years of age.....	4
Total number of female illiterate minors over 14 years of age....	1

MEMBERSHIP AND ATTENDANCE.

Total number of pupils registered.....	2,279
Total number of pupils registered, excluding re-enrollments.....	2,135
Average membership.....	1,933
Average attendance.....	1,822
Per cent. of attendance.....	94.3
Number of pupils between 5 and 15 years of age.....	1,849
Number of pupils more than 15 years of age.....	315
Number of pupils between 7 and 14 years of age.....	1,268
Number of pupils less than 7 years of age.....	420
Number of pupils more than 14 years of age.....	463

In looking back over nearly eight years of official connection with our schools, it is gratifying to realize that the

advance along all lines has been constant and that there have been no errors necessitating backward steps.

In my first annual report the following changes were recommended: That the separation of the younger and more immature pupils of the first grade from the more mature pupils of that grade, already effected at the Fairmount school, be extended to all the primary schools; that the general courses of the High school, as distinguished from the college and normal school preparatory courses, be strengthened and broadened and that the length of the commercial course be extended; that indoor sanitary arrangements be provided in the Grammar school buildings; that limited inspection of the schools by a competent physician be provided; that a supervisor of drawing be employed; and that a liberal supply of supplementary reading books be purchased. In my second report it was recommended that American history be begun in the sixth grade, and in my third report, that English history and civics be introduced in addition to the study of American history in the eighth grade. At various times I have recommended that physical exercises and elocutionary drill be provided for the girls of the High school during the boys' military drill periods; that the Grammar school buildings be provided with systems of ventilation; that modern text-books be introduced in arithmetic, geography, grammar, and primary reading, and that the excessive time and attention devoted to the formal side of these subjects be reduced in favor of more educative effort; that systematic study of natural forces and laws be begun in the eighth grade; and that the elementary course in freehand drawing and cardboard construction be supplemented in the eighth grade by the introduction of wood-working for the boys and sewing for the girls.

Many of the changes above suggested have been effected. The sub-primary class has demonstrated its usefulness and

meets with very general approval. While the college and normal school preparatory courses have not been allowed to suffer, the general courses have been strengthened so far as the limited teaching force and equipment of the school has permitted, and the length of the commercial course has been extended from two years to four years. Drawing, under special supervision, is well established. The study of American history is begun in the sixth grade, and by recent vote of the committee English history, civics, and elementary natural science are added to the Grammar school courses. A modern basal series of primary reading-books and modern text-books in arithmetic, geography, language and grammar have been adopted. Modern sanitary arrangements have been provided in the three Grammar school buildings which are regarded as permanent school buildings.

There are five important recommendations mentioned above which await action on the part of the Committee.

One of these—arrangements for elocutionary and general physical training for the young ladies of the High school—is under consideration by the High school committee and can be carried out with no extra expense, through the employment of a teacher qualified to give such instruction in connection with work in one of the other departments.

Another recommendation, that the elementary schools be furnished with suitable school literature, has met the approval of the Committee, I am sure, and an abundance of supplementary reading matter will, I believe, be supplied when it is made possible by an increased appropriation for books.

Two recommendations, for limited medical inspection and for the ventilation of the Grammar school buildings, are of vital importance. The latter has to do with the health of all the children, more than a thousand in number, who attend these schools daily. Of the injury, often lifelong in its

effects, resulting from the daily confinement of children in crowded and unventilated rooms, I do not need to speak. It is, I believe, far greater than that arising from the former lack of indoor sanitary appliances. The cost may seem prohibitive, but I earnestly recommend that this matter be given early attention by the Committee. The proposed new building at Readville, rendered necessary by other considerations, will reduce by one-fourth the cost of this much-needed improvement. The other recommendation, that of medical inspection of districts in which there are cases of contagious and infectious diseases, and of individual pupils whose apparent condition calls for expert examination and advice, is a matter which relates to the welfare of all the children in the public schools and, to a considerable extent, to that of all the residents of the town as well. This is also a subject upon which it is unnecessary to dwell at length. Such inspection would be an innovation here, but it is not new in public school administration. The necessary expense would not be great in proportion to the service rendered, and all would share in its benefits.

The last of the five recommendations to which I desire again to call your attention is that instruction be given in wood-making for the Grammar school boys and in sewing for the girls. The element of manual training in education is not the least important. Our course in freehand drawing and design, with the application of design in cardboard construction, has now, under the very efficient direction of Supervisor, practically reached the limit of its development along constructive lines until it shall be supplemented by advanced manual training. The school department owns a limited equipment of wood-working tools used in the summer carpentry school, and the additional expense of fitting up the manual training-room in the basement of the High school building would not be prohibitive. To this

central room the eighth grade classes could go for one afternoon session each week without hardship, and receive, under a competent instructor, training along industrial lines which, from both the practical and the theoretical point of view, is of the highest value. For some time to come instruction in sewing could be given to the eighth grade girls during these sessions by the class-room teachers of other grades in exchange with the principals. It seems to me that the time has come for this much-needed extension of the range of elementary instruction.

In former reports I have spoken of the faithful and efficient work of the teachers in our elementary schools. I can say truthfully and from exact personal knowledge of the work of each, that all the teachers now in the service of the town are giving to the limit of their strength the best that is in them for the instruction of the children and for their moral training and development. The work in our elementary schools will be improved by adding reading matter of good literary quality, by the use of modern textbooks recently introduced and by extensions of the course of study; but much of the work now done in these schools is of the highest excellence. I hope that future appropriations will permit a new schedule of salaries for the grade teachers in which the maximum will equal that of the other suburban cities and towns, in justice to our teachers and for the welfare of our schools.

I have spoken also of the unqualified and very unusual excellence of our High school. The fact that its membership has more than doubled in eight years, while the increase in the population probably does not exceed ten per cent., is an indication of the high regard in which it is held by the public. For its excellent standing as a preparatory school and for its high moral standards the town is greatly indebted to the personal character and organizing

ability of its Principal, as well as to the high scholarship and faithfulness of its teachers. While some of the best teachers remain because of family ties or personal preference, the frequent loss of teachers who seek higher salaries elsewhere entails an element of risk which would not be incurred so constantly if the maximum salary were raised. In teaching, as in other callings, the element of remuneration cannot be ignored.

I am glad to commend once more the work of the Supervisors of Music and Drawing, under whose direction these departments have attained a standard of excellence deserving the highest appreciation. Their personal influence and example as expert teachers of their special subjects and as leaders in educational work, is felt in every department of the schools.

In closing my last annual report of the condition and needs of the schools of Hyde Park, I wish to express my appreciation of the fact that such progress in school conditions and work as I have been able to bring about, as the result of more than seven years of earnest endeavor, is due to the concurrence of three necessary conditions: First, favorable action on the part of the School Committee; second, loyal and competent principals and teachers; third, the support of enlightened public sentiment.

Respectfully submitted,

FRANK O. DRAPER,
Superintendent.

Hyde Park, Mass., Jan, 29, 1906.

APPENDIX.

Report of Supervisor of Music.

MR. F. O. DRAPER, SUPERINTENDENT OF SCHOOLS:

Dear Sir,—In compliance with your request to report on the condition of music in our schools, I take pleasure in stating that efficient work is being accomplished in all the grades. The interest of the pupils was never better and the teachers without exception have given their best efforts and at all times have worked in harmony with the Supervisor. Individual recitations are given considerable prominence and sight reading its share of attention.

I believe the music is in satisfactory condition and invite inspection.

I desire to thank the Superintendent for his unfailing support during the past eight years, and the Committee for their generous interest in my department.

Yours respectfully,

B. HAROLD HAMBLIN.

Report of Supervisor of Drawing.

MR. FRANK O. DRAPER, SUPERINTENDENT OF SCHOOLS:

Dear Sir: The Drawing has been carried on as in previous years. The Course throughout the grades and the High School includes the usual branches, Nature Work, Mechanical Drawing and Construction, Freehand Drawing, and Design and Color Study.

The Design, including Color Study, is perhaps, the most important feature of the work, so far as its lasting value is concerned. The Nature Work teaches the child to be observing of the beauty about him in growing things. The Mechanical and Construction Work develop the ability to do accurate and careful manual labor. The Freehand Work teaches the child to see truthfully, and record that truth with his pencil or brush. But Design appeals to the higher intellect, and develops in the child ability to choose between the good and the bad in the material world, that is, to recognize beauty when he sees it.

The Design this year is based upon Dr. Ross's theory of Pure Design, which is, that certain principles govern all good design, no matter to what it may be applied. The aim in this work is to develop an appreciation of beauty, but we cannot aim for beauty directly, we must discover and teach certain laws of order, or principles, which govern all beautiful things. The three principles of Pure Design are Balance, Rhythm and Harmony.

Balance implies the same as physical balance, except that we weigh spots of paint instead of solid matter. It

is governed by the same laws, that is, that equal opposing forces balance at equal distances from the centre. Also, as on the see-saw, the lighter person must have the most board, so the smaller spot of paint balances the larger at a greater distance from a point called the centre.

The principle of Rhythm carries out the same idea as rhythm in music and poetry. It is an easy movement from one line to another, from one spot of paint to another. The design whose elements carry the eye easily over it without interruption or bewilderment is the most pleasing to look upon.

Harmony in design is what the word implies, lines and forms which go well together, which have something in common in size, shape and color. The Color harmony is perhaps the most interesting feature, and it is governed by certain definite rules. Cause all the colors in a design to contain a common color-element, or to contain grey, and through this common element the colors of the design will produce harmony. Bring all the colors near together in value and they are alike in that respect, and so, harmonious. And, lastly, if the pure bright colors are used in small quantities and are so mingled as to make a neutral effect of the whole, harmony is the result again. The best design therefore, according to our theory, is one that has balance, rhythm, and harmony of form and color.

Of course we do not talk to the little children about Balance, Rhythm, and Harmony, but we give them the simplest forms of design, which are governed by these principles. For instance, put down two dots and you have Balance, add three more at regular intervals and you have easy movement or Rhythm, and Harmony because all the dots are alike. So when a child puts a single tiny flower on evenly dotted paper and calls it a muslin pattern, he is following unconsciously the principles of Pure Design.

As he becomes older, he elaborates these forms and learns to repeat them evenly himself. Finally, in the upper Grammar grades and the High school, he is taught the principles, and makes up his design, governed by what he has learned. If the child understands and grasps these simple laws of order and beauty, there will be, in future years, fewer ugly and blinding wall papers and draperies on the market, and fewer badly arranged and decorated houses and public buildings about us.

If this is the result of our efforts, is not the mission of Design, as taught in our public schools, a valuable one? Exhibitions of the work in the different branches were held in nearly all the buildings last June, in order that the friends of the school might see the character of the work accomplished during the year.

The usual exhibition was also held at the High School at the time of the teachers' reception.

Thanking the Superintendent and the Committee for their support, I am

Very respectfully yours,

FLORENCE MONROE WOOD,
Supervisor of Drawing.

Report of the High School Principal.

MR. FRANK O. DRAPER, Superintendent of Schools :

Dear Sir : In accordance with your request, I submit herewith my seventh annual report of the High School for the year 1905.

The enrollment in December was 406. The membership was 382. The membership by classes was as follows :

1st year	134
2d year	110
3d year	75
4th year	49
Post-Graduates	14
<hr/>	
Total	382

In June Miss Margaret R. Brooks resigned to accept a similar position in Winchester, and Miss Sadie E. McCready to assist her brother. Later Miss Mabel G. Taylor resigned to be married. Miss Lulu I. MacAusland of Taunton, Miss Marie A. Goddard of Wellesley Hills, and Miss Bertha S. Temple of Waltham, were chosen to fill these vacancies. In accordance with the policy of the preceding years, Mr. Elmer O. Weld of Mansfield was appointed an additional teacher.

The increase in the number of pupils called for the fitting up during the summer of the tenth class room, which is on the third floor. The room in the northeast corner of the basement, originally intended for Manual Training, is now used for Mechanical Drawing. It does not now seem as if it would be necessary to provide an additional room the

coming year. With the purchase of extra desks and chairs all should be accommodated.

Attention is again called to regularity of attendance and its inseparable connection with good school work. We wish that all sending pupils to the High school would carefully study the few statistics presented and notice the number of days lost during a school year, fully fifty per cent of which are for the most trivial reasons.

Last year in this report the so-called social life was touched upon, concerning which there has been much favorable criticism, but we wish that there might have been more extended application. This is a matter which must from its very nature be almost wholly within the jurisdiction of the parent. It is easy for those in control of school functions to keep them at proper intervals, but it is impossible for them to know whether this young lady or that young man has already been out one, two or three evenings the same week. It may almost be laid down as a rule that pupils cannot be out more than one evening a week and maintain the proper standard in their school work. Then again, it becomes more than a question of school standing and health, it becomes a question of morals. Pupils with poorly prepared work are tempted to get help from others and resort to underhand practices, than which there is no more reprehensible thing in all school life. Shall we organize a "trust" of parents to say "No" ?

In June the class of 1905 presented to the school two pictures to be placed in Room 35, "The Horse Fair" by Rosa Bonheur, and "Sir Galahad" by George Frederick Watts ; also a cast of the Victory of Samothrace to be placed over the west door of the Assembly Hall.

When asked what would be a suitable piece of statuary or painting for this place or that, it has always been difficult to answer, but Messrs. Horace K. Turner & Co. of Boston

have solved the question. They have made plans of the wall space and available niches for paintings or statuary in the building, have submitted them to an artist of reputation, and have placed in my hands these plans with a list and price of the pieces suggested. We are now able to recommend with confidence to those desiring to assist us in adding to the adornments of an already attractive building.

Thanking you, sir, and the Committee for their support, I remain,

Respectfully yours,

M. S. GETCHELL.

Report of Evening School.

FRANK O. DRAPER, ESQ., SUPERINTENDENT OF SCHOOLS :

Dear Sir : I submit herewith the annual report of the Evening School for the year beginning October 30, 1905.

The enrollment, average attendance, and average age are as follows :

Enrollment :

English Department	176
Business Department	49
Drafting Department	33

Average Attendance :

English Department	78
Business Department	27
Drafting Department	26

Average Age :

English Department	21
Business Department	18
Drafting Department	23

In accordance with custom, I give also a comparison of this year's enrollment and average attendance with those of the three preceding years.

Enrollment :

1902-03	272
1903-04	226
1904-05	298
1905-06	258

Average Attendance :

1902-03	96
1903-04	104
1904-05	145
1905-06	131

The membership and attendance are somewhat below the figures of last year's school. The causes of the decrease seem to be chiefly two.

In accordance with law, employed minors are required to possess certain fundamental educational qualifications. Lacking these, they must present to their employer, or his manager, a certificate showing that they are in attendance at some school. Certain of these illiterate minors are extremely ambitious and of themselves enroll in our evening school without coercion. Others, however, are quite the opposite and are glad to escape school attendance. Last year demands for school certificates were numerous, showing, I believe, that existing law was being somewhat rigidly enforced. This year, certificates have been called for in very few cases, and our attendance has decreased. The conclusion is easily drawn.

The other chief cause of our smaller numbers is due to a change in the administration of our courses. Heretofore pupils have been allowed to divide their time, if they wished, between the stenographic or bookkeeping courses, and one of the English courses. This year the teachers have complained that such division is unproductive of good; that pupils who thus divided their courses performed but indifferent work in either field, and in some cases were careless and idle. Our school year is short, and we have none too much time to study one subject and do it well. We have demanded, therefore, that pupils give their serious attention to one branch of our work. Exception has been made in one or two cases. Shortly after the beginning of the year, a few idlers, displeased by the change in method, left the school.

The Elementary work in English is being successfully carried on by efficient teachers, who are devoting themselves, not only to teaching the first steps in reading and

spelling, but, as I have observed, to impressing, where opportunity arises, principles of manliness.

Five teachers, as last year, have been employed in the English department. With the beginning of another season, there should be two teachers, instead of one, in the advanced English room. As it was at the beginning of this year, the instruction being largely individual, each pupil received attention to the extent of only three minutes per evening. Restricted thus, pupils became easily discouraged.

We regret the loss to the Business Department through resignation, of our former principal, Mr. B. M. Chittick. Fortunately, we have obtained the services of Miss Bertha A. Davenport, who has conducted the work along the same lines as formerly. Miss Alice Bentley has been added to the corps of teachers as assistant in stenography.

Mr. Carl King of the Massachusetts Institute of Technology is still with us as instructor in drawing. The lighting of the drawing room, now situated in the basement, has been greatly improved.

Many of the young people of Hyde Park would welcome the establishment of a department of High School studies, especially of those studies which cannot easily be taken up without instruction by an experienced teacher. Several applications for work of this kind have been received, and rejected owing to lack of facilities. As it is, three students of Algebra, and two of French have been in attendance.

It is also to be hoped that as time goes on, more special attention may be paid to instruction in preparation for Civil Service Examinations.

Thanking you for your cordial support, I remain,

Very respectfully,

CHARLES W. ANNABLE, Principal.

Truant Officer's Report.

MR. F. O. DRAPER, Superintendent of Schools :

Dear Sir : I was appointed Truant Officer of the Schools of Hyde Park, beginning with the month of December, 1905. I hand you herewith a record of my services in that capacity for that month.

Total number of truants	1
“ absent with parents' permission	7
“ absent on account of sickness	6
“ absent on account of lack of clothing	2
“ absent on account of removal	1
“ absent who proved to have been transferred	2
“ of cases investigated	19

Very respectfully yours,

JACOB F. KATZMANN,
Truant Officer.

"VIRTUS EST TUTISSIMA RASSIS."

GRADUATING EXERCISES THE HIGH SCHOOL

HYDE PARK, MASSACHUSETTS
THURSDAY, JUNE 22, 1905
WAVERLY OPERA HOUSE

ORDER OF EXERCISES.

1. Overture, "The Bridal Rose" *C. Lavallee*
High School Orchestra,
George M. Dickenson, Director
2. "Water Lilies" *Words by Richard Henry Buck, Music by Karl Linders*
3. Essay, Colonial Life in Early Virginia
Albert Cannon McIntyre.
4. Class History,
Marion Elizabeth Gwillim.
5. Essay, A Little Nonsense Now and Then
Kathryn Margaret Quealy.
6. "The Wreck of the Hesperus"
Words by H. W. Longfellow, Music by Thomas Anderson

It was the schooner Hesperus,
That sailed the wintry sea;
And the skipper had taken his little daughter,
To bear him company.

Blue were her eyes as the fairy-flax,
Her cheeks like the dawn of day,
And her bosom white as the hawthorn buds,
That ope in the month of May.

The skipper he stood beside the helm,
His pipe was in his mouth,
And he watched how the veering flaw did blow
The smoke now West, now South.

Then up and spake an old Sailor,
 Had sailed to the Spanish Main,
 "I pray thee, put into yonder port,
 For I fear a hurricane.

"Last night the moon had a golden ring,
 And to-night no moon we see!"
 The skipper, he blew a whiff from his pipe,
 And a scornful laugh laughed he.

Colder and louder blew the wind,
 A gale from the Northeast,
 The snow fell hissing in the brine,
 And the billows frothed like yeast.

Down came the storm, and smote amain
 The vessel in its strength;
 She shuddered and paused, like a frightened steed,
 Then leaped her cable's length.

"Come hither! come hither! my little daughter,
 And do not tremble so;
 For I can weather the roughest gale
 That ever wind did blow."

He wrapped her warm in his seaman's coat
 Against the stinging blast;
 He cut a rope from a broken spar,
 And bound her to the mast.

"O father! I hear the church bells ring,
 O say, what may it be?"

"'Tis a fog-bell on a rock-bound coast!" —
 And he steered for the open sea.

"O father! I hear the sound of guns,
 O say, what may it be?"

"Some ship in distress, that cannot live
 In such an angry sea!"

"O father! I see a gleaming light,
 O say, what may it be?"

But the father answered never a word,
 A frozen corpse was he.

Lashed to the helm, all stiff and stark,
 With his face turned to the skies,
 The lantern gleamed through the gleaming snow,
 On his fixed and glassy eyes.

Then the maiden clasped her hands and prayed
 That saved she might be;
 And she thought of Christ, who stilled the wave
 On the Lake of Galilee.

At daybreak, on the bleak sea-beach,
 A fisherman stood aghast,
 To see the form of a maiden fair,
 Lashed close to a drifting mast.

The salt sea was frozen on her breast,
 The salt tears in her eyes ;
 And he saw her hair, like the brown sea-weed,
 On the billows fall and rise.

Such was the wreck of the Hesperus
 In the midnight and the snow !
 Christ save us all from a death like this,
 On the reef of Norman's Woe !

7. Class Prophecy,
 Ferdinand Adolphus Wyman, Jr.

8. Essay, The English Side of the American Revolution.
 Helen Edelma Moorar.

9. Presentation of Diplomas,
 Wilbur H. Powers,
 Chairman of the School Board.

10. Class Ode,
Words by Flora Belle Holtham, Music by Helen Edelma Moorar

Here we're gathered for the last time,
 That we may our farwells take
 Of the happy life of High School,
 And the friendships that we've made.
 Some will last us for a lifetime,
 Others we shall break to-day ;
 But these last four years of school life
 In our thoughts will live for aye.

And, dear schoolmates, as we gather
 As a class on this last day,
 We're scattered o'er the wide world
 To begin our upward way,
 May resolves arise within us,
 That a clear death-knell will be
 To whate'er there is unworthy
 In our lives, that we can see.

Now the future holds before us
 Visions of attainments fair ;
 May we strive for them with courage,
 Sparing neither thought nor care.
 May we not forget our motto,
 It will make us good and pure ;
 "Cassis tutissima virtus"
 Is a watchword safe and sure.

Severed is the bond of union
 That has bound us fast so long,
 But, as years pass swiftly by us,
 May it help to make us strong.
 As we near the unknown future,
 And the goals for which we strive,
 Still there'll ever live dear memories
 Of the class of Nineteen 'Five.

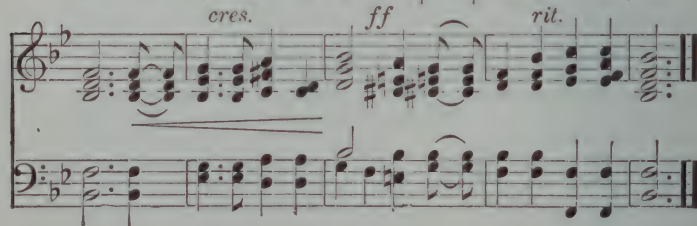

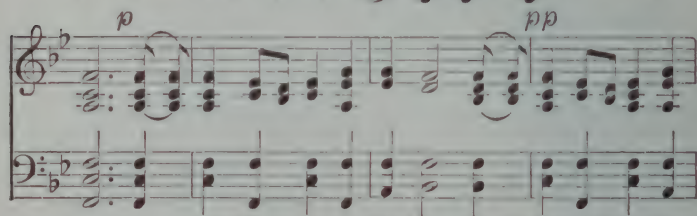

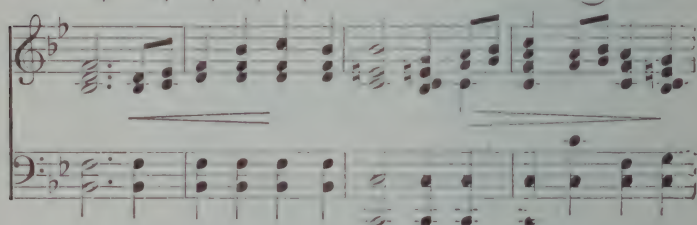

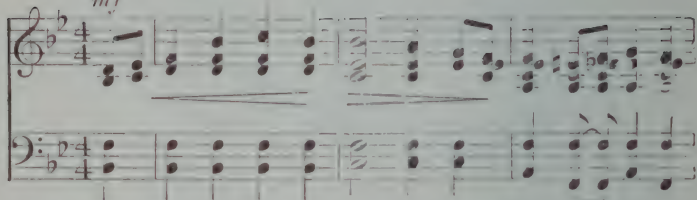

11. March, "Initiation" *Miss Helen L. Burgess*
H. P. H. S. '02
 High School Orchestra.

Soloists: Margaret Isabella Townsend, Mr. Frederick G. Katzmann
 Accompanist: Marion Elizabeth Gwillim.

CLASS ODE.

Andante moderato.

GRADUATION EXERCISES DAMON GRAMMAR SCHOOL

CLASS OF 1905, *assisted by the*
READVILLE JUNIOR ORCHESTRA .
Mr. Geo. E. M. Dickinson, *Instructor*

Blue Hill Chapel, Readville, Wednesday
Afternoon, June 21, 1905, 3.30 o'clock

March, "Home Guard," *T. H. Rollinson*
Orchestra.

Address of Welcome,
Mollie Woodbury Nicol,
President of Class.

Chorus, "The Joys of Spring," *Adam Geibel*
Grades VII and VIII.

Declamation, "The Bell of Atri," *Longfellow*
Gerald Francis Kendrick.

Piano Duet, "Till We Part Again," *Charles Blake*
Ruth Francelia Alden.
Norma Augusta Davenport.

Essay, "Blue Printing the Wild Flowers,"
Wesley Alvah Elliott.

Chorus, "Prayer During Battle," *F. H. Himmel arr.*
Grades VII and VIII.

Essays, "Historic Readville."
(a) "Historic Facts,"
Florence Emeline Fritz.
(b) "Camp Meigs,"
Martha Ann Jones.

March, Two Step, "United Nations," *Paull*
Orchestra.

Essays, "Two Studies in Practical Geography."
(a) "Cocoa Production,"
Harold Frederick Shreve
(b) "Cotton Production,"
Eleanor Corinne A'hern.

Chorus, "The Lonely Rose," *Edward Hermes*
Grades VII and VIII.

Parting Words by the Principal.

Presentation of Diplomas.

Chorus, "America," *Smith*
Orchestra and Audience.

Exhibition of School Work in Reading Room, open to public from
4.30 to 6; also from 7.30 to 9. Music by pupils in evening

Class Motto, "Not Finished, Only Begun."
Class Colors, Blue, White and Gold.

GRADUATION EXERCISES *of the* GREW SCHOOL

WEDNESDAY, JUNE 21, 1905, at 9 o'clock, A. M.

Assisted by the

GREW SCHOOL ORCHESTRA

MR. GEO. E. M. DICKINSON, *Director*

Conductor of Program, Talbot Ward.

Orchestral Selection, "Home Guard March," . . . *Rollinson*
Orchestra.

Salutatory,
Mabel McConnell

Declamation, "America Revisited," *Bryce*
John Way.

Chorus, "The Lonely Rose," *Hermes*
Graduates and Grade VII.

Essay, "Hyde Park, Past and Present," . . . *Original*
Dorothy West.

Recitation, "John Maynard,"
Irene Stevens.

Declamation, "I Have No Chance,"
Percy Benedict.

Orchestral Selections,
Orchestra.

Class History,
Emily Connick.

Chorus, "Prayer During Battle," *Himmel*
Graduates and Grade VII.

Declamation, "The Greatest Curse to Labor,"	Powderly
Eben Fisher.	
Recitation, "The Owl Critic,"	Fields
Helen Boyd.	
Orchestral Selection, Two Step, "United Nations,"	Paull
Orchestra.	
Declamation, "Behind Time,"	Hunt
Fred Steeves.	
Essay, "Panama Canal and Valedictory,"	
Shirley Wheeler.	
Chorus, "Joys of Spring,"	Geibel
Graduates and Grade VII.	
Presentation of Diplomas.	
Class Song,	Original
Words by Irene Stevens.	Music by Georgiana O'Connell

With hopes and fears, for years we've labored
 With graduation as our goal,
 Sometimes a U sometimes an E
 But making progress as a whole.

At least reports would make it seem so
 In viewing from the vantage spot,
 That short word *will*, always welcome,
 But sometimes we discovered *not*.

Our trouble o'er the world is waiting,
 Alone its problems, we'll arrive,
 No job too large, for brains so bright,
 As Grew School class of naughty-five.

And now the time of parting 's with us,
 No more we'll meet in dear old Grew,
 Good bye, dear teachers, may God bless you,
 We thank you for your labors true!

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

In presenting their thirty-second annual report, the trustees are happy to be able to say the Library has done its appointed work successfully during the past year. As usual, the expenses have been kept within the appropriation and in spite of the increased cost of books and material the year closes with a small balance on hand in both the book account and the current expense account.

We have fortunately been able to retain the same efficient workers that have served so faithfully in the past. In addition to the regular assistants, we have had Miss Alice Tilley, a recent graduate of the High School, who has assisted the Librarians a part of each day in return for the instruction and experience she has received in library work.

The publication of the bi-monthly bulletins of books added to the Library has continued, but they have been greatly enlarged so as to contain not only a list of the books, but also, where needed, a brief statement of the contents and general scope of the works referred to.

One subject that has engaged the attention of the Trustees has been that of opening the Library for a part of the day on Sundays. This is not a matter so easily decided as it might seem at first sight. The use of the main reading-room by quiet, thoughtful readers has considerably increased during the past year, and if there is

any general demand from readers of this class, we should be only too glad to afford them every facility possible for self-improvement.

But there is a class who haunt the Library, who are too old to be considered juveniles and are yet too immature either to make good use of the reading-room themselves or to allow others to do so. These are the ones who have to be requested to leave the reading-room and even to be suspended from its use for a time, in order that the well-disposed, who are seeking information, may be able to do so in peace and quietness. No doubt good-sense and propriety will come to these people in a year or two, and they will look back and see themselves as others see them now ; and it is probable will see another generation following in their footsteps. It is this class that makes the Sunday opening a somewhat difficult problem. Personal interviews with the authorities of those libraries that have tried the experiment do not give altogether uniform expressions of opinion as to its success, and the Trustees have decided to make further investigation before entering upon it.

By the death of Amos H. Brainard we have lost our senior member both in point of age and of service. From the formation of the town he had been one of its foremost citizens, always a power for good in its social, moral and business life. For over twenty-five years he has been an active member of our Board, giving liberally to its duties his time and his excellent judgment, and the Trustees wish to place on record the high appreciation of the services he has so long and so freely rendered.

For the Trustees,

HENRY B. MINER,
Chairman.

REPORT OF THE LIBRARIAN.

TO THE BOARD OF TRUSTEES OF THE PUBLIC LIBRARY :

Gentlemen : The annual report of the Library for the year ending January 31, 1906, is herewith submitted.

The work of the library increases steadily year by year. It is used more for research each year.

The circulation has been 73,021, of which number 3,241 were from the Readville Branch. This is an increase of 2,814 over that of 1904.

The net increase in the number of borrowers at the central Library was 407. The net increase at the Readville Branch was 63. The growing interest at the Readville Branch shows the wisdom of its establishment.

The attendance of adults in the reading-room, especially in the evening, has been on the gain. The "American Historical Review" and "The Engineering Record" have been added to the list of periodicals.

The bulletin of new accessions has been changed in form and contains sixteen pages instead of four.

Among the more important books purchased are Clifton et Gremaux, French-English, English-French Dictionary ; Fluegel-Schmidt-Tanger, English-German, German-English Dictionary ; Thomas Nast—his period and his pictures ; the Burton Holmes Lectures ; History of the Moorish Empire in Europe ; The American Nation, ed. by Albert Bushnell Hart ; Thesaurus Dictionary of the English Language ; First Supplement to Poole's Abridged Index, 1900-1904 ; Irish Literature ; World's Best Poetry.

Through the Library Art Club, the following collections of pictures have been exhibited : Plymouth and Miles Standish ; Land of Evangeline ; Oxford ; Sicily ; Passion Play of 1900 ; Venice, No. 1 ; India ; Florence, No. 4 ; Australia ; Amiens.

The Young People's Department shows an increase in circulation of 311, the number of books issued being 19,222.

There has been the same interest and studiousness as during the previous year. Seven nationalities are sometimes represented in the room at the same time. A little fellow hugged the "Story of the Flags" as he took it to the desk and inquired if the flag of Italy was there, and if he might take the book home. Even Benjamin Franklin himself might have been surprised if he had suddenly appeared when the Library was being taxed for information about the man who used a kite to so good a purpose.

A leaflet containing a list of good books for vacation reading was published in the summer and a similar one for winter reading is in preparation.

There has been a net gain of 156 registrations in this department.

We wish to acknowledge the courtesy of the local papers for printing notices and lists of books, also the kindness of those who send periodicals for use in the reading room.

STATISTICS.

CENTRAL LIBRARY.

The Library has been open 304 days

Total circulation	69,780
Magazines issued for home use	3,502
Largest daily issue, January 28	553
Smallest daily issue, January 25	45
Average daily issue	220

SYNOPSIS

OF THE

Town Clerk's Record of Town Meetings

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING CO.
1907

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in *a condensed form* the action of the town on various articles which have been before it for consideration the past year.

March 5, 1906. The annual meeting for choice of town officers was held in Waverly Hall.

Article 1. To choose a moderator and all necessary town officers for the year or term ensuing.

To vote upon the following question: — "Shall licenses be granted for the sale of intoxicating liquors in this town?" The vote on this question to be by ballot, "Yes" or "No," in answer to said question.

The number of votes received for each person voted for at this election was as follows:

For Selectmen and Surveyors or Highways:

William C. Deagle	113
John J. Gallagher	174
John I. Gidney	80
*James D. Grant	998
*Edwin C. Jenney	946
*John Johnston	943
*Alfred L. Lovejoy	945
John W. McAfee	667
David W. Murray	660
*William D. Preston	885
George H. Rausch	852
Frank B. Rich	681
James E. Sheridan	758
Daniel R. Southwick	342
Howard S. Thompson	396

For Town Clerk:

*Henry B. Terry1657

For Town Treasurer:

George T. Brady795

*Gideon H. Haskell1173

For Collector of Taxes:

*Randolph P. Moseley1750

For Overseer of the Poor (three years):

*John W. McMahon1021

George Miles994

For Overseer of the Poor (two years):

*Edwin C. Farwell1299

For Overseer of the Poor (one year):

Joseph C. Bridgman594

*Thomas E. Faunce998

For Board of Health (three years):

*Benjamin G. Bates1006

Edward H. Gallup918

For Assessors:

*Edwin C. Farwell1006

Thomas E. Faunce689

Henry A. Heydacker152

*Joseph J. Houston1032

*Charles F. Morrison1382

William D. Preston943

William C. F. Rudolph141

For Auditors:

Walter H. Buchan360

*William J. Downey1538

*Gorham E. Stanford1414

*Frederic C. Stone1329

For Moderator (one year):

1423

*Charles G. Chick1423

For School Committee (three years):

*Charles G. Chick	1388
Charles Friede	444
*Fred J. Hutchinson	1293
*Wilbur H. Powers	1330

For Trustees of the Public Library (three years):

*John W. Griffin	1413
*Loea P. Howard	1323
*Charles F. Jenney	1424

For Park Commissioner (three years):

*Lawson B. Bidwell	1394
--------------------------	------

For Tree Warden:

Edwin J. Chandler	615
*Harry G. Higbee	938

For Constables:

*Jason W. Butters	1334
*James A. Cullen	1531
*Robert E. Grant	1477
*William W. Scott	1448
*William Wragg	1442

*Declared elected.

"Shall licenses be granted for the sale of intoxicating liquors in this town?" Yes, 720. No, 1247.

The following were chosen by viva voce vote to the office set against their names:

Fence Viewers and Field Drivers: Bartholomew B. Kivlin, Henry V. Harwood, George H. Foster.

Pound Keeper: Bartholomew B. Kivlin.

March 28, 1906. A town meeting was held in Waverly Hall, when the following articles were acted upon:

Article 1. To see if the town will accept the list of jurors as prepared by the selectmen and posted according to law.

List was amended and accepted.

Art. 2. To hear the report of the selectmen in regard to guide boards, and act thereon.

Report made and accepted.

Art. 3. To see what disposition the town will make of money received from dog licenses in the year 1905.

To the Public Library for purchase of books.

Art. 4. To see if the town will appropriate the money now in the hands of the treasurer, received by him as sidewalk, street or board of health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

Art. 5. To see if the town will appropriate so much of the money to be received this year by the town treasurer for or on account of Corporation and National Bank taxes, as is necessary for the payment of the fire hydrant service of the town.

So appropriated.

Art. 6. To see if the town will authorize its collector of taxes to use all means of collecting the taxes which a town treasurer, when appointed a collector, may use.

So authorized.

Art. 7. To see if the town will authorize its treasurer, with the approval of the selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

Art. 8. To see what compensation the town will vote to pay for collecting its taxes and other assessments levied the current municipal year.

\$1,500. (Same as last year.)

Art. 9. To fix the salaries of the town officers for the current municipal year.

Selectmen, \$200 each; Assessors, \$500 each; Overseers of Poor, \$150 each; Town Clerk, \$250; Town Treasurer, \$600; Board of Health, \$100 each; Auditors, \$100 each; Cemetery Commissioners, \$50 each. Voted to pay the moderator \$50.

Art. 10. To see what compensation the town will vote to pay the secretary of the board of assessors, and for extra clerical services for the board for the current municipal year.

No sum appropriated for the secretary of the board. \$100 appropriated for extra clerical services.

Art. 11. To fix the compensation of the engineers and the several members of the fire department for their services the current municipal year.

Chief Engineer, \$175; two Assistant Engineers, \$150 each; for five "permanent men," \$900 each; for one "permanent man," \$1,000; for 36 "call men," \$100 each.

Art. 12. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1906, and what interest the town will vote to charge on taxes for the current year when the same shall be overdue.

No discount allowed. Five per cent. interest charged on overdue taxes.

Art. 13. To see if the town will appropriate two hundred dollars to Post 121, Grand Army of the Republic, for the expenses of decorating the graves of deceased soldiers.

So appropriated.

Art. 14. "To see if the town will appropriate a sum not exceeding \$100, the same to be used by Camp John Cleary, No. 37, Legion of Spanish War Veterans, for the decoration of graves of deceased soldiers and for the necessary improvements of cemetery lot."

\$100 appropriated.

Art. 15. To see what sum of money the town will appropriate for the celebration of the Fourth of July next.

Indefinitely postponed.

Art. 16. To see if the town will authorize its selectmen to contract with the Hyde Park Electric Light Co. or the Dedham and Hyde Park Gas and Electric Light Co. for street lights to be placed as follows: one arc light on Stark Avenue, and not exceeding three gas or incandescent lights on Lexington Avenue.

Authorized to contract with said Electric Light Co. for one arc light on Stark Avenue; and with said Electric Light Co. or said Gas Co. for two gas or incandescent lights on Lexington Avenue.

Art. 17. To see if the town will appropriate a sum of money sufficient to pay the incidental expenses of the town incurred during the last municipal year, and now unpaid.

Indefinitely postponed.

Art. 18. "To see if the town will appropriate a sum not exceeding \$1,000 for the purpose of dredging and cleaning out Stony Brook in the Clarendon Hills section, from a point near Metropolitan Avenue to the Boston line.

\$1,000 so appropriated.

Art. 19. To appropriate money for suppressing the Gypsy and Brown Tail Moths.

\$2,000 so appropriated.

Art. 20. To hear the report of the selectmen laying out Massasoit Street as a public town way, and to see if the town will accept and allow the laying out of said way, with the several boundaries and measurements of said way, as shown by report, plan and profile, now on file in the town clerk's office, and appropriate money to build said street.

Report made and "layout" accepted. \$600 from money now in treasury, on account of "Fire Hydrant Service," appropriated to build said street.

Art. 21. To appropriate money for the payment of bonds and notes maturing, and for interest due, the current municipal year.

\$9,262.81 appropriated for this purpose, and to be taken from money in the treasury, or to be collected, and not otherwise appropriated.

Art. 22. To see what amount the town will vote to raise by taxation to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the current year the sum of one hundred and sixty thousand, five hundred and eighty-five dollars (\$160,585) and to appropriate the same as follows:

Schools:

Salaries and Fuel	\$45,800	
Incidentals	6,000	
Text Books and Supplies	4,000	
Evening Schools	1,300	
Manual Training Schools	500	
	<hr/>	\$57,600
Highways	20,000	
Street Watering	4,500	
Street Lights	12,350	
Collection of Ashes and Garbage	5,000	
Incidentals	10,000	
Police	15,000	
Fire Department	12,600	
Overseers of Poor	8,000	
Public Library	4,000	
Board of Health	1,675	
Salaries	6,260	
Post 121, G. A. R.	200	

Camp Cleary, No. 37, Spanish War Veterans	100
Tree Warden Department	300
Suppressing Gypsy and Brown Tail Moths	2,000
Cleaning Stony Brook, Clarendon Hills	1,000
	<hr/>
	\$160,585

Art. 23. To see what amount the town will authorize its treasurer to borrow, in anticipation of the tax to be levied the current year.

Not exceeding \$125,000.

Art. 24. "To see if the town will vote to choose by ballot at the next annual meeting, a Board of Assessors, consisting of three persons, to serve, one for the term of three years, one for the term of two years, and one for the term of one year, beginning with the day following such election, and thereafter at its annual town meeting choose, in the same manner, one person who shall hold office for three years."

Indefinitely postponed.

Art. 25. To hear the report of any outstanding committee, and act thereon.

Report of committee on "Damon School House site" presented and "laid on the table" till next Wednesday evening. The report of the committee on by-laws was presented and consideration thereof postponed to "next Wednesday evening." (See report of adjourned meeting after Article 27.)

Art. 26. "To see if the town will vote to change the name of that portion of Milton Street running westerly from Hyde Park Avenue, to West Milton Street, and that portion running easterly from Hyde Park Avenue, to East Milton Street."

Voted to so change these names.

Art. 27. "To see if the town will appoint a committee to wait upon the president of the N. Y., N. H. & H. R. R. and

request that a new and more suitable depot be constructed in place of the present Hyde Park station on the Providence division of the said railroad."

The moderator appointed as this committee: Messrs. Edwin C. Jenney, James E. Cotter, Henry S. Bunton, George H. Rausch, David W. Murray, Charles Sturtevant, Wilbur H. Powers, James E. Sheridan, Samuel A. Tuttle and George Miles, and this committee have "power and right" to add to this number "the presidents of the various Improvement Societies, or other officers or committees appointed by said societies; the president of the Business Men's Association or other officers or committee appointed by said association; together with any other citizens, town officers, or representatives of organizations in the town who, in the opinion of the aforesaid committee, will aid in the accomplishment of the purpose of this article."

ON WEDNESDAY EVENING, APRIL 4, 1906 (at the adjournment of the meeting of Mar. 28), the report of the committee on a "Damon School House site," was taken up and, after much discussion, it was voted "to accept this report and indefinitely postpone further consideration." The report of the Committee on by-laws was taken up and several amendments to the by-laws proposed by this committee were made. It was then voted that the by-laws proposed by this committee as amended at this meeting, be accepted by the town. (Adjourned.)

November 6, 1906. The annual election of State, District and County officers was held in Wavely Hall. No other business was transacted.

The polls were opened at 6 o'clock a.m., and closed at sunset.

Total number of ballots cast was 2,157.

The number of votes received for the various candidates was as follows:

For Governor:

Gamaliel Bradford, State Government Reform	10
James F. Carey, Socialist	64
William H. Carroll, Socialist Labor	7
Curtis Guild, Jr., Republican	1130

Blanks	198

District Attorney (Southeastern District):

Thomas E. Grover, Democratic, Republican	1577
John McCarty, Socialist	214
Blanks and "Scattering"	366

December 26, 1906. A town meeting was held in Waverly Hall, when the following articles were acted upon:

Article 1. To see if the town will make an additional appropriation to complete the Glenwood Avenue foot bridge, across the Neponset river.

\$139.22 appropriated therefor (by transfer from appropriation for Glenwood Ave.)

Art. 2. To hear the several reports of the selectmen laying out Lexington Avenue, Mason Street, Huntington Avenue, Providence Street, Norton Street and Glenwood Avenue as public town ways, and to see if the town will accept and allow the laying out of any or all of said ways with the several boundaries and measurements of said ways as shown

by reports, plans and profiles now on file in the town clerk's office, and appropriate money to build any or all of said ways.

All the above named Streets and Avenues were accepted, and appropriations for construction made as follows:

Lexington Avenue	\$ 610
Mason Street	380
Huntington Avenue	2,100
Providence Street	225
Norton Street	700
Glenwood Avenue	600

All these sums to be raised by taxation next year.

Art. 3. To hear the report of the selectmen altering Oak Street, a public town way, and to see if the town will accept and allow the alteration of said way, with the several boundaries and measurements of said way, as shown by report and plan now on file in the town clerk's office, and appropriate money to make such alteration.

Alteration of Oak Street accepted, and \$85.00 appropriated to make change (from next year's tax levy.)

Art. 4. To see if the town will vote to build a street on its own land, to connect Sunnyside Street with Charles Street, and appropriate money to build same, and also to name said connecting street.

Voted to build this street and \$190.55 appropriated therefor, the same to be taken as follows: \$105.21 from balance of appropriation for Massasoit Street, and \$85.34 from balance from appropriation for Damon Street.

Art. 5. To see if the town will vote to issue any bonds for the purpose of procuring a site for a fire engine house and erecting a fire engine house thereon and to take any action regarding such bonds; the said bonds to be in lieu of

the \$32,500 fire engine house loan bonds referred to in a vote of the town passed January 31, 1906.

Voted to issue 4 per cent. bonds to the amount of \$32,500 for this purpose, to be paid in annual payments in years 1908 to 1927 inclusive. The authority conferred by vote of January 31, 1906, to issue bonds for this purpose is rescinded.

Art. 6. "To appropriate money for the construction of a main drain and catch basin in and near Readville Street, and for the drainage of said street and adjacent territory."

\$900 appropriated therefor, the same to be taken from appropriation for repairs on police station.

Art. 7. To see what compensation the town will vote to pay the secretary of the board of assessors for the current municipal year.

\$250 appropriated therefor, the same to be taken from appropriation for fire hydrant service.

Art. 8. To see if the town will make an appropriation to be used by the Engineering department in making plans for the use of the assessors.

\$500 appropriated therefor, the same to be taken from appropriation for fire hydrant service.

Art. 9. To appropriate money to pay the expenses incident to the settlement of the claim for loss by fire on the Grew schoolhouse building, and for repairs and alterations in said building.

The amount of \$5,193.00, which the town received from the insurance companies in settlement of the loss by fire on this building, appropriated therefor.

Art. 10. To appropriate money for suppressing the Gypsy and Brown Tail Moths.

\$1,500 appropriated therefor, the same to be taken as follows: \$575.76 from fire hydrant service appropriation; \$92.38 from Milton Street drain appropriation; \$731.85 from Stony Brook appropriation;

\$84.94 from corporation and bank taxes of 1905-06; and \$15.07 from amount received as fines in criminal cases.

Art. 11. To see if the town will authorize its selectmen to contract with the Hyde Park Electric Light Co. or the Dedham and Hyde Park Gas and Electric Light Co. for incandescent street-lights to be placed as follows: two on Osceola Street; one on corner of Sanford Avenue and Manilla Street; one on Norton Street; one on corner of Hamilton and Irving Streets; four on Greenwood Square; one on Massasoit Street; three on Mattakeeset Street; and two on Hale Street: for gas or incandescent street-lights to be placed as follows; one on Summer Street; one on Davidson Street; and one on corner of Thatcher Street and Huntington Avenue; one on Hyde Park Avenue, near Anderson's Greenhouse: and for gas street-lights to be placed as follows; one on West River Street near Cleveland Street; one on East River Street between Arlington and West Streets; one on Central Avenue between Arlington and West Street; one on Hyde Park Avenue between Dell Avenue and Webster Street; and one on Huntington Avenue between Collins and Thatcher Streets.

The Selectmen were authorized to contract for all these street lights.

Art. 12. To hear the report of the Committee appointed March 29, 1905, to consider the subject of a "water supply" for the town, to act thereon and to take such further action in said premises as the town may deem proper.

The report of this committee was accepted and placed on file. (It is the same as heretofore printed and distributed.)

Art. 13. To see if the town will vote to purchase the franchise, corporate property, and all the rights and privileges of the Hyde Park Water Company, in accordance with the provisions of Chapter ninety-one (91) of the Acts and Re-

solves passed by the General Court of Massachusetts in the year 1884, and any and all Acts in addition to and in amendment of the same.

Voted to purchase the franchise, property and rights of the Hyde Park Water Co. as set forth in this article. Yes, 231; No, 12.

Art. 14. In case the town, under Article 13, by a two-thirds vote, assents to said purchase, then to see if the town will appoint a committee to confer with the Hyde Park Water Company for the purpose of ascertaining a price which may be mutually agreed upon between said corporation and this town for the purchase aforesaid, this committee to report their findings to the town at a future meeting.

Messrs. Edwin C. Jenney, Alfred L. Lovejoy, Lester P. Winchenbaugh, Franklin C. Graham, John O'Connell, Robert B. Martin and William B. Kollock were appointed by the moderator a committee under this article.

Art. 15. To see if the town will make an additional appropriation for the completion of the new fire engine house.

\$1,000 appropriated therefor, the same to be taken from the proceeds of bonds issued, Art. 5.

Art. 16. To appropriate money for furniture and fixtures for the new engine house.

\$500 appropriated therefor, the same to be taken from money in the treasury, not otherwise appropriated.

Art. 17. To appropriate money for additional electrical apparatus for the use of the fire department.

\$3,500 appropriated therefor, to be taken from money in the treasury, not otherwise appropriated.

Art. 18. To make an additional appropriation for the highway department.

\$3,000 appropriated therefor, to be taken from corporation and

bank taxes for 1905-06. (This is made necessary on account of replanking Sprague Street bridge.)

Art. 19. To see if the town will appropriate a sum not exceeding \$300 to be expended by the School Committee for the employment of School Physicians, as authorized by Chapter 502 of the Acts of the Legislature of the present year.

\$50 was appropriated therefor, the same to be taken from next year's tax levy.

Art. 20. "To see if the town will appropriate a sum not exceeding \$650 to pay for repairs, and installing sanitaries in the Damon School Building."

\$650 appropriated therefor, the same to be taken from money received from fines in criminal cases.

Art. 21. To see if the town will appropriate money for insurance on its public buildings.

\$1,000 appropriated therefor, to be taken from money received from fines in criminal cases.

Art. 22. To hear the report of any outstanding committee, and act thereon.

Edwin C. Jenney, Esq., for the committee on "new depot" made an oral "report of progress."

Art. 23. To see if the town will appoint a committee to consider the question of street lighting.

The moderator appointed Messrs. William D. Preston, James E. Sheridan, Thomas E. Faunce, Henry F. Arnold, Charles F. Spear, John P. Rattigan and Charles L. Alden a committee under this article.

Art. 24. To see if the town will appoint a committee to consider the subject of a municipal building for the use of the town.

The moderator appointed Messrs. Edwin C. Jenney, Alonzo W.

Dunbar, Charles F. Morrison, Stillman E. Newell, Henry B. Miner, John W. Griffin and William B. Foster a committee under this article.

Art. 25. To see if the town will appoint a committee to revise the by-laws of the town.

Indefinitely postponed.

Art. 26. To see if the town will appoint a committee to consider the question of relocating the town's "stone crushing plant."

The moderator appointed Messrs. John Johnston, James D. Grant, Harry E. Astley, Edwin E. Bartlett and William H. Harlow a committee under this article.

Art. 27. "To see what action the town will take toward appointing a committee to consider the purchase and putting in proper condition for play-grounds a suitable lot or lots of land within the town limits."

The moderator appointed Messrs. David W. Murray, John J. Enneking, John F. Elliott, Albert E. Bradley, J. King Knight, William F. McIntyre and Charles F. Spear a committee under this article.

Art. 28. To see if the town will vote to sell its land on Thatcher Street.

Indefinitely postponed.

Art. 29. To see if the town will vote to sell its land on Neponset Avenue.

The Selectmen were authorized to sell this land at public or private sale.

(A vote of thanks was given the "Advisory Committee" for the very satisfactory presentation, in print, of their recommendations under each article of the warrant for this meeting.)

Adjourned at 11.05 P. M.

TOWN CLERK'S REPORT.

Number of births registered in Hyde Park in 1906.....403

(This number will be increased by returns to be made too late to be given when this report goes to the press.)

ANNUAL REPORT

OF THE

Board of Selectmen

TOWN ENGINEER,
SUPERINTENDENT OF STREETS
TOGETHER WITH THE JURY LIST

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING CO.
1907

ORGANIZATION OF THE BOARD OF SELECTMEN

1906-1907

EDWIN C. JENNEY, Chairman.

JOHN JOHNSTON.

WILLIAM D. PRESTON.

JAMES D. GRANT.

ALFRED L. LOVEJOY.

HARRY J. WEST, Secretary.

SELECTMEN'S REPORT.

To the Citizens of Hyde Park:

Your Board of Selectmen, as required by law, submit their annual report for the fiscal year ending January 31, 1907.

FINANCIAL CONDITION OF THE TOWN.

The funded debt of the town January 31, 1906, outside of fixed Metropolitan and Grade Crossing charges, was as follows:

Sewerage Loan	\$172,000.00
Public Library Building Loan	13,000.00
High School Building Loan	48,000.00
Trescott School Building Loan	13,000.00
High School Furniture and Furnishings Loan	3,000.00
<hr/>	
Total as above described	\$249,000.00

During the past year \$15,000 of the above amount has been paid on the maturity of fixed annual payments.

The funded debt of the town January 31, 1907 (not including Metropolitan and Grade Crossing charges), is as follows:

Sewerage Loan	\$163,000.00
Public Library Building Loan	12,000.00
High School Building Loan	45,000.00
Trescott School Building Loan	12,000.00
High School Furniture and Furnishings Loan	2,000.00
<hr/>	
Total funded debt January 31, 1907	\$234,000.00

During the year the Town Treasurer, under authority of vote of the town June 22, 1898, borrowed for the benefit of the sewer works the sum of \$5,000. This is in anticipation of the issue of bonds, authorized by the Act of the Legislature for the year 1898.

The Town Treasurer has borrowed \$25,000 in anticipation of the collection of the amount of the tax levy for 1906, which remains unpaid.

The bond issue, to finance the loan authorized for the payment of the new Central Fire Station, was not sold during the year. This fact is responsible for the Treasurer being unable to pay the temporary loans of the town; about \$20,000 has been paid from treasury funds to meet the obligations of the town on account of the new Central Fire Station.

We herewith submit, for general information, a Table of Town Valuations, our annual tax rate, expenses, and the town debt from our incorporation, 1868, to February 1, 1907.

Year	Total Valuation May 1st	Rate of Tax on \$1000	Year	Expenditures Ending Jan. 31st	Year Debt Jan. 15—31st,

BOUNDARY LINE BETWEEN BOSTON AND HYDE PARK.

The undersigned, Edwin C. Jenney, John Johnston, Alfred L. Lovejoy and James D. Grant, Selectmen of the Town of Hyde Park, and Daniel A. Whelton and Francis R. Bangs, Aldermen, Edward J. Donovan, City Clerk, William Jackson, City Engineer, and Frank O. Whitney, Chief Surveyor, authorized substitute for Alderman William Berwin, severally thereto duly authorized by the Board of Aldermen of the City of Boston, met on the twenty-eighth day of June, 1906, and examined the lines and established the boundary marks between said town and city, which are described as follows:

Beginning at a point in the centre of the channel of Neponset River, in the boundary line between the Towns of

Hyde Park and Milton, where the boundary line hereinafter described, running through a stone monument standing on the northwesterly side of River St. and a stone monument standing on the northwesterly bank of said river, extended southeasterly, would intersect the centre of the channel of said river; thence running in a northwesterly direction through said stone monument, marked B and H P, standing on the northwesterly bank of said river to said stone monument marked B and H P, standing on the northwesterly side of River St., thence continuing in the same direction, crossing the New England Railroad at a point about one thousand four hundred (1,400) feet northeasterly from the northeasterly side of River Street bridge to a stone monument, marked B and H P, standing on the southeasterly side of Harvard (formerly Back) St., in Boston and Wood Ave. in Hyde Park; thence continuing in the same direction to a stone monument, marked B, H P and W R, standing on the northwesterly side of said Harvard St., being the junction point of the former boundary lines between the City of Boston and the Towns of Hyde Park and West Roxbury; thence continuing northwesterly to a stone monument marked B and H P, standing on land now or formerly of Elsie B. and W. Richards 125 feet southwest from the southwesterly line of Ashland St.; thence continuing northwesterly parallel with and 125 feet from the southwesterly line of said Ashland St. about 675 feet to a stone monument, marked B and H P; thence continuing northwesterly parallel with and 125 feet from the southwesterly line of said Ashland St. about 263 feet to a stone monument, marked B and H P; thence turning and running southwesterly to a stone monument marked B and H P, standing on the northwesterly side of Hyde Park Ave., thence continuing southwesterly, crossing the Boston & Providence division of the New York, New Haven & Hartford Railroad, to a stone monument, marked B and H P, standing on the southwester-

ly side of Metropolitan Ave., thence continuing southwesterly, crossing Dale St. and running through a stone monument, marked B and H P, standing on the southwesterly side of said Dale St. to a stone monument, marked B and H P, standing in the wall near the top of the hill known as Clapboard Hill or Mt. Monterey; thence continuing southwesterly to a stone monument, marked B and H P, standing on the easterly side of the street known as Poplar St. in Boston and West St. in Hyde Park; thence continuing southwesterly to a stone monument, marked B & H P, standing in the low ground east of and near a cross wall; thence continuing southwesterly to a stone monument, marked B and H P, standing on the Muddy pond dam; thence continuing southwesterly to a stone monument, marked B and H P, standing on high ground; thence continuing southwesterly to a stone monument, marked B and H P, standing on the easterly side of a cart path leading to Muddy pond; thence continuing southwesterly across a swamp to a stone monument, marked B, H P, and D, standing at the side of a cemetery fence, said monument forming the junction point of the boundary lines between the City of Boston and the Town of Hyde Park and Dedham, east of and near the village known as Germantown.

EDWIN C. JENNEY,
JOHN JOHNSTON,
ALFRED L. LOVEJOY,
JAMES D. GRANT,
DANIEL A. WHELTON,
FRANCIS R. BANGS,
EDWARD J. DONOVAN,
WILLIAM JACKSON,
FRANK O. WHITNEY.

TOWN ACCOUNTANT.

In accordance with the by-laws now in force in this town the Selectmen appointed in January, Arthur T. Byrnes, Town Accountant, at a salary of five hundred dollars per annum. As our financial year begins February 1st, it was thought advisable that work under this office should begin at that time. Mr. Byrnes accepted the appointment and will discharge the duties of the office in accordance with the town by-laws on and after the above date.

ADVISORY COMMITTEE.

In accordance with the by-laws adopted by the town and approved by the Attorney-General during the past year, the Town Moderator, upon the recommendation of the town committees, appointed the annual Advisory Committee. They have discharged their duties, and their report to the town will be found in another part of this report.

HIGHWAY DEPARTMENT.

Mr. Arthur T. Rogers, as Superintendent of Streets, has been in charge of this department during the year. Clarence G. Norris, Town Engineer, has had a general supervision over the work covered by this department.

We refer our citizens to the detailed report of the Superintendent of Streets and the Town Engineer for the amount of work performed during the past municipal year.

NEW STREETS.

The streets hereinafter named were recommended to be laid out by our Board during the year. We reported our action to the town, and the same were accepted as public ways, at the town meeting held December 26, 1906.

We have not entered upon any of the new streets for the purpose of construction, with the exception of Mason St. where we merely remedied the condition of the drainage. The work upon these new streets, will, in all probability, be commenced by the Board of Selectmen at an early date.

The following is a list of the streets accepted and the appropriations therefor:

Lexington Avenue	\$610
Mason Street	380
Glenwood Avenue	600
Norton Street	700
Providence Street	225
Huntington Avenue between Collins Street and the Boston line, 2,100	

The town at the meeting on December 26th, as aforesaid, accepted and allowed the alteration of Oak St. near its intersection with Hyde Park Ave.

At said town meeting the town voted to build a street upon its own land, connecting Sunnyside St. with Charles St. and appropriated \$195 therefor.

During the year we have constructed the following streets within the appropriations originally authorized, as shown in another part of this report. These streets were accepted as public ways by the town.

East Glenwood Avenue	\$275
Massasoit Street	600

GLENWOOD AVENUE FOOT BRIDGE.

In the last few annual reports the Glenwood Avenue bridge has been the subject of much comment. At the present time we have to report that the railroad has entered upon the execution of its part of the work; and from pres-

ent indications this foot bridge across the Railroad and the Neponset River will be open for public travel early in the spring.

READVILLE STREET DRAIN.

During the year the Board of Health adjudicated that the land adjacent to Readville Street was a nuisance and requested our Board to take the necessary steps to have the same abated. At the town meeting held December 26, 1906, a proper article was placed in the warrant for this purpose and the town appropriated \$900 therefor. The Board of Selectmen for next year will take the matter up and cause the same to be constructed in accordance with the vote of the town.

STREET LIGHTING.

The ten-year contract between the Town of Hyde Park and the Hyde Park Electric Light Company expires Jan. 8, 1908. The town, at the special town meeting held December 26th, appointed a sub-committee to consider the question of our municipal lighting on and after the expiration of the present contract; and the town will await their report with much interest.

We have installed in our town at the present time under contract with the Electric Light Company and by contract with the Gas Company, the following lights:

Arc Lights, 2,000 candle power	144
Ordinary Incandescent Lights	117
All-Night Incandescent Lights	10
All-Night Gas Lights	37

The town pays for thirty-five gas lights; two are given by the company to the town.

At the town meeting held December 26, 1906, the town

authorized the location of twenty-four additional gas or incandescent lights in various parts of our town. These lights will be located by the Board of Selectmen as soon as the weather permits.

ASSESSORS' PLANS.

The Board of Selectmen for the year 1904 authorized the Town Engineer to make certain surveys of the town for the purpose of aiding our assessors in determining accurately the contents of certain sections or areas of our town. The result of this work demonstrated so clearly its usefulness and great aid in properly assessing property, that we feel it should be continued in all sections of the town. The matter has been brought forward at the present time by the assessors and others who have considered the matter, and at the town meeting held December 26, 1906, the town appropriated the sum of five hundred (500) dollars to be used by the Engineering Department to continue the work of making assessors' plans of our town. We trust each year the town will be called upon to make appropriations for this purpose.

SEWER DEPARTMENT.

Immediately after election we reappointed Clarence G. Norris Town Engineer and placed him in charge of the Sewer Department. In another part of this report will be found the report of the Town Engineer, to which we respectfully refer our citizens for the work of this department; together with work in relation to highways, bridges and streets, which is under the general supervision of the Town Engineer.

INSURANCE.

For some years past the Board of Selectmen have placed

all town insurance upon public property, with the exception of the Public Library and its contents. Upon the consideration of the amount of the insurance carried by the town upon our public buildings, and particularly school houses, we discovered that a serious question might be raised as to whether the town was carrying the proper amount of insurance under the forms of the policies in force (90 per cent. of their value).

We caused an appraisal to be made of various public buildings and their contents and appointed as appraisers Charles Haley of this town and Henry F. Ross of Newton, both being men of large experience in this line of work. As a result of this appraisal the Selectmen placed \$45,000 additional insurance upon the town property so as to protect the town's rights in case of loss under the co-insurance clause in our contracts.

In May, 1907, the insurance on our school houses, amounting to \$176,700, expires, and it will be necessary for the town to make an appropriation for this purpose at the next appropriation meeting.

FIRE DEPARTMENT.

We reappointed the present Engineers of the Fire Department as follows: John H. Wetherbee, John C. McDougald and Frank Kunkel. In accordance with law the Engineers duly organized, with the choice of John H. Wetherbee as Chief. During the year the town, by a special committee, has nearly completed a new engine house for a Central Fire Station, the same is located on Harvard Avenue at the corner of Winthrop Street. In all probability the new building will be dedicated to public use prior to the organization of the new board of engineers.

JURY LIST.

As required by law we herewith present to the citizens of this town our selection of jurors for submission to our next annual appropriation meeting.

INSPECTOR OF BUILDINGS.

We appointed Edward A. Hawley Inspector of Buildings for the year ending May 1st, 1907, at a salary of \$100 per annum. We refer our citizens to his report for the detailed workings of this department.

POLICE DEPARTMENT.

Jason W. Butters served the town as Chief of Police up to the time of his resignation, December 22, 1906. We placed Robert E. Grant in charge of the department at the time of Mr. Butters' resignation. In another part of this report will be found the report of Lieut. Grant, as acting Chief of Police, for the past municipal year, to which report reference is hereby made for the work of this department.

ACTIONS AT LAW.

The petition for the abolition of the grade crossings at Fairmount Avenue and Bridge Street is in the hands of the Commissioners. The hearings were closed early in December last, and the Commissioners advise that they have made the draft of their final decree and are waiting now for tracings of the final plans. We expect the decree will have been made before this report is distributed. The town plan for Bridge Street was finally adopted.

The suit of George A. Tillson for injury said to have been

received by reason of an alleged defect in Hyde Park Avenue near Kennedy's Block, is still pending. This claim has not been pressed for several years, and it is believed that the same has practically been abandoned.

Owing to difficulties in settling the Report for the Supreme Judicial Court, in accordance with the proceedings in the Superior Court, in the cases of Mary D. Hammond and J. Forest Hammond, minors, against the town, fully described in previous town reports, these cases were not entered in the Supreme Judicial Court until the January sitting of this year, where the questions of law raised were argued on the 18th of that month.

The action of Ethel A. L. Smith, claiming damages for alleged wrongful exclusion from school during the prevalence of small-pox in town, is still pending, and nothing will be done concerning the same until the final decision of the cases of Mary D. Hammond and others, which are somewhat of the same character.

The Commissioners appointed to apportion the cost of the new bridge over Weymouth Fore River, between Quincy Point and North Weymouth, have reported, and their report has been confirmed. No direct assessment upon the Town of Hyde Park was made of any part of the expense.

The other actions pending against the town are as follows:—

Margaret McDermott, action to recover for an injury claimed to have been received by reason of an alleged defect in West Glenwood Avenue. The damages claimed are four thousand dollars. This action is still pending in the Superior Court for Norfolk County.

Willard Welch, action to recover three hundred dollars,

alleging that certain proceedings in the assessment and sale of property, for non-payment of taxes, were defective. This action is pending in the District Court for Northern Norfolk.

Town of Hyde Park against Henry S. Bunton, Trustee. This is a petition for the assessment of the damage caused to the respondent by the taking of land for the new engine house. The owner declined to name any price for the same, and this left no alternative but to file a petition for the determination of the value of the property. This case is pending in the Superior Court for Norfolk County, and is now on the trial list.

Louise Marston, Georgia M. Kelty, and the H. D. Cormerais Motor Car Company have brought actions against the town. Each claim two thousand dollars in damages, for an alleged defect in Hyde Park Avenue, in the method of construction of the culvert over Stony Brook at Clarendon Hills. These actions are also pending in the Superior Court for Norfolk County.

Suit has also been brought by Draxanner Fairbairn for an alleged defect in Hyde Park Avenue, at or near the corner of Walnut Street. Damages are claimed in four thousand dollars, and this action is also pending in the Superior Court for Norfolk County.

John A. Peterson has also brought suit against the town, claiming one thousand dollars damages, for an injury caused by falling into an excavation in New Damon Street, made by the contractor in building the sewer in that street. The contractor has been notified to defend the action. This action is also pending in the Superior Court for Suffolk County.

While nominally these actions aggregate a large amount,

it is not believed that the liability of the town, in any of them, is of a serious character.

EDWIN C. JENNEY,
JOHN JOHNSTON,
WILLIAM D. PRESTON,
JAMES D. GRANT,
ALFRED L. LOVEJOY,
Selectmen of Hyde Park.

January 31, 1907.

Jury List

As prepared by Selectmen as required by law, same to be submitted to the town for approval at the next annual appropriation meeting.

Name and Occupation.

Alden, Chas. L., contractor.
 Amback, Frank H., superintendent.
 Astley, Harry E., road master.
 Bass, George G., stenographer.
 Bates, Frank H., merchant.
 Bent, George W., manufacturer.
 Bidwell, Lawson Bennett, engineer.
 Blanchard, John C., Jr., salesman.
 Blantener, Robert B., machinist.
 Boardman, William Y. A., tool maker.
 Bonvie, Joseph, coachman.
 Bradley, Albert E., teacher.
 Brady, George T., sec. & treas. Co-operative Bank.
 Bridgman, Joseph C., manufacturer.
 Buck, Henry M., piano finisher.

REPORT OF THE TOWN ENGINEER.

To the Honorable Board of Selectmen.

Gentlemen: I herewith submit to your Board my report as Town Engineer for the year ending January 31, 1907.

MAIN SEWER CONSTRUCTION.

Main Sewer construction this year has consisted mainly in the extension of our existing mains and with the exception of the sewer in the Reddy District, were of comparatively short length and small sizes. No great difficulties have been encountered except in the Reddy District, where we had to cut our trench through large quantities of an extremely hard rock, and upon Warren Avenue and Elm Place where we unexpectedly encountered rock.

The Reddy District was probably the most needy district in town for sewer service and the fact that there have been 11 connections to the main sewer made from a total of 34 houses in this district or that 32 per cent. of the houses in this district where we have built sewers are connected to the main sewer, shows that the citizens living there appreciate the sewer service.

Sewer extensions have been made in Hyde Park Ave. from Westminster St. south to the summit man-hole, thereby completing the contract of Mr. Patrick H. Rooney of last year; in Westminster St., under a contract awarded to Mr. Patrick H. Rooney as lowest bidder, from a summit between Hyde Park Ave. and Providence St. to summit near Park St.; in Warren Ave. under a contract awarded to Mr. Thomas H. Corrigan as lowest bidder, from the intercepting sewer near the river easterly to near Beacon St.; in Bridge St.

under a contract awarded to Mr. Thomas H. Corrigan, from Easton Ave. easterly to the New England R. R. location; under contract awarded to Mr. Patrick H. Rooney, Fraser St. from Wood Ave. to Reddy Ave., E. River from near the Butler School to Rosa St., Reddy Ave. from E. River to its end and Rosa St. from E. River to its end; in Elm Place under contract with Mr. Thomas H. Corrigan, from Business St. to its end.

These extensions have all been completed and are in use, except Rosa St. which will be completed in the near future.

A contract has been awarded to Mr. Thomas N. Dwyer (whose bid was accepted from those of seven competing contractors) for the construction of the Sunnyside Main Sewer from Clarendon Hills through Metropolitan Ave., Providence St., across private land, Summer St. extension, West St., Austin St., Chestnut St., and Beaver St. to Gordon Ave. All arrangements have been made and this work will commence in the early spring and be pushed rapidly to completion.

A contract has been awarded to Mr. Patrick H. Rooney to construct a sewer from Milton Ave. through Pleasant St. to Metropolitan Ave., through an unnamed street from Pleasant St. to Beacon St., and in Beacon St. from Metropolitan Ave. to the Town Line, and work will be begun under this contract in the early spring.

Petitions have been received for the construction of sewers in Sunnyside St., Metropolitan Ave. near Hyde Park Ave., Metropolitan Ave. from Safford St. to Thatcher St. and through Thatcher St. to Hyde Park Ave., and for Linden St., and these petitions are still under consideration.

The cost of construction of the sewers built this year has been as follows:

Hyde Park Ave., \$452.03; Westminster St., \$513.36; Bridge St., \$245.37; Warren Ave., \$228.16; Elm Place, \$192.-

80; and Reddy Ave., Frazer St., E. River and a part of Rosa St., \$2,800.00.

The cost of maintenance this year is higher than ever before, owing to our having gone over the whole system, this last spring, and giving it a thorough inspection, the first it has had since it was built, and to troubles on the Easton Ave. line caused by the excess of sewage matter turned into this sewer over the water turned into it, causing the sewage to flow slowly and so soon block the pipes. I recommend that a flush tank be placed at the end of this line. We have also had four sewer connections stopped up owing in three cases to material turned into the sewer pipes which should never have been turned in, such as rags, egg shells, cans, broken crockery and the like, and one stoppage was caused by Elm tree roots.

TABLE OF SEWER MAINS CONSTRUCTED IN
THE YEAR ENDING JAN. 31, 1907.

STREET	FROM	TO	LENGTH FEET	SIZE	AVE. CUT FEET
Bridge Street...	Easton Avenue	N.Y. & N.E.R.R.	154	6	8.0
Elm Place	Business Street	End of Place...	167	6	5.0
E. River	Near Butler Sch	Rosa Street....	107	8	9.7

Westminster St.	H. P. Ave.....	Summit, West..	219	6	7.5

* Rosa Street not yet completed, but will be in near future.

Total length of sewer main built in 1906, 3,189 feet or 0.6 miles. Previously reported, 20.04 miles, or a total length of sewer mains on Jan. 31, 1907, of 21 miles.

Deepest cut in last year's work, 12 feet, on Rosa St.

Shallowest cut, 3.8 feet, on Elm Place.

HOUSE CONNECTIONS.

123 house connections were made during the year which receive sewerage from about 850 people, and have an aggregate length of 6,028 ft. Total number of house connections to date 1,018, with a total length of 51,732 ft., or 9.8 miles. The following table showing the number of houses and the number of houses connected to the sewers, within the sewered territory and by districts, may be of interest.

	Previous Houses	Report Conn.	Additions Houses Conn.		Total Houses	Conne- ctions
Central Dist	549	333	3	41	552	374

Total	\$9,973.94

Along the lines of sewer work, plans and takings have been made and filed for takings for sewer purposes, Providence St. from Metropolitan Ave. to just beyond West St., a portion of Summer St. extension, Elm Place and a piece of private land between Providence St. and Summer St. Plans, specifications and contracts have been worked up and drawn for all the new work built and for the contracts which are let but not started, as well as for the sections petitioned for and upon which no definite action has been taken.

HIGHWAY WORK.

Surface Water Drains: The surface water pipe drain at the junction of Pierce and Walter Sts. has been extended through Walter St. by a 12-inch pipe to E. River St., so as to take care of the surface water collecting at Davison and Walter Sts., and at E. River and Walter Sts. Another catch basin was put in at the corner of E. River St. and two new basins built at the corner of Davison and Walter Sts., and the question of taking care of the large quantities of water which gather at these two places seems to have been solved.

At the easterly junction of Maple and Oak Sts. four catch basins were built with the necessary pipe connections, and delivering the gathered water to the open gutter on Maple St. hill have done away with the wash and deep gutters at this junction point.

Two catch basins and connections, built in conjunction with the rebuilding of Central Ave. between Arlington and Westminster, have helped out this spot very materially.

Surveys, studies and plans have been made for piping surface water from the junction of Highland Street and Fairmount Avenue, down Fairmount Avenue to the river; for draining the water from the swale to the pipe drain at the corner of Readville and Knight Streets; and of Stony Brook to properly drain the lower end and to establish grade marks at Chestnut Street and at Gordon Avenue.

BRIDGES.

A contract for the furnishing and erecting of the steel work for the Glenwood Avenue foot-bridge over the Neponset river was awarded to the United Construction Co., of Albany, N. Y., and is in place ready to receive the plank floor as soon as the railroad bridge over the tracks is completed.

After an examination of the timbers of the Sprague Street Bridge, they were reported by this office as in an unsafe condition and this report was confirmed by the railroad officials after an examination, and following that the floor beams were gone over and the poor sticks replaced and all the timbers moved closer together. This work was done by the railroad men but at the same time the Town renewed the plank floor with a 3-inch hard pine floor.

At the No-name bridge the wearing planks were renewed and some of the under lay plank renewed, on the slope section of the bridge, and the same treatment will have to be given the level section in the early spring.

Glenwood Avenue bridge over Mother Brook should have been painted this year but bids for doing this work were received too late in the year and this work together with the replanking of the bridge will have to be done soon.

Surveys and estimates were made for a proposed bridge across the Neponset River at Holmfield.

STREET WORK.

Surveys have been made and lines and grades run out and established for Massasoit Street, Central Avenue, between Arlington and Westminster Street, Milton Avenue from the Dedham line to about opposite McBride's house, E. Glenwood Avenue, Maple and Oak and upon portions of E. River and W. River Streets. Grades were established for laying the street railway girder rails from Arlington Street to the Boston line on E. River Street and from Arlington Street to Clarendon Hills Square on Hyde Park Avenue.

Surveys, plans and estimates of cost of construction have been made for acceptance of Huntington Avenue near the Boston line, Norton Street, Lexington Avenue, E. Glenwood Avenue from Hyde Park Avenue to the N. Y., N. H. & H. R. R. location, Mason Street, Providence Street be-

tween Arlington Street and Westminster Street, Oak Street, near Hyde Park Avenue, and an un-named street between Sunnyside Street and Charles Street.

INCIDENTAL WORK.

Surveys and plans have been made in connection with the proposed annexation of a part of Dedham, proposed relocation of the Damon School, Grade Crossing Eliminations, lines and grades at the new Central Fire Station and numerous plans and estimates for the help of various Town Committees.

Respectfully submitted,

CLARENCE G. NORRIS,
Town Engineer.

REPORT of the SUPERINTENDENT of STREETS

To the Honorable Board of Selectmen.

Gentlemen: I herewith submit the following as my report as Superintendent of Streets for the year ending January 31, 1907.

Street Work:—In the line of macadam work there were built during the year as follows, 4,156 square yards of Milton Street, 1,890 square yards of Fairmount Avenue, and 1,840 square yards of Central Avenue and we rebuilt with stone 2,400 square yards of Washington and Summit Streets, 6,350 square yards of Hyde Park Avenue, 5,600 square yards of E. River Street, and 900 square yards of Everett Street making a total of 7,886 square yards of macadam built and 15,250 square yards rebuilt.

In gravel work 2,400 square yards of Massasoit Street and 1,200 square yards of Glenwood Avenue were built and 12,000 square yards of West and Austin Streets, 900 square yards of Maple Street and 13,500 square yards of Wood Avenue were rebuilt with gravel, making a total of 3,600 square yards of gravel built road and 26,400 square yards of gravel resurfacing.

Edgestone:—There has been set of edgestone during the year as follows: 750 feet on Central Avenue, 36 feet on Davison Street, 58 on W. River Street, 234 feet on E. River Street, 61 feet on Business Street, 26 feet on Harvard Avenue, 26 feet on Glenwood Avenue, 36 feet on Prescott Street, 36 feet on Neponset Avenue, 16 feet on Walnut Street, 28 feet at Central and Webster Streets, and 36 feet on Dana Avenue and we have reset 138 feet at Beacon and Metropolitan Avenue, 400 feet on E. River Street, 50 feet on Everett Street, 12 feet on Williams Avenue, 20 feet on

Harvard Avenue and 12 feet on Pine St., making a total of 1,343 feet of edgestone set and 632 feet reset during the year.

Paving:—We have paved in lineal feet of gutter during the last year as follows: 20 feet on Maple Street, 590 feet on Fairmount Avenue, 112 feet on Prospect Street, 494 feet on Williams Avenue, 231 feet on Business Street, 166 feet on Central Avenue, 30 feet on Hyde Park Avenue and 108 feet on Walter St. and we have repaved 24 feet on Maple Street, 18 feet on Fairmount Avenue, and 80 feet on Everett Street, making a total of 1,751 lineal feet paved and 122 lineal feet repaved.

Street Cleaning:—The cleaning of the streets during the past year cost \$4,000.00 and there were removed 423 double loads and 3,763 single loads of refuse from the streets or about 3,135 cubic yards.

Snow and Ice:—The removal of snow and ice cost us \$1,043.49.

Fences:—We have constructed during the year about 164 feet of fence and repaired about 200 feet.

Street Openings:—128 Permits were issued during the year allowing various parties and corporations to open up our streets.

Bridge Repairs:—The cost of repairs made to the various bridges in town has been \$3,481.36.

Stone Crusher:—We have expended at the crushing plant during the year \$4,304.97 and have crushed 4,011 tons of stone.

Cross-Walks:—We have put down during the year in lineal feet of cross-walks as follows: at Water Street and Williams Avenue 26 feet, at Central Avenue and Lincoln Street 26 feet, at Gordon Avenue 26 feet, at Glenwood Avenue 35 feet, at Maple Street and Oak Street 75 feet, on Hyde Park Avenue 34 feet, on Beacon Street 26 feet, at Lincoln Street and E. River Street 28 feet, on Readville

Street 26 feet, at Ellis Street and E. River Street 26 feet, on E. River Street 68 feet, at E. River and Walter Street 26 feet, and on Milton Street 30 feet, a total of 452 feet of cross-walks put down.

Street Watering:—Three new water cranes have been erected, one at Cleveland Street near Beaver Street, one at Metropolitan Avenue near Beacon Street and one on W. River Street near Stark Avenue and one crane has been removed from Wolcott Square and replaced on Wolcott Court. The first watering of the streets this year was done on April 9 and it continued until November 25.

Ashes and Garbage:—During the year we have collected 4,613 loads of ashes at a cost of about 51 cents per load. There were collected by the town teams 6,540 cans of swill at a gross cost of collecting of about 21 cents per can, and it is estimated that the private contractor who collects the swill in one portion of the town, collected 3,000 cans.

Catch Basins:—There have been built during the year 11 new catch basins as follows: 4 at Maple Street and Oak Street, 3 on Walter Street, 1 on Neponset Avenue, 2 on Central Avenue and 1 on Mason Street and 4 catch basins have been rebuilt, namely: 2 on Williams Avenue, 1 on Hyde Park Avenue and 1 on Webster Street. The total number of catch basins in town at the present time is 92 and there was removed from these basins last year 286 single and 40 double loads material.

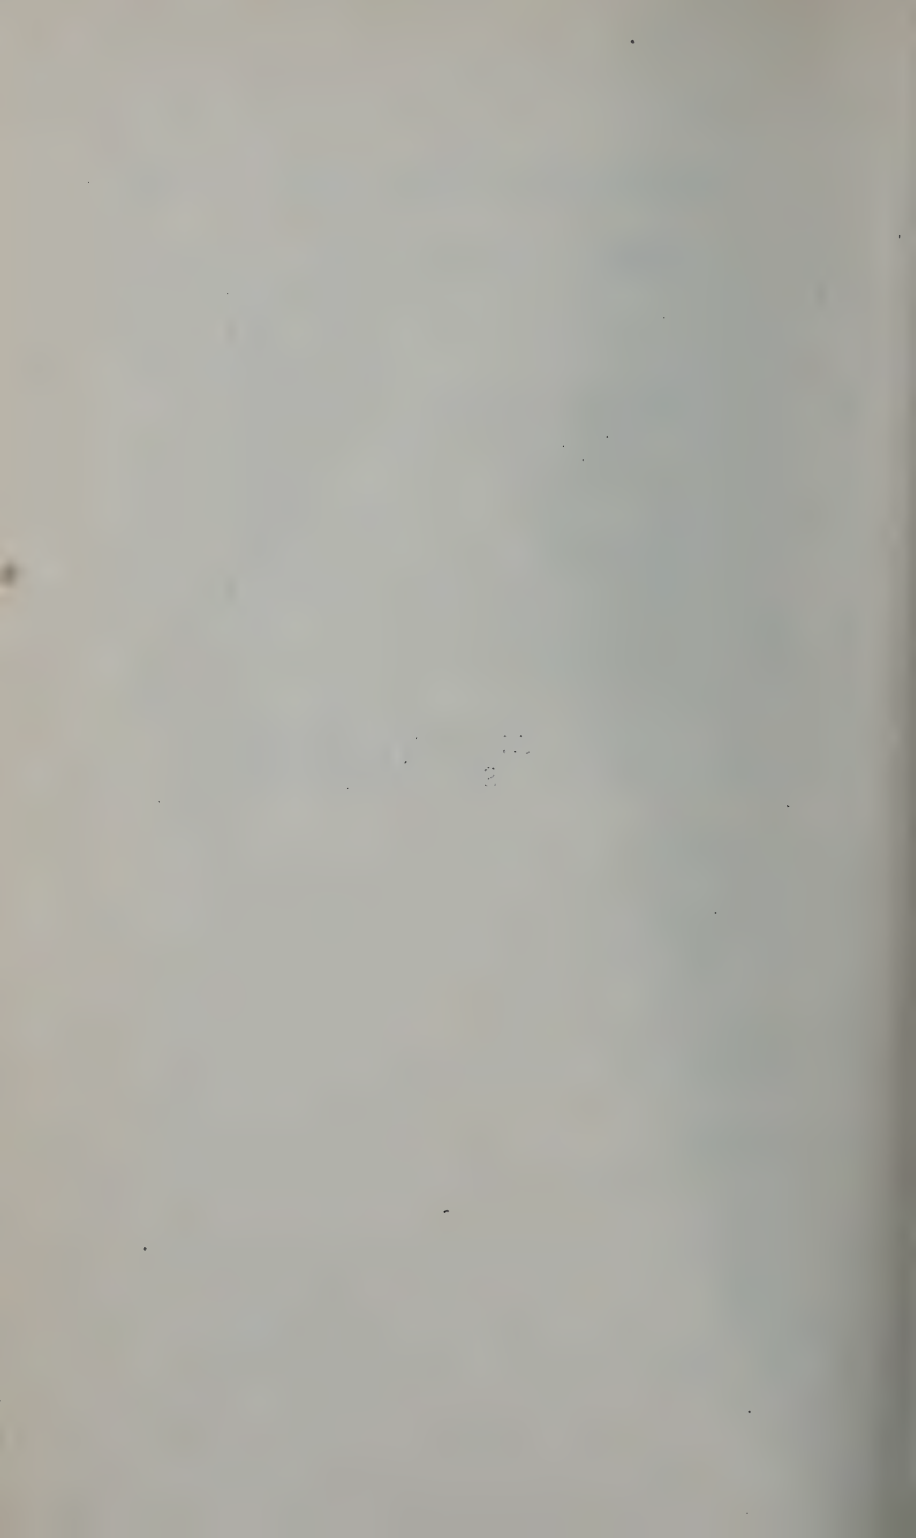

Sidewalks:—During the year there were about 11,000 feet of sidewalk built and 2,000 feet resurfaced.

Partial statement of cost of work done on the streets.

Catch Basins	\$ 553.11
Central Avenue	1,613.36
East River Street, Repairs	\$1,416.90
Edge stone	289.22

ARTHUR T. ROGERS,
Superintendent of Streets.

ANNUAL REPORT

OF THE

ENGINEERS OF THE FIRE DEPARTMENT

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING CO.
1907

REPORT OF THE ENGINEERS OF THE FIRE DEPARTMENT.

Hyde Park, Mass., January 31, 1907.

To the Honorable Board of Selectmen.

Gentlemen: The Board of Engineers herewith present their annual report for the year ending January 31st, 1907.

There have been about the same number of alarms as usual, but no serious fires during the year.

With our new Central Station nearing completion, our only house needing repairs is the one at Readville, which should be changed to accommodate two horses and the wagon purchased this year. The apparatus is in good condition, and with the exception of new ladders for the truck, should require only ordinary repairs for the current year.

The most serious defect in the department is in not having a sufficient number of permanent men. The town is largely dependent on call men and as they are employed in different pursuits to earn a livelihood, the department must, of course, be given second consideration by them. For this reason at the start of a fire there are times when the force of men is insufficient. This may prove a serious matter; so far, however, the town has been fortunate in not having any conflagrations, but this we attribute to the timely discovery of the fires, the good work done by the permanent force and the exceptional interest taken by the call men. We hope the town will see its way clear to increase the appropriation sufficiently to increase the permanent force, so that when an alarm is sounded we can count on a sufficient number to man the apparatus in a proper manner.

The Department has responded to 101 alarms during the

past year, 49 bell, 52 still; 8 "no school," 1 false, 1 in Milton and 2 in Dedham. We have traveled 750 miles, laid 16,000 feet of hose, 14,500 feet of chemical hose, raised 3,200 feet of ladders, used 6,000 gallons of chemicals. At 55 fires we have used the Chemical Engine only.

The causes of the alarms are as follows:

Plumbers thawing pipes	3
Burning soot in chimney	5
Defective flue	5
Unknown	13
Spontaneous combustion	2
Boiling over of fat	1
Electric wires	3
Sparks from chimney	4
False alarms	1
No school	8
Oil stove	2
Smoking in bed	2
Locomotive sparks	19
Bonfires	8
Set by boys	11
Snap matches	1
Lamps and candles	2
Children and matches	4
Gas jet and curtain	1
Lightning	1
Overheated stove	4
Firecrackers	1
Total	101

The fires and alarms for each month of the year are as follows:

February	12
March	10
April	12
May	11
June	8

July	8
August	11
September	7
October	1
November	9
December	6
January, 1907	6
<hr/>	
Total	101

The loss, valuation and insurance as nearly as could be obtained were:

Value of buildings and contents	\$196,200.00
Insurance of buildings and contents	142,050.00
Damage to buildings and contents	24,870.00
Insurance paid on buildings and contents	25,890.00

We have purchased two new boxes, the N. Y., N. H. & H. R. R. have purchased one and connected it with their new shops at Readville. We have also purchased two and one-half miles of wire and kept the system in repair. With the extra wire and new apparatus which will be installed in the new Central Station, the Fire Alarm system should be extended and boxes added to cover sections now poorly protected.

We would recommend more hydrants, for with shorter lines of hose we get better pressure and can do better work.

We have purchased a good, two-horse hose wagon, which can be used in the Readville district, thereby giving them much better protection than at the present time. We have also added two new sets of double harness.

The Chemical Engine is being thoroughly repaired and painted and fitted with rubber tires, which we believe should be done to all the apparatus as soon as possible as it saves wear to the machines and lessens the chance of accidents when crossing car tracks.

The Apparatus now consists of four hose wagons, one chemical engine, one ladder truck, two five-gallon hand chemical tanks, two three-gallon tanks, seven horses, seven sets of double, swinging, harness, one single harness, 6,000 feet of good hose, 500 feet of poor hose, one Eastman Deluge Set, storage battery, fifty-two boxes, forty call bells on the tapper system, thirty-six miles of wire, with the furniture in both stations, all in good condition.

The work of the Department for the past year has been very satisfactory to the Board of Engineers and we hope to the citizens of the town. The Board of Engineers wish to thank the Department for their work, the Board of Selectmen for their many favors and the citizens of the town for the generous manner in which they voted us our new Central Station and equipment.

The Department now consists of Chief Engineer, who gives his entire time, two Assistants, five permanent men, thirty-six call men, making a total of forty-four members.

Respectfully submitted,

JOHN H. WETHERBEE, Chief,
JOHN C. McDOUGALD, Clerk,
FRANK KUNKEL.

ANNUAL REPORT

OF THE

POLICE DEPARTMENT

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907.

BOSTON:
FARRINGTON PRINTING Co.
1907

REPORT OF THE POLICE DEPARTMENT.

To the Honorable Board of Selectmen.

Gentlemen: In accordance with the provisions of the Town By-Laws, I submit herewith the Annual Report of the Police Department for the year ending January 31, 1907.

THE FORCE.

Lieutenant, ROBERT E. GRANT.
Sergeant, ROBERT M. SAMPSON.

PATROLMEN.

JAMES A. CULLEN.	GEORGE H. TUCKER.
ANDREW W. HENDERSON.	EDWARD J. WELSH.
ELDRIDGE H. DYER.	WILLIAM W. SCOTT.
ALEXANDER HERRING.	ROGER J. FLAHERTY.
WILLIAM J. DOWNEY.	

SPECIAL PATROLMEN.

JAMES W. LAVERS.	* JAMES J. MAGUIRE.
FRANK E. WHITTAKER.	

OFFICER ON PATROL WAGON.

THOMAS J. MEIGAN.

CHANGES.

There were two patrolmen appointed to the force during the year; two resignations and one death.

Daniel O'Connell resigned October 22, 1906, and William W. Scott was appointed to fill the vacancy. Patrolman Elmer P. Runnels died December 11, 1906, and William J.

Downey was appointed to fill the vacancy. On December 22, 1906, Jason W. Butters, Chief of Police, resigned.

PATROLMAN ELMER P. RUNNELS.

It is with profound sorrow and regret that I record the death of Patrolman Elmer P. Runnels, which occurred December 11th, 1906.

He was appointed to the force October 16th, 1898, and performed his many duties in a fearless, energetic manner.

ARRESTS FOR THE YEAR.

Total number of arrests	595
Males	579
Females	16
Non-residents	228
Juveniles	66

CAUSES OF ARRESTS.

Assault and battery	28
Assault with a dangerous weapon	4
Assault	8

Street lights reported not burning	352
Street and Town Warrants distributed	561
Search warrants for liquor served	7
Search warrants for stolen property served	3
Stray horses taken care of	16
Lost articles restored to owners	27

JUVENILE OFFENDERS.

Sixty-six juvenile offenders have been arrested during the year, many of them were reprimanded and released. Pilfering, particularly of fruit, is the cause of the largest number of complaints and is not confined to any one class. The question of dealing with this class of offenders is a grave

one. We have endeavored to exercise judgment in the matter of complaints and have caused prosecution to be made only in cases which in our opinion were deserving of punishment.

POLICE SIGNAL SYSTEM.

The police signal system has given excellent service this year; but we recommend that the wires should be covered or put underground.

PATROL WAGON AND AMBULANCE.

Number of wagon calls for arrests	224
Number of ambulance calls	68
Number of miles run by wagon	293

In order to increase the efficiency of this service, we beg to recommend that the town purchase a horse and that the patrol wagon with horse be installed in the old fire station next door; this would give quicker service to this branch of the department.

Under the present arrangements delays in responding to alarms for arrests or accidents are unavoidable, and delays of only a few minutes are dangerous and interfere with the service. The large number of accident and ambulance cases this year show the need of quicker service. Our thanks are due the physicians for their promptness in attending to the cases cared for by us.

CRIME.

Those serious offences against law and order which happen in every thickly settled community have been unknown in Hyde Park during the year; this condition is all the more remarkable when we consider the mixed population of our town. The illegal sale of liquor has been less this year. The old kitchen barroom is hard to find, and the

few that still remain together with the pocket liquor pedlar, had better seek other employment for we are determined to rid the town of these pests.

CONCLUSION.

We believe the discipline of the force would be better maintained if the Civil Service rules were strictly lived up to; and when an appointment is to be made the oldest member should be preferred.

No man can ever hope to be successful at the head of a department, unless he has grown up in the service of said department.

As for my part, if I have been successful in my work for the past six years, I beg to remain in the position of Lieutenant, where I feel I can better serve the town than at the head of the department.

The officers have been vigilant and energetic in the discharge of their many duties and I wish to thank them for the valuable assistance rendered.

Our thanks are due the Justice and Clerk of the District Court of Northern Norfolk for their assistance in legal advice so kindly given us, and to all the good citizens who have shown a kindly interest in the welfare of this department.

Respectfully,

ROBERT E. GRANT,

Lieutenant of Police, and In Charge of Department.

FINANCIAL STATEMENT OF THE POLICE DEPARTMENT
FOR THE YEAR ENDING JAN. 31, 1907.

Appropriation, March, 1906	\$15,000.00
Balance unexpended Feb. 1, 1906	1,593.12
<hr/>

PARK COMMISSIONERS.

Organization 1906-07.

JOHN J. ENNEKING, Chairman.

JOHN J. ENNEKING.

STILLMAN E. NEWELL.

LAWSON B. BIDWELL.

Secretary.

REPORT OF THE BOARD OF PARK COM- MISSIONERS.

Apart from the Gypsy Moth extermination work there have been but few matters which have come before this Commission during the year 1906.

In July we concurred with the Metropolitan Park Commission in an abandonment to the New York, New Haven and Hartford Railroad Company of a strip of land near Fairmount Station, twenty feet wide and about six hundred and seven feet long, and in November, in sale of land on Bridge Street to the Town of Hyde Park.

For Camp Meigs for cutting grass, trimming walks, replacing shrubs, painting flagstaff and replacing halyards we have appropriated seventy-five dollars, and in addition have approved bills for seven dollars and twenty-nine cents.

For the Gypsy Moth extermination the town has appropriated the following sums:

January	\$1,200.00
March	2,000.00
December	1,500.00
Total	\$4,700.00

The expenditures have been:

On land of the town	\$3,139.65	
On private lands	271.77	
	<hr/>	\$3,411.42
Balance unexpended		\$1,288.58

Of the amount expended on private lands, that on the land of the Henry S. Grew Estate

was	\$159.00
and on other private lands	112.77
<hr/>	
Total	\$271.77

Except on land of the Henry S. Grew Estate, the charges were small and the average on the whole was but 23 cents and made it necessary to keep 491 accounts.

The rendering and collecting of all these accounts would be in accordance with Section 6 of the Act of May 8, 1905, which is as follows:

"The Mayor of every city and the Selectmen of every town shall, on or before the first day of November in each year, and at such other times as he or they shall see fit, or as the State Superintendent may order, cause a notice to be sent to the owner or owners, so far as can be ascertained, of every parcel of land therein which is infested with said moths; or, if such notification appears to be impracticable, then by posting such notice on said parcels of land, requiring that the eggs, pupae and nests of said moths shall be destroyed within a time specified in the notice.

"When, in the opinion of the mayor or selectmen, the cost of destroying such eggs, pupae and nests in lands contiguous and held under one ownership in a city or town shall exceed one half of one per cent. of the assessed value of said lands, then a part of said premises on which said eggs, pupae or nests shall be destroyed, may be designated in such notice, and such requirement shall not apply to the remainder of said premises. The mayor or selectmen may designate the manner in which such work shall be done, but all work done under this section shall be subject to the approval of the state superintendent.

"If the owner or owners shall fail to destroy such eggs, pupae or nests in accordance with the requirements of the said notice, then the city or town acting by the public officer or board of such city or town designated or appointed as

aforesaid, shall, subject to the approval of said superintendent, destroy the same, and the amount actually expended thereon, not exceeding one half of one per cent. of the assessed valuation of said lands, as heretofore specified in this section, shall be assessed upon the said lands; and such an amount in addition as shall be required shall be apportioned between the city or town and the Commonwealth in accordance with the provisions of section four of this act. The amount to be assessed upon private estates as herein provided shall be assessed and collected, and shall be a lien on said estate, in the same manner and with the same effect as is provided in the case of assessments for street watering."

The State Agent advises in our case the abandonment of these charges for private estates, saying the towns of Brookline and Milton have so done and it seems to us desirable to do so as the cost of clerk work and collecting will be greatly reduced.

The largest amount is on the Grew woods which have by the owner been thrown open for some time to the public, and the cost of collecting the balance will be in excess of receipts.

It is evident that with any areas in our town where there are trees and which are owned by private individuals the work will necessarily fall upon our trained force who are expert in finding the nests and have the necessary tools for creosoting or removing them, and as a town we are vitally interested in preserving the trees on the private as well as public lands.

The report of the superintendent appended hereto gives a full account of the work for the current year.

JOHN J. ENNEKING, Chairman,
LAWSON B. BIDWELL, Secretary,
STILLMAN E. NEWELL,

Park Commissioners of Hyde Park.

Hyde Park, Mass., Feb. 1, 1907.

To the Board of Park Commissioners.

Gentlemen: I submit herewith my report on the suppression of the gypsy and brown-tail moths from Jan. 31, 1906, to Jan. 31, 1907.

During the past year this work has been pushed vigorously; an attempt being made to rid the town as much as possible of these pests before they secured a strong foothold here.

About one hundred and twenty-five colonies of the gypsy moth were located during last winter's inspection, ninety-two being in the residential section and the remaining thirty-three in Grew's Woods. These colonies were all burlapped at the opening of the larval season, and carefully watched throughout the summer. The street trees, numbering about twenty-five hundred, were also burlapped, and this later proved to be a very valuable investment, leading to the discovery of a number of new colonies which would not otherwise have been found. Larvae were also found in one hundred and twelve places along the streets, showing the value of these burlaps in picking up larvae accidentally transported from other towns and carried from place to place on vehicles.

About ten thousand trees were burlapped throughout the town, and thirteen thousand, one hundred and twenty-five larvae were destroyed under these burlaps during the summer. Spraying with arsenate of lead and burning with an oil burning machine were found necessary in a few cases.

About two-thirds of the residential colonies of last year seem to have been exterminated, but our town is in a particularly bad location to become reinfested from other sources. Especially is this so regarding Boston and cities

and towns to the north of us. About one hundred new colonies, mostly of single clusters, however, have been located during this winter's inspection and are mostly traceable to being brought in from other towns.

Grew's Woods still seem to present the most serious problem, as the infestation here threatens a large territory. There is also quite a bad colony at the Boston line near Calvary Cemetery. Both these places will be thoroughly scouted this winter and well taken care of next summer. The entire town, both woodland and residential, is being thoroughly scouted this winter and an effort will be made to have worthless patches of shrubbery and decayed trees, especially near infested places, cut and burned, and hollows in old trees which make harboring places for these insects, stopped up.

An improvement in this line has already been noted, showing the increased interest of the owners in their orchards and shade trees, and a neater appearance generally throughout the town.

Throughout the spring months, I had seven men employed, while the clearing out work in the woods was necessary, and through the summer season have had two men besides myself. I now have three regular inspectors, and with the exception of a little additional help in the busy spring season, I think we will be able to handle the work with this small force.

Considerably more burlapping will be necessary this year than last. The street trees should all be burlapped again this coming season, and I would advise that all property owners as far as possible throughout the town burlap their trees this year, watching the burlaps and destroying any larvae (or caterpillars) found under them. The campaign against these pests must be pressed vigorously this year if we would follow up the good work accomplished last year and make it count for the most.

I have confined this report mostly to the gypsy moth, as

this is the most serious problem. The brown-tails were found scattered over the whole town last year, about two thousand of the winter webs being cut and burned. This work was accomplished so thoroughly that no damage whatsoever was done by these moths throughout the summer, and only a few larvae were found. The winter webs, or nests, have been found this winter in far less numbers than last year, and it is a much easier problem to keep these moths under control if the property owners will co-operate in the work.

I wish to again urge that all property owners and tenants familiarize themselves with these pests, that they may report at once any new infestation by the moths, and in other ways assist in the work, by keeping their own places as clean and free from them as possible. Information will be gladly given at any time from either this or the state office, and the various bulletins issued on the subject will be sent free on request. As a help along this line, I have on exhibition in one of the store windows, a complete line of specimens showing the various stages and workings of these moths. This seemed to be of great assistance to many.

This work has all been carried on under state supervision, and I have submitted a detailed report of the year's work, accompanied by two maps, to State Agent F. A. Bates in charge of this division. His report to the state superintendent was very complimentary to our work here, and it has been gratifying to note that we have been credited with accomplishing more and better work for the money expended, than any town in the state. This certainly should encourage us to do even better this coming season.

I also wish to express my appreciation of the general attitude of the public toward this work, which has been very helpful to me; and to each of the Park Commissioners especially, as they have so kindly co-operated with me in the carrying out of the detailed plans of the work.

The expenses of this work for the year ending Jan. 31, 1907, have been \$3,411.42, leaving a balance on hand of \$1,288.58.

Respectfully submitted,

H. G. HIGBEE,
Superintendent.

ANNUAL REPORT

OF THE

CEMETERY COMMISSIONERS

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907.

BOSTON:
FARRINGTON PRINTING Co.
1907

CEMETERY COMMISSIONERS

Organization 1906-1907.

GEORGE E. WHITING term expires 1909.
CHARLES F. JENNEY term expires 1908.
JOHN O'CONNELL term expires 1907.

JOHN O'CONNELL, Chairman.

GEORGE E. WHITING, Superintendent.

REPORT OF THE CEMETERY COMMISSIONERS.

During the past year the work has been in extensions of avenues and paths, caring for the graves, and preparation of space for single graves. Considerable time has been spent in such preparation. The wall of Fairview drive has also been continued.

Following the long settled policy, the commissioners have purchased additional lots as the same have become available, which have served to consolidate and render more valuable the land already owned by the town. Purchases during the past year have been larger than usual, but have rendered available certain lands desirable for immediate use by the acquisition of rights of way thereover.

The cemetery fund is now \$12,624.08 an increase of \$628.06 from last year.

The receipts and expenditures for the financial year ending January 31st, 1907, are as follows:

RECEIPTS.

Sale of lots	\$1,960.00	
Sale of single graves	365.00	
Interment and receiving tomb charges	671.00	
Foundations and labor	183.16	
Stone	5.50	
Fees for removal of bodies	15.00	
Interest on fund	479.84	
Total		\$ 3,679.50
Balance on hand January 31st, 1906		11,996.02
Total		<u>\$15,675.52</u>

EXPENSES.

Labor, etc.	\$ 1,733.37	
Purchase of land	1,318.07	
Balance on hand January 31st, 1907	12,624.08	
Total	—————	\$15,675.52

STATISTICS.

Lots sold	22
Single graves sold	73
Interments in lots	50
Interments in single graves	99
In receiving tomb	16
Removals from graves and from receiving tomb to other cemeteries	4
Removal from graves to other graves in cemetery	1

This report is made by the majority of the commissioners, in the continued absence of Commissioner John O'Connell from the State.

GEORGE E. WHITING,
CHARLES J. JENNEY,
Commissioners.

A detailed report of the expenses will be found in another part of this report.

THIRTY-NINTH

ANNUAL REPORT

OF THE

Overseers of the Poor

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING CO.
1907

THIRTY-NINTH ANNUAL REPORT

OF THE

OVERSEERS OF THE POOR

To the Citizens of Hyde Park, Mass.

We present herewith the Annual Report for the year ending January 31st, 1907. We invite your careful and thoughtful consideration, for in it you will find much that is interesting if not instructive. Immediately after the Annual Town Election in March the Board organized, with Mr. John W. McMahon as Chairman and Mr. Thomas E. Faunce as Secretary. Mr. Franklin C. Graham was appointed Town Undertaker and Dr. John A. Morgan as Town Physician. At the Appropriation Meeting \$8,000.00 was voted for the support of the Poor. Realizing the importance of keeping complete records of our proceedings and accounts which would show the nature of the transactions, we procured a record book in which will be found a record of the business transacted at each and every meeting, a letter book, in which will be found a copy of all the correspondence and a double entry system of accounts showing in detail every transaction, beside a number of smaller books for general information. From these books we are able to give facts and figures which will enable you to judge of the character of the work and the value of business methods. Every case has been thoroughly investigated, old as well as new, and put in alphabetical order for ready reference. The increased cost of food supplies, fuel, in some cases rents, medicines, nursing and hospital charges have increased in a measure the

expenses, while a number of serious cases which could not be denied has added largely to the burden. On the other hand we have saved many hundreds of dollars by re-examinations and careful consideration of each case. We find it a difficult matter to secure suitable tenements at small rental, boarding places in private families and nurses for the sick. By request of the Advisory Board, last year we omitted in our report the names of those aided by the town, with the result that the burden has increased and the work of this board made more difficult. We decided, however, to give another test and if found to be detrimental to the best interests of the town, will in the next report resume the practice of publishing the list in full. We have treated each case with due kindness and sympathy and given to the whole work our best efforts, thought and judgment.

Financial Statement.

Balance on hand, Town of Hyde Park, Jan. 31, 1906	\$750.24
Appropriation, March, 1906	8,000.00
Reimbursements, state, cities, towns and individuals	560.81
	<hr/>
	\$9,311.05
Disbursements	\$9,309.82
Balance on hand, Town of Hyde Park	1.23
	<hr/>
	9,311.05

Disbursements.

Groceries and provisions	\$1,957.57
Fuel	234.98
Clothing	30.79
Medicines	191.40
Rents	1,139.50
Board	2,039.60
Interest	157.00
Taxes	12.00
Hospitals	600.32
Cash aid	1,867.70

Nursing	219.10	
Ambulance	5.00	
Burials	103.30	
Care	68.00	
Miscellaneous	18.39	
Expenses	665.17	
		<hr/>
		\$9,309.82

Persons fully supported in families (6 adult male, 6 adult female)	12
“ fully supported in institutions, 3 adult (2 male, 1 female), 5 children (3 male, 2 female)	8
“ partially supported (59 adults, 108 children)	167
“ temporarily aided (31 adults, 31 children)	62
Burials	10
Whole number of persons aided	249

Average Cost of Support.

Hospital for Epileptics, Palmer, Mass.per week	\$3.25
Cottage Hospitals for Children, Baldwinsville, Mass., per week	3.25
School for Feeble Minded, Waverley, Mass.per week	3.25
Fully supported, outside of institutionsper week	2.95
Partially supported, estimatedper week	2.54

The time given in the new Town By-Laws, five days, to complete and file reports is not sufficient to give further details, but we will add that the percentage of pauperism in the town is low and indicates general thrift and prosperity.

We again call attention to the necessity of proper quarters for the conduct of the business of this department, that the best results possible may be attained.

Respectfully,

JOHN W. McMAHON, Chairman,
THOMAS E. FAUNCE, Secretary,
EDWIN C. FARWELL,

Overseers of the Poor.

ANNUAL REPORT

OF THE

Advisory Committee

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907.

BOSTON:
FARRINGTON PRINTING CO.
1907

REPORT OF THE ADVISORY COMMITTEE.

To the Citizens of Hyde Park.

Under the provisions of the new by-laws recently adopted by the town, the Advisory Committee becomes a permanent board, with well defined duties and attendant responsibilities. Its powers are not administrative but advisory. It investigates the appropriations for all other departments but receives none for itself. It has no absolute authority but its opportunity for inquiry into the methods and needs of the various departments is greater than that of the individual citizen or the town meeting. It is the medium of communication between the departments and the citizens. Its conclusions may sometimes be wrong, but they are at least honest, and based upon careful investigation. It appreciates the courtesy and assistance of all town boards and officials thus far in its work and also the approval of its recommendations by the citizens at the recent town meeting. In accordance with its duties under the by-laws, it presents at this time its recommendations as to the regular departmental appropriations which will be asked for at the annual appropriation meeting. It also offers certain information and suggestions which are in line with its duty.

Membership of the committee for the present year is as follows:—

NAMES OF ADVISORY COMMITTEE 1906-07.

George T. Brady,
Walter C. Bryant,
Edwin E. Bartlett,
Harry E. Astley,
James E. Cotter,

George B. Dowley,
Francis M. Burns,
Thomas F. Fallon,
John W. Griffin,
James D. Grant,

James S. Coveney,	Frank L. George,
Henry S. Bunton,	Daniel J. Hanlon,
Francis W. Darling,	Fred J. Hutchinson,
Edward S. Hathaway,	Calvin H. Lee,
Gideon H. Haskell,	David W. Murray,
Edwin C. Jenney,	Henry B. Miner,
Charles F. Jenney,	John W. McMahon,
John Johnston,	Charles F. Morrison,
Frederick G. Katzman,	Dennis W. Mahoney,
James F. Lockwood,	William E. Norwood,
George M. Peabody,	Wilbur H. Powers,
William D. Preston,	Alfred L. Lovejoy,
John P. Rattigan,	Charles F. Stack,
Emerson Rice,	James A. Tilden,
Patrick H. Rooney,	Arthur T. Rogers,
Gorham E. Stanford,	John H. Wetherbee,
Lester P. Winchenbaugh.	

We recommend the following appropriations.

SELECTMEN (POLICE AND FIRE DEPARTMENTS EXCEPTED).

1. ACCOUNTING. An able report was rendered on this subject by our predecessors of the Advisory Committee of last year. We find the essential features of that report are now incorporated in the present town by-laws. The Selectmen have appointed a town accountant, and that official is now engaged, in perfecting a system of town accounting consistent with the by-laws. All balances of this department are to be transferred to the General Account at the close of the present financial year, so that the estimates herein given are for twelve months covered by the town's financial year, and do not include or anticipate in addition thereto, any unexpended balances.

By vote of the town, money received from the sale of swill is placed to the credit of the appropriation for the collection of ashes and garbage. We recommend that money

so received be placed in the general account, and that a suitable article to effect this change, be inserted in the next town warrant. We also recommend a discontinuance of the practice of appropriating money received for betterments to the highway department, at least until the amount of the same is ascertained.

The effect of these changes will be to limit appropriations to the known amount stated in the annual appropriations.

We recommend the opening of a State Aid account, and that an appropriation of \$2,100.00 be made therefor. The town is obliged by law to pay the State Aid, and at the end of the year is reimbursed by the state for such sums so paid. This recommendation is made to insure accuracy in accounting.

2. TREE WARDEN. We recommend the appropriation of \$300.00, the same as last year.

3. STREET WATERING. The purchase of the water works by the town will relieve the town of paying the item for water. We recommend an appropriation of \$3,500.00; \$1,000.00 less than last year.

4. ASHES AND GARBAGE. (a) We recommend the appropriation of \$5,500.00. The amount usually appropriated is \$5,000.00. There have been certain unexpended balances, as well as money received from the sale of swill available in addition thereto. The amount recommended does not anticipate any additions thereto.

(b) We were asked to consider the advisability of terminating a contract which provides for the performance of about a third of the work of this department by an individual, and that that work be performed by the town service. The Selectmen had no recommendation to make thereon. We therefore were unable, upon information at hand, to form any substantial opinion as to the merits of the matter. We did ascertain the approximate cost of such a change and submit the same.

1 horse	\$300.00
1 new cart	350.00
Maintenance of horse	200.00
	<hr/>
	\$850.00

This estimate is based upon information received from the Selectmen.

5. STREET LIGHTING. We recommend an appropriation of \$13,000.00. The cost of street lights is based on an existing contract, and the number fixed by vote of the town. A leeway of \$200.00 is allowed for such additions to the number as may and usually are made during the year.

6. INCIDENTALS. We recommend the usual annual appropriation of \$10,000.00.

The salaries of town accountant (\$500) and for the engineer's department are included herein.

7. HIGHWAYS. We recommend a division in this appropriation as follows:—

Street cleaning and catch basins	\$5,000.00
Bridges	1,500.00
Repair and maintenance of highways	20,000.00
	<hr/>
Total	\$26,500.00
Excise and franchise tax added as required by law; approximated at	1,800.00
	<hr/>
Approximate amount at disposal of Department	\$28,300.00

With the application of this new system of accounting, and adoption of the recommendations herein contained, the appropriation is as small for this department as it has been in recent years.

8. SEWER DEPARTMENT. This department does not require any appropriation from the general tax levy. The engineering department contains the only salaried employees.

9. INSURANCE. We recommend an appropriation of \$2,650.50, to pay premiums on insurance policies expiring this year.

RECAPITULATION.

Highway:

Repair and maintenance	\$20,000.00	
Bridges	1,500.00	
Street cleaning and catch basins	5,000.00	
	<hr/>	\$26,500.00
Incidentals		10,000.00
Street lighting		13,000.00
Ashes and garbage		5,500.00
Insurance		2,650.00
Tree Warden		300.00
		<hr/>
		\$57,950.00

BOARD OF HEALTH. We recommend the appropriation of \$1,325.00 for the general expenses of this department and a separate appropriation of \$1,750.00 for contagious diseases; that the latter item be appropriated under a separate article in the warrant to be expended under the direction of the Board of Health, but used only for the specific purpose for which it is appropriated.

OVERSEERS OF THE POOR. We recommend the appropriation of \$8,500.00.

SCHOOL COMMITTEE. We recommend the appropriation of \$59,800.00.

PUBLIC LIBRARY. We recommend the appropriation of \$4,500.00.

FIRE DEPARTMENT. We recommend the appropriation of \$12,900.00. We also request that an article be inserted in the town warrant to consider an additional appropriation for repairs on the hose house at Readville and for an extra horse and permanent man at that station. Also an article to consider the employment of an extra permanent man at the Central Station.

POLICE. We recommend the appropriation of \$15,000.00.

We further recommend the appropriation of \$200.00 for the Grand Army Post and \$100.00 for the Spanish War veterans for memorial purposes.

We also recommend that separate quarters should be provided for the Overseers of the Poor, not only for their own convenience but for that of the Board of Assessors.

We further recommend that the Assessors make a thorough revaluation of taxable property. We submit in connection with the Assessors' Department the following report of our sub-committee on valuations and assessments.

REPORT OF THE SUB-COMMITTEE OF THE AD- VISORY COMMITTEE ON ASSESSMENTS AND VALUATIONS.

Mr. Chairman.

Your committee has examined the books and reports of the Assessors; has met with the Town Engineer; has had joint meetings with the Board of Assessors; and begs to submit the following report:

VALUATION STATISTICS.

	1906.	1905.
Buildings	\$6,757,650	\$6,649,150
Land	4,659,975	4,601,120
Totals	\$11,417,625	\$11,250,270
Personal estate	1,659,400	1,632,000
Totals	\$13,077,025	\$12,882,270

These figures show an increased valuation in the year 1906 of \$194,755 over the valuation of the year 1905.

APPROPRIATION STATISTICS.

	1906.	1905.
Town Tax, including Overlayings	\$162,158.69	\$161,912.96
State Tax	12,880.00	14,720.00
County Tax	11,548.12	11,856.00
Metropolitan Sewer Tax	12,673.70	15,556.83
Metropolitan Park Tax	4,365.17	5,476.18
Metropolitan Water Tax	1,242.52	3,256.77
Grade Crossings	10,355.64	10,843.32
Midx. Avé. and Wellington Bridge Tax	109.36	
Totals	\$215,333.20	\$223,622.13

These figures show a reduction in the 1906 levy of \$8,-288.93 from the amount levied in 1905.

TAX RATE STATISTICS.

In the year 1903, a rate of \$20.40 per thousand.

In the year 1904, a rate of \$17.30 per thousand.

In the year 1905, a rate of \$16.80 per thousand.

In the year 1906, a rate of \$15.90 per thousand.

We have been advised by the Assessors that the County tax for the year 1907 will be about \$2,500.00 less to the Town of Hyde Park. The amount of Hyde Park's share of the Metropolitan water, park and sewer taxes cannot be now ascertained from the state authorities, but it is probable that those taxes will advance slightly over the 1906 taxes for the same purposes, and probably enough to offset the benefit of the reduction in our town's share of the County tax.

SYSTEM OF ASSESSORS' RECORDS.

We have examined the books and records of this department and find them to be kept neatly and accurately. So far as the system now in use by the Assessors will allow, information that may be desired either by officials or other persons interested can be gleaned from their records, but

the system is not sufficiently simple to readily meet all the demands that are or may be made upon it except after more or less needless search. The eventual adoption of the block system in its ultimate perfection will render possible an errorless record of all Assessors' statistics, as well as make most easily accessible all information required from such statistics. As is well known, the adoption of the block system has been heartily advocated by earlier Boards of Assessors and by Sub-Committees of the Advisory Committee who have examined the work of the Assessors and their department, and work some time ago was actively begun to put that system in operation by way of survey of a block of land in the central portion of the town. Unfortunately during the last year, from lack of appropriation for the purpose, no further surveys have been made of any additional blocks of land. At the last town meeting, however, an appropriation of \$500 was made for Assessors' plans, and work has already, or will shortly be, begun upon the survey of a second block comprising the Mount Neponset Section of our town.

Although the benefits and advantages of the block-system have been so well pointed out heretofore, and at length, by earlier committees, that it is unnecessary to go over the same again in detail, it seemed wise to your committee, in view of some confusion that appears to exist as to the feasibility of putting that system into operation before a complete survey of the town shall have been made, to summarize the chief reasons for adopting the system. There are three principal advantages from the adoption of that system; first, enlargement of the system of recording Assessors' statistics so that information requested or needed in connection therewith may be most readily obtainable no matter how meagre may be the data given as to name of owner of lands, location, etc.; second, the reduction of the possibility of omitting any estate from assessment altogether; and third, but rather in

connection with, and in the way of the perfection of, that system, the accurate determination of all areas in the town, so that neither an under nor an over assessment may be made upon the basis of inaccurate areas, and, from the adoption of the check on areas in each block directly resulting from the use of the system; the reduction of the possibility of erring as to areas assessed.

From the above it is apparent that the block-system can well be inaugurated before a complete survey of the town shall have been made. Indeed, unless the question of the cost of surveying the whole town is disregarded and the work is pushed forward to a rapid conclusion irregardless of cost, it will necessarily be a more or less slow work to survey and map all the blocks; but the work may be gradually done under the supervision of the town engineer at a very moderate cost; and that is the plan now contemplated; and your committee recommends the policy of appropriating sufficient funds from time to time as needed to carry on this work. The Assessors, therefore, have prepared a card system for record of their department's statistics under the block system. We are assured that the 1907 records of their department will be put upon these cards as well as upon the books and records now kept by them and which will have to be continued, of course. If that is done as now contemplated the town will have the benefit of the operation of the block system in 1907 except as to the possession of accurate information as to areas, which will be added from time to time as obtained. Until such complete survey may have been made our town will be in practically the same position as Boston, where official surveys have not been made of areas, but the block system is used, and figures as to areas are obtained from various sources, such as plans on record in the Registry of Deeds, the city atlas, and from plans of various engineers made from time to time of various parts of the city.

OFFICE AND QUARTERS.

Your committee, having in mind that other boards and officials are seeking new quarters, and having in mind the needs of the Assessors as to office accommodations, would suggest that when the question is settled as to other boards it would be well to arrange that the present office of the Assessors, together with the larger of the two safes in that room be given over to the exclusive use of the Assessors. Other boards use said safe jointly with the Assessors, and thereby cramp the latter in the safe-keeping of their records. The Assessors meet frequently, and, as they require considerable space for the examination of their large and bulky books and records, they should not be hampered in their meetings by a joint occupation of their office, nor should it be necessary that they have to seek another room at times for their meetings by reason of a prior occupation of their office by another board. They should be given the sole occupation of their office.

Respectfully submitted,

FREDERICK G. KATZMAN, Chr.,
GEORGE M. PEABODY,
FRED J. HUTCHINSON.

We believe the increase in valuation this year over last will be in the vicinity of \$500,000.00 as against an increase last year of \$194,755.00.

Before the annual appropriation meeting, or at that time, your committee will report as to other appropriations, or public questions to be acted on by the town.

FRANCIS W. DARLING,

Chairman.

W. E. NORWOOD, Secretary.

ANNUAL REPORT

OF THE

TREE WARDEN, SEALER OF
WEIGHTS AND MEASURES,
BUILDING INSPECTOR,
INSPECTOR OF ANIMALS

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING Co.
1907

REPORT OF TREE WARDEN.

To the Honorable Board of Selectmen.

Gentlemen: Following is a review of the work carried on by this department during the past year from March 6, 1906, to January 31, 1907.

Upon being elected Tree Warden, I at once set about to ascertain the condition of the town trees, and found upon examination that the majority of them were suffering severely from long neglect. The results of improper trimming and other abuses were manifest in the trees throughout the town, some having been killed and many seriously damaged by stubs of branches which were allowed to remain on them and rot back into the trees. I found electric wires had done great damage to many trees by burning into the branches or trunks, after the insulation had been rubbed off; in a number of instances having killed them entirely. Some cases of this kind I reported to the Electric Light Co. and they were attended to. Many others were found to have been injured by linemen, by careless cutting for wires, and were practically destroyed.

I received from the former Tree Warden a 26-foot and a 38-foot extension ladder, but no tools whatever, so found it necessary to purchase at once a few things for practical work, including two saws, wire cutters, tree scraper, shovel, pick, grub hoe and a block and tackle for handling large limbs.

Early in April a complaint was received regarding the cutting of some trees on West St. near the Grew estate. I investigated the matter and found that seventy-three trees had been cut along this road, and I submitted to your board a detailed report of the same at that time.

Applications have been received to trim trees on Arlington and Austin Sts., Central Ave., E. River St., Fairmount Ave., Hyde Park Ave., Milton St., Oak St., Prescott St., West St., and Williams Ave. It was also found necessary to trim trees on W. River, Water and Highland Sts., Fairview Ave., and Wolcott Sq. Other applications are still on hand.

A systematic trimming was started in the fall, but the trees were found in such bad shape, and so much time was required to do even the most important work, that it had to be given up on account of the winter weather, but will be resumed again as soon as the weather permits. What seemed to be the most urgent places were taken first. In this way Fairmount Ave., Milton St., Prescott St., the greater part of E. River St., and part of Hyde Park Ave. were taken, and one hundred and seventy-seven trees have been trimmed.

Many trees were found to be badly wounded and disfigured, caused by horses stripping off the bark; and the places, not having been properly treated, were left to decay, and gradually grow worse—even in some cases killing the trees. This has been done to an alarming extent, and our local dealers and horse-owners should use more care in the hitching of their horses, or allowing them to stand where they can injure the trees. They should be reminded that this is a penal offence; that there is a town by-law forbidding the hitching of horses to street trees, and a fine of five to one hundred dollars for allowing a horse to injure or destroy a public tree.

I have treated one hundred and seventy-five trees which had injuries caused in this way and there are still many others. Many of these will now heal in time, if they continue to have proper care, while others, from long-continued neglect, will be permanently disfigured.

I have also found thirteen trees where wire guards were

left too long on them, and were destroying the trees, killing the bark, and choking the life from the tree. The wires on these trees, nine of which were on Prescott St. and four on Park St., have been removed.

Large holes have been cemented up or tinned over in thirty trees, these cavities being caused by improper trimming at an earlier date. A few trees have been found dead or dying from fungus disease, and a few apparently from gas, which is very destructive to the roots of trees and remains in the soil long after a leakage has been stopped.

The disease known as "blight" has affected numerous maples here the past season, and the elm-leaf beetle has been very destructive to the elms—entirely defoliating a number of fine trees in the Fairmount section. If this insect appears in such numbers another season, it will be highly important to adopt methods of fighting it, if we would save our elms in the beauty of their foliage. The most practical method of destroying this pest is spraying the trees with arsenate of lead, early in June. Much damage was done by this insect last year throughout eastern Massachusetts. A number of other trees were found to be hampered by not having sufficient room about their trunks to allow the moisture to penetrate to the roots; the concrete being cemented too closely about the base of the tree. If this is not remedied such trees will die of starvation. Many trees are also set too closely together, not admitting sufficient light and ventilation to allow each tree to assume its proper shape and symmetry. The growth therefore becomes stunted and distorted.

I have removed or given permission to remove seven trees after the proper hearings had been held, and a number of applications are still on file. Permission was also granted to the Long Distance Tel. Co. to trim a few trees on Business St. and Hyde Park Ave., where branches interfered with their wires—this being done under my supervision.

The question of not receiving full benefit from our light-

ing system on account of shade from the trees, is a serious one, and I have given it considerable thought and attention, trimming where practicable, with this thought in mind. This has alleviated the matter slightly, but I find that in many, if not most cases, the trouble cannot be overcome by mere trimming, and will require either the removal of whole trees or the shifting of the lights. In either case, it is a matter involving study and expense, and in view of this fact I would respectfully recommend that a committee be appointed to work in conjunction with the Tree Warden, and thoroughly investigate this matter and see what can be done towards improvement along this line.

The setting out of new trees might also be mentioned here. There are numerous places along our highways where trees have died, or have been removed for some cause, and where new trees might be set out to advantage. This, however, is a matter which might well be brought up later, and perhaps some special arrangements made for such an undertaking.

The expenses for this work from March 6, 1906, to January 31, 1907, have been \$234.55, leaving a balance on hand at this date of \$70.88, of the \$305.43 which was available after the March meeting. The work of proper and systematic trimming has, however, been only well started, and the balance of this appropriation will soon be exhausted when the work is again taken up in the spring. It seems very important, therefore, that at least an amount equal to last year's appropriation should be made available for this work the coming year.

In addition to what has been mentioned heretofore, the work we have done under the gypsy moth suppression has greatly benefited our town trees, and has supplemented in many ways the work of this department.

The time has come when a deeper and more general interest is being taken in trees, and their proper care and development.

What would a town be without them? We have about twenty-five hundred street shade trees in this town—many beautiful ones, but if we would preserve them we must take proper care of them. They must be treated as living things. They must be given room to grow and to properly spread their branches; they must be allowed proper nourishment for their roots; must be trimmed when necessary; guarded from accidents or abuse, and their wounds properly treated. Then, I am sure that the money and time which we expend on them will be many times repaid in the continued pleasures and benefits which they bring to us, and in the added beauty and charm which they give to our streets.

Respectfully submitted,

HARRY G. HIGBEE,

Tree Warden.

A detailed statement of the expenses of this department will be found in another part of this report.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen.

Gentlemen: As Sealer of Weights and Measures I herewith submit my report for the year ending January 31, 1907.

I have visited 138 different stores and manufactories, making 161 calls, have sealed and tested 1,097 scales, weights and measures. I have tested and sealed 105 scales and measures that were brought to me, making a total of 1,202.

I have bought new duplicate books and stamp and repaired the equipment in general so that what we have on hand is in good condition.

I condemned 1 Platform scale, 4 Counter scales, 2 Spring scales, 1 Oil pump, 16 Dry Measures. All others I repaired or found correct.

The following scales, weights and measures were tested:

- 27 Platform Scales over 5,000 pounds.
- 95 Platform Scales under 5,000 pounds.
- 117 Counter Scales.
- 80 Spring Scales.
- 26 Yard Sticks.
- 10 Oil Pumps.
- 192 Dry Measures.
- 65 Wet Measures.
- 485 Weights.

Respectfully submitted,

JOHN H. WETHERBEE,
Sealer of Weights and Measures.

REPORT OF INSPECTOR OF BUILDINGS.

Hyde Park, Mass., Jan. 31, 1907.

To the Honorable Board of Selectmen:

Gentlemen,—The following is a report of the doings of the Inspector of Buildings:

Number of Applications made	71
Number of Permits issued	67
Permits for New Buildings	30
For Alterations and Repairs	37
Applications Not Returned	4
Visits to buildings in May, 1906	17
“ June, 1906	85
“ July, 1906	64
“ August, 1906	76
“ September, 1906	66
“ October, 1906	37
“ November, 1906	44
“ December, 1906	40
“ January, 1907	60
<hr/>	
Total	489
Number of visits to back yards	420
Number of visits to Engine Rooms	36

Respectfully submitted,

EDWARD A. HAWLEY,

Inspector of Buildings.

REPORT OF THE INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen of the Town of Hyde Park, Hyde Park, Mass.

Gentlemen: I hereby submit to you the following report of my work as Inspector of Animals for the year ending January 31, 1907:

"Glanders":—During the year there were reported ten (10) cases of horses having symptoms which indicated that they were suffering from this disease (Glanders). Upon investigation five (5) horses were killed and the other five (5) were found not to be affected.

Inspection:—On October 1 instructions were received from the Massachusetts Cattle Bureau to make a complete inspection of all neat-cattle, sheep and swine within the town. This inspection (the same as is ordered each year) is made with reference to the existence of contagious diseases, to the general physical condition of food-producing animals and the cleanliness and sanitary condition of the premises in which they are housed. During this inspection twenty (20) premises were visited and seventy-nine (79) cows were found; none of these cows showed evidence of "Tuberculosis," and all were found to be in good physical condition, and the majority of stables in which they were kept reasonably clean, well lighted and thoroughly ventilated and provided with suitable drainage.

"Rabies":—On December 1, 1906, circulars regarding the Laws pertaining to "Rabies" were sent out by order of the Cattle Commissioners, to be posted in conspicuous places and I am pleased to state that, up to date, there have not been any cases of "Rabies" reported in this town.

Yours respectfully,

JOSEPH M. KIGGIN, M. D. V.,

Inspector of Animals.

ANNUAL REPORT

OF THE

BOARD OF HEALTH

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1907.

BOSTON:
FARRINGTON PRINTING Co.
1907

BOARD OF HEALTH
Organization.

DR. CHARLES F. STACH, Chairman.

DR. JOHN A. MORGAN.

BENJAMIN G. BATES.

JAMES G. BOLLES,
Plumbing Inspector and Health Officer

REPORT OF THE BOARD OF HEALTH.

To the Citizens of Hyde Park.

We have the honor to present to you the following report of the work of this Board for the year ending January 31st, 1907.

MORTALITY.

During the fiscal year there were 8 deaths from diphtheria, 1 from scarlet fever, 5 from whooping cough, 1 from cerebro spinal meningitis, 15 from tuberculosis, 3 from tuberculous meningitis and 2 from typhoid fever. Among the deaths from other diseases 28 were reported from pneumonia. The number of deaths from all causes, of residents of Hyde Park during the year was 220. This number of deaths, with an estimated population of 14,492, gives a death rate of 15.18 per 1,000.

INFECTIOUS DISEASES.

During the year there were reported to the Board 50 cases of diphtheria, 29 cases of scarlet fever, 140 cases of measles, 10 cases of typhoid fever, 14 cases of tuberculosis, 1 case of cerebro spinal meningitis, 17 cases of whooping cough, 16 cases of chicken pox, 6 cases of mumps, and 3 cases of tuberculous meningitis, occurring as follows:

	Diphtheria.	Scarlet fever.	Measles.	Chicken Pox.	Typhoid fever.	Tuberculosis.	Cerebro spinal meningitis.	Whooping cough.	Mumps.	Tuberculous Meningitis.	Totals.
January	0	0	2	3	0	2	0	0	0	0	7
February	0	4	1	4	0	0	0	0	0	0	9
March	0	2	11	3	0	2	0	0	0	0	18
April	1	0	24	2	0	3	0	3	3	0	36
May	3	1	67	0	0	0	0	1	0	2	74
June	9	0	35	0	1	4	0	4	1	0	54
July	11	3	1	0	1	0	0	0	2	0	18
August	0	6	1	0	1	1	1	4	0	0	14
September	7	3	0	0	5	1	0	1	0	1	18
October	6	3	0	4	1	1	0	0	0	0	15
November	7	2	0	0	0	0	0	4	0	0	13
December	6	5	0	0	1	0	0	0	0	0	12
Totals	50	29	142	16	10	14	1	17	6	3	288

PULMONARY TUBERCULOSIS.

The number of new cases of this disease reported during the year was 14, an increase of 9 over last year. Though the physicians are more careful to report cases of pulmonary tuberculosis to the Board than usual, there is reason to believe that all cases are not so reported. We urgently request co-operation of all physicians in this matter.

We would again impress upon the minds of all citizens the importance of cleanliness, sunshine and fresh air, not only to cure the disease, but also as a preventive. As we stated in our last report, we are only too glad to fumigate any room or house previously occupied by a case of consumption.

DIPHTHERIA.

The number of cases of diphtheria reported to the Board was 50, an increase of 25 over last year, with 8 deaths. This number of deaths with the use of anti-toxin is large, but can be accounted for by the fact that parents do not call the physician sufficiently early in the disease. We would im-

press upon the minds of parents the great importance of at once calling a physician in all cases of suspicious throat trouble.

WHOOPIING COUGH.

* There were only 17 cases of this disease reported to the Board in 1906. We know that this was only a small percentage of the total number of cases, and would call the attention of parents and physicians to the great importance of reporting this disease as there were during the year 5 deaths from it.

MEASLES AND CHICKEN POX.

Measles were prevalent to a considerable extent during April, May and June. Fortunately there were no deaths directly attributed to it. There were 16 cases of chicken pox reported to the Board, about the same as last year.

TYPHOID FEVER.

Ten cases of typhoid fever were reported to the Board, with 2 deaths from same. A glance at the table will show that the majority, or 5 of the cases, occurred in September, at a time when people were coming home from summer vacations and undoubtedly most of these cases were contracted while away from Hyde Park.

MEDICAL INSPECTION OF SCHOOLS.

The Board is in favor of the Medical Inspection of school children. The great majority of cases of deafness in children is due primarily to diseases of the throat. An early diagnosis and prompt and efficient treatment will often stop the advance of disease gradually stealing in upon its victim.

November 1st, 1906, the Board received notice from the Boston Board of Health that a case of leprosy had been discovered at the Massachusetts General Hospital, and that the patient had been removed to the Contagious Hospital at Gallups Island, said patient being a legal resident of Hyde Park. This Board immediately investigated the matter and found that such was the case. The dwelling and its contents where this man resided were thoroughly fumigated and everything possible done to prevent the infection of any other person with this terrible disease.

The Board visited Gallups Island and found that everything possible was being done to make the man comfortable. Arrangements were made with the State Board of Charities to have the man removed to the leper colony at Penakese Island, but on account of the long trip by land and a fifteen-mile sail by water, it was found inexpedient to remove him until spring.

DRAINAGE AND SEWERAGE.

During the summer a petition signed by some 25 residents of Readville, residing in the vicinity of Readville, Milton and West River Streets, was received by the Board. The petition asked that the nuisance of wet, rotten and spongy land in that locality be abated. The Board carefully investigated the matter and found that the B. B. & R. Knight Co., owners of the cotton mill, had certain rights in the matter, also the Metropolitan Park Commission. We communicated with both parties, but only received answer from the Metropolitan Park Commission, who requested that we take no action in the matter until they could come out and look the ground over. This was done by them and we received their permission providing that when the work was done a plan be filed with them showing location of any drains or ditches we might propose to put in.

This Board then took official action and the following vote was passed and sent to the Board of Selectmen.

That, In the opinion of the Board of Health of the Town of Hyde Park, the land in the immediate vicinity of Readville Street, known as the "Swale," by reason of its wet, rotten and spongy character, is a nuisance and a menace to public health. And that a communication be forwarded to the Board of Selectmen requesting them to provide such drains as are necessary to remedy this condition.

During the year of 1906, sewers have been placed in Reddy Avenue and Frazer Street which will remedy a condition that was becoming unbearable. Parts of Holmfield still need sewers, as also parts of Readville.

CHAS. F. STACK,
JOHN A. MORGAN.

BY-LAWS

OF THE

TOWN OF HYDE PARK

MASSACHUSETTS

ARTICLE I.

Town Meetings.

Notification of Town Meetings.

Section 1. Every Town Meeting shall be notified by posting copies of the warrant calling the same, in not less than ten public places in the town, seven days, at least, before the day appointed for said meeting.

Annual Town Meetings.

Sec. 2. The Annual Town Meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened as early as seven o'clock A. M., and the polls shall be kept open until sunset.

Sec. 3. Not approved.

Sec. 4. Any board or standing committee or officer of the town, or any person or persons intending to ask an appropriation at any meeting of the town, shall file a written notice in the office of the Town Clerk of such intention, at least six days before such meeting, stating the object and sum of

the appropriation intended to be asked. The Town Clerk shall thereupon file such notice and inform the Selectmen thereof. It shall thereupon be the duty of the Selectmen to examine into the subject and be prepared to inform the town thereon. If the sum of the appropriation so proposed shall exceed one thousand dollars, a statement of the proposition shall be printed and circulated at least three days before the meeting; provided, that an appropriation may be asked, without such notice, at any meeting of the town, but, in the absence of such previous notice, the subject shall not be acted upon except at an adjournment of said meeting, or at another meeting, not less than one week later in either case; and during said interim the Selectmen shall cause a printed notice of the sum and object of said proposed appropriation to be distributed among the voters at least three days before such adjourned or other meeting, and shall also fully inform themselves upon the subject, and report thereon when it comes before the town for action.

Sec. 5. Any board or standing committee or officer of the town or any person or persons intending to ask for an increase of an appropriation at any meeting of the town over and above that recommended by any committee of the town, town officer or any person or persons and filed with the Town Clerk as provided in Section 4, shall file a written notice in the office of the Town Clerk of such intention at least four days before such meeting, stating the additional sum which is proposed to be appropriated and for what purpose or purposes, together with the reasons for the proposed increase, of any specific appropriation. The Town Clerk shall thereupon file such notice and inform the Selectmen thereof. It shall thereupon be the duty of the Selectmen to examine into the subject and be prepared to inform the town in relation to said increase.

If the sum of the appropriation and the increase shall exceed one thousand dollars, a statement of the proposition

shall be printed and circulated at least three days before the meeting, subject however to the same proviso as set forth in Section 4.

Article II. Not approved.

ARTICLE III.

Advisory Committee.

Section 1. At the Annual Town Meeting for the election of town officers, the Moderator shall appoint twenty-two legal voters who shall be equally representative of the two leading political parties in the town and shall be selected from lists of voters previously submitted to the Moderator by the respective town committees of the said parties, who, together with the Selectmen and Town Treasurer, and with the Chairman of the following Boards, to wit:—

School Committee.

Public Library Trustees,

Board of Health,

Overseers of the Poor and the

Assessors,

will act as an Advisory Committee for the Town.

Sec. 2. The said Moderator shall call said Committee to meet for further organization after the first, and before the fifteenth, day of April in each year.

Sec. 3. Said Committee shall at their first meeting add ten legal voters to their number, selected from the different sections of the town.

Sec. 4. Said Committee shall be known as the Advisory Committee for the Town. The Selectmen, with the approval of the Chairman of said Committee, shall provide a suitable place in which to hold their various meetings.

Sec. 5. All persons appointed and elected under the pro-

visions of this Article shall hold office until the first day of April in the year next succeeding their appointment.

Sec. 6. Said Advisory Committee shall have power by ballot to fill any vacancies which may occur in its membership by death, resignation, removal from town, or other causes, and it shall meet from time to time as it or the chairman may deem advisable.

Sec. 7. Said Committee shall consider those affairs and interests of the town, the subject of which is yearly included in the warrants of its town meetings, and all officers of the town shall, upon request of said committee, furnish it with facts, figures and any other information pertaining to their several departments; PROVIDED HOWEVER, that any such information may be withheld when, in the opinion of the officer or the board of officers, so requested, the communication thereof might injuriously affect the interests of the town, and may consider the question of our municipal obligations, the administration of our various departments, property values and assessments and may make such report and recommendation to the town concerning the administration of any and all departments that the circumstances and requirements may justify.

Sec. 8. Said Advisory Committee shall consider the various articles in the warrants of our town meetings held during the period for which they are appointed or elected, including the various articles in the warrant for the annual appropriation meeting held in March or April.

They shall report in print before all town meetings, their estimates and recommendations for the action of the town, in all cases involving the expenditure of one thousand dollars or over, and in all other cases as in their opinion the public interests require. A report shall be published in the annual town report, covering such matters as have been considered by said Committee, together with their recommendations to the town for the annual appropriations.

Sec. 9. Said Advisory Committee shall file with the Town Clerk, its recommendations for all appropriations as provided in Article I, Section 4, to be voted upon at any meeting.

ARTICLE IV.

Financial Year.

Section 1. The financial year of the town shall begin with the first day of February in each year, and shall end on the thirty-first day of the following January.

Sec. 2. The Selectmen and Surveyors of Highway, Overseers of the Poor, Board of Health, and School Committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

ARTICLE V.

Records and Accounts—Annual Reports—By-Laws.

Section 1. All boards, standing committees and officers of the town shall cause records of their doings and accounts to be kept in suitable books. Said books shall be kept in their respective places in the Town Offices, and shall not be removed therefrom. Said record books shall be open to the inspection of the citizens of the town during business hours on every day, but shall remain during such inspection under the supervision of the board, committee or officer designated to keep charge thereof.

Sec. 2. All boards, standing committees, special committees or officers of the town, having charge of the expenditure of money, shall annually report thereon in print in such manner as to give the citizens a fair and full understanding of the objects and methods of such expenditures, referring, however, to the report of the Treasurer or Accountant for specific details.

Distribution of Reports.

Sec. 3. The Annual Town Reports and the Selectmen's reports upon the articles in the warrants for annual and special town meetings shall be distributed three days at least before the meetings.

Date When Reports are to Be Ready.

Sec. 4. The contracts for printing the Annual Town Reports shall be made by the Selectmen; and all annual reports and all other reports intended to be bound up with the Annual Town Reports shall be sent to the Selectmen not later than February 5th of each year.

Illustrations.

Sec. 5. No illustrations shall hereafter be introduced in reports of the town officers, boards, or committees, except in cases where the insertion of such illustrations is expressly authorized by the Selectmen.

Selectmen's Report.

Sec. 6. The annual report of the Selectmen shall, unless such information is contained in other reports to be published with the Annual Town Report, state what action has been taken as to the following matters: In regard to town ways, county ways and sewers, it shall state specifically what have been laid out and constructed, what have been altered, what damages have been assessed and paid, what claims are outstanding, and what claims are in suit against the town. It shall also state what ways or sewers that have been ordered, laid out, or accepted, remain to be constructed. It shall especially give full reports in regard to all suits against the town, with all the circumstances relating thereto. It shall also contain a detailed statement of the repairs made upon public buildings.

Report of the Board of Health.

Sec. 7. The Board of Health shall make a full and comprehensive annual report of its acts during the preceding year, and of the sanitary condition of the town.

Treasurer's Report.

Sec. 8. In his annual report the Treasurer shall state specifically the objects for which the debt of the town was increased during the year preceding, and recite the votes under which the money was borrowed; and shall render a classified statement of all expenditures and receipts of the town in such detail as to give a fair and full exhibit of the objects and methods of all expenditures.

Assessors' Report.

Sec. 9. The Assessors shall append to their annual report a table of the valuation, real, personal and total, the rate of taxation, and the amount of money raised. The valuation of each building and lot of land which is separately assessed shall be shown in the report, every three years, beginning with year ending January 31, 1907.

Sec. 10. Not approved.

Town Clerk's Report.

Sec. 11. The Town Clerk shall make a report upon the vital statistics for publication in the Annual Report.

Sec. 12. The Town Clerk shall submit to the Selectmen an abstract of the official records of all town meetings, and the same shall be published in the Annual Town Report.

Sec. 13. Not approved.

Publication of By-Laws.

Sec. 14. The Selectmen shall publish these By-Laws in their Annual Report as often as once in five years.

No penalty shall attach to the violation of the foregoing By-Laws.

ARTICLE VI.

Actions at Law.

Section 1. The Selectmen shall have full authority as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

Conveyancing.

Sec. 2. Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

ARTICLE VII.

The Financial Year.

Section 1. During the interval between the thirty-first day of January in each year and the time of making the next annual appropriations, the Selectmen, the School Committee, the Overseers of the Poor, the Board of Health, and the Trustees of the Public Library, in order to meet the liabilities of their several departments incurred in the carrying on of the work entrusted to them, shall have authority to make expenditures and payments from the treasury from any available funds therein, and the same shall be charged against the next annual appropriations, but such expenditure and liabilities incurred for any purpose shall not exceed one-sixth of the entire amount appropriated for that purpose in the previous year.

ARTICLE VIII.

Contracts by Town Officers.

Section 1. Not approved.

Sec. 2. Not approved.

Sec. 3. No town officer and no salaried employee of the town or any agent of any such officer or employee, shall sell materials or supplies to the town without the permission of the Board of Selectmen expressed in a vote which shall appear on their records with the reasons therefor.

Sec. 4. No town officer and no salaried employee of the town, or any agent of any such officer or employee, shall receive any compensation or commission for work done by him for the town, except his official salary and fees allowed by law, without the permission of the Selectmen expressed in a vote which shall appear on their records with the reasons therefor.

Sec. 5. The Board of Auditors in their annual report shall call attention to any apparent violation of this By-Law which may come to their notice.

Proposals.

Sec. 6. When the estimated amount of a proposed contract exceeds \$1,000, proposals shall be called for in the manner provided in this section. Such calls for proposals shall be advertised in a local newspaper (or by advertising in two Boston daily newspapers, not less than three times in each, at intervals of two days), the last publication to be at least two days before the opening of the bids. The advertisement shall require such proposals to be sealed and properly designated, and shall announce the place, day, and hour at which they will be opened. The bids as received shall be deposited in a box securely locked, and at the time and place named shall be publicly opened in the presence of a majority

of the Board of Selectmen, or committee authorized by the town to make the contract. No bids shall be received after the time advertised for the opening. As far as practicable, contracts for less than \$1,000 shall be awarded in such manner as to secure reasonable competition.

Sec. 7. Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

Contracts for Public Buildings.

Sec. 8. No contract or change of contract, or order for labor or materials involving the expenditure of money from the appropriation for the construction of any public building, shall be valid until countersigned by the Selectmen, and recorded in a book to be kept for the purpose. This section shall be written or printed upon every contract for the construction of any public building.

ARTICLE IX.

Selectmen.

Section 1. The Selectmen shall exercise a general supervision over all matters affecting the interests or welfare of the town.

Sec. 2. The Selectmen may settle any claims or suits against the town, which in their opinion cannot be defended successfully, acting upon the advice of counsel when the amount to be paid exceeds one thousand dollars; and they may employ counsel in suits against the town and whenever they deem it necessary.

Sec. 3. The Selectmen may appear (either personally or by counsel) before any committee of the legislature, or board, or commission, to protect the interests of the town,

but are not authorized by this By-Law to commit the town to any course of action.

Article X. Not approved.

ARTICLE XI.

Treasurer.

Sections 1, 2, 3 and 4. Not approved.

Sec. 5. The Treasurer shall have the custody of all receipted bills and receipts, and of notes, bonds, and coupons which have been paid.

ARTICLE XII.

Town Clerk.

Section 1. The Town Clerk shall have the custody of the town seal.

Sec. 2. All conveyances under seal, which may hereafter be executed by the town, pursuant to a vote of the town or otherwise, shall be sealed with such seal and subscribed by a majority of the Board of Selectmen for the time being.

Sec. 3. The Town Clerk shall keep a true copy (in a book to be kept for such purpose alone) of all deeds or conveyances executed by the Selectmen.

Sec. 4. It shall be the duty of the Town Clerk to see that every conveyance to the town of any interest in land is properly recorded in the Registry of Deeds.

Sec. 5. The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a

written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

Article XIII. Not approved.

ARTICLE XIV.

Accounting Department.

Section 1. The Selectmen shall annually appoint a competent Accountant, who shall have the custody of all contracts of the town and of all bonds of indemnity given to the town; shall keep a register of the dates, amounts, and sureties on all such bonds, and notify the Selectmen whenever any such bond expires, or he is of the opinion that it is impaired by the death, insolvency, or other disability of a surety; shall keep a complete set of books, wherein shall be entered the amount of each specific appropriation and each amount that has been expended on account of such appropriation; shall when any appropriation has been wholly expended immediately make a report of that fact to the Selectmen and to the head of the department under whose direction the work for which the appropriation was made is carried on; shall direct to the Treasurer all necessary warrants, drafts, or other orders for the payment of money in such form as the Selectmen shall approve, but such warrants, drafts, or other orders shall only be valid when signed by a majority at least of the Selectmen, or other board or committee authorized to expend an appropriation.

Sec. 2. Said Accountant shall, within forty-eight hours after the close of the period covered by any pay roll, and after examination thereof, if found correct, approve the same, and shall deliver to the Treasurer a warrant or order to pay the amount so approved.

Sec. 3. Said accountant shall examine all bills or demands rendered against the town; shall see that they have

been incurred and properly approved by some person duly authorized, in exact accordance with such authority, that the clerical computations are correct, and that there are on hand funds appropriated for such purpose sufficient for the payment of such demand or bill; in case of any error or informality, he shall make note of the fact and return the bill or demand, with his objections, to the officer or board presenting the same; if he approve the bill or demand, he shall cause it to be entered in a book kept for that purpose and not later than the second Monday of each month he shall sign a draft or warrant for the Town Treasurer to pay all accounts entered therein. When requested by any officer in charge of a department, the Accountant may, if he deem it proper so to do, audit and issue drafts or warrants for the payment of accounts at other times.

Sec. 4. Said Accountant may, with the approval of the Selectmen, in a writing deposited with the Town Treasurer, appoint an assistant, who shall, for such time not exceeding four weeks from the date of such appointment as shall be specified in the writing, perform the duties therein required of the Accountant, and for his acts the Accountant shall be responsible.

Sec. 5. Said Accountant shall immediately after the first day of the month, make to the Selectmen a report of the amounts of the several appropriations, and of the amounts of all drafts on account of each appropriation made, and of all receipts during the month preceding the statement, and the amounts of such drafts made and receipts since the beginning of the financial year, and of the balance of such appropriations remaining subject to draft, and shall prepare such other financial statements as may from time to time be required by the Selectmen.

Sec. 6. Said Accountant shall, in his annual report include a statement of all the receipts and expenditures of the

town for the past financial year, giving in detail the amount of each specified appropriation and the expenditure therefrom, the receipts from each source of income, the reduction, if any, of the town debt. Said statement shall be arranged, as far as practicable, to conform to the accounts of the Town Treasurer and Town Collector, and shall be accompanied by a schedule of the property and assets belonging to the town.

Sec. 7. The Accountant shall examine the books and accounts of the Treasurer and Collector, and of all officers and committees intrusted with the receipt, custody, or expenditure of money, at least twice a year.

ARTICLE XV.

Engineering Department.

Section 1. The Selectmen shall annually appoint a Town Engineer at a fixed salary, who shall have authority to appoint such assistants as the town engineering work requires, subject as to number and compensation only to the approval of the Selectmen. The Town Engineer shall have charge of all town engineering, and no person connected with the engineering department shall engage in engineering work except for the town of Hyde Park, without prior permission in writing in each instance of the Selectmen. The Town Engineer shall have charge of, and shall preserve, arrange, and index, so as to be readily accessible to the public, all plans, surveys, field notes, records, documents, and inventories connected with the engineering department of the town. He shall keep an accurate set of books, showing in detail the cost of his department and of all work done under his direction, all materials purchased and of whom, and all vouchers, orders, and letters received and sent. The Town Engineer shall each year submit to the Selectmen, in time for publication in the Annual Town Report, a statement showing in detail the work of the engineering department for the year,

the names of all persons employed, and a complete inventory of all town property in that department. The Selectmen shall have power at any time to remove the Town Engineer.

ARTICLE XVI.

Fire Department.

Section 1. The Fire Engineers may make contracts involving an expenditure of not exceeding one hundred dollars (\$100) and purchases to an amount not exceeding said sum; but all contracts involving a larger expenditure, and purchases to a larger amount, shall be made by them only when authorized by vote of the Selectmen, such vote to be made a matter of record.

ARTICLE XVII.

Department of Wires and Lights.

Section 1. The department of electric wires and street lights shall be in charge of a Superintendent, who shall be appointed by the Selectmen annually in April. He shall hold office from the first day of May following for the term of one year and until another is appointed in his place. His salary shall be fixed by vote of the town. The Selectmen may at any time remove him. He shall keep a record of the business of his department, and submit to the Selectmen in time for publication in the Annual Town Report a yearly report of such business.

Sec. 2. He shall have supervision of all electric and other wires erected in, upon, over or under any street or building, and of all poles supporting wires or lamps and street lights, and shall require all persons and corporations owning or operating wires to conform to the conditions and requirements of Chapter 166 of the Acts of the Legislature of the year 1895.

Sec. 3. He shall by virtue of his office be the Superin-

tendent of Fire Alarm, Telegraph and Police Signal Systems, and all other electric wire systems now or hereafter owned by the town.

Sec. 4. He may, with the approval of the Selectmen, appoint and remove such assistants as may be necessary for the work to be done, permitted by the appropriation.

Sec. 5. Any person or corporation operating electric or other wires within the town shall, upon request of the Superintendent, furnish him with such information as may be necessary to the faithful and effectual discharge of his duties under this By-Law.

Sec. 6. The Superintendent shall have access at all reasonable times to all wires, appliances, and apparatus in the interior of a public building or on private premises, which are intended for carrying an electric light or power current, and no person shall arrange, affix, or change any such wires or apparatus without giving the Superintendent reasonable opportunity to inspect such wires and their arrangement and fixtures before the same are covered or enclosed; and no person shall place such wires in any building in process of construction until gas, steam, sewer, water and furnace pipes have been placed in proper position. No person shall connect such wires in the interior of buildings and on private premises with an outside circuit which crosses or runs along, over or under, any street or way of the town, without written permission therefor having first been obtained from the Superintendent.

Sec. 7. Not approved.

ARTICLE XVIII.

Sealer of Weights and Measures.

Section 1. The Sealer of Weights and Measures shall be paid such annual salary as the town from time to time may

vote. He shall account for and pay into the Treasury of the town all fees received by him by virtue of his office; but no fees shall be charged for services rendered under the provisions of Section 21 of Chapter 62 of the Revised Laws.

ARTICLE XIX.

Construction of Town Ways.

Section 1. Whenever any way shall have been laid out, or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

ARTICLE XX.

Relating to Highways.

Section 1. No person except the Selectmen, the Surveyors of Highways in the lawful performance of their duties, or those acting under their orders, except such other persons as are or may be authorized by statute, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the Selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed, every night from twilight in the evening through the whole night, so long as such street or way shall remain unsafe or inconvenient for travellers.

ARTICLE XXI.

Use of Public Ways.

Management of Horses and Vehicles.

Section 1. No person excepting drivers of ambulances or patrol wagons, or members of the Fire Department responding to a fire-alarm, shall drive or ride a horse or other animal at a rate of speed exceeding eight miles an hour, through any public way, street, or avenue in this town.

Sec. 2. No person having charge of a truck, cart, wagon, sled, or dray, with an animal attached thereto to draw the same, shall, when riding, cease from holding the reins in his hands to guide and restrain such animal, nor, when not riding, cease from walking by the head of the shaft or wheel animal, either holding or keeping within reach of the bridle or halter thereof.

Sec. 3. No person shall drive, or take charge of, at the same time, in any of the public ways of the town, two or more vehicles, drawn by horses or other beasts.

Sec. 4. No person having the charge of a vehicle in any street shall neglect or refuse to stop the same, or to place the same when stopped, as directed by a police officer.

Sec. 5. No person shall permit any horse in his charge to be fed on any street or way in the town, except by permission of the Selectmen.

Sec. 6. No person having under his care or control any vehicle shall permit the same, or the animal or animals attached thereto, if any, to stand across any public highway or street, in such a manner as to obstruct the travel over the same, for an unnecessary length of time; no person shall stop with any vehicle in any public street so near to another vehicle as to obstruct public travel; and no person shall stop with any vehicle upon or across any crossing in any street or highway in the town.

Sec. 7. No person shall occupy any part of any public street as storage room for carriages or other vehicles.

Grazing.

Sec. 8. No person shall suffer horses or grazing beasts or swine to run at large in this town, or to feed by the roadside, either with or without a keeper.

Sec. 9. No person shall erect any canopy, awning, shade, shade-frame, or shade curtain in any public street at a less height than seven and a half feet from the sidewalk, and then only by permission of the Selectmen.

Sec. 10. No person shall allow any gate or door belonging to premises under his legal control and adjoining any public way, to swing on, over or into said public way.

Use of Sidewalks.

Sec. 11. No person shall drive, wheel or draw any coach, care, wheelbarrow, hand-cart, or any carriage of burden or pleasure (except children's carriages drawn by hand) upon any sidewalk in the town.

Sec. 12. No person shall permit any horse, cattle, swine, or sheep under his care, to go upon any sidewalk in the town.

Coasting.

Sec. 13. No person shall coast upon a sled upon any sidewalk of the town, or upon any street, except at such times and in such places as may from time to time be designated by the Selectmen.

Games—Missiles.

Sec. 14. No person shall throw stones, snowballs, sticks, or other missiles, or kick at football, or play at any game in which a ball is used, or fly any kites or balloons, in any of the public ways of the town.

Sec. 15. No person shall shoot or use a bow and arrow in any of the public ways of the town.

Depositing Merchandise and Rubbish on Streets and Sidewalks.

Sec. 16. No person shall place, or cause to be placed any lumber, coal, barrel or other obstruction upon any public way or sidewalk and allow it remain more than one hour after being notified by a police officer to remove it.

Sec. 17. No person shall sweep rubbish on to any sidewalk or street in the town.

Sec. 18. No person shall lay, throw, or place, or cause to be laid, thrown, or placed, any ice or snow into any street within the town, unless the same be broken into small pieces and spread evenly on the surface of such street.

Use of Streets for Building Purposes.

Sec. 19. Any person who intends to erect, repair, or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit to occupy such portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially, in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

Sec. 20. No person shall use any portion of any way which the town is obliged to keep in repair for the purposes named in the next preceding section without the permit, in writing, of the Selectmen, as above provided, nor having obtained such permit, shall fail to comply with the conditions thereof.

ARTICLE XXII

Miscellaneous Provisions.

Disorderly Behavior.

Section 1. No person shall behave himself in a rude or disorderly manner in any public place in the town.

Sec. 2. No person shall use any indecent, profane, or insulting language in any public place in the town or within audible distance of any dwelling-house or other building therein.

Sec. 3. No person shall be, or remain, upon any sidewalk, or upon any door-step, portico, or other projection of any house or other building not his own, to the annoyance or disturbance of any person nor shall any person in a street stand or loiter for more than five minutes after being directed by a police officer to move on.

Sec. 4. No person shall by any noise, gesture, or other means, wantonly or designedly frighten any horse in any street or other public place in the town.

Sec. 5. No person shall stand on any public way in such a manner as to obstruct a free passage for passengers.

Sec. 6. No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

Sec. 7. No person shall swim or bathe in any waters within the limits of the town so as to be exposed in a nude state, to the view of any persons passing or being upon any railroad or street or in any dwelling-house in this town.

Sec. 8. No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the Selectmen, Engineers of the Fire Department, or the Hyde Park Water Company.

Defacing Grounds—Injuring Trees.

Sec. 9. No person shall wilfully deface, or injure any public playground, planting-space, flower-bed, tree, shrub, or grass border.

Sec. 10. No person shall tie a horse to a tree in any street, and no person, except an employee of the town, or of a telephone, telegraph, or electric light company, shall climb any tree on any public way or ground in the town.

Posters—Circulars—Litter.

Sec. 11. No person shall post, affix, or in any way attach any poster, handbill, notice, advertisement, or placard, or paint, draw, or stamp any letter, notice, figure, or advertisement, upon, or otherwise deface any wall, fence, tree, post, building, or structure not his own, within the town of Hyde Park, except with the consent of the owner thereof.

Sec. 12. No person shall distribute papers, circulars, or advertisements through the town in such manner as to create a disturbance or litter.

Sec. 13. Not approved.

Sec. 14. Not approved.

Street Bands.

Sec. 15. No street band shall play upon any of the public streets of the town between six P. M. and seven A. M. without the written permission of the Selectmen.

Hawkers and Peddlers.

Sec. 16. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the Revised Laws, until he has recorded his name and residence with the Police Department and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Police Department, and be approved on the first Monday in every month by the Police Department.

Sec. 17. No person hawking, peddling, or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

Sec. 18. No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

Sec. 19. No person shall hawk or peddle any articles mentioned in Section 15, Chapter 65, of the Revised Laws, until he has been licensed thereto by the Selectmen. Licenses so granted shall expire annually on the first day of May, and may be revoked at the pleasure of the Selectmen.

Sec. 20. No person, except in accordance with a permit from the Selectmen, shall sell from any wagon or other vehicle, basket or other receptacle, any goods, wares or merchandise, to any person in any street or public place.

Junk Licenses.

Sec. 21. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or bar-

ter of junk, old metals, or second-hand articles, in the town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the town; and they may provide that such collectors shall display badges upon their persons or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle, or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto.

Sec. 22. Every keeper of a shop for the purchase, sale, or barter of junk, old metals, or second-hand articles, within the limits of the town, shall keep a book, in which shall be written, at the time of every purchase of any such article, a description thereof, the name, age, and residence of the person from whom, and the day and hour when, such purchase was made; such book shall at all times be open to the inspection of the Selectmen and of any person by them authorized to make such inspection; every keeper of such shop shall put in a suitable and conspicuous place on his shop a sign having his name and occupation legibly inscribed thereon in large letters; such shop, and all articles of merchandise therein, may be at all times examined by the Selectmen or by any person by them authorized to make such examination; and no keeper of such shop and no junk collector shall, directly or indirectly, either purchase or receive by way of barter or exchange any of the articles aforesaid of a minor or apprentice, knowing or having reason to believe him to be such; and no article purchased or received by such* shopkeeper shall be sold until at least one week from the date of its purchase or receipt has elapsed. Such shops shall be closed between the hours of 6 P. M. and 7 A. M., and no keeper

thereof and no junk collector shall purchase any of the articles aforesaid during such hours.

Sec. 23. Not approved.

Numbering Houses on Streets.

Sec. 24. The Selectmen may order numbers to be affixed to or painted on the buildings on any street, in their discretion. The owner of every house shall comply with such order within ten days thereafter.

ARTICLE XXIII.

Public Health.

Vaults—Drains, Etc.

Section 1. No person shall allow his vault or house or stable drain to drain into any sewer without first obtaining from the proper authorities the permission so to do.

Sec. 2. If the Board of Health shall at any time be satisfied that any tenement, used as a dwelling-house, is not provided with a suitable privy, vault, and drain, or either of them, it shall give notice in writing to the owner, agent, occupant, or other person having care thereof; and in case of neglect or refusal to obey such notice, the Board of Health shall cause such privy, vault, and drain, or either of them, to be made for such tenement or other building, at the expense of such owner, agent, occupant, or other person; and in case any such drain, vault, or privy is constructed as aforesaid, for the use of more than one house, then the owner, agent, occupant or other person having the charge of each of such houses shall be liable to pay a proportional part of such expense.

Sec. 3. Whenever any vault, privy, or drain becomes offensive or obstructed, the same shall be cleansed and made free, and the owner, agent, occupant, or other person having

charge of the land in which any vault, privy, or drain is situated, the state or condition of which is in violation of the provisions of this ordinance, shall remove, cleanse, alter, amend, or repair the same within such reasonable time, after notice in writing to that effect given by the Board of Health, as shall be expressed in such notice. In case of neglect or refusal so to do, the Board of Health may cause the same to be removed, cleansed, altered, amended, or repaired, as it may deem expedient, at the expense of the owner, agent, occupant, or other person as aforesaid, who shall also be liable to a penalty.

House Offal.

Sec. 4. No person except the duly authorized agents and employees of the Selectmen shall remove or carry in or through any of the streets, squares, courts, lanes, avenues, places, or alleys within the town of Hyde Park any house-dirt or house-offal, either animal or vegetable, or any grease or bones, or any refuse substances from any of the dwelling-houses or other places in the town, unless such person so removing and carrying the same, and the mode in which the same may be removed and carried, shall have been expressly licensed by the Board of Health upon such terms and conditions as it may deem the health and interest of the town require.

Sec. 5. No person shall drive, or cause to be driven any cart or wagon containing night soil, or any cart or wagon used for that purpose, through any public way in the town, except of the Odorless Excavating Company, until permission has first been obtained from the Board of Health.

Rubbish—Filth.

Sec. 6. No person shall put or suffer to accumulate on his premises any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or obnoxious stench or effluvia

shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the streams or brooks of the town not laid out by the town as common sewers, or shall allow the contents of any vault, house-drain, or the refuse of manufacturing or slaughtering process to drain into such streams or brooks.

Sec. 7. No person shall throw or suffer to fall into any common sewer in the town, or into any inlet of the same, any dead animals, stones, bricks, sticks, or other substances likely to obstruct the flow of water in the same.

Sec. 8. No person without a license of the Board of Health shall throw into, or leave in or upon any street, court, square, lane, alley, public square, public enclosure, pond or body of water, or vacant lot where it would be offensive or injurious to health, within the limits of the town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam, or lobster shells, waste water, rubbish or filth of any kind, or any refuse, animal or vegetable matter whatsoever.

Sec. 9. All dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam, or lobster shells, waste water, or any animal or vegetable substance, rubbish or filth of any kind in any house, warehouse, or other building, cellar, yard, unaccepted street, alleyway, or other place, which the Board of Health may deem injurious to the health of the town, shall be removed by the owner or occupant of such house, warehouse, other building, cellar, yard, unaccepted street, alleyway or other place where the same may be found, within twenty-four hours, or such other time as the Board of Health may deem reasonable, after notice in writing to that effect, or such removal shall be made under the direction of the Board of Health.

Sec. 10. No person shall keep cattle exceeding two, or any swine, within the limits of the Town of Hyde Park, except in accordance with a permit from the Board of Health.

Sec. 11. No person shall keep any fowl in any part of a dwelling-house, or in any place in the town where the Board of Health may deem such keeping detrimental to the health or comfort of the residents of the neighborhood, and after due notices by said board to the owner or person in charge, he shall forthwith remove the same or cause to be removed, from any place at which the keeping thereof shall be prohibited by said Board.

Sec. 12. Owners and occupants of livery and other stables within the town shall not wash or clean their carriages or horses, or cause them to be washed or cleaned, in the street or public ways. They shall keep their stables and yards cleaned, and not allow large quantities of manure to accumulate in or near the same at any one time between the first day of May and the first day of November, and no manure shall be allowed to accumulate or remain uncovered outside of a stable.

Decayed Vegetables—Tainted Meat.

Sec. 13. No person shall bring into town any decayed or damaged grain, rice, coffee, fruit, potatoes, or other vegetable product, or any tainted or damaged meat or fish, without a permit therefor from and in such a manner as directed by the Board of Health

ARTICLE XXIV.

By-Laws Relating to the Prevention of Fires and the Preservation of Life.

Section 1. The Selectmen shall annually in April appoint an inspector of buildings for the term of one year from the first day of May following or until another is appointed in his stead, and shall then fix his salary or compensation. The selectmen may remove said inspector for cause, after due notice and hearing, upon charges previously filed with them. When-

ever said inspector of buildings is temporarily unable to perform the duties of said office by reason of absence from town, from illness or other cause, the selectmen may appoint an inspector of building pro tempore, who shall act as such inspector while such inability continues. He shall keep a record of the business of said department, submit to the selectmen a yearly report of such business, ascertain all facts and make all returns which shall be required by law relative to steam boilers or other matters connected with this department. He shall grant permits for the erection or alteration of buildings but no such permit shall be issued until the inspector has carefully examined the plans and specifications of the proposed building or alteration and ascertained that the building has sufficient strength and that the means of ingress and egress are sufficient. A copy of the plans and specifications of every public building shall be deposited with the inspector.

Sec. 2. Every person intending to build or make any alteration in the external or party walls of any building shall, before commencing the same, file an application for a building permit with the inspector of buildings giving a description of the intended building or alterations. No permit issued by such inspector shall be in force for a longer time than one year.

Sec. 3. All chimneys in wooden buildings shall be built of good hard brick, stone, or other fire-proof, non-conducting material. All brick flues shall have mortar joints smoothly "jointed" inside from top to bottom or lined with earthen pipe, and shall be plastered (outside below the roofing). No soft brick shall be used in the construction of a chimney. Whenever the inspector so requires, the shells of flues for boilers, ovens, ranges, furnaces and heaters shall be of brickwork eight inches thick, or its equivalent, to the top of the second story floor or to a height of fifteen feet above such

ovens, ranges, funaces or heaters, and the inspector shall determine what constitutes such equivalent.

Sec. 4. In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end, or be more than four inches out of centre of gravity unless the same be attached to a brick wall.

Sec. 5. All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

Sec. 6. Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, not less than eight inches thick, or upon bars of iron supporting eight inches of brickwork.

Sec. 7. Jambs of fireplaces and grates shall not be less than eight inches thick and when arched over shall be securely tied to brickwork of chimney.

Sec. 8. No woodwork of any kind shall be placed at a less distance than one inch from the outside brickwork of any flue. In no case shall a nail be driven into the masonry of any flue.

Sec. 9. No woodwork shall be placed at a less distance than one-half inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

Sec. 10. No smoke pipe in any wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind whether the same be plastered or not, they

shall be guarded by either a double collar of metal, with at least four inches of air space and holes for ventilation or by a soapstone or plaster of paris ring, not less than three inches in thickness and extending through the partition.

Sec. 11. All frames shall be built with posts, plates and girts, properly mortised, tenoned, braced and pinned and supported by suitable studding, the posts and girts to be not less than four inches by six inches or equivalent thereto, provided, however, that ledger boards may be used in place of girts, if the spaces back of the same, between the studding be filled with joist in such a manner as to prevent draft in case of fire.

Sec. 12. The Inspector of Buildings shall examine all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever in his opinion the same may be dangerous to the security of the town from fires; and direct the owner, tenant or occupant of said shops or other places, to remove the same; and in case such owner, tenant, occupant refuses so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

Sec. 13. It shall also be the duty of said inspector to take cognizance of all buildings in the town in which any steam engine shall be used, and to examine all buildings in town in process of erection or alteration and all buildings under application to raise, enlarge, alter, or build upon and for that purpose shall have the right of entry thereto, and to make a record of the same and of all violations of these building laws and of such buildings as in his judgment may from any cause be dangerous, and report any dangerous buildings to the selectmen forthwith, together with the location of the building where such violations are found and the name of the owner, lessee, occupants, architect and master mechanic and all other matters relating thereto. These records shall

at all times be open to the inspection of the engineers of the fire department or selectmen of the town.

Sec. 14. Any alterations or additions to any building already erected or hereafter to be built, except necessary repairs not affecting the construction of the external or party walls, chimneys or stairways, shall to the extent of such work, be subject to the regulations of these By-Laws. No building already erected or hereafter built shall be raised or built up in such manner that were such building wholly built or constructed after the passage of these By-Laws it would be in violation of any provision thereof.

Sec. 15. No building the exterior walls of which are in part or wholly of wood shall be erected upon or within one hundred feet of Everett Square so-called; Fairmount avenue from River street to the Neponset River; River street from the location of the Boston and Providence railroad to Winthrop street; Hyde Park avenue, on the easterly side, from the northerly side of Oak street to Everett street; Hyde Park avenue on the westerly side from the northerly side of Pine street extension, so-called, to a point on said Hyde Park avenue opposite the southerly line of Everett street; Harvard avenue from River street to Winthrop street; Maple street from River street to a point one hundred and eighty feet southerly therefrom; Central avenue from River street to Winthrop street; Davison street from Fairmount avenue to a point three hundred feet northeasterly therefrom; Grove street; Pierce street from Fairmount avenue to a point three hundred feet northeasterly therefrom; Nott street from Fairmount avenue to a point three hundred feet easterly therefrom; Railroad avenue from Fairmount avenue to a point three hundred feet northeasterly therefrom; Station street from the Neponset river to a point three hundred feet northeasterly from Fairmount avenue; Walnut street from Fairmount avenue to a point three hundred feet southwesterly

therefrom; Maple street from Fairmount avenue to a point one hundred and twenty-five feet westerly therefrom.

No person shall move, or cause to be moved, any wooden building from without said limit into the same.

No person shall move, or cause to be moved, any wooden building from one place to another within said limits, nor shall any person repair or rebuild any building within said limits, which has been partially destroyed by fire or otherwise, without the written permit of the Board of Selectmen.

No addition which shall exceed fifteen feet in height from the ground to the highest part thereof, or which shall exceed five hundred superficial feet in area, shall be made to any wooden building within said limits, without permission from the selectmen after a hearing of which public notice shall be given. Provided, however, that the owner, or other person interested, may make any necessary repairs upon any wooden or frame building already built, if the height of said building be not thereby increased; and a flat roof, covered with metal or other non-combustible material, may be substituted for a pitch roof.

Sec. 16. Every building or structure, hereafter built in the town, of brick, stone, iron, or other hard and incombustible materials, shall have foundations resting upon solid ground, not less than four feet below the surface exposed to frost, or upon concrete, piles or other durable sub-structure.

Sec. 17. Every wall constructed of brick, stone, or similar substance shall be properly bonded and solidly built with one-half cement mortar.

Sec. 18. For brick buildings with walls not exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall be not less than thirty inches thick at the bottom, and twenty inches thick at the top, and shall be laid in one-half cement mortar, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the foundation walls shall be not less than

sixteen inches thick the entire height, and shall rest upon a footing course not less than twelve inches high and twenty-four inches wide, and shall be laid in one-half cement mortar; and exterior and party walls, of brick, shall be not less than twelve inches thick the entire height.

Sec. 19. For brick buildings with walls exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall be not less than thirty-six inches thick at the bottom, and twenty-four inches thick at the top and shall be laid in one-half cement mortar; and be built of stones large enough to properly bond the wall; if built of block stone, horizontal courses, the foundation walls shall be not less than eighteen inches thick the entire height, and shall rest on a footing course not less than twelve inches high and thirty inches wide, and shall be laid in one-half cement mortar; and exterior and party walls, of brick, shall be not less than sixteen inches thick to the top of the first floor, and not less than twelve inches thick the remaining height.

Sec. 20. Party and partition walls shall be built upon a footing course of stone not less than twelve inches high and twenty-four inches wide.

Sec. 21. If each of adjoining owners shall erect a wall on his own land, instead of a party wall, such wall shall be not less than twelve inches thick the entire height, and such walls and all party walls shall extend two feet above the roof of the highest building of which they are a part, and be coped with stone or iron, securely fastened, and wherever there is a projecting cornice on front or rear of a building, it shall be corbelled to the outer edge of all projections. Party walls shall be built solid the entire height, except when chimneys are inserted in them; in which case they shall be not less than six inches thick back of the chimneys, to the party line.

Sec. 22. Every brick building erected hereafter in the town, more than thirty feet in width,—except halls, churches,

theatres, railroad stations, or other public buildings,—shall have one or more brick partition walls, not less than eight inches thick, running from front to rear of building, and carried up to the top of the second-story floor joist. These walls shall be so located that the space between any two of the floor-bearing walls of the building shall be not over twenty-five feet in width. Iron or wooden girders supported upon iron or wooden columns, or brick piers may be substituted for partition walls, and shall be of sufficient strength to bear safely the weights which they are intended to support. The piers or columns shall rest upon levellers one foot thick, thirty inches square.

Sec. 23. In every brick wall, every ninth course of brick shall be a heading course; except in bonded walls, in which at least every ninth course is a heading course, and except when walls are faced with face brick in which every ninth course shall be bonded with Flemish headers, or by cutting the course of the face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

Sec. 24. All piers shall be built of good, hard, well burned brick, laid in strong cement and sand mortar.

Sec. 25. All brick walls shall be secured to each floor and the roof at intervals of not more than ten feet, with wrought iron anchors not less than one-half inch thick, one and one-half inches wide, and not less than three feet long, well turned up into centre of brick wall and down into floor timbers; and where floor and roof timbers are in two lengths and rest on partition walls or girders, they shall be strapped together with wrought iron straps or tie-irons at the same distance apart, and in the same beams as the wall-anchors, and shall be well-fastened, so as to form continuous ties across the building.

Sec. 26. All roof or floor timbers entering the same party

wall from opposite sides shall have at least four inches of solid brick work between the ends of said timbers.

Sec. 27. The butts or ends of all floor beams or rafters entering a brick wall shall be cut on a splay of three inches in their width, and have bearings on the walls of four inches.

Sec. 28. Upon application of any person in interest, the inspector shall, upon the completion of the erection or alteration of any building, pursuant to the provisions of these building laws, give a certificate so stating.

Sec. 29. It shall be the duty of said inspector to enforce compliance with these By-Laws relating to the prevention of fires and the preservation of life and to prosecute all persons violating the same.

BY-LAWS RELATING TO PLUMBING AND WASTE WATER.

Test.

1.—Every plumbing job which consists of the putting in of waste or soil pipe shall be tested in the presence of the Plumbing Inspector, by water or other test acceptable to the Board of Health. If water test is used, each soil, waste and ventilating pipe shall be filled with water to a point above the roof and above the highest opening in the building; and no work shall be considered ready for test unless the soil, waste and vent pipe and traps are in position, except in case of provisional opening for fixtures to be put in in the future. The same to be furnished with cast iron plug or brass clean-out, thoroughly caulked with lead. Notice that work is ready for test shall be made in writing, and shall be inspected within two working days after notice is given.

2.—Within twenty-four hours after the plumbing work is ready for final inspection the Plumbing Inspector shall be notified in writing to inspect the same, and work shall not

be covered in until accepted by him. The water must be turned on to all fixtures at the time of inspection. A written notice will be given the plumber by the Plumbing Inspector after the acceptance of the work.

Soil Pipe.

3.—All soil pipe shall be not less than four (4) inches in diameter, and shall be carried their full size from a point ten (10) feet outside the wall of house up to and through the roof at least two (2) feet above the roof and the highest opening in the building. All branches of soil pipe four (4) or more inches in diameter, and twelve (12) feet or more in length, shall be continued out full size through the roof and above the highest point in the building, or taken into the soil pipe above the highest fixtures in the building.

4.—All branch lines of waste pipe less than four (4) inches in diameter, and fifteen (15) feet in length, must be carried up through the roof at full size, and at least two (2) feet above the highest opening in the building or to be taken into the soil pipe above the fixtures.

Cleanouts.

5.—For inspection purposes cleanouts corresponding in size to the main drain, with covers of hand holes made gas and water tight and of a pattern approved of by the Board of Health, shall be provided at intervals of not more than twenty (20) feet, and one such opening shall be required on each horizontal branch of fifteen (15) feet. For four (4) inch soil pipe or less, at the house side of the cellar wall provide a four (4) inch extra heavy cast iron Y with heavy brass cleanouts and not less than four (4) inches, inside measurement, connected in the straight end of Y. On branch of Y fix a four (4) inch running trap with brass cleanout. Where

larger than four (4) inch soil pipe is used the Y cleanout and trap must be the same size as the pipe.

6.—Where there are four (4) or more closets on the line of the soil pipe, said pipe shall be five (5) inches in size, and increase in size as increase in fixtures and usages of the building require.

7.—Rain water leaders, where they enter the drain, shall be trapped with cleanout to trap, and where they run inside the building shall be of cast iron, not less than three (3) inches in diameter; these branches to join in the main line if not less than four (4) inches in diameter, which line shall be trapped with cleanouts to trap and connected with the main soil pipe on the drain side of the running trap.

8.—No rain water leader shall be used for a soil, waste or vent pipe, and no soil, waste or vent pipe shall be used for a water leader.

9.—Drain, waste, soil and ventilating pipes, traps, etc., in old buildings may be used in new buildings, alterations or improvements of old property only when found by the Plumbing Inspector to conform to the rules governing new material.

10.—Soil pipes will not be allowed under the ground unless the location of the fixtures and the future requirements demand it.

11.—All cast iron pipe must be sound and free from holes and other defects, of uniform thickness and what is termed extra heavy cast iron soil pipe with fittings all corresponding, said pipe and fittings to be stamped as such and mark to be in plain sight for inspection, and shall have an average weight not less than below specified, viz.:—

2 inch pipe	5 1-2 lb. per ft.
3 inch pipe	9 1-2 lb. per ft.
4 inch pipe	13 lb. per ft.
5 inch pipe	17 lb. per ft.
6 inch pipe	20 lb. per ft.

12.—All soil or waste pipes must be securely fastened to the wall, laid in trenches of a uniform size, or suspended from the floor timbers with strong iron hangers. Change in direction of the soil pipe shall be made with Y's and 1-8 or slow curve bends. Connections with horizontal and vertical soil pipe shall be made with Y branch, no saddle branches will be allowed for any connection unless it is impossible to connect otherwise. If change of direction is made with a Y, a brass cleanout must be put in the straight end of the Y. If made with bends, a Barrett or other cleanout equally as good must be placed in a straight line to pipe between such bends. For waste pipes from all fixtures where the pipes run horizontally it shall not be less than two (2) inches in diameter; for water closets nothing less than four (4) inches.

13.—No brick, earthenware or sheet metal pipes or chimney flues shall be used for waste, sewer or ventilation pipes. No waste pipe from any fixture shall be less than one and one-quarter inches in diameter.

14.—All waste pipes from sinks, basins, bath tubs, set bowls and urinals less than two (2) inches in diameter shall be of lead (except that brass tubing may be used of the same internal diameter as would be required if lead were used); all two (2) inches and larger shall be of cast iron pipe.

Traps.

15.—In every hotel, restaurant, boarding house or public boarding establishment there shall be a suitable grease trap connected with the sink in a place easy of access for inspection and cleaning. Each fixture in new, and alterations in old buildings shall be properly trapped with not less than a four (4) inch bottle or other trap with not less than three and one-half inch cleanout, placed in all cases where it is easy of access for inspection and cleaning.

Except that one five (5) inch trap may be used for a bath

tub and a bowl, or for a sink and set of wash trays provided the length of waste pipe from the fixture does not exceed three (3) feet. Measurements of the same shall be taken on centres between the perpendiculars, and waste from trap shall not be less than one and one-half inches in diameter.

16.—No trap vents shall be connected with earthenware.

17.—All traps must be properly vented except in old buildings where no provision can be made. The size of the ventilation pipe from each trap to be not less than the size of the waste pipe from the fixtures, and shall extend up to and through the roof and two feet above highest opening in building, or connect with the main line of soil pipe and above the highest fixture. No trap shall be placed at the bottom of a vertical line of soil pipe.

18.—No fixtures, as a slop sink, etc., shall be set up unless it is provided with proper means of flushing.

Joints.

19.—Sheet metal and slip joints shall not be used inside of any building for waste pipes. All connection of lead and iron pipe including the connection with water closet tanks shall be with brass or combination ferrule, soldered with plumber's wiped metal joint where practicable. All joints in cast iron pipe shall be made with oakum and molten lead, to be caulked thoroughly, and made air and water tight.

20.—All connections of brass ferrules with cast iron pipe must be made with molten lead thoroughly caulked.

21.—Waste pipes from refrigerators shall not be connected with a soil, waste or drain pipe or sewer, but shall run to the outside of the building or to some receptacle with the end left open or in sight.

22.—Where urinals are placed in any hotels or any other building they shall have sufficient self flushing automatic water fixtures or be furnished with a hot air draft ventilation.

23.—No steam exhaust, blow-off or drip pipe shall connect with any house drain, water or soil pipe or sewer, but shall discharge into a suitable tank or condenser from which a suitable trap and back vented valved outlet to the house drain or sewer shall be provided. All house drains connected with a cesspool shall be subject to water or other test and other rules, the same as though connected with the sewer.

24.—Drip or overflow pipes from safes under water closets and other fixtures or from tanks or cisterns, shall be run to some place in open sight and in no case shall any such pipe be connected with the drain.

25.—When the Plumbing Inspector finds that the plumbing and drainage system in any building is not in a proper sanitary condition, or any defects in workmanship or in material, the same shall be remedied to conform with the rules of the Board of Health.

26.—When the Plumbing Inspector finds defective work and material on any job, the plumber shall, within twenty-four hours after receiving notice of the same, remedy such defects to the satisfaction of the Inspector; otherwise the owner shall be notified of such defects.

27.—Wash tubs and sinks shall be of slate, iron, soapstone, crockery or other non-absorbent material; wooden tubs will not be allowed.

28.—Where there is a sewer adjacent to the premises all the pipes carrying waste water must be connected with it; where there is no sewer, connection must be made with a cesspool of a capacity of not less than sixty (60) cubic feet.

29.—Waste water shall not be run into any stream or pond or upon the ground.

30.—All diameters of pipes given in these rules are for inside measurements.

31.—Every water closet in the building must be supplied with water from a tank or cistern, which is not used for any other purpose.

Except that this requirement shall not apply for water closets substituted for vaults where the same are located outside of the building proper, and such water closets shall be arranged so as to receive their supply directly from the main with proper fixtures approved by the inspector, the water company, and the Board of Health.

The flush pipe to be of lead two and one-half pounds to the foot, and one and one-quarter inches in diameter. In every tenement house there shall be at least one water closet for each tenement or family. All water closet rooms shall be provided with a window in the wall of the building opening into the outside air to admit of not less than three (3) square feet of air and light, or lighted and ventilated by an air shaft or skylight.

All water closet traps except when it is the top fixture shall have a separate ventilation pipe either of cast iron or lead as follows.

For lead pipe where there is one water closet on the main line the ventilation shall be one and one-half inches; two to four closets, two (2) inches; five closets, two and one-half inches; six or more closets, three (3) inches; for cast iron pipe one to four closets, two (2) inches; of five or more, three (3) inches; the increase according to the number of closets.

Any branch connection from the crown of the traps into the main line of the back ventilation pipe shall be made of lead not less than one and one-half inches in diameter, except that galvanized iron pipe of like diameter, may be used for back ventilation where the same shall run behind sheathing, etc.

All floor connections of earthen water closets with trap combined, shall be made with brass flanges soldered to lead bend or pipe and made tight with a rubber gasket and brass bolts.

...Back ventilation pipes when of iron shall be of not less

than two (2) inches in diameter for distances thirty (30) feet or less, and of not less than three (3) inches for distances of more than thirty (30) feet.

32.—In all cases where plumbing fixtures, pipes, etc., of every description are covered or encased, such casing, boxing, floor, seats, covering, etc., shall be fastened with screws, hinges, hooks or any other better manner to enable easy access to pipes and fixtures. No casing will be allowed to be fastened with nails and in no case shall pipes be plastered in between studding or in walls and partitions.

Penalties Under the By-Laws.

Whoever violates any By-Law of the town of Hyde Park, shall, unless otherwise provided by the laws of the Commonwealth of Massachusetts, or by other provisions in these By-Laws, be punished by a fine not exceeding twenty dollars for one offence.

All By-Laws or parts of By-Laws of this town heretofore existing are hereby repealed. And these By-Laws of the town of Hyde Park shall go into effect upon their approval by the Attorney-General and complying with the provisions of Chapter 344 of the Acts of 1904 as amended by Chapter 144 of the Acts of 1905.

The foregoing By-Laws were made and adopted by the town of Hyde Park at a meeting of its legal voters held in Waverly Hall in said town on April 4, A. D. 1906.

Attest:

HENRY B. TERRY,
Town Clerk.

The foregoing By-Laws were approved by the Attorney-General of this Commonwealth on July 17th, A. D. 1906.

Attest:

HENRY B. TERRY,
Town Clerk.

39th ANNUAL REPORT
OF THE
BOARD OF ASSESSORS
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1907

BOSTON:
FARRINGTON PRINTING CO.
1907

ASSESSORS' REPORT.

The assessors of the town of Hyde Park submit the following report:

At the annual town election, March 5, 1906, Messrs. Charles F. Morrison and Joseph J. Houston were re-elected, and Edwin C. Farwell was elected to fill the place made vacant by the death of George W. Chapman.

The board organized with Charles F. Morrison, chairman, and Edwin C. Farwell, secretary.

Owing to the fact that the tax commissioner called on all boards of assessors to make returns one month in advance of previous years, and that the new by-laws of the Town call for the printing of the total valuation of the Town, in the report for the year ending Jan. 31, 1907, we were unable to make the progress we wished in the block system. The work is begun and will be pushed to completion as fast as possible.

At the meeting, Dec. 26, 1906, the Town appropriated five hundred dollars for assessors' plans which will enable us to continue the work already begun. It will readily be seen that it will take a long time to make surveys and draw plans, and means that other appropriations will be needed from time to time to complete this work. We have no doubt the citizens will be with us in our efforts to make this system a success.

We wish to call attention to the statute requesting tax payers to bring in true lists of their polls, real and personal property.

We would request the residents of the Town owning stocks in Massachusetts banks or corporations, and especially those who are purchasing such stocks, to have their residence given as Hyde Park, whatever may be their post office address.

We would like to impress upon the minds of the residents of Hyde Park that a dollar gained in corporation tax lessens the direct tax by the same amount.

VALUATION STATISTICS.

Buildings	\$ 6,757.650
Land	4,659.975
	<hr/>
	11,417.625
Personal Estate	1,659.400

Harvard College	875.00

1 An exhibit of some of the details of the Assessors' work for the year 1906, with comparisons of increase or loss with the preceding year, here follows:—

Polls assessed	3,700	an increase of	100
Transfers of real estate	710	an increase of	86
Dwellings	2,561	an increase of	114
Number of horses	430	an increase of	9
Number of cows	82	an increase of	24
Number of acres assessed	2,055		
Value of taxable real estate	\$11,417,625	an increase of	\$167,355
Value of taxable personal estate ..	1,659,400	an increase of	27,400

We invite all citizens to inspect our methods of doing the work, and are not only willing, but request that all parties who feel they have not been treated fairly confer with the board that if any errors exist they may be righted.

CHARLES F. MORRISON,
JOSEPH J. HOUSTON,
EDWIN C. FARWELL,

Assessors of Hyde Park.

SCHOOL CALENDAR 1906-7.

FIRST TERM.

Begins Wednesday, Sept. 12th; ends Friday, Dec. 21st.—15 weeks.

SECOND TERM.

Begins Wednesday, Jan. 2d; ends Friday, March 29th.—13 weeks.

THIRD TERM.

Begins Monday, April 8th; ends Friday, June 21st.—11 weeks.

1907-1908.

FIRST TERM.

Begins Wednesday, Sept. 11th; ends Tuesday, Dec. 24th.

SECOND TERM.

Begins Thursday, Jan. 2d; ends Friday, April 3d.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Hyde Park.

The watchword during the year has been progress. We do not expect perfection, but we aim to advance regularly and continuously. Our Grammar school teachers have labored hard to surpass, if possible, the good results of former years. In the High school a spirit of loyalty to those in authority is manifest, and great credit is due to the principal for the excellent work he has done. Our Superintendent has a genius for work and has suggested and carried out many improvements. He places a high estimate upon the value of education, considers good health a vital part of development, and aims to protect and educate our children up to the high standards of modern times.

During the current school year a room has been fitted up in the Grew school building for manual training, and all the boys in the seventh and eighth grades, about 160 in number, are required to go there once a week and receive instruction in wood work. The girls of the same grades, numbering about 180, are instructed in sewing in their grammar school rooms. We recommend that this department be made permanent and that the appropriations for it be raised under salaries and fuel and incidentals.

We do not expect any large increase in the number of pupils in our Grammar schools next fall. We may have to open one new room, but, in any event, we recommend that two teachers be added to the Grammar school force for individual work with pupils. We have tried this method for a time, and are convinced that they will encourage and tend to the promotion of such pupils as have, through sickness

or any other cause, been unable to keep fully up with their classes. They will save the time of such pupils and they may do more than that. They may add to their educational development, their enthusiasm and their success in life.

Since our last annual report there have been quite a number of changes in the teaching force of the High school. Mr. Merle S. Getchell, the Principal, after a service of seven years, resigned at the end of the last school year to take a position in the Brockton High School. His place has been filled by the appointment of I. Arthur Lee, a graduate of Rutgers' College, a teacher of experience and who, at the time of his selection, was at the head of the High School at Dover, N. H. Four of our former teachers, in addition to the principal, have been called away by higher salaries, one to Brockton, one to Boston, one to Newton and one to Groton Academy. This, therefore, forces upon us the question of providing a remedy. We do not expect to rival some of our richer neighbors in point of salary, but we hope to avoid a like exodus. We, therefore, recommend that three hundred dollars (\$300) be added to the appropriation to be used in raising the maximum salaries of the women teachers in the High school. Other excellent teachers have resigned for one reason or another, but there are fields of usefulness sometimes open to our women teachers with which we do not care to interfere.

The evening school can be continued at the same cost as last year.

Our text books were in bad condition at the beginning of our fiscal year, and a proper regard for the best interests of our pupils requires an increase in the appropriation for this purpose.

DAMON SCHOOL.

The two thousand dollars (\$2,000) appropriated for incidentals with the understanding that it should be used to put

in sanitariums at the Damon School has been expended for that purpose. It was not enough and an additional six hundred and fifty dollars (\$650) was appropriated at a special town meeting. If this school building is to be used for school purposes it will be necessary to spend as much as two thousand dollars (\$2,000) for needed repairs during the next year.

Our boys in the High school have military drill. In order that our girls may be treated as well as our boys, we think physical training ought to be introduced in the High school. For the purpose of economy, we have required the manual training teacher to perform these services.

Chapter 502 of the Acts and Resolves of 1906 provide for the appointment of a school physician. The school committee have estimated that it would cost three hundred dollars (\$300) to comply with this statute. The matter was presented to the advisory committee in the regular way, and, after more than usual consideration for so small an appropriation, that committee voted not to raise anything for this purpose. The school committee thought that it would be an advantage to have the assistance of a school physician as provided for in the Act, but, of course, it is something we can get along without as has been proved by past experience, but is not well advised, yet we do not feel like pushing the subject further.

We recommend that the town raise by taxation for current school expenses the sum of fifty-nine thousand eight hundred dollars (\$59,800), divided as follows:

Salaries and fuel	48,000.00
Incidentals	6,000.00
Text books and supplies	4,500.00
Evening schools	1,300.00

Henry S. Grew, one of our best known citizens, always has shown a practical interest in industrial education in this

town. This year he gave one hundred dollars (\$100) toward furnishing apparatus for manual training. In response to the advertisement of the committee requesting parties to put in bids stating the price at which they would furnish coal and wood, Mr. Grew offered to furnish wood of the kind required, delivered at the school buildings as ordered, free of charge. This bid was accepted and the contract has been performed to our entire satisfaction. If other public spirited citizens desire to manifest their interest in our schools and prefer some different line, we would suggest that the High school library needs many additions. Attractive pictures upon the walls of our school rooms would make them more homelike. If something permanent appeals to you, playgrounds are much needed, and the lot in the rear of the High school building can be used to excellent advantage in enlarging the High school grounds.

WILBUR H. POWERS,
Chairman of the School Committee.

NOTE. — A detailed statement of the school expenses are to be found in another part of this Report.

Read and adopted as the Report of the School Committee at the regular meeting of the Committee held January 28, 1907.

EDWARD S. FELLOWS,
Secretary.

SUPERINTENDENT'S REPORT.

To the School Committee of the Town of Hyde Park.

The ninth annual report of the Superintendent of the Hyde Park public schools is herewith respectfully submitted.

Following is a summary of statistics, the membership and attendance based upon the returns for the school year last completed, ending June 21, 1906.

GENERAL STATEMENT.

Schoolhouses.

No. 1. High school, twenty rooms, Everett Street
(fourteen occupied as class and recitation rooms).

No. 2. Damon school, eight rooms, Readville Street
(four occupied).

No. 3. Hemenway school, one room, Wolcott Street.

No. 4. Grew school, eleven rooms, Gordon Avenue
(ten occupied).

No. 5. Greenwood school, nine rooms, Metropolitan Avenue
(eight occupied).

No. 6. Amos Webster school, four rooms, Hilton Street
(three occupied).

No. 7. Trescott school, four rooms, Rosemont Street
(three occupied).

No. 8. Butler school, one room, East River Street
(used for special purposes).

No. 9. Fairmount school, nine rooms, Williams Avenue
(eight occupied).

No. 10. Weld school, two rooms, Highland Street.
(one unoccupied).

Number of school buildings	10
Number of schoolrooms available	62
Number of schoolrooms occupied	52
Number containing high school department	1

Number containing eighth (highest grammar) grade	4
Number containing primary grades only	4
Number used for special purposes	1

Teachers.

Supervisors of special subjects	3
Number of teachers regularly employed	57
Men teaching in day schools	10
Women teaching in day schools	43
Men teaching in evening schools	3
Women teaching in evening schools	6
Number of day school teachers who have attended college	21
Number of college graduates	17
Number who have attended normal school	16
Number of normal school graduates	19
Number who have attended training school	7
Number of training school graduates	3

School Census.

Population of Hyde Park	15,500
Total number of persons 5 to 15	2,828
Total number of boys 5 to 15	1,368
Total number of girls 5 to 15	1,460
Total number of persons 7 to 14	1,887
Total number of boys 7 to 14	917
Total number of girls 7 to 14	970
Total number of persons in Hyde Park in private schools	12
Total number of persons in Hyde Park parochial schools	1,104
Total number of male illiterate minors over 14 years of age ..	8
Total number of female illiterate minors over 14 years of age ..	3

Membership and Attendance.

Total number of pupils registered	2,111
Average membership	1,863
Average attendance	1,762
Per cent. of attendance	91.2
Number of pupils between 5 and 15 years of age	1,672
Number of pupils more than 15 years of age	439
Number of pupils between 7 and 14 years of age	1,219
Number of pupils less than 7 years of age	493
Number of pupils more than 14 years of age	511

EDUCATIONAL PROGRESS.

Before discussing the lines of progress along which we have made noticeable gains during the past year, I desire to express my appreciation of the work that has been done in former years by the School Committee, Superintendent F. O. Draper, and the teachers, and that has made possible the progress of the year just past.

New text books in arithmetic and grammar have been purchased in accordance with adoptions previously made. Text books in English history and in elementary civics have been adopted and purchased for the Eighth Grade classes, and spelling books have been adopted and supplied generally throughout the schools. One set of good readers has been purchased for each class and a considerable number of supplementary readers, literary or historical, provided. In general, our elementary schools are much improved in the matter of text books, although considerable yet remains to be done before they will be adequately equipped for the best work.

One year ago an appropriation was made for the purpose of introducing manual training into our elementary schools. A vacant room in the Grew School has been thoroughly equipped for classes in wood work. Boys of the eighth grade classes receive instruction one full afternoon each week, and boys of the seventh grade classes receive instruction one hour and fifteen minutes each week. Girls of the eighth and seventh grade classes receive instruction in sewing for corresponding periods.

Since the first of October, instruction in physical training has been given to the girls of the high school for the three periods a week during which the boys receive drill in military tactics. This instruction has been made possible by the engagement of a teacher of manual training who happily is

also a trained teacher of gymnastics. Each class in the elementary schools receives daily instruction in gymnastics from the regular teacher and once in two weeks from the special teacher of gymnastics, who also supervises the work of the regular teacher.

In this connection it is proper to mention various lines in which something is being done for the physical welfare of school children. The physical training teacher notes individual physical defects of pupils and advises regarding them. She notes and reports cases of faulty seating of children. In spite of all that can be done at present, we have many children improperly seated. Our regular teachers deserve credit for the pains they are taking to obtain the best ventilation and lighting possible in our four grammar school buildings which lack adequate windows and modern ventilating apparatus. The lighting in the Grew School, however, has been greatly improved during the past summer by the addition of one window in each room and by changing of the seats so as to bring the light from the left and back of the pupils instead of from the back and right. This change of seats has been made also in the Fairmount and in the Weld to great advantage. Playground apparatus, constructed by the Janitor at the Grew, has been an incentive to healthful, active play. Acknowledgment should be made the Y. M. C. A. for the interest shown in the physical welfare of the boys and girls of the public schools, not only in allowing the use of the gymnasium to the high school basket ball team, but also in inaugurating, under trained supervision, healthful and proper indoor sports for grammar school boys.

Last summer a teacher was engaged for the high school who, in addition to his class room work, should take charge of our high school athletic teams. This is also a gain in school management of no small importance. The greatest fault in college and secondary school athletics lies not at the

door of the boys, but at the door of officials and authorities who have failed to show genuine interest and to assume responsibility. Without proper oversight high school athletics may be a source of serious physical, if not moral, injury.

ATTENTION TO INDIVIDUAL PUPILS.

One widely recognized weakness of our highly organized public school system is the loss of opportunity to recognize sufficiently the individual differences of children. To remedy this, in a measure, our classes have been divided into two divisions, one doing regular grade work, the other advancing more rapidly, gaining perhaps one year in three. The following diagram represents the scheme, beginning at the Fourth Grade. During the first two years of school the classes are divided into two or three divisions, and during the second two years into two divisions. These divisions do such work as is in accordance with the abilities of the children, the work progressing without undue pressure. No attempt is made to have a division gain upon its grading during the first four years, but the children do more work extensively, i. e., read more literature and history, for example. In this way we escape advancing children at too early an age into the high school and yet give them work commensurate with their powers. At the beginning of the Fourth Grade (which is our fifth school year) the advanced division begins to gain upon the grading, about one year in three, as indicated by the diagram. Meantime the work of the advanced division is increased in breadth, more or less, as the ability of the pupils suggests.

The close relation of the divisions which under this scheme are, on the average, about one-third of a year apart, makes it convenient to regrade individual pupils at any time.

NORMAL AGE AT ENTERING

In every class in school will be found some pupils who, if they could have a little more attention than it is possible for the teacher of forty or forty-five children to give them, could successfully complete the work of the grade and win promotion, but who otherwise must lose a year. There are other children, naturally good scholars, who have lost ground because of sickness and who may therefore lose their class standing. There are others still who, for some reason, have lost ground in the past and are somewhat old for their grades. Some of them are now doing very good work and might, with extra help, win back their grading. To aid these children and to bring to them a new hope of achievement, we have provided two teachers, one of whom divides her time between the Grew and Damon, and the other between the Greenwood and Fairmount. These teachers receive children individually, or in small groups, not doing the work for them, but encouraging, aiding, explaining, treating each according to his individual needs. Already encouragement comes from the fact that some children who had lost their grading have been enabled to re-enter their former classes and maintain their standing, and that others who were falling behind are making noticeable gains in their regular work.

One thing more remains to be said in connection with the topic of educational progress. Our course of study needs thorough revision from the first year of school through the high school. This is a work involving a perspective of the whole field of education and must be based upon a most complete study not only of the general principles of education, but also of the local conditions that modify the practical application of those principles. This is a work of slow progress and was begun last spring. Eventually it must enlist the interest of many individual teachers in one subject at least, of principals, in a more general way, of business men who employ our pupils, of the Committee on Course of

Study, more in detail, and finally of the School Board as a whole. This matter is mentioned here because the final outcome of such a work is the most important matter with which we shall have to deal.

SCHOOL EXPENSES.

Next to matters relating to educational standards, the most important question in connection with school administration is that relating to school expenses. A community ought to realize good financial returns from its schools, or, at least, ought to receive in return that which is of greater worth than anything which the same amount of money could purchase if expended in any other direction. It is an interesting fact, however much or little one may wish to claim as to its significance, that in Massachusetts,* where each child receives an average of seven years' schooling as against a general average in the United States of 4.3 years, the average earning capacity of each person is 39 cents a day more than it is in the country at large, or roughly \$100 a year, per capita, or \$275,000,000 for the State, which is twenty-three times the total amount raised by taxation for school houses and for the maintenance of all public schools in this state.

That there is some connection between the degree of education and wage earning power, no one will dare deny. If it could be shown that there was a direct relation between educational equipment and earning power, we should be obliged to admit that we are realizing in money twenty-three hundred per cent. on the amount of money invested in education. Granted that only a small fraction, say not more than one-tenth of this increased wage-earning power, is due to public school education, yet, as Secretary Hill has pointed

NOTE. — Report of the Committee on Taxation is related to public education.

out, we should be realizing great financial returns for the money expended.

While one might urge with justice that a community makes no investment of money that pays so well financially as the investment in its schools, yet it is possible to manage a school system extravagantly. It is always a pertinent question to ask whether each dollar spent in public education in our town is spent to the best advantage possible; is there "the receipt of the value of a dollar for each dollar expended?" No tax payer is likely to complain if he feels that the money raised by taxation is wisely expended, nor can he be burdened by his taxes if the money is spent to his advantage. Let us examine the items of expenditure for the maintenance of schools and see whether there is apparent any expenditure which does not bring full returns.

The approximate cost for teachers (not including supervisors and special teachers), janitors, fuel, books, and supplies, per pupil, in the several schools is as follows:

Damon School	\$22.10
Fairmount School	20.25
Greenwood School	17.32
Grew School	18.66
Hemenway School	21.35
High School	44.27
Trescott School	18.02
Webster School	20.74
Weld School	26.27

One notices a rather wide range in the cost per pupil in the elementary schools, from \$17.32 to \$26.27, a difference of nearly \$9, or more than fifty per cent. This difference is readily explained.

In the Weld School was a relatively very low average membership per teacher and a very high relative cost for janitor and fuel per school room. The higher cost at the Damon is due partly to the fact that it costs nearly as much

to care for and heat the Damon School with its four rooms in use as it does to care for and heat the Greenwood School with eight rooms in use, and partly because a relatively high expenditure for books and supplies was necessary. The difference between the cost per pupil at the Fairmount and the Greenwood is due to the relatively low average membership at the former. While our primary schools have no principals receiving higher salaries because they are principals, yet the relative cost per pupil is higher than in the larger buildings on account of the relatively greater expense for janitors and heating.

The question that arises is whether the cost per pupil in any particular school or district, as the Fairmount, could be lessened without sacrificing efficiency. It would be quite possible for a town with so small an area as Hyde Park and with her number of school buildings to so arrange that memberships in the several schools would be more uniform, and occasionally a teacher be saved. The teacher herself is such an overwhelmingly large element in the efficiency in any school that at present, at least, efficiency would follow larger salaries and larger schools rather than smaller salaries and smaller schools. The average membership of our individual school rooms at present should be not less than 35 nor more than 45 pupils. An examination of the table of school attendance appended will show how this principle will effect several schools. It is of interest to note that the last Report of the State Board of Education, 1904-1905, shows that Hyde Park expended for the maintenance of schools that year, \$19.84 per child between 5 and 15 years of age, or \$4.70 less per child than the average for the State. But the expenditure per child, based on the average membership, was \$27.67. This is suggestive of two things: First, that Hyde Park has exceptional opportunities for supporting good schools with a relatively low appropriation; secondly, that the relatively better showing as regards amount ex-

pended per child in attendance may be due partly to reasons suggested above.

TEACHERS' SALARIES.

Just as money should be saved whenever it can be done with equal or increased efficiency, so more money should be expended whenever a proportionately increased efficiency will result. One way in which we should increase expenditure for the purpose of increasing efficiency is in raising the salaries of teachers.

I wish to discuss this subject from two standpoints, first, from the standpoint of business and second from the standpoint of ethics.

Since about 1898-1899, we have had something like 84 different teachers for 38 positions in our elementary schools. Of these thirteen have remained constant. Twenty-five positions therefore have had about 71 different teachers in eight or nine years, or practically a complete change in the 25 positions every four years. Within the last few years 21 different teachers have been called away from two of our grammar schools to positions paying higher salaries. Since last June we have had to engage ten different regular teachers and substitutes for our high school. Now there is a very active market for strong teachers. The difficulty is not for a strong teacher to get a position, the difficult thing is for us to engage and hold strong teachers at the salaries we are able to offer. We go into the teachers' market and engage teachers at \$400 and \$450 for elementary schools and at \$600 or \$650 for our high school, while practically all the towns within ten miles of us go to the same market and engage teachers at from \$550 to \$650 and even \$700, for elementary schools, and \$700 to \$800 and even \$900 and \$1,000 for women teachers in the high school. The following table of teachers' wages in twenty towns within about ten miles of Boston is of interest.

Maximum Salaries of Teachers in Twenty Cities and Towns within Ten Miles of Boston

Compiled from last report of State Board of Education, 1904, 1905, so far as possible, and then from direct sources

TOWN	Population, U. S. C., 1900	Valuation May 1, 1904	Tax Rate, 1906	Amount raised for maintenance of schools per \$1,000 valuation	HIGH SCHOOL			ELEMENTARY SCHOOLS

* Master's Assistant

An examination of the table above will show that the maximum salary for elementary teachers in Hyde Park is \$90 less than the average for the other towns for Grades I to VII, and \$142 less for Grades VIII to IX. The maximum salary for women teachers in the Hyde Park High School is \$226 less than the average for the other towns.

It would seem that as a matter of business, the inference is clear.

But there is also an ethical principle involved. The law of supply and demand does not and never can apply absolutely to the teachers' market. It would be quite possible to change our complete corps of elementary teachers every three months and fill the positions without difficulty at a minimum salary of \$400. However, public sentiment and public common sense would soon be an effectual bar to the continuation of that sum as a maximum for teachers. Standards of education, culture, and living such as we require and expect of teachers could not be acquired and maintained at that sum. In other words, our own standards far more than the number of teachers available fix the salary of teachers for us. Can a young woman obtain an education, dress, travel, buy books and papers, live as becomes a teacher of our schools, and pay for these things out of her earnings at a salary of \$400? It is a pertinent question to ask whether she can at \$550. We must have teachers with comparatively low educational equipment, standards of living, degree of success, or lose them or retain them by taking advantage of home ties that may not be broken. Laborers on the streets of Boston receive \$600 a year, a skilled mechanic receives rarely less than \$800 a year, house girls, counting their board, receive \$500 to \$550 and even more. Office girls, typewriters and stenographers, may obtain considerably more than \$600 a year and in some cases \$1,000. The cost of living for teachers, according to a recent inves-

tigation in Middlesex County, has increased about twenty per cent. during the last few years, while salaries have increased only about ten per cent. One can easily reckon how much a teacher might save a year on a salary of \$400 to \$550, with board at \$5.50 a week, 52 weeks in a year, as there unfortunately are, and standards of living for teachers being as they are.

In this connection, it is proper to speak of a few of the qualifications demanded of teachers. In the first place, a teacher must possess excellent health to enable her to do the work required of her. Few teachers of whatever grade can prepare their work and keep abreast with their profession, working less than three or four hours daily out of school. Many teachers work from ten to twelve hours a day. To do this and keep up the freshness of spirit, vigor, and spontaneity, necessary for the best recitation work, requires unusual physical well-being.

The intellectual and scholarship requirements of primary teachers are frequently underrated. Not only must the primary teacher have the native ability necessary for acquiring great skill in one of the most delicate of arts, but she must possess an intellectual grasp to enable her to appreciate the scientific principles that underlie her art. There is no more unsettled period in education than that of children from five to nine, there is no time when a teacher needs more an intellectual grasp of relations, enthusiasm, love and knowledge of children. Here more than elsewhere is needed the "born" teacher. It is pre-eminently the teacher's period. Nowhere else in the school system does a teacher need to spend more time in planning and preparing her work, or where originality and ingenuity, coupled with good sense and pedagogical insight, are at a greater premium. The primary teacher needs the broadest kind of scholarship, though not necessarily the deepest. Her speech must be

faultless, and her language skilful and engaging. She must know general history, she must have intimate acquaintance with general literature, especially with the folk-literature of the world; she needs a wide knowledge of elementary science, and a manual skill in many lines. She must also sing and draw. Especially she needs to understand the physical nature, the laws of growth and development of children, and to have that breadth of mind that can appreciate the relation of her work to the whole course of instruction. This is the barest outline suggesting some of the qualification we demand of primary teachers. For each period of school life, it would be easy to characterize definitely the teacher and the qualification demanded, but it is sufficient to speak in addition, only of the high school teacher, in this same meagre way, for what suggestiveness it may have in the minds of those who may consider the salaries of teachers.

It is expected that a high school teacher shall have profound and accurate scholarship in the branches she teaches. This is an absolute minimum of requirement. But a high school teacher is expected also to have a breadth of scholarship that will enable her to appreciate all branches in the course and the relation of her particular subjects to them. As a woman, she is expected to possess those qualities of mind and character and refinement and culture that entitle her to be a model for pupils of high school age. At no other time of life are boys and girls so susceptible to the permanent influence of their teachers. Not primary nor college teachers, but high school teachers leave, as a rule, the most enduring impressions upon pupils. Now is the time when the character, especially as related to the emotions and the will, that is, to the promptings of the feelings or of the conscience and definite decision and action in accordance with those promptings, is crystallizing. Now is a new hope for every boy and girl, physically, mentally, and morally, and

now, too, perhaps the last chance. It is a critical time in the life of every pupil. The high school teacher is expected to know this and to have the insight to recognize opportunities as they come to her. Therefore the high school teacher is expected to have a broad general knowledge of the facts and laws of development from childhood to maturity and an intimate knowledge of the period to which her pupils belong. She must not only have character, but must be the keen judge of character and of moods, firm, courageous, and withal full of sympathetic insight which, contrary to the impression of many, is never more needed than it is in the high school.

As an instructor, she is expected to possess not only the clearest arrangement of material in her own mind, but she must possess the ability to present it as clearly, and to diagnose the difficulty which may be in the mind of the pupil, which perhaps he is unable to explain. In this sense, the teacher is expected to "furnish brains" for her pupils. In general she must appreciate the place of her instruction, its relations to all previous and all later instruction and to see in perspective, the development of the subject from the elementary school through to the university. She must know the history of the development of her subject from its first beginnings among men up to the very latest developments. In addition to this, she needs to know the history of the methods by which her subject has been taught and pass judgment upon them. Necessarily she must know logic, ethics, and psychology. More than this, she cannot get along without an intelligent understanding of the relation of her subject to the great practical questions of the world, to institutions, and to the development of every social interest. What is the ethical, practical, and disciplinary value of a subject to the pupil? To society? Is the value of it based on the survival of the doctrine of formal discipline, or for what end

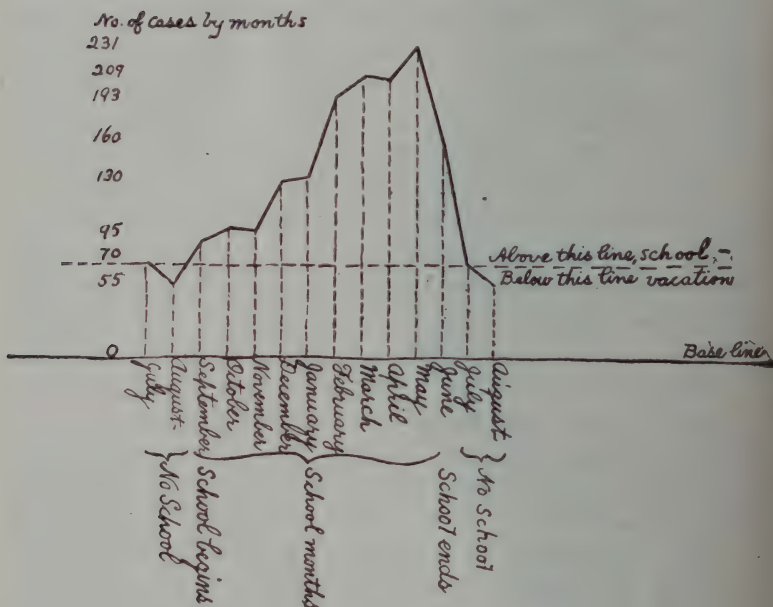

may the study of it be urged? Besides these, there surge upon the high school teacher many other questions of moment which she must intelligently answer, questions which enforce close and constant touch with life, in its broadest meaning, today. Can we demand such qualifications of the teachers of our primary, elementary and high schools, at an average salary considerably less than a telephone girl, under the metropolitan system, may possibly receive after several years of service? As soon as our telephone system numbers one thousand subscribers, the telephone girl of marked ability may look forward to a salary considerably larger than some of our high school teachers are now receiving and very much larger than our elementary teachers can hope to receive, no matter how long they may serve.

MEDICAL INSPECTION.

The Acts and Resolves of 1906 require a physical examination of all pupils of the public schools each year. The law also requires medical inspection of schools, but the amount of money to be expended for medical inspection is determined by the amount appropriated for that purpose at some legal meeting of the town. This is a new subject to many and it may not be clear at first just why medical inspection is desirable in a town like Hyde Park. To be exceedingly brief on this matter, I will submit only the following points: Children attend our public schools while sufficiently ill with some minor or serious contagious disease to communicate that disease, but whose illness has not been noted by the parents or the nature of whose complaint is not suspected. Fatal cases of diphtheria or scarlet fever, for example, may be contracted from cases which are so mild that parents have not suspected the seriousness of the disease, if indeed the child is considered sick. Again, some of the mild diseases, like measles and whooping cough, for example, prove

to be grave enough when taken by some school child and transmitted to a baby brother or sister at home. Extensive statistics have shown that 4.55 children out of each hundred sick with the measles died when the disease was contracted between the ages of two and four. Whooping cough becomes a very serious menace when brought by a school child into homes where there are young infants. Children are very frequently sent to school when they have whooping cough, and scarcely one case in ten is reported to the Board of Health. There were only 17 cases reported to the Board of Health in 1906, and five of those were fatal. The spread of epidemics and the great relative increase of contagious diseases during the months that schools are in session emphasize a fact that is evident to anyone who will give it a moment's consideration, that the public school is a most favorable place for the spread of disease. The following diagram shows the trend of contagious diseases during the school months and is compiled from the records of the Board of Health of Hyde Park, covering the years from 1897 to 1907. During the ten years, there were reported in July a total of 70 cases, in August 55, September, the first school month, 88, October, 95, November, 93, December, 130, January, 134, February, 193, March, 209 April, 208, May, 231, June, the last and a short school month, 160, the record dropping to 70 for the first vacation month and to 55, the second.

*Contagious Diseases in Hyde Park
1897 - 1907*

RECOMMENDATIONS.

For reasons which your superintendent has endeavored to make clear, he would earnestly recommend that the School Committee ask for an appropriation sufficient to increase the maximum salary of lady teachers in the high school to \$800, this maximum to be reached in two years by those now receiving the maximum of \$700; that the maximum salary of lady teachers in the elementary schools be increased to \$600, this maximum to be reached in two years by those who are now receiving the maximum of \$550. That teachers become candidates for larger salaries than those mentioned above, under some form of a merit system, which

shall include recognition of exceptional work and an examination in certain lines of professional study, outlined by the superintendent of schools and subject to the approval of the school committee. That a teacher of physical training be employed for not less than three full days a week. That every effort be made to secure an appropriation under the item of Medical Inspection.

Your superintendent believes that these are reasonable lines of progress and not at all revolutionary. It would require not over \$400 beyond the normal increase to put our salaries on the above basis for both high school and elementary schools until March, 1908. The employment of a physical training teacher and the introduction of medical inspection would require an additional appropriation of not more than \$700 or \$800. That our school appropriations have been increased very moderately in the past is clear enough to any one who will examine the Town Reports for the last ten years. The following items gathered from the reports are conclusive:

	1896.	1906.	Increase.
Schools	\$45,350	\$57,600	24 per cent.
Valuation.	8,727,555	12,882,270	47 per cent.
Salaries of Town Officers	3,466	6,260	80 per cent.
Fire Department	7,000	12,600	80 per cent.
Highways	11,000	20,000	81 per cent.
Police	7,500	15,000	100 per cent.

The following table also is interesting as showing the relative amounts appropriated by twelve of the more liberal towns of the state, which have a population not far from that of Hyde Park.

	Population.	Amount Expended in Current Expenses.	Amount Raised per \$1,000 of Valuation.
Brookline	19,935	\$180,320.76	\$2.04
Medford	18,244	105,267.58	5.00
Melrose	12,962	82,700.81	5.43
Beverly	13,884	75,855.74	3.97

	Population.	Amount Expended in Current Expenses.	Amount Raised per \$1,000 of Valuation.
Northampton	18,643	74,409.18	5.54
Revere	10,395	67,014.68	5.41
Westfield	12,310	60,566.07	6.07
Chicopee	19,167	59,199.04	5.94
Woburn	14,254	57,908.93	5.30
Attleboro	11,335	54,926.45	5.39
Marlboro	13,609	54,562.72	5.69
Leominster	12,392	51,902.18	5.61
Hyde Park	13,244	50,222.93	3.96

In conclusion I desire to express my sincere appreciation of the privilege that has been mine in serving the School Committee and the community during the past year; also of the most cordial support that has been given me by the Committee, by the teachers, and by the parents.

Respectfully submitted,

G. E. JOHNSON,
Superintendent.

REPORT OF THE HIGH SCHOOL PRINCIPAL.

Mr. George E. Johnson, Supt. of Schools, Hyde Park, Mass.

Dear Sir: I take pleasure in submitting herewith my first report as Principal of the High School.

ATTENDANCE.

The total enrollment to Dec. 21, 1906, was 379. The membership, Dec. 21, was 353.

Membership by Classes.

First year	111
Second year	98
Third year	83
Fourth year	58
Post graduate	3
Total	353

THE TEACHING FORCE.

Changes in the teaching force have been especially numerous during the past year. Of the fourteen teachers who were on the faculty one year ago, only seven remain. The following list covers the changes for the year.

In January, 1906, Miss Harriet D. Proctor succeeded Miss Ruby P. Bridgman. In March, Miss Katherine O. Fletcher succeeded Miss Bertha S. Temple. In June, Miss Louise T. Wood and Miss Lulu I. MacAusland resigned, the latter accepting a position in the Brockton High School. In July, the writer was elected to the principalship, succeeding Mr.

Merle S. Getchell, who had resigned to accept a position as head of the History Department in the Brockton High School. During the summer Miss Jessie B. Caton (Mt. Holyoke) and Mr. Charles S. Huff (Brown) were elected to complete the corps of teachers. In addition to his academic work, Mr. Huff was put in charge of the athletic interests of the school, his selection having been made because of his special aptitude for this work.

Late in September, Miss Twigg was elected to a position in the Girls' High School of Boston and was succeeded by Miss Bertha Bray (Tufts). Owing to ill health, Miss Bray resigned in November and was succeeded, in January, by Miss Alice E. Fisher (Smith). In November, Miss Wetherbee resigned and was succeeded, in January, by Miss Alice C. Riordan (Simmons). In December, Miss Fletcher accepted a position in the Newton High School and was succeeded, in January, by Miss Bertha F. Munster (Boston University). In January, 1907, Mr. Weld was elected to a position in the Lawrence Academy, Groton, Mass., and Mr. C. B. Story (Tufts) succeeded him.

COURSE OF STUDY.

I would recommend the printing, in an inexpensive pamphlet form, of an outline of the work to be done in each course and subject pursued in the school. Such an outline, giving a conspectus of the year's work in each subject, will enable a new teacher to take up the work just where her predecessor left it; it will give more continuity and definiteness to each course; it will lay before all interested the scope of the High School work and enable them to keep in still closer touch with its aims and progress; finally, it will be a valuable guide to parents and pupils in selecting the best course to be pursued. *

ROOM SEATINGS.

The arrangement of seats in rooms 22 and 32 in the northwest corner of the building was altered in August so as to give better light on the pupils' desks and avoid having a row of windows facing the teacher. The change has been beneficial in every way.

In anticipation of a larger enrollment this year than last, thirty additional classroom seatings were ordered and thirty folding chairs for the assembly hall, matching those already in use. While not absolutely needed this year, the extra classroom seats have been a great convenience in permitting greater flexibility in the distribution of pupils.

MECHANICAL DRAWING ROOM.

The room fitted up in the northeast corner of the basement some time ago for Mechanical Drawing proved to be a very unsatisfactory and unhealthful place because of the leaking in of surface water. During the summer vacation, the soil adjacent to the walls at this corner was removed, the walls were thoroughly pointed and a concrete water shed 30 inches wide was laid on the surface after filling in again. This remedy has been a complete success and the room is now perfectly dry.

CLOCKS, BELLS, AND TELEPHONES.

The clock and bell system in the school has given more or less trouble and has been an item of expense ever since its installation, this year being no exception. Adjustments and repairs have been made repeatedly by the manufacturers, with only temporary relief. This year, the batteries have given much trouble. Three electricians, when consulted on the matter recently, advised the installation of Sampson cells in place of the zinc rod cells now in use. The clock com-

pany, however, maintains that the change is not necessary and advises that the present cells be used till the end of the school year at any rate.

The clock company has an agreement with some schools to keep their system in good order for a stated sum per year. This sum, for our equipment of clocks, bells and gongs would be about \$42. While this figure seems rather high, it will probably be the cheapest if we are to secure an efficient use of the system.

The school telephones, although put in order at the beginning of the year, are not all in working condition at present. These telephones may be cared for, on a yearly basis, at a cost of \$2 for each telephone, or \$42 for the whole equipment. I question the advisability, however, of spending so much on telephones each year.

TEACHERS' DESK LIGHTS.

In August, electric lights were suspended over each teacher's desk so as to avoid the necessity of using the large ceiling clusters when the teacher needed light only on her own desk. This will effect a considerable saving in electricity.

FLOOR DRESSING.

During the summer vacation, a dressing known as "Sani-tair" was applied to the floors throughout the building and has been very satisfactory. It facilitates sweeping, prevents accumulation of dust and thus improves the appearance of the building.

TYPEWRITERS.

It is the opinion of our commercial teachers, and, I believe, of commercial teachers generally, that the Hammond typewriter, while possessing some unique advantages, is so

infrequently met with in business offices that it is more advantageous for High School pupils to confine their practice to machines which they are most likely to use when they secure a position. We have, at present, nine Remingtons, two Smiths, two Olivers, and two Hammonds. The Hammonds have been used for several years, and I would recommend their exchange for two Smith or Underwood machines.

The room now in use for typewriting is so poorly lighted that every possible means should be employed to relieve the eye strain of the pupils. To this end, we have experimented for some time with the "Right in Sight" copy holder and find it of great advantage in enabling the pupil to put his copy in the best light. This holder has the further advantage of having a keyboard screen or shield attached which is of much value in securing the most effective practice in the "touch system" of typewriting, the system which must be employed if the best results on the typewriter are to be secured. I would, therefore, recommend the purchase of fifteen of these copy holders with screen attachment.

DEBATING CLUB AND SCHOOL PAPER.

In December, a debating club composed of boys in the junior and senior classes was organized and meets every two weeks. It is hoped that this interest will continue to be a popular one among the pupils as the value, to an intelligent citizen, of some knowledge of parliamentary procedure and some experience in public speaking can scarcely be overestimated.

The matter of publishing a school paper is now under consideration. If such a paper is well managed and edited and the work involved is entered into heartily by a considerable number of pupils, valuable literary and business training is secured which is likely to be of benefit to the pupils at some time in their careers. If the whole work, however, is made

to fall upon a few editors, the existence of such a publication is of questionable value to the school. The question as to the expediency of establishing a paper is now in the hands of a committee and I feel sure that their decision will be in accordance with the best interests of the school.

ATHLETICS.

The wisdom of the Committee in appointing, as a regular teacher, a man also competent to take general charge of the athletics of the school has been fully demonstrated. This plan develops cleaner sport, more helpful supervision on the part of the school, and better results for the teams. Mr. Huff, whose academic subjects are History and English, is treasurer of the Athletic Association and coach for all of the teams; he also accompanies the teams when games are played out of town.

While the foot ball season was disappointing in respect to the scores made, we feel that the team and its management are to be complimented on their manly, sportsmanlike conduct both in defeat and victory; this makes far more for manhood than merely a favorable score sheet.

Basket Ball is a regular branch of school athletics this year. The Y. M. C. A. gymnasium has been rented for Wednesday afternoon games throughout the season for the sum of \$50.

MILITARY UNIFORMS.

In order to keep the military spirit and bearing more continually in the minds of the cadets, it has been suggested that the boys have a uniform which may be worn every day. There are two ways of making this possible: One is to have a second suit of durable and inexpensive material such as khaki in addition to the uniform now worn at drill; the second way would be to adopt for a uniform an all wool

suit, costing about \$13 and of such color, cut, weight, and trimming as to make it also a very attractive and serviceable school suit. Such a uniform, ordered in quantity, would be much less expensive than a civilian suit of the same quality and would do away also with the present extra expense of \$5 for a uniform which is usable only at drill. The latter plan is most favored and a circular letter will soon be sent to the parents requesting their views upon the subject.

GIRLS' PHYSICAL TRAINING.

In October, classes were formed among the girls in Physical Training under the direction of Miss Hagelthorn, who is also instructor in Sloyd in the Grammar Schools. Three classes, of about sixty-five girls each, were formed. Each class meets once a week in the assembly hall during the periods when the boys have Military Drill. Before the classes began work, each girl received a careful physical examination by the instructor so that any special weakness or lack of development might be noted and proper advice given.

All girls are expected to take part in these exercises unless excused for some valid reason. The Swedish system of gymnastics is used and the results should be very beneficial to the girls if the exercises are practiced at all at home and the suggestions given by the instructor from time to time are followed.

LUNCH COUNTER.

About one year ago, a lunch counter was established in the basement of the school. Its object was to provide the pupils with a suitable variety of healthful and attractive food for lunch and thus do away, as far as possible, with the

passing of pupils to neighboring stores at recess for lunch and then eating it on the streets.

In very large measure the effort has been a successful one, as the pupils now recognize both the convenience and the merits of the lunches served in the school. Pupils still have the privilege of going to the stores to purchase lunches if they choose, but they are not expected to eat them until they reach the school grounds.

In closing, I desire to express to the Committee, Superintendent, and teachers, my grateful appreciation of their generous assistance and many courtesies which have made the opening of my work here so pleasant.

Very respectfully,

I. ARTHUR LEE.

Jan. 28, 1907.

REPORT OF THE SUPERVISOR OF DRAWING.

Mr. George E. Johnson, Superintendent of Schools.

Dear Sir: The Drawing, or more truthfully the Art Education, in our public schools, has gone ahead smoothly and most satisfactorily the past year. The time for the study has been somewhat shortened in the upper grades since September, on account of the introduction of Manual Training, but I feel that the time is more than made up by the value of having the manual work.

One part of our course in Drawing, to which only a little time is given but which, I think, deserves mention is the Picture Study. This we find not only attractive and interesting to both pupils and teachers alike, but also most instructive. Each grade is assigned a certain group of pictures, or one artist and his pictures to study, or I would rather say to enjoy. We do not want them too minutely studied to detract from the child's pure enjoyment of them as pictures. The little folks study them just for the story they tell to them, while the older pupils learn something of the artist's life, and what prompted him to paint what he did.

Nothing gives children of all ages more pleasure than pictures and the aim of this work in the public schools is to interest them in the right kind of pictures, to influence them to buy a print of a Millet, a Corot, or a Rembrandt, rather than a gaudy colored print of no merit.

In the High School I have systematized the study into more of a history of painting, from its crude beginnings in Italy to its height in the time of the Renaissance, and its

progress in the different countries, down to our present painters.

Our Boston Art Museum is rich in its collection of originals by the most noted artists both past and present, and I hope the picture study will lead pupils, parents and teachers to visit the museum and see what a wealth of enjoyment and instruction in this line it has to offer.

Thanking you and your committee for their interest and support, I am,

Very respectfully yours,

FLORENCE MONROE WOOD,

Drawing Supervisor.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. Geo. E. Johnson, Supt. of Schools.

Dear Sir: Music as taught in the Hyde Park public schools is not limited to the teaching of songs. It is our purpose to train the pupils in such an effective manner that upon the completion of their Grammar School course, they will have a good understanding of the principles of this subject.

A knowledge of the principal keys in music, ability to read ordinary music at sight, to sing in tune, to sing successfully, songs with one, two and three, and in some classes four voice parts, are some of the problems accomplished. Great care is exercised to avoid the straining of voices.

The success of public school music is dependent upon the efficiency of the grade teacher. The Supervisor may direct and assist, but if the teacher is not qualified, the music in that class will be a failure. We are particularly fortunate in Hyde Park in that nearly all our teachers are able to teach their classes in music, with only two or three exceptions, and in those cases, an exchange of work has been arranged with some other teacher.

There are several cities besides Boston in our state that require candidates to pass an examination in music before receiving an appointment to teach. The High School are studying "The Prophet Psalmist" by Farmer and have taken up the work with much interest.

I take pleasure in referring to the thorough efforts and the "good will" that animates our teachers in maintaining a high standard in music.

Thanking the Superintendent and School Committee for their support, I am,

Respectfully yours,

B. HAROLD HAMBLIN,

Superintendent of Music.

Hyde Park, Feb. 1st, 1907.

REPORT OF THE PRINCIPAL OF EVENING SCHOOLS.

Mr. George E. Johnson, Superintendent of Schools.

Dear Sir: I submit herewith annual report of the Evening Schools for the year beginning October 29th, 1906. The enrollment, average attendance and average ages in the different departments are as follows:

Enrollment:

English Department	148
Business Department	61
Draughting Department	57

Average Attendance:

English Department	58
Business Department	32
Draughting Department	23

Average Age:

English Department	22
Business Department	16
Draughting Department	22

As a means of comparison I give the enrollment and average attendance for the three years preceding this, together with that of the present year:

Enrollment:

1903-04	226
1904-05	298
1905-06	258
1906-07	226

Average Attendance:

1903-04	104
1904-05	145
1905-06	131
1906-07	113

It will be noticed that the enrollment compares favorably with that of previous years, while the average attendance is somewhat lower. There are several causes for this falling off: First, many of the pupils in the drawing classes and the English department have been obliged to work one or more nights a week, thus greatly reducing the average attendance for these classes. Second, it appears that there has been a failure strictly to enforce the law requiring illiterate minors to attend school; this is evident from the fact that many of the pupils who at the time of registration were unable to speak or write the English language, attended more or less irregularly and then dropped out entirely. School certificates have been called for in but few instances, whereas last year they were demanded in large numbers.

One of the greatest causes of the lower average attendance, especially in the upper classes of the English department, is the gradual losing of interest on the part of the pupil after the first few weeks of attendance. This I believe is not due to lack of interest on the part of the teachers, for the whole teaching force are giving their best efforts to the work, to make it attractive and profitable; and they are, as much as possible, giving individual attention to their pupils. I believe that the real reason is to be found in the fact that the work under the present system is more or less chaotic. In our day schools the work is graded progressively so that the pupil feels that he is advancing towards some definite goal, that is, the completion of his course, and the gaining of a diploma. He has something to look forward to. This is in many cases a great incentive to pupils to remain in school and to attend regularly, who would otherwise leave after they have reached the age where attendance is no longer compulsory.

If some such system of grading, or partial grading, could be applied to our evening schools, it seems to me it would

be beneficial in two ways. First, it would be an incentive to pupils to attend regularly and to continue in school until they have completed the course. As it is now pupils rarely attend more than one year, since the second year would be practically a repetition of the first year's work. Second, it would attract to the school many who would not otherwise enter, especially those who have partly completed the course in our day schools, and who wish to finish and get the diploma. There have been numerous applications this year from such persons. In this connection I wish to repeat the recommendation made in last year's report regarding the establishment of a department of high school studies. There have been sufficient applicants this year for such a course to form a fair sized class, but they could not be accepted.

If these two recommendations could be adopted, it would make the evening school an exceedingly valuable adjunct to our day schools, and would prevent a great deal of haphazard work and waste of effort that is unavoidable under the present system.

This year we have introduced text-books in English especially designed for use in evening schools. They have proved very valuable, and it is hoped that a similar series in arithmetic and history may be introduced next year.

The Draughting department has been conducted very ably this year by Mr. Frank Halstead, a graduate of the Massachusetts Normal Art School. It was intended at first to give only three evenings a week to this department, but in response to a request from members of the class, the time was increased to four evenings per week. Some attempt has been made to grade the course and to make it progressive. It is to be hoped that more may be done in this line next year, so that finally a two-years' course may be arranged, which shall offer the elements of mechanical drawing and serve as a basis for a more extended course if the

pupil desires to continue the work. In a town like Hyde Park where the chief industries are the manufacture of machinery, a suitable course in mechanical drawing will be exceedingly valuable to young apprentices entering the various factories. In fact, the officials of some of the different companies have urged their employees to attend this school. It is expected that in the future they will require such attendance on the part of their apprentices; consequently a much larger class is anticipated next year. If the work of this department is to be properly done, better quarters should be provided. A larger and better lighted room and more tables should be furnished. Seats should be supplied so that the pupils may sit while at their work. This has not been done in the past, and as a result many pupils whose work requires them to stand during the day, have withdrawn, not being able to undergo the fatigue of standing at the drawing tables after a day of hard physical labor.

We have employed nine teachers for part of the year. One of the teachers in the Business department was allowed to go after the Christmas vacation. It is possible that the classes of the three rooms in the English department may be combined in one room for the rest of the year, under two teachers.

Thanking you for your helpful suggestions and advice, I remain,

Respectfully yours,

HENRY D. FURBUSH,

Principal Evening School.

REPORT OF THE TRUANT OFFICER.

Mr. George E. Johnson, Superintendent of Schools, Hyde Park, Mass.

Dear Sir: Please find below a tabulated report of services rendered by me as Truant Officer of the Hyde Park schools during the year ending December 31, 1906.

Total number of cases of truancy	57
Total number absent with parents' permission	24
Total number absent on account of sickness	35
Total number absent on account of lack of clothing	10
Total number absent on account of removal	34
Total number of transfer cards investigated	49
<hr/>	
Total number of cases investigated	209
Total number of truants prosecuted	1
Total number of truants committed	1
Total number of visits to schools	246

Respectfully submitted,

J. F. KATZMANN,

Truant Officer.

Words by Mildred Jenney.*

Music by Paul Burgess.*

Words of Song.

Class-mates we are gathered here,
 To say farewell to all our friends,
 With hearts a-light and purpose dear,
 And joy which honesty lends.

We look now upon the past,
 Eight long years we've worked together,
 And we regret this day our last,
 That our union we must sever.

Now good-bye to dear old Grew,
 Its memories in our hearts we'll fix,
 And in all things will we be true,
 To the class of nineteen-six.

Class Ode,

Words by Georgia Fulton Bentley.

Classmates, tho' this dear old High School

We may enter nevermore,

Think not that its life is ended,

As we cross its threshold o'er.

Friendship is a thing eternal:

Ours made here will stronger grow;

Seeds of knowledge, wisely planted,

Will bear fruit that men shall know.

Now we enter life's hard contest;

Let us strive with all our might,

For the race is long, dear comrades,

And so soon grows dim the light.

Should we weary be with toiling,

Far the goals lie, we pursue,

We may know we are succeeding,

When to our best selves we're true.

Gleams the future fair before us,
 Through the half-enshrouding mist;
 As we strain our eyes with longing,
 Let us all our powers enlist,
 For our motto holds the secret,
 Though the veil be never rent,
 Comrades, "Labor omnia vincit!"
 Let that be our heart's intent.

Now the Fates exempt no mortal,
 But for each there is some place
 'Mid the toilers toward the portal
 Whither tends the long, hard race;
 Where the laurel crowns those only,
 Who their eyes steadfastly fix
 On a goal that's not unworthy
 Of the class of 1906.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

The Trustees have every reason to be gratified with the progress of the past year.

The Juvenile Room has been especially well patronized and the number of books have so greatly increased that it will soon be necessary to place additional shelves in that room.

We regret to be obliged to record the temporary absence of the genial and efficient attendant in that department on account of illness, but trust that needed rest will soon restore her health so that she will be able to resume the place she has so acceptably filled.

The bi-monthly bulletins of additions to the Library have been so greatly improved that we omit from our annual report a complete list of the books added during the year and shall not print such a list hereafter unless there shall be a pressing demand for it. If the patrons of the Library will preserve these bi-monthly bulletins for reference, we hope they will not suffer great inconvenience from the omission of this annual list.

The amount to be received the coming year for the purchase of books from the Dog Tax will fall short of that received during the current year and unless the present epi-

demic subsidies, the amount received next year will be very much smaller than that available this year, so that the loss will have to be made up by a larger general appropriation.

The statistics of circulation, purchase of books, art exhibits and other like matters will be found in the report of the Librarian which accompanies this. A detailed account of receipts and expenditures is printed in connection with similar reports from other departments of the town.

For the Trustees,

HENRY B. MINER,

Chairman.

REPORT OF THE LIBRARIAN

To the Board of Trustees of the Hyde Park Public Library.

Gentlemen: Herewith is presented the annual report of the Library for the year ending January 31, 1907.

The number of books issued for home use was 72,478, of which 3,515 were issued from the Readville Branch. 600 books were given out March 10, the largest number ever issued in one day. The net increase in the number of borrowers at the central Library was 385. The net increase at the Readville Branch was 58. The circulation at the Readville Branch shows an increase of 274 over that of last year.

The Reading Room has been supplied with 52 different periodicals and newspapers. 690 new books have been added to the Library, of which 500 were new titles, including 128 added to the Young People's Department. The remainder were duplicates and succeeding volumes of the same titles. There were 94 renewals, making the number of books purchased 784. We are beginning to have calls for Italian books and a few will soon be purchased. About 3,000 books have been repaired and 3,000 covered. 1,163 books have been rebound.

Five bulletins of new accessions, also containing lists on special subjects, were published. Through the courtesy of the local papers lists of new books often appeared in their columns. Through the Library Art Club the following sets of pictures were exhibited: Switzerland, No. 1; Prang platinettes; Alaska; modern German sculpture; Salisbury; famous pictures, No. 1; Granada and the Alhambra; Ireland, No. 1; Siena; Norway, No. 1; English lakes. Sometimes there has been no interval between the sending away of one exhibit and the coming of another. During intervals we have usually substituted pictures of our own.

A small musical collection, previously donated to the Library, has been classified and may be borrowed for home use. To this collection have been added Bach's Mass in D Minor; Bizet's *Carmen*; Haydn's oratorio, *The Seasons*; Gounod's *Faust*; Balfe's *Bohemian Girl*; Beethoven's Mass in D; Mozart's *Don Giovanni*; Verdi's *Il Trovatore*; Wagner's *Parsival*, *Valkyrie*, and *Siegfried*.

This constitutes the beginning of a musical library which it is hoped may be gradually enlarged.

In the Young People's Department there was an increase in circulation of 268, the number of books issued being 19,490. There has been a net increase of 156 registrations in this department. The pleasant room attracts the children, the same children spending hours there almost daily. Italian children are coming in greater numbers and are delighted to be where there are so many books. Some of them seem greedy to look at them all in one afternoon, as the condition of the shelves after they have been here testifies.

STATISTICS.

Central Library.

The Library has been open 305 days.

Total circulation	68,963
Magazines issued for home use.....	3,571

Any person not assessed a Poll Tax who is entitled to be so assessed may apply to the Board of Assessors to be assessed in accordance with the following ACTS of 1895. [Chap. 61.]

AN ACT RELATIVE TO THE REGISTRATION OF VOTERS.
Be it enacted, etc., as follows:

SECTION 1. Every male applicant for registration shall present a certificate from the assessors, or a tax bill or notice from the collector of taxes, showing that he has been assessed as a resident of the city or town on the preceding first day of May, and the same shall be accepted by the registrars as prima facie evidence of such residence, or he shall present a certificate from the assessors that he has been a resident for the six months next preceding the election at which he claims the right to vote, and the same shall be accepted by the registrars as prima facie of such residence. If a male person was a resident of the city or town on the first day of May, and was not assessed a poll tax by the assessors of said city or town on the first day of May, such person in order to establish his right to be assessed, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be assessed, and who shall also testify under oath to the truth of the statement of the applicant in regard to his right to be assessed at the place claimed by him as a legal residence on the first day of May.

SECTION 2. Every male person moving into a city or town subsequently to the first day of May, and claiming the right to vote at an election and desiring to be registered by the registrars of voters, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be registered, and who shall also testify under oath to the truth of the statement of the applicant in regard to his being a resident of the city or town for the six months next preceding the election at which he claims the right to vote. The assessors shall give the applicant a certificate stating that he has complied with the provisions of this section.

The assessors will be in session at their office second and fourth Monday evenings during the months of September and October from 7.30 to 9 p.m., also on such days as may be appointed by the registrars of voters.

SYNOPSIS

OF THE

TOWN CLERK'S RECORD OF TOWN MEETINGS

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVE.
1908

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS

The following statement shows *in a condensed form* the action of the town on various articles which have been before it for consideration the past year.

MARCH 4, 1907. The annual meeting for choice of town officers was held in Waverly Hall.

ART. 1. To choose a moderator and all necessary town officers for the year or term ensuing.

To vote upon the following question:—"Shall licenses be granted for the sale of intoxicating liquors in this town?" The vote on this question to be by ballot, "Yes" or "No," in answer to said question.

The number of votes received for each person voted for at this election was as follows:

For Selectmen and Surveyors of Highways:

*James D. Grant	1218
*Edwin C. Jenney	999
*John Johnston	956
*Alfred L. Lovejoy	881
Robert B. Martin	266
John W. McAfee	824
William D. Preston	879
*James E. Sheridan	1043

For Town Clerk:

*Henry B. Terry	1481
-----------------------	------

For Town Treasurer:

*Gideon H. Haskell	1337
--------------------------	------

For Collector of Taxes:

*Randolph P. Moseley	1512
----------------------------	------

For Overseer of the Poor, 3 years.

Joseph C. Bridgman	581
*Thomas E. Faunce,	664
John J. Gallagher	376

For Water Commissioner. "Until the expiration of one year from the next succeeding annual town meeting."

*William W. Lewis	1148
-------------------------	------

For Water Commissioner. "Until the expiration of two years from the next succeeding annual town meeting."

*Robert B. Campbell	1052
James S. Coveney	596

For Water Commissioner. "Until the expiration of three years from the next succeeding annual town meeting."

*Alonzo W. Dunbar	985
-------------------------	-----

For Board of Health, 3 years.

*Charles F. Stack	1330
-------------------------	------

For Assessors:

William C. Deagle	275
*Edwin C. Farwell	1006
*Joseph J. Houston	1249
*Charles F. Morrison	1201
Edgar B. Noyes	625

For Auditors:

*William J. Downey	1355
*Gorham E. Stanford	1197
*Frederic C. Stone	1203

For Moderator, 1 year

*Charles G. Chick	1221
-------------------------	------

For School Committee, 3 years:

*Harry E. Astley	716
*Edward H. Baxter	904
*Ella F. Boyd	893
William G. Farnham	290
John P. Rattigan	558
Alvah L. Stinson	712

For Trustees of the Public Library, 3 years:

*Charles G. Chick	1182
*G. Fred Gridley	1169
*Fred L. Johnson	1158

For Park Commissioner, 3 years:

*John J. Enneking	1196
-------------------------	------

For Tree Warden:

Edwin J. Chandler	506
*Harry G. Higbee	835

For Constables:

*James A. Cullen	1159
Eldridge H. Dyer	526
*Robert E. Grant	1209
*Robert M. Sampson	942
*William W. Scott	1115
George H. Tucker	542
*William Wragg	975
*Declared Elected.	

"Shall licenses be granted for the sale of intoxicating liquors in this town?" Yes 605. No 1028.

The following were chosen by *viva voce* vote to the office set against their names:

Fence Viewers and Field Drivers: Bartholomew B. Kivlin, Michael Maguire and Joseph Ventola.

Pound Keeper: Bartholomew B. Kivlin.

April 10, 1907. A town meeting was held in Waverly Hall, when the following articles were acted upon:

ART. 1. To see if the town will accept the list of jurors as prepared by the selectmen and posted according to law.

List was amended and accepted.

ART. 2. To hear the report of the selectmen in regard to guide-boards, and act thereon.

Report made and accepted.

ART. 3. To see what disposition the town will make of money received from dog licenses in the year 1906.

To the Public Library for purchase of books.

ART. 4. To appropriate money for the payment of "State Aid" to soldiers and their widows, and for "Burial of Soldiers" as provided by law. Also to see if the town will instruct its treasurer to credit to the appropriations for "State Aid" and "Burial of Soldiers" such sums of money as may at any time hereafter be received by him from the Commonwealth to reimburse the town for money paid out for such state aid, or for burial of soldiers.

\$2,100 appropriated therefor. Treasurer instructed to credit money as set forth in this article.

ART. 5. To see if the town will appropriate so much of the money to be received this year by the town treasurer for or on account of Corporation and National Bank taxes, as is necessary for the fire hydrant service of the town.

So appropriated.

ART. 6. To see if the town will authorize its collector of taxes to use all means of collecting the taxes which a town treasurer, when appointed a collector, may use.

So authorized.

ART. 7. To see if the town will authorize its treasurer, with the approval of the selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

ART. 8. To see what compensation the town will vote to pay for collecting its taxes and other assessments levied the current municipal year.

Voted to pay \$1,500.00

ART. 9. To fix the salaries of the town officers for the current municipal year.

Selectmen, \$200 each; Assessors, \$500 each; Overseers of Poor, chairman \$200, two other members \$150 each; Town Clerk, \$250; Town Treasurer, \$600; Board of Health, \$100 each; Auditors, \$100 each; Cemetery Commissioners, \$50 each. Voted to pay the moderator \$50; four Registrars of Voters, \$40 each.

ART. 10. To see what compensation the town will vote to pay the secretary of the board of assessors, and for extra clerical services for the board for the current municipal year.

Voted to pay the Secretary \$250, and that nothing be allowed for extra clerical services.

ART. 11. To fix the compensation of the engineers and the several members of the fire department for their services the current municipal year. "Same as last year."

Chief Engineer, \$175; two Assistant Engineers, \$150 each; for five "permanent men," \$900 each; for one "permanent man," \$1,000; for 36 "call men," \$100 each.

ART. 12. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1907, and what interest the town will vote to charge on taxes for the current year when the same shall be overdue.

No discount allowed. Five per cent. interest charged on overdue taxes.

ART. 13. To see if the town will appropriate two hundred dollars to Post 121, Grand Army of the Republic, for the expenses of decorating the graves of deceased soldiers.

So appropriated.

ART. 14. "To see if the town will appropriate a sum not exceeding \$100, the same to be used by Camp John Cleary, No. 37, Legion of Spanish War Veterans, for the decoration of graves of deceased soldiers and for the necessary improvements of cemetery lot."

\$100 appropriated.

ART. 15. To fix the compensation of the Superintendent of Wires and Lights.

Compensation fixed at \$100.

ART. 16. To fix the salary of the Sealer of Weights and Measures.

Voted to fix the salary at \$100; and that the fees received for sealing "be credited to said account."

ART. 17. To see if the town will authorize its selectmen to contract with the Hyde Park Electric Light Co. or the Dedham and Hyde Park Gas and Electric Light Co. for street lights to be placed on or near Winter street.

Three incandescent lights authorized.

ART. 18. "To see if the town will appropriate money for the purchase of the land, or interest therein, at the junction of Lincoln street, Hyde Park, Harvard and Dell avenues, to be used as a public park."

Indefinitely postponed.

ART. 19. To see if the town will employ another "permanent" man at the Central Fire Station.

Voted to employ another "permanent" man.

ART. 20. To consider the subject of repairs on the Readville Hose House; the purchase of a horse and the employment of an additional "permanent" man, to be stationed at said house.

\$1600 appropriated for the purposes set forth in this article.

ART. 21. To appropriate money for suppressing the Gypsy and Brown Tail Moths.

\$2000 appropriated therefor; said sum to be taken from money now in the hands of the treasurer not otherwise appropriated.

ART. 22. To hear the several reports of the selectmen laying out Blake street and Osceola street as public town ways, and to see if the town will accept and allow the laying out of either or both of said ways with the several boundaries and measurements of said ways as shown by reports, plans and profiles now on file in the town clerk's office, and appropriate money to build either or both of said ways.

Blake street "accepted" and \$675 appropriated to build said street; the same to be taken from money in the treasury not otherwise appropriated.

Osceola street accepted and \$775 appropriated to build said street; the same to be taken from money in the treasury not otherwise appropriated.

ART. 23. To appropriate money for the payment of bonds and notes maturing, and for interest due, the current municipal year.

\$13,000 appropriated for said payments "other than for sewer"; the same to be taken from "funds now in the hands of the treasurer or to be received by him," and not otherwise appropriated.

ART. 24. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the current year the sum of one hundred and sixty-nine thousand seven hundred and eighty-five dollars (\$169,785.00) and to appropriate the same as follows:

Schools:

For Salaries and Fuel	\$48,000	
For Incidentals	6,000	
For Text Books and Supplies	4,500	
For Evening Schools	1,300	
		<hr/>
		\$59,800

For Highways	20,000
For Street Watering	3,500
For Street Lights	13,000
For Collection of Ashes and Garbage	6,350
For Street Cleaning and Catch Basins	5,000
For Tree Warden Department	300
For Incidentals	10,000
For Police	15,000
For Fire Department	12,900
For Overseers of Poor	9,000
For Public Library	4,500
For Board of Health	1,325
For Salaries	6,310
For Post 121, G. A. R.	200
For Camp Cleary, No. 37, Spanish War Veterans	100
For changes at Readville Hose House	1,600
For Extra "Permanent" Man at Central Fire Station	900

\$169,785

ART. 25. To see what amount the town will authorize its treasurer to borrow, in anticipation of the tax to be levied the current year.

\$125,000 authorized.

ART. 26. To see what action the town will take as to the collection of amounts due for Gypsy Moth Work on private lands.

Voted "that said amounts be paid from the general fund and no collections made."

ART. 27. To see if the town will change the name of "Wood avenue" to "Harvard street."

Indefinitely postponed.

ART. 28. To hear the report of the committee appointed Dec. 26, 1906, to confer with the Hyde Park Water Company, to act thereon, and to see if the town will confer any additional authority on said committee that may be deemed necessary or advisable with reference to the Hyde Park Water Company.

A "partial" report was made and "received for the action of the meeting." Voted "that the action of the Water Commissioners and of this committee be approved by the meeting."

Voted "that this committee be authorized, empowered and directed to take such action and incur such proper expense as it may deem necessary to ascertain and determine the value of the property of the Hyde Park Water Company, taken by the town pursuant to its vote at a meeting held Dec. 26, 1906, and if said committee at any time finds that it is unable to agree with the Water Company upon the price of the property described in said vote of Dec. 26, 1906, then the said committee is to report that fact to the present board of Selectmen, with directions and instruction to the Selectmen, as agents of the town, to bring a petition for, in behalf, and in the name, of the town of Hyde Park, in the Supreme Judicial Court, to have commissioners appointed as provided in Chapter 91 of the Acts of 1884, being an act to incorporate the Hyde Park Water Company, to determine the value of the franchise, corporate property, and all the rights and privileges of said water company."

ART. 29. To see what action the town will take with reference to petitioning the General Court for an amendment to an act entitled "An Act to Incorporate the Hyde Park Water Company, being Chapter 91 of the acts of 1884 of this Commonwealth, or of any act or acts in addition to or in amendment of the same.

Voted "to authorize and direct the Water Commissioners to petition the Legislature for authority to authorize the town in case it deems it advisable so to do, in the issuance of bonds under the provisions of Chap. 91 of the acts of 1884, entitled, 'An Act to Incorporate the Hyde Park Water Company,' as amended by Chap. 186 of the Acts of 1906, to provide that any bonds issued under the terms of said acts or either of them, or under the terms of any act in addition to

or in amendment of the same, may be made payable in annual proportionate payments."

ART. 30. To hear the report of any outstanding committee, and act thereon.

(The "outstanding committees" are those on: "New Fire Engine House," "New Depot," "Street Lighting," "Municipal Building," "Removal Stone Crusher Plant" and "Play Grounds.")

The committee on street lighting made an oral "report of progress."

The committee on a "municipal building" presented their report, in writing, (see report on file) and it was voted to "receive and accept this report."

The committees on "stone crusher" and on "play grounds" asked for further time.

ART. 31. To see if the town will appropriate money for insurance on its public buildings.

\$2,700 appropriated for insurance "to be placed the present year," the same to be taken from moneys to be received from corporation and national bank taxes.

ART. 32. To see if the town will appropriate money for expenses incurred by reason of contagious diseases.

\$1,750 appropriated therefor; the same to be taken from moneys to be received from corporation and national bank taxes.

ART. 33. To appropriate money for the payment of appropriations in 1906, payable in 1907.

\$4,750 appropriated therefor; the same to be taken from money in the hands of the treasurer and not otherwise appropriated. "The amounts covered by this article are to be as follows: Lexington Avenue, \$610; Mason Street, \$380, Huntington Avenue, \$2,100; Providence Street, \$225; Nor-

ton Street, \$700; Glenwood Avenue, \$600; Oak Street, \$85; School Physician, \$50.

ART. 34. To appropriate money for the repair and maintenance of bridges.

\$1,500 appropriated for this purpose, for use the present municipal year; the same to be taken from money in the treasury not otherwise appropriated.

Adjourned at 11.10 p. m.

November 5, 1907. The annual election of State, District and County officers was held in Waverly Hall. No other business was transacted.

The polls were opened at 6 o'clock a. m., and closed at sunset.

Total number of ballots cast was 1,751.

The number of votes received for the various candidates was as follows:

For Governor:

Charles W. Bartlett—Anti-Merger	25
Thomas F. Brennan—Socialist Labor	13
John W. Brown—Socialist	55

Shall the proposed amendment to the constitution authorizing the governor, with the consent of the council, to remove justices of the peace and notaries public be approved and ratified?

Yes	955
No	186
Blanks	610

A town meeting was held in Waverly Hall, January 2, 1908, and the following articles were acted upon:

ART. 1. To hear the several reports of the selectmen laying out Ellis Street, Chestnut Street, Clifford Street, Tileston Street and Regent Road as public town ways, and to see if the town will accept and allow the laying out of either or all of said ways with the several boundaries and measurements of said ways as shown by reports, plans and profiles now on file in the town clerk's office, and appropriate money to build either or all of said ways.

The several reports were made and all said streets were accepted. The following amounts were appropriated to build said streets, the same to be raised by taxation next year.

Ellis Street	\$ 880
Chestnut Street	500
Clifford Street	900
Tileston Street	2,500
Regent Road	2,000

Voted that "Regent Road" be hereafter called "Blake Street."

ART. 2. To hear the report of the selectmen altering and re-locating Bridge Street, a public town way, and to see if the town will accept and allow the alteration and relocation of said way, with the several boundaries and measurements of said way, as shown by report and plan now on file in the town clerk's office, and appropriate money to make such alteration and relocation.

This report was made and \$26,000 appropriated to make said alteration and relocation. (It is understood that a bond issue will be called for at a later date.)

ART. 3. To see if the town will accept the provisions of Chapter 292 of the Acts of the Legislature of Massachusetts passed in its session in the year 1907, which reads as follows: Sec. 1. The provisions of chapter nineteen of the Revised Laws entitled, "Of the Civil Service," and all acts in amend-

ment thereof and in addition thereto, and the civil service rules established thereunder, are hereby extended and made applicable to the head of the police department in the town of Hyde Park.

Accepted.

ART. 4. To see if the town will amend its by-laws by substituting "in the fourth line of Sec. 15, Art. XXIV for the words 'Neponset River' the words 'junction of Beacon and Water streets,' and add to the Section after the twenty-fifth line the following: Beacon street from Fairmount avenue to a point one hundred and twenty-five feet easterly therefrom; Water street from Fairmount avenue to a point one hundred and twenty feet westerly therefrom."

The amendments herein set forth were made.

ART. 5. "To see if the town will direct the selectmen to prepare a division of the town into convenient voting precincts, in accordance with the provisions of Sec. 166 of Chapter 11 of the Revised Laws."

Indefinitely postponed.

ART. 6. "To see what action the town will take with reference to petitioning the General Court for an amendment to an act entitled 'An Act to authorize the town of Hyde Park to construct a system of sewerage and to provide for the payment therefor,' being Chapter 287 of the Acts of 1896 of this Commonwealth, and to an act entitled 'An Act to authorize the town of Hyde Park to incur additional indebtedness for sewerage purposes,' being Chapter 419 of the Acts of 1898 of this Commonwealth, and to any act or acts in addition to or in amendment of the same, so as to allow said town to issue bonds, notes or scrip for sewerage purposes, in addition to the amount which it is now authorized to issue."

The Selectmen were, by vote, authorized and directed to petition, as set forth in this article, for permission to issue bonds for sewerage purposes, not exceeding \$100,000.

ART. 7. "To hear the report of the committee appointed December 26, 1906, to 'consider the question of the purchase and putting in proper condition for playgrounds, a suitable lot or lots of land within the town's limit,' to act thereon, and to take such further action in the premises as the town may deem proper."

The report of this committee was read by Dr. J. King Knight. Voted "that this report be received."

ART. 8. "To see what action the town will take with reference to the establishment of a public playground or playgrounds, and to see if the town will appropriate money therefor, and to determine how any amount so appropriated shall be raised."

After much discussion, it was voted to "indefinitely postpone this article."

ART. 9. "To see if the town will vote to issue any bonds, notes, or scrip, and fix the form, amount, time of payment, and rates of interest thereof and thereon, for the purpose of acquiring land for a public playground or playgrounds within its limits, as authorized by Chapters 27 and 28 of the Revised Laws of this Commonwealth, and of any statutes in addition to or in amendment of the same, and conformably to the provisions thereof."

Indefinitely postponed.

ART. 10. To appropriate money to operate the "stone crusher" for material to be used in the ensuing year.

\$2,000 (to be charged to next year's highway appropriation) appropriated therefor.

ART. 11. "To hear the report of the committee appointed December 26, 1906, to consider the question of street lighting and to act thereon."

This report was submitted in print. Voted to receive the report, and direct the Selectmen to call a town meeting to be

held on or before February 1st, next, or soon thereafter, to consider the question of a future contract, and that said committee "be requested to secure for the information of the Advisory Committee and our citizens, as long before the meeting as possible, certain information, details of prices, etc., of various schemes of street lighting."

ART. 12. "To see what action the town will take concerning the lighting of its streets, and a contract or contracts for street lighting for a term of years."

Action on the subject matter of this article was postponed to the next town meeting.

ART. 13. To hear the report of any outstanding committee, and act thereon.

(The "outstanding committees" are those on: "New Fire Engine House," "New Depot," "Street Lighting," "Purchase of Water Works," "Removal Stone Crusher Plant" and "Playgrounds.")

The report of the committee on a "new fire engine house" was read by Hon. Francis W. Darling. This report was received and the committee discharged.

(A "rising" vote of thanks was given, by the meeting, to this committee, for the able and acceptable manner in which they have performed their task.)

For the committee on a "new depot" Edwin C. Jenney, Esq., made an oral "report of progress," and asked for further time; and for the committee on "purchase of the water works" an oral "report of progress" was made.

For the committee on "removal of stone crusher plant" Mr. John Johnston made an oral report of progress.

ART. 14. "To see if the town will appropriate for salaries and fuel for our public schools a sum not exceeding twenty-two hundred dollars, and how the same shall be raised."

\$2200 was appropriated therefor, the same to be raised by taxation next year.

ART. 15. To appropriate money, not exceeding \$1,500, for suppressing the Gypsy and Brown Tail Moths.

\$1,475 appropriated therefor, the same to be raised by taxation next year.

ART. 16. To appropriate money to settle the suits against the town, now pending, for damages alleged to have been caused by a defect in Hyde Park Avenue near Clarendon Hills Square.

\$500 appropriated therefor, the same to be taken from money in the treasury not otherwise appropriated.

ART. 17. To appropriate money for repairs and alterations in the town offices.

\$300 appropriated (\$250 for repairs in the office of the treasurer and collector, and \$50 for repairs in the office of the Board of Health.)

ART. 18. To appropriate money for surface water drainage at the corner of Central Avenue and West Street.

\$1,050 appropriated therefor, the same to be raised by taxation next year.

ART. 19. To appropriate money for surface water drainage in Clarendon Hills Square.

\$600 appropriated therefor, the same to be raised by taxation next year.

ART. 20. To appropriate money for the expenses, incurred in behalf of the town, incident to the purchase of the plant of the Hyde Park Water Company.

\$1,000 appropriated therefor, the same to be taken from money in the treasury not otherwise appropriated.

ART. 21. To appropriate money for payment of interest on account of the "Sewer Loan."

\$2,000 appropriated therefor, the same to be taken from money in the treasury not otherwise appropriated.

ART. 22. To make an additional appropriation for incidentals.

\$1,800 appropriated therefor, the same to be taken from "fines received from defendants in criminal cases."

ART. 23. To see if the town will appropriate two hundred dollars for furniture and supplies for the office of the Water Commissioners.

\$200 appropriated therefor, the same to be taken from money in the treasury not otherwise appropriated.

ART. 24. To see if the town will appoint a committee to consider the subject matter of additional fire and police protection.

Messrs. Edwin C. Jenney, Harry E. Astley, John H. Wetherbee, Charles F. Morrison, William W. Lewis, Frederick G. Katzmann and Henry S. Bunton were appointed by the moderator, a committee to consider the subject matter of this article.

ART. 25. To see if the town will instruct its treasurer to hereafter credit all sums received from time to time as "return premiums" to the appropriation for "insurance premiums."

So instructed.

ART. 26. To see if the town will vote to instruct its treasurer to hereafter credit to the appropriation for the use of the Board of health all sums of money received by him as reimbursements of money paid by said board.

So instructed.

ART. 27. To see if the town will vote to make transfers of unappropriated and of unexpended moneys in the hands of its treasurer.

The following transfers of appropriations were made:

From appropriation for extra man and changes at Read-

ville (about \$274), and appropriation for extra man at Central Fire Station (about \$230), such sum as may remain unexpended in the hands of the treasurer, January 31, 1908, to the use of the fire department.

From money from Park Commission to Readville Drain	\$ 5.58
From appropriation for Osceola Street to Lexington Avenue	255.00
From appropriation for Osceola Street to Blake Street	69.30
From Corporation and National Bank Tax to Huntington Avenue	696.55
From balance appropriated for Osceola Street	\$45.32
From appropriation for Glenwood Avenue Bridge	60.96
To street watering	106.28
From appropriation for Mason Street	\$214.20
From money from Park Commission	73.17
From highway appropriation	47.66
To Repair and Maintenance of Bridges	335.03
From appropriation for Lexington Avenue to Highway Department	255.00
From appropriation for Blake Street to Highway Department	69.30
From appropriation for Huntington Avenue to Highway Department	235.13

Adjourned at 10.55 P. M.

A town meeting was held in Waverly Hall on Wednesday, January 29, 1908, when the following articles were acted upon, viz.:

ART. 1. To hear the report of the committee appointed December 26, 1906, to consider the question of street lighting and to act thereon.

A supplementary report of this committee was presented in writing by Mr. Wm. D. Preston, and it was voted to "receive this report."

ART. 2. To see what action the town will take concerning the lighting of its streets, and a contract or contracts for street lighting for a term of years.

Voted that the question of the lighting of the streets of the town, and any contract or contracts for street lighting

for a term of years, the locating of lights, and any other details, be referred to the gentlemen composing the present board of selectmen, as a committee, with the following instructions:

(1). Any contract or contracts made shall be to furnish light from lamps, as agreed, every dark hour of every night of the year from one half hour after sunset until one half hour before sunrise; it being the true intent and meaning of this clause that light shall be furnished, within the limits of the time aforesaid, whenever the town is not well lighted by the moon, and that the prevailing usage shall be that of shutting off the lights one hour after the moon rises and of turning them on one hour before it sets; it being understood and agreed that the Chief of Police of the town shall have authority to order said lights turned on at any time when, in his judgment, the town is not well lighted by the moon within the hours aforesaid.

(2). The contracts shall be made with the Hyde Park Electric Light Company, or the Dedham and Hyde Park Gas and Electric Light Co., or both.

(3). The total amount of the contract or contracts shall not exceed \$15,000.

ART. 3. To see if the town will issue its bonds to an amount not exceeding twenty-six thousand dollars (\$26,000) for the purpose of the construction of Bridge street, a public town way, as altered and relocated by said town, at its meeting on the second day of January, 1908, and to take any action regarding such bonds.

Voted to issue these bonds. There are to be fifty-two bonds, of the denomination of \$500 each; to bear four per cent. interest; to be dated May 1, 1908; and payable \$3,000 on May 1, 1909 and 1910, and \$2,500 on May 1st in each of the years 1911 to 1918 inclusive.

Adjourned at 9.52 P. M.

TOWN CLERK'S REPORT

Number of births registered in Hyde Park in 1907 421

(This number will be increased by returns to be made too late to be given when this report goes to the press.)

- 30. Patrick F. Bagge of Hyde Park and Bessie A. Davitt of Cambridge.

July

- 3. William Sinclair and Christena Stevenson both of Hyde Park.
- 5. William O. Whitney of Hyde Park and Lena I. Bird of Marlboro.
- 5. Leroy R. Carroll and Elsie M. Foss both of Hyde Park.
- 10. Joseph G. Fields, Jr., and Emma J. Ray both of Hyde Park.
- 14. Maksymilian Chmura of Hyde Park and Kataryna Yaworeczak of Boston.
- 17. Holmes A. Drinkwater of Hyde Park and Cecelia M. Doucette of Wellesley.
- 23. Frank W. Young of Boston and Frances H. Fowle of Hyde Park.
- 23. Bertrand P. Durant and Mabel A. Wood both of Hyde Park.
- 24. George E. Carlton and Bessie G. Braman both of Hyde Park.
- 29. Colin D. Mackenzie and Regina Tolland both of Hyde Park.
- 31. Willard P. Ambrose and Etta M. Reed both of Norwood.

August.

- 1. James A. Allen, Jr., and Annie M. Davenport both of Hyde Park.
- 5. Edward A. Hawley and Agnes J. MacBride both of Hyde Park.
- 5. Alfred L. Hommel and Nellie A. Welch both of Hyde Park.
- 10. Willim A. Kuszleika and Annie Gauczati both of Hyde Park.

11. Vingenzo Rosato and Angiolina Carrano both of Hyde Park.
17. Laurence Fisher and Marguerite Arsenault both of Hyde Park.
17. Stanislaw Katilws and Selomiia Vinczna both of Hyde Park.
18. Nicola Fermano and Serrafina Di Luco both of Hyde Park.
19. Ernest J. Rochelaeu and Helen Dutrak both of Hyde Park.
21. William Murison of Hyde Park and Mabel Healey of Medfield.
21. Nathan Miller and Esther Lerer both of Hyde Park.
22. Henry C. Neal of Hyde Park and Margaret E. Morris of Fall River.
30. Arthur F. Rogers and Margaret M. Cullinane both of Hyde Park.
31. Paul Markelis and Martha Crapons both of Hyde Park.
31. Walter S. Sutcliffe and Rachel Lombard both of Hyde Park.

September.

2. Mederic J. Guilmett and Georgina M. Belanger both of Hyde Park.
2. Frank Gorlewski of Hyde Park and Teofila Sckout of East Dedham.
3. Leroy L. Gooding of Hyde Park and Edith B. Rhodes of Lynn.
8. Edward F. Tracey and Rose M. Mason both of Boston.
10. Arthur C. Pratt and Annie B. Palmer both of Everett.
11. John F. Rooney and Anna V. McCaffrey both of Hyde Park.
11. William W. Pierce and Nettie W. Brown both of Hyde Park.
16. Thomas Curley and Mary Patrin both of Hyde Park.
16. Carl F. Hahn and Annie Eis both of Dedham.
19. Charles R. Higbee, Jr., and Emma R. Burgess both of Hyde Park.
19. George L. Wagner and Edith M. Olmsted both of Hyde Park.
22. Anthony Karwoski and Lucia Kylianowska both of Hyde Park.
25. William J. Armour and Josephine K. Assmus both of Hyde Park.

October.

1. Harry L. Wilson of Worcester and Grace E. Damon of Hyde Park.
2. Archibald W. Cochrane of Hyde Park and Sarah L. Finneran of Boston.
5. Edward D. Kollock of Hyde Park and Annie L. Sperry of Larchmont, N. Y.
5. Croce Recchia and Fiorinda Petta both of Hyde Park
5. Leonard D. Allen of Hyde Park and Hattie R. Swartzenberg of Boston.
5. Vincenzo Celli and Adelina Celli both of Hyde Park.

9. William J. Finn of Canton and Kathaleen I. Mullen of Hyde Park.
9. George M. King and Clara Knight both of Hyde Park.
9. Warren Y. Scott of Hyde Park and Sadie M. Clifford of Fitchburg.
9. Percival A. Littlefield and Ethel J. Spencer both of Hyde Park.
9. Walter M. Ray of Hyde Park and Ada M. Libby of Lynn.
15. Edward K. Ellis and Edna F. Simmons both of Hyde Park.
16. George H. McKenney of Hyde Park and Catherine T. Heaney of Boston.
16. Martin McDonald and Mary E. Nugent both of Hyde Park.
16. Walter J. Kunkel of Hyde Park and Emma L. Keany of Dedham.
17. William A. West and Edith L. Hall both of Hyde Park.
19. George H. Foley of Pawtucket, R. I., and Anna L. Southwick of Hyde Park.
20. Salvatore Marchetti and Rosolia Russo both of Hyde Park.
22. John Kuszleika and Kazwni Lwinati both of Hyde Park.
23. Frank E. Webster of Hyde Park and Hattie F. Anderson of Boston.
23. George W. Tacey and Bridget E. Logan both of Hyde Park.
27. Staley J. Welliver and Rhoda Johns both of Hyde Park.
30. William H. Lange and Jennie E. Watson both of Hyde Park.
30. Henry Topham of Hyde Park and Emma G. Fletcher of Littleton.

November.

3. John Lyko and Annie Rechorczyk both of Hyde Park.
7. John F. Norton and Margaret V. Morris both of Hyde Park.
10. Francesco Pulice of Hyde Park and Crimentina Greca of Dedham.
11. John H. Duby of Hyde Park and Florence L. Simonds of Canton.
13. Ellis V. Vrodenburgh of Boston and Emma C. Smith of P. E. Island.
15. Louis Houston, Jr., and Delia Grenier both of Hyde Park.
24. William J. Fennessy of Cambridge and Catherine R. Conlin of Hyde Park.

HARRY J. WEST, Secretary.

SELECTMEN'S REPORT

To the Citizens of the Town of Hyde Park.

The undersigned, the Board of Selectmen of the town of Hyde Park, hereby submit to the citizens their report for the fiscal year ending January 31st, 1908.

THE TOWN'S FINANCES.

The funded debt of the town January 31st, 1907, as set forth in the last annual report, not including Metropolitan and Grade Crossing charges, was as follows:

Sewerage Loan	\$163,000.00
Public Library Building Loan	12,000.00
High School Building Loan	45,000.00
Trescott School Building Loan	12,000.00
High School Furniture and Furnishings Loan	2,000.00

Total funded debt, January 31st, 1907 \$234,000.00

During the past year, \$15,000 of the above amount has been paid on the maturity of fixed annual payments, also \$2,000 of the engine house loan has been paid during this year.

The funded town debt January 31st, 1908, not including Metropolitan or grade Crossing charges, is as follows:

Sewer Loan	\$184,000.00
Public Library Building Loan	11,000.00
High School Building Loan	42,000.00
Trescott School Building Loan	11,000.00
High School Furniture and Furnishings Loan	1,000.00
Engine House Loan	30,500.00

Total funded debt January 31, 1908 \$279,500.00

During the past year our sewer loan has been increased by the issuance of \$30,000 in additional sewer bonds under authority of the Selectmen, making in all one hundred and fifty thousand dollars issued for this purpose.

The Selectmen at the town meeting held January 2nd, 1908, were directed to petition the Legislature for authority to issue an additional sum of \$100,000. If this authority is given and action taken it will make the total authorized issue on account of the sewerage loan, \$250,000.

During the past year the Town Treasurer, under approval of the Selectmen, issued the new bonds for the engine house loan to the amount of \$32,500.00.

There is at the present time outstanding on account of temporary loans for funds borrowed in anticipation of taxes for the year 1907, \$45,000.

The town at the town meeting held January 2nd, 1908, accepted the proposed relocation of Bridge Street at the river. This will involve the building of a new river bridge at the town's expense, and \$26,000 has been appropriated for this purpose.

The abolition of the grade crossings at Fairmount Avenue and Bridge Street has been confirmed by the court and it is expected that this work will be commenced in the early spring. Under the decree the town of Hyde Park is obliged to pay ten per cent. of the total cost.

Many of the citizens expect that if authority is given us by the Legislature we should extend our sewerage system in some important sections of our town. If this is done additional bonds will have to be issued from time to time to meet the payments as the work progresses.

There are many other obligations upon the citizens of our town, that in part at least are not imposed upon other municipal localities located outside of the Metropolitan district. Metropolitan charges are fixed by law and are as much an obligation upon our tax levy as any appropriation which may be

made at a town meeting. For the information of our citizens we herewith tabulate the State and Metropolitan charges, and the abolition of grade crossings at Readville as follows:

State Tax	\$15,040.00
Readville Grade Crossing	10,368.17
Metropolitan Park	5,916.33
Metropolitan Sewer	15,500.29
Metropolitan Water	1,194.74
<hr/>	
Total	\$48,019.53

All of the above amounts were charged against the town's finances by the State Treasurer.

The town recently voted to purchase the Hyde Park Water Company which, in our opinion, will be self-supporting as soon as the management of affairs can be arranged by our Water Commissioners. It is necessary however, until that time arrives to provide some funds incident to this purchase, which action has already been taken.

We want to guard our citizens as far as possible from taking any action which will tend to make our tax rate of such size as to be detrimental to the interests of our town.

SEWER DEPARTMENT.

Clarence G. Norris was reappointed Town Engineer at a salary of \$1,500 per year, and he has been in charge of the Sewer Department and all engineering work for the various departments of the town.

The amount of work performed and a detailed statement of expenses for sewer construction and maintenance, will be found in the report of the Town Engineer.

We have during the past year extended the main sewers in the Hazelwood and Sunnyside districts and have also extended the same to the important section of Beacon and Pleasant Streets.

We have at the present time on file many petitions for important extensions of our sewer service in Clarendon Hills

and Sunnyside district. In consideration of this work the town at the meeting held January 2, 1908, voted to petition the Legislature for authority to issue \$100,000 additional sewer bonds. This bill is pending in the Legislature and if it passes, in all probability the requirements of this service will be met.

FIRE DEPARTMENT.

In April we appointed as engineers of the Fire Department for the coming year, John H. Wetherbee, John C. McDougald and Dennis W. Mahoney. The engineers organized and appointed John H. Wetherbee chief.

During the year the Fire Department has taken possession of the engine house at the corner of Harvard Avenue and Winthrop Street and in every way it is proving a model building for the use of this department.

We join with all our citizens in congratulating the town upon our efficient Fire Department, and refer to the Engineer's report for all information concerning the work of this municipal department.

POLICE DEPARTMENT.

Robert E. Grant has continued in charge of this department during the entire year.

The Legislature of Massachusetts passed in the session of 1907, an act extending the civil service rules to the head of the police department of our town. This act was unanimously accepted at the town meeting held January 2nd, 1908.

There are some questions in relation to the status of certain police officers of our town under civil service rules, and we are informed that the Attorney-General will consider the same at an early date.

A detailed report of Robert E. Grant, officer in charge of this department, will be found in another part of this report.

ADVISORY COMMITTEE.

The Advisory Committee have considered during the

past year the various municipal questions which have come before our town and have made their recommendations to our citizens. A report of their actions and recommendations for our municipal expenses will be found in this report. Their recommendations for our coming year's expenses, to be made at a later date are of great importance, and our citizens should carefully consider the same before attending the next annual appropriation meeting. If municipal expenses are allowed to increase to a larger percentage than our tax valuation would warrant, there is but one result to follow, and that is an increase in the tax rate. The Advisory Committee in their work are performing an important function in our government by presenting to our citizens in advance of the town's action, the effect of certain questions and appropriations upon our tax rate.

STREET LIGHTING.

The ten-year contract with the Hyde Park Electric Light Company for the lighting of our streets expired January 6, 1908. Prior to the date of expiration of the contract we arranged for a continuance thereof for a period of sixty days from the date of expiration.

The question of making a new contract was referred December 26, 1906, to a special committee, who made their report to the town at the town meeting held January 2nd, 1908. At this meeting the Selectmen were requested to call a new meeting for the purpose of considering the subject matter, within thirty days, and your Selectmen in compliance with this request duly called a meeting for January 29, 1908. At this meeting the Board of Selectmen were made a committee to take into consideration the subject matter in making a new contract and the location of lights, etc. The Board expect to be able to report the result of their investigation at an early date, and shall expect the Electric Light Company to further extend the present contract for a reasonable time pending our full investigation in the matter.

HIGHWAY DEPARTMENT.

Mr. Arthur T. Rogers has been in charge of the repair and maintenance of highways of the town under the direction of the Selectmen during the past year. We refer to his annual report for the work in detail performed by this department.

The following new streets, having been accepted by the town, have been built under the direction of the Selectmen:

Huntington Avenue from Collins Street to the Boston line,
Osceola Street,
West Glenwood Avenue from Hyde Park Avenue to the railroad,
Mason Street,
The part of Norton Street not heretofore accepted,
Blake Street,
Lexington Street,
A street upon land owned by the town to connect Sunnyside and Charles Streets.

At the town meeting held January 2nd, 1908, the town accepted the following streets to be built the coming year.

Ellis Street,
Chestnut Street,
Clifford Street,
Tileston Street,
Regent Road, to be hereafter known as a part of Blake Street.

At the town meeting held January 2nd, 1908, the sum of two thousand (\$2,000) dollars was appropriated for the operation of the stone crushing plant during the winter months. We immediately commenced this work and the results have been very satisfactory. We have now on hand a large quantity of all sizes of crushed stone which can be used in the early spring for the necessary town repairs. We have been able to give employment to a large number of our citizens in this work and we are firmly of the opinion that the plant has been operated to better advantage than it ordinarily has been in the summer months, and we recommend the continuance of this policy for the future.

COLLECTION OF ASHES AND GARBAGE.

At the last annual appropriation meeting the town authorized the Selectmen to purchase equipment for the removal of the garbage from the Fairmount section. Heretofore this section has had its garbage collected by a private contract, but under the new arrangement which is now in operation, the town has permanent men upon the work.

JURY LIST.

Under the act of the Legislature of 1907, Chapter 348, the method of appointing jurors is amended, and additional legal requirements imposed upon their future appointment. Under the new act the Selectmen are required to annually, before the first day of July, prepare a list of such inhabitants not exempt from jury service, as they think are qualified to serve. The list shall include not less than one for every one hundred inhabitants, nor more than one for every sixty inhabitants, according to the latest census. Hereafter the list of jurors as prepared under the new act, is not to be submitted to the town for its ratification or substitution of names upon the list. If a person is placed upon the list by the Selectmen he will have to serve unless excused by some Justice of the Court. This is an important change in our jury system, and our citizens should note the same.

INTERURBAN RAILROAD.

The Legislature for 1906, chapter 516 of the Acts and Resolves, passed an act known as, "An Act Relative to Electric Railroad Companies." Under and by virtue of this law two companies petitioned for a location between the cities of Boston and Providence, each passing through our town limits. It was necessary under the law for the Railroad Commissioners of our Commonwealth to issue a certificate of exigency to one of these companies. Favorable action was taken in behalf of the Boston and Providence Interurban Railroad Company, who asked

for a location through our Sunnyside district and the company duly filed with the Selectmen the necessary petition asking that this location be granted. The matter is still unsettled at the present time and calls for careful consideration on the part of our citizens and town officials.

DRAINAGE.

At the town meeting held January 2nd, 1908, the town under a proper article, voted to cause the necessary drains to be constructed in the square at Clarendon Hills to relieve the surface water which congests at this point. The same action was taken to relieve the condition existing on Central Avenue and West Street. The drainage of these two areas will be taken up in next year's highway work.

WIDENING HYDE PARK AVENUE

Early in the present municipal year the Old Colony Street Railway Company, whose tracks are located on Hyde Park Avenue, asked for a relocation of their tracks and for a right to lay a double track on said avenue. Proper hearings were held and the board have taken the matter under advisement, but up to the present time have taken no action owing to the fact that the Boston & Providence Interurban Railroad Company have petitioned for a location through our town. It did not seem wise that the petition of the Old Colony Railroad Company should be acted upon, as it might involve serious questions as to the widening of Hyde Park Avenue to accommodate the additional tracks proposed until the question of additional railroad accommodations was settled.

ACTIONS AT LAW.

The decree for the abolition of the grade crossings at Fairmount Avenue and Bridge Street has been filed by the commissioners, received the requisite approval of the railroad commissioners of the Commonwealth, and a decree confirming

and allowing the same was entered by the Superior Court April 2, 1907. The damages caused by the taking of land and easements therefor have been substantially all adjusted.

The suit of George A. Tillson for injury alleged to have been received near Kennedy's Block on Hyde Park Avenue, is still pending. This claim has not been pressed, and would not now be reported as of practical importance were it not for the fact that under the town by-laws it is necessary so to do.

The cases of Mary D. Hammond and J. Forrest Hammond against the town, more fully described in previous town reports, and relating to the alleged wrongful exclusion of the plaintiffs from school during the prevalence of smallpox in town, have been adjusted in accordance with the contention of the defendant, and the action of the school committee was fully sustained. The suit of Ethel A. L. Smith, claiming damages for an alleged wrongful exclusion from school for the same cause, is still pending, but it is believed to be practically settled by the decision of the Supreme Court in the Hammond cases.

The other actions pending against the town are as follows:—

Margaret McDermott, to recover for an injury claimed to have been received by reason of an alleged defect in West Glenwood Avenue. It is probable that this action will be settled very shortly by the payment of a small amount.

Willard Welsh, to recover three hundred dollars (\$300), alleging that certain proceedings, in the assessment and sale of property for non-payment of taxes, were defective. The terms of settlement have been agreed upon in this action, which is pending in the District Court of Northern Norfolk.

Town of Hyde Park against Henry S. Bunton, Trustee. This is a petition for the assessment of damages caused by the taking of land for the new engine house, as referred to in the report of last year. This action is pending in the Superior Court for this county, and is now on the trial list.

Draxanner Fairbairn, action for damages caused by an al-

leged defect in Hyde Park Avenue at or near the corner of Walnut Street. This action was also referred to in the report of last year.

The suit of John A. Peterson, claiming one thousand dollars for injury caused by falling into an excavation made by a contractor in building sewer in New Damon Street. The contractor has been notified to defend the action.

Hannah Greenhood and Margaret Kelleher have also filed petitions for the assessment of land damages by the construction of Glenwood Avenue, between Hyde Park Avenue and the river. The amounts involved are not large.

Bridget Cummings claims damages for an accident alleged to have been received on account of defect in sidewalk on Harvard Avenue. Louis Schiller also claims damages for an injury received while crossing upon a plank over an open trench upon Readville Street.

The Maryland Casualty Company has also brought suit against the town, claiming a balance due it (for accident insurance) of \$74.52.

All of these claims are contested, and are pending in the Superior Court for this county, except that of John A. Peterson, which is pending in the Superior Court for Suffolk County. These cases are not considered of a serious character.

PURCHASE OF WATER WORKS.

Since the town has voted to purchase the property and franchise of the Hyde Park Water Company, and also appointed a committee to consider matters relating to the purchase, necessary steps have been taken to protect the interests of the town by the employment of counsel, and by a detailed examination of the property and books of the company, and careful consideration as to the value of the property and franchise of the company.

A proposition for adjustment was received from the water company, which the committee was advised to be largely in

excess of the actual value of the plant and franchise. A return proposition was made by the town, which is still under consideration by the company.

EDWIN C. JENNEY,
JOHN JOHNSTON,
JAMES D. GRANT,
ALFRED L. LOVEJOY,
JAMES E. SHERIDAN,
Selectmen of Hyde Park.

January 31, 1908.

JURY LIST

As prepared by the Selectmen as required by law.

Name and Occupation.	Street and Number.
Adler, George H., picture framer	2 Maple Street
Alden, Charles L., contractor	232 Fairmount Avenue
Amback, Frank H., superintendent	205 West River Street
Andrews, Jacob R., picture framer	51 Garfield Avenue
Bass, George G., stenographer	60 Arlington Street
Bates, Frank H., merchant	186 Fairmount Avenue
Beal, David P., painter	24 Fairmount Avenue

REPORT OF THE TOWN ENGINEER

To the Honorable Board of Selectmen:

Gentlemen: I herewith submit to you my report as Town Engineer for the year ending January 31, 1908:

MAIN SEWER CONSTRUCTION.

The contracts for the construction of main sewers and mentioned in my last report as awarded to Mr. Thomas N. Dwyer and Mr. Patrick H. Rooney have been completed and are in use. The following streets or ways were sewered under the contract completed by Mr. Dwyer, namely, starting at Post Office Square, Clarendon Hills, and running with a twenty inch pipe through Metropolitan Avenue to Providence Street, thence through Providence Street to a point just beyond Stony Brook, and there the size of pipe changes to a fifteen inch pipe and continues through Providence Street to just beyond West Street, where it turns and crosses under the tracks of the N. Y., N. H. & H. R. R., and through private land to a point on Summer Street extended, and thence through Summer Street extended to West Street and through West Street to Austin Street, where the size of pipe again changes to a twelve inch and runs through Austin Street to Chestnut Street, and through Chestnut Street to Beaver Street, there the size again changes to a ten inch pipe and continues of that size through Beaver Street to Gordon Avenue, which was the terminus of this contract. The zeal and fidelity with which Contractor Thomas N. Dwyer followed this contract to its finish even under unforeseen difficulties and adverse circumstances, affords a very good illustration of the advantages sometimes to be gained by awarding a contract to a contractor whose ability and reliability are personally known, rather than to the lowest bidder.

The contract completed by Mr. Patrick H. Rooney consisted of a main sewer in Pleasant Street, comprised of eight, ten and twelve inch pipe and running from Milton avenue extended,

to Metropolitan Avenue, thence through an unnamed street from Pleasant Street to Beacon Street, by an eight inch pipe and thence southerly along Beacon Street to Metropolitan Avenue by an eight inch pipe, and from the unnamed street northerly along Beacon Street to near the town line, with a twelve inch pipe. There were no particular difficulties encountered in the construction of this sewer, except those caused by deep cuts in a narrow street and the necessity of its construction is proved by the fact that about 60 per cent. of the houses along this new sewer have already been connected to the sewer.

Outside of these two hold-over contracts there has been awarded and built during the year a sewer in Osceola Street and a small extension in Harvard Avenue, both of which were awarded to and built by Mr. Thomas H. Corrigan, and are in use.

The cost of construction of the sewer through Metropolitan Avenue, Providence Street, private land, Summer Street, West Street, Austin Street, Chestnut Street and Beaver Street, was \$20,330. Of the line built through Pleasant Street, unnamed street, and Beacon Street, the cost was \$4,880. The cost of the sewer in Osceola Street was \$1,375, and the extension in Harvard Avenue cost \$167.

TABLE OF SEWER MAINS CONSTRUCTED IN
THE YEAR ENDING JAN. 31, 1908.

Street	From	To	Length	Size	Av. Cut
Metropolitan av.	Hyde Park av.	Providence st.	267 ft.	20"	9.7 ft.
Providence st.	Metrop'tan av.	S. of Stony Br.	1,080 "	20"	7.7 "
Providence st.	S. of Stony Br.	West st.	2,159 "	15"	9.2 "
Cross Line	Providence st.	Summer st.	354 "	15"	6.2 "
Summer st.	Cross Line	West st.	200 "	15"	6.7 "
West st.	Summer st.	Austin st.	335 "	15"	7.3 "
Austin st.	West st.	Chestnut st.	1,417 "	12"	10.9 "
Chestnut st.	Austin st.	Beaver st.	573 "	12"	11.2 "
Beaver st.	Chestnut st.	Gordon av.	473 "	10"	12.2 "
Pleasant st.	Milton av. ex.	Metropolitan av.	512 "	12"	
Pleasant st.	Milton av. ex.	Metropolitan av.	783 "	8"	11.1 "
Unnamed street	Pleasant st.	Beacon st.	292 "	8"	15.9 "
Beacon st.	Unnamed street	Abt. Milton line	244 "	12"	11.0 "
Beacon st.	Unnamed street	Metropolitan av.	276 "	8"	9.3 "
Osceola st.	Interceptor	Abt. River st.	990 "	8"	7.5 "
Harvard av.	Webster st.	Southerly	99 "	8"	9.0 "

The deepest cuts upon the above streets were as follows: Metropolitan Avenue, 11.4 feet; Providence Street, 12.6 feet; Cross Line, 10.3 feet; Summer Street, 9.6 feet; West Street, 9.6 feet; Austin Street, 14.7 feet; Chestnut Street, 14.7 feet; Beaver Street, 14.8 feet; Pleasant Street, 15.0 feet; unnamed street, 15.9 feet; Beacon Street toward Town Line, 15.9 feet; Beacon Street toward Metropolitan Avenue, 9.6 feet; Osceola Street, 8.9 feet, and Harvard Avenue, 9.0 feet. The shallowest cut was upon private land between Providence Street and Summer Street and was 3.5 feet.

The total length of main sewers built during the year was 10,056 feet, or 1.9 miles, and there had been previously constructed 21 miles, which gives us a total of 22.9 miles of sewer mains on January 31, 1908.

The total cost of construction of 6,858 feet of main sewer in the Sunnyside Area was \$20,330.00, of 2,107 feet in the Beacon Street Area was \$4,880.00, of 990 feet in the Holmfield Area was \$1,375.00, and of 99 feet extension on Harvard avenue was \$167.00.

The cost of maintenance for the year has been small and the only trouble encountered has been on the Easton avenue line, and I renew my recommendation of last year that a flush tank be placed on this line.

HOUSE CONNECTIONS.

One hundred and twenty-two connections from houses or factories have been made to our sewer mains during the year and these connections receive sewage from about 1,330 persons and have an aggregate length of 7,089 feet. The total number of connection to houses or factories up to January 1, 1908 was 1,140, with a total length of 58,821 feet, or 11.14 miles.

The following table which shows the number of houses and the number of sewer connections in different districts in our town and thereby gives a good idea of how much the main sewers are being used may be of general interest to our citizens.

	Previous Houses	Connections Reported	Additional Houses	Additional Connections	Total Houses	Total Connections
Central District.....	552	374	3	21	555	395
Clarendon Hills.....	49	9	11	5	60	14
Fairmount District.....	369	229	22	41	391	270
Holmfield District.....	34	15	7	10	41	25
North of Arlington St.....	205	112	2	18	207	130
Readville District.....	193	90	4	12	197	102
Sunnyside Area.....	253	159	16	13	269	172
Factories		30		1		31
Totals	1,655	1,018	65	121	1,720	1,139

Number of buildings outside of the sewered districts about 800.

Estimated population in the sewered districts, 12000.

Estimated population using the sewerage system, 8850.

A detailed statement of the expenses of the Sewer Dept. will be found in another part of the Town Report.

HIGHWAY WORK.

There has been a large amount of engineering work done through this office in connection with the Highway Work of the Town as will be clearly seen by the following statements.

Side lines have been staked out and the grades established for the building of the following new highways; Glenwood Ave. from Hyde Park Ave. to the N. Y., N. H. & H. R. R., Mason St. from Hyde Park Ave. to Park Land, Providence St. from Arlington St. to Westminster St., Lexington Ave. from River St. to Westminster St., Blake St. from River St. to Regent Road, Osceola St. from River St. to Park Land, Norton St. from River St. to the end of Norton St., as previously accepted and built and an unnamed St. running from Sunnyside St. to Charles St. and Huntington Ave. from Collins St. to the Town Line.

Surveys have been run out and plans and estimates made for the acceptance of the following streets: Clifford St., Ellis

St., Chestnut St., Blake St., Tileston St. and Regent Road, and for the alterations at Bridge St.

Along the line of bridge work, plans were drawn and a concrete bridge built under our direction across Stony Brook at Huntington Ave.

Bids were asked for and received based upon specifications sent out from this office for painting the bridge over Mother Brook at Glenwood Ave., and the contract awarded to and carried out by G. W. Morse & Son, who were the lowest bidders. Estimates were worked out for the probable cost of erecting a concrete arch bridge at Bridge St., over the Neponset River. Besides this the question of whether two of the Town Bridges were strong enough to carry an anticipated load have been referred to us and decisions rendered.

SURFACE DRAINS:—The Readville St. Surface Water Drain running from a drain near Knight St., previously built, to a point opposite the Swale, so called, has been well and satisfactorily constructed by town labor under the direction of the Town Engineer, and within its appropriation, and the stagnant pond which formerly stood at the Swale is a thing of the past.

Surveys, studies, plans and reports have been made for the relieving of the surface water conditions on West St., from Hilton to River St.; of Hyde Park Ave. from P. O. Sq. to Stony Brook and from Central Ave. along the so-called Jefferson St. to Huntington Ave. The question of the former dangerous spot at the junction of Dell Ave. and Central Ave. has been satisfactorily solved by a judicious arrangement of catch basins and under ground pipes. I find that there is no line of permanent improvements which meets with such hearty and emphatic approval of the citizens interested as do these eliminations of surface water nuisances.

ASSESSORS PLANS:—Surveys were made in the Spring of a portion of Mt. Neponset and these surveys have been plotted and a map drawn of a portion of the hill, but the work

demanding of this office along the other lines above mentioned have prevented us from getting as much done along this line as we could wish. Conditions as they usually exist would have allowed us much more time to devote to this work and much better progress would have been shown.

CLARENCE G. NORRIS,
Town Engineer.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

Gentlemen: I herewith submit the following as my report as Superintendent of Streets for the year ending January 31, 1908:

Street Work:—In the line of macadam work there were built during the year as follows: 10,000 square yards of East River Street, 3,800 square yards of Fairmount Avenue, 900 square yards of Maple Street, making a total of 14,700 square yards of macadam built. In gravel work 100 square yards of Winthrop Street; 4,200 square yards of Neponset Avenue; 1,100 square yards of Green Street; 1,150 square yards of Oak Street; 1,100 square yards of Loring Street; 1,600 square yards of Cleveland Street; 3,000 square yards of Summer Street; 1,200 square yards of Mount Pleasant Street; 400 square yards of Dell Avenue; 1,300 square yards of Chesterfield Street; 700 square yards of Regent Street; 4,000 square yards of Sprague Street; 1,600 square yards of Walter Street; and 1,150 square yards of Warren Avenue were rebuilt with gravel, making a total of 25,700 square yards of gravel resurfacing.

Edgestone:—The following edgestone has been set during the year: 97 feet on Hyde Park Avenue, 131 feet on West River Street, 40 feet on East River Street, 66 feet on Winthrop Street, 23 feet on Readville Street, 109 feet on Harvard Avenue, 80 feet on Glenwood Avenue, 12 feet on Green Street, 40 feet on Westminster Street, 120 feet on Dell Avenue, 50 feet on Central Avenue, and we have reset: 100 feet on East River Street, 100 feet on West River Street, 79 feet on Hyde Park Avenue, 37 feet on Lexington Avenue, 258 feet on

Childs Street, 27 feet on Sunnyside Street, 39 feet on Franklin Street, making a total of 768 feet of edgestone set, and 640 feet reset during the year.

Paving:—We have paved in lineal feet of gutter during the last year as follows: 580 feet on Childs Street, 60 feet on Gordan Avenue, 200 feet on Harvard Avenue, 403 feet on Business Street, 150 feet on Williams Avenue, 150 feet on Hyde Park Avenue, 80 feet on Franklin Street; and we have repaved: 125 feet on Webster Square, 100 feet on Milton Street, 60 feet on Milton Avenue, making a total of 1,908 lineal feet paved, and 285 lineal feet repaved.

Street Cleaning:—The cleaning of streets and catch basins during the past year cost \$4,938.36, and there were removed 369 double loads and 4,064 single loads of refuse from the streets, or about 3,256 cubic yards.

Snow and Ice:—Removal of snow and ice cost us \$2,054.84.

Fences:—We have constructed during the year about 500 feet of fence and repaired about 500 feet.

Street Openings:—146 permits were issued during the year, allowing various parties and corporations to open up our streets.

Bridge Repairs:—Cost of repairs made to various bridges in town has been \$1,835.03.

Stone Crusher:—We have expended at the crusher plant during the year \$2,703.06, and have crushed 3,100 tons of stone.

Cross-walks:—We have put down during the year in lineal feet, cross-walks as follows: Hilton and West Streets 26 feet, at Hyde Park Avenue and Mason Street 26 feet, at Business and West River Streets 49 feet, at Hyde Park Avenue and Glenwood Avenue 26 feet, at Hillside and West River Streets 26 feet, on Dell Avenue and Central Avenue 75 feet, at Webster and Harvard Avenue 26 feet, at Cleveland and West River Streets 26 feet, Wilton Street and Hyde Park Avenue 26 feet, Metropolitan Avenue and East River Street

36 feet, Winthrop Street 26 feet, Providence and Westminster Streets 26 feet, Arlington and East River Streets 36 feet; a total of 277 lineal feet of cross-walk put down.

Street Watering:—Cost of street watering the past year was \$3,606.28. First watering of streets March 23, 1907, and continued until October 26, 1907.

Ashes and Garbage:—During the year we have collected 4,650 loads of ashes at a cost of (labor only) about 65 cents per load. There were collected by the town teams 7,993 cans of swill at a gross cost (labor only) of about 27 cents per can, and it is estimated that the private contractors, who collected the swill in one portion of the town for a part of the year, collected about 3,000 cans.

Catch Basins:—There have been built during the year 13 new catch basins as follows: 2 at Huntington Avenue; 1 on Glenwood Avenue; 1 on West River Street; 1 on Williams Avenue; 2 on Readville Street; 3 on Dell Avenue; 2 on Blake Street; 1 on Hyde Park Avenue; and 3 catch basins have been rebuilt, namely 1 on Williams Avenue; 1 on Glenwood Avenue; and 1 on Perkins Avenue. Total number of catch basins in town at the present time is 105.

Sidewalks:—During the year there were about 5,000 feet of sidewalk built and 2,000 feet resurfaced.

Street Signs:—During the year 80 new street signs have been put up on street corners.

Trees Removed:—Upon instruction from the Tree Warden, thirty-two dead trees were taken down.

Partial statement of cost of work done on streets:

Chesterfield Street	\$ 183.50
Cleveland Street	135.00
Crosswalks	883.00
East River Street	2,950.00
Elm Street	34.75
General repairs	1,357.92
Fairmount Avenue	1,050.00
Green Street	140.00

SUPERINTENDENT OF STREETS.

Highland Street	40.00
Jefferson Street, drain	140.00
Maple Street	130.00
Metropolitan Avenue	90.00
Mount Pleasant Street	100.00
Neponset Avenue	450.00
Oak Street	230.00
Paving	475.00
Regent Street	50.00
Sprague Street	350.00
Summer Street	350.00
Walter Street	50.00
Winthrop Street	230.00

ARTHUR T. ROGERS,
Superintendent of Streets.

ANNUAL REPORT
OF THE
ENGINEERS OF THE FIRE DEPARTMENT
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVE.
1908

REPORT OF BOARD OF ENGINEERS OF THE FIRE DEPARTMENT.

Hyde Park, Mass., January 31, 1908.

To the Honorable Board of Selectmen:

Gentlemen: The Board of Fire Engineers herewith present their annual report for the year ending January 31, 1908. There has been an increase in the number of alarms the past year but no serious fires have occurred.

It is with sincere sorrow and regret that we record the first serious accident in this department, causing the death of one of our drivers and one of the oldest members of the department, Mr. Frederick A. Hawley, driver of Hose 3, who was killed, while answering a false alarm, on September 13th. A faithful member of the department, always ready and willing.

With the completion of our new Central Fire Station, the center of the town has all the station it will ever require, and the other sections of the town should have attention as soon as possible. We would again call attention to the necessity of increasing the number of permanent men so that all still alarms may be answered quickly, without having to wait for the call men.

Our fire alarm system has proved satisfactory the past year, every alarm having registered correctly at the Central Station, so that no delay has occurred in getting out as soon as the alarm was received. This has enabled the Department to do good work and keep the loss small.

The Department has responded to 134 alarms during the past year, 61 bell, 73 still, 13 no school, 4 false, 1 in Milton, and 3 in Dedham. We have traveled 827 miles, laid 18,000 feet of hose, 17,000 feet of chemical hose, raised 3,100 feet of ladders, and used 8,000 gallons of chemicals. At 87 fires we have used the chemical engine only.

The causes of alarms are as follows:

Painter's torch	1
Plumber's torch	2
Burning soot in chimney	8
Defective flue	3
Unknown	9
Spontaneous combustion	4
Boiling over of fat	1
Electric wires	1
Sparks from chimney	7
False alarms	4
No school	13
Oil stoves	4
Smoking	4
Locomotive sparks	31
Bonfires	16
Set by boys	11
Snap matches	1
Children and matches	9
Overheated stove	2
Firecrackers	1
Overheated fire place	1
Sparks from stove	1
<hr/> Total	<hr/> 134

The fires and alarms for each month of the year are as follows:

February	3
March	15
April	10
May	11

June	8
July	17
August	25
September	6
October	13
November	4
December	7
January, 1908	15

The loss, valuation and insurance as nearly as could be obtained were:

Value of buildings and contents	\$482,200.00
Damage to buildings and contents	33,486.00
Insurance on buildings and contents	376,700.00
Insurance paid on same	35,890.50

We have added two new boxes this year, one on Wood Avenue, and one at the Locomotive Works at Readville, which is a special box owned by the N. Y., N. H. & H. R. R. We have purchased two miles of wire and have kept the system in repair. We would again recommend more boxes, as there are several sections which are poorly protected, and every second counts at the beginning of a fire. We would also recommend several more hydrants as there are several places where they are much too far apart. The list submitted to the Selectmen and Water Commissioners by the Board of Engineers should be attended to as soon as possible.

We have repaired and changed the house at Readville to accommodate the two-horse hose wagon and the extra man, but arrangements should be made as soon as possible to secure a lot of land and build a new house that will accommodate a truck as well as the hose wagon, so that that important section of the town will be more fully protected than it is at the present time.

The apparatus now consists of four two-horse hose wagons, one chemical engine, one ladder truck, two five-gallon hand chemical tanks, two three-gallon chemical tanks, eight horses, nine sets of double swinging harness, one single har-

ness, 5,000 feet of good hose, 250 feet of chemical hose, one Eastman Deluge Set, a complete, new Gamewell Fire Alarm equipment, storage battery, fifty-two fire-alarm boxes, forty call bells on tapper circuit, thirty-seven miles of wire, with the furniture in both stations, all in good condition.

The work of the Department for the past year has been up to the usual standard and has been highly satisfactory to the Board of Engineers, and we sincerely hope to the citizens of the town. The Board of Engineers wish to extend their most hearty thanks to the entire Department for their faithful work, to the Board of Selectmen for their many favors, and to the citizens of the town for the new Central Station and equipment, which is second to none in the state.

The Department now consists of Chief Engineer, permanent, two Assistant Engineers, seven permanent men and thirty-six call men, making a total of forty-six members.

Respectfully submitted,

JOHN H. WETHERBEE, Chief,
JOHN C. McDOUGALD, Clerk,
DENNIS W. MAHONEY.

DEPARTMENT OFFICERS AND MEN.

Board of Engineers.

JAMES COLLINS,	WILLIAM CONLEY.

EDWARD A. HAWLEY, Superintendent of Fire Alarms.

FIRE ALARMS, LOSSES AND INSURANCE FOR
THE YEAR ENDING JANUARY 31, 1908.

February, 1907.

- 5. Box 22-5, No School.
- 5. Box 22, No School.
- 23. Still, 8.48 A. M., for fire in house 223 Hyde Park Ave., owned by Mrs. J. S. Coveney. No loss. Cause, Oil stove.

March, 1907.

- 10. Box 192, 7.22 P. M., for fire in Locomotive Works at Readville, owned by N. Y., N. H. & H. R. R., and in process of building by the C. A. Dodge Co., and Westinghouse Electric Co. Value of building and contents, \$125,000. Loss \$25,000. Insurance unknown. Cause, Spontaneous combustion.
- 12. Box 12, 2.45 A. M., for fire in house at 30 Business St., owned by Miss Hannah Greenhood, and occupied by Thos. Long, P. Riley, M. Rosenburg, and J. Linsky. Value of building and contents \$4,000. Loss \$550. Insurance \$2,500 Cause, Defective chimney.
- 13. Box 48, 9.55 P. M., for fire in Rubber Factory at 30 Tileston Ave., owned and occupied by the Hyde Park Rubber Co. Value of building and contents \$9,500. Loss \$2,100. Cause, Spontaneous combustion.
- 23. Box 58, at 10.08 A. M., for fire at Clarendon Hills Square, on property owned by N. Y., N. H. & H. R. R., consisting of grass and planks. No loss. Cause, Boys and matches.
- 23. Box 57, 10.10 A. M., for fire in grass and brush, on Huntington Ave. No loss. Boys and matches, cause.
- 23. Still, 10.20 A. M., for fire at 38 Huntington Ave., on property of Mr. Lincoln. Grass and brush. No loss. Cause, Bonfire.
- 23. Still, 11.40 A. M., for fire of grass and brush on Loring St. No loss. Cause, Boys and matches.
- 23. Still, 1.10 P. M., for grass fire at 87 Maple St., on property of Miss Cora Peare. No loss. Cause, Boys and matches.
- 23. Still, 2 P. M., for fire of brush and grass at 73 Maple St., on property of Mr. Bridgman. No loss. Cause, Bonfire.
- 23. Box 35, P. M., for brush and grass fire on Mt. Pleasant St. No loss. Cause, Boys and matches.
- 23. Box 531, at 4.23 P. M., for fire on Arlington St., on property of the Universalist Society. No loss. Cause, Bonfire.
- 29. Still, 1.51 P. M., for fire at 23 Summer St., in stable owned

and occupied by Dr. S. A. Tuttle. Value of building and contents \$10,000. Loss \$10. Insurance \$12,000. Cause, Sparks from locomotive.

29. Box 12 at 4.46 P. M., for fire at 92 Business St., in dwelling owned by Mrs. Ann Downey. Value of building \$1,500. Loss \$10. Insurance \$1,300. Cause, Spark from bonfire.

April, 1907.

4. Box 531, at 1:57 A. M., for fire in stable at 256 Hyde Park Ave., owned by Mrs. Addie M. Willard and occupied by Henry L. Willard. Value of building and contents \$5,500. Loss \$500. Insurance \$4,500. Cause, Spontaneous combustion.
8. Box 22, 1 P. M., No School.
16. Box 25, 9.20 A. M., for fire in pile of railroad ties on W. Glenwood Ave. No loss. Cause, Spark from locomotive.
18. Still, 6.30 P. M., for fire in grass on W. Milton St., on property owned by Davis Estate. No loss. Cause, Spark from locomotive.
21. Still, 2.33 P. M., for fire in grass at Clarendon Hills Square, on property owned by Clarendon Rubber Co. No loss. Cause, Boys and matches.
21. Still, 3.40 P. M., for fire off Wolcott Square, Readville, on property of N. Y., N. H. & H. R. R. No loss. Cause, Bonfire.
21. Still, 6.40 P. M., for fire on Summer St., brush and grass on Grew Estate. No loss. Cause, Boys and matches.
21. Still, 8 P. M., for fire of brush and grass on Readville St. No loss. Cause, Boys and matches.
28. Still, 8 P. M., for fire at 82 Fairmount Ave., in building owned by Mrs. Keith, occupied by Alden Cobb. Value \$1,500. Loss \$11.50. Insurance \$1,250. Caused by spark from electric light.

Search Warrants for liquor	7

PATROL WAGON AND AMBULANCE.

Number of wagon calls for arrests	210
Number of ambulance calls	32
Number of miles run by wagon	360

CRIME.

The most serious offence committed during the year was the murder of Anna B. Amesbury by her husband, Dr. Walter R. Amesbury, at their home, 220 Metropolitan Avenue, on Dec. 25. Dr. Amesbury is now awaiting trial in the House of Correction at Dedham. Many cases of robbery and house breaking

have occurred. In most instances the houses entered were temporarily unoccupied and notice not given this office. It is not safe to leave your homes unoccupied without at least notifying the officer on the route.

The discipline of the force has in the main been well maintained. The officers have performed their many duties well and faithfully. I wish to thank them, and all the good citizens for their earnest co-operation and kindly interest shown, in the welfare of this department.

Respectfully,

ROBERT E. GRANT.

In Charge of Police Department.

FIRST
ANNUAL REPORT
OF THE
BOARD OF WATER COMMISSIONERS
OF THE
TOWN OF HYDE PARK

FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVENUE
1908

REPORT OF THE BOARD OF WATER COMMISSIONERS.

To the Citizens of Hyde Park:

We have the honor to present herewith the first annual report of the Board of Water Commissioners for the eleven months ending January 31, 1908.

At the annual town election held on March 4, 1907, the first Board of Water Commissioners were elected to hold office as follows:

Alonzo W. Dunbar until the expiration of three years from the next succeeding annual town meeting.

Robert B. Campbell until the expiration of two years from the next succeeding annual town meeting.

William W. Lewis until the expiration of one year from the next succeeding annual town meeting.

The Commission organized choosing William W. Lewis as chairman and Robert B. Campbell as secretary.

On December 26, 1906, the town voted to buy the franchise, property, and rights of the Hyde Park Water Co. On March 16, 1907, a letter was addressed to the Hyde Park Water Co. stating that the Commissioners desired a conference with the officers of the Water Company with a view to arrange for the actual transfer of the Company's property to the town.

On March 30, 1907, a reply was received from the president of the Company declining to deliver possession until the price to be paid by the town had been ascertained and paid.

The matter of taking possession of the works was then referred to the counsel representing the town. At present the Hyde Park Water Co. is managing the works pending a final settlement. Anything out of the ordinary routine business is, however, referred by counsel to the Commission for their

action. During the year two small matters, such as changing hydrant location and one extension of the mains were so referred and acted on.

Under date of July 31, 1907, word was received from the Board of Selectmen that Rooms 9 and 10, Union Block, had been assigned to the Board of Water Commissioners.

The special town meeting held on January 2, 1908, appropriated \$200 for furniture and supplies for the office of the Board of Water Commissioners. The smaller of the two rooms assigned is now being furnished as a Commissioners room. It is planned to use the larger room for the general business of the department. It will be furnished, when required for the actual management of the works.

A detail statement follows of the expenditures to date of this report:

Appropriated January 2, 1908	\$200.00
January 6, 1908.	
W. E. Smalling, stove and labor	\$ 31.00
Burnes Bros., table and chairs	49.70
Porter Press, printing letter heads	4.75
J. H. Powers, rubber stamps and pad	1.25
500 stamped envelopes	10.60
Record books	2.65
Postage and miscellaneous35
	<hr/>
	\$100.30
Balance of appropriation unexpended Jan. 31, 1908.	<hr/>
	\$99.70

Respectfully submitted,

WILLIAM W. LEWIS,
ROBERT B. CAMPBELL,
ALONZO W. DUNBAR.

FOURTEENTH ANNUAL REPORT

OF THE BOARD OF

PARK COMMISSIONERS

TOGETHER WITH

Report of Local Superintendent on the Suppression
of the Gypsy and Brown-tail Moths

PARK COMMISSIONERS.

Organization 1907-08.

STILLMAN E. NEWELL, Chairman.

STILLMAN E. NEWELL.

LAWSON B. BIDWELL,
Secretary.

JOHN J. ENNEKING.

FOURTEENTH ANNUAL REPORT OF THE PARK COMMISSION

An addition to the duties of our Commission was made in June, 1907, at which time we were notified by the Board of Selectmen that all public squares and parks within the limits of the town be turned over to our Commission for future control and management: also the duty of seeing that the same are kept in proper condition. This is in compliance with the Revised Laws which place the control of such open squares and parks within the jurisdiction of Park Boards, and the list of such open places is as follows:

Meigs Memorial Park

Base Ball Park at the head of Sunnyside Street

Wolcott Square Green, Readville

Greenwood Square Green, Greenwood Square

Webster Square Green, Webster Square

Green at junction of Metropolitan Avenue and Beacon Street

Green at junction of Highland Street and Milton Avenue

Green at junction of Williams Avenue and Prospect Street

At Camp Meigs we have been much troubled by the lawlessness of people crossing the grounds in any direction, without regard to the walks laid out and marked, often making deep and irregular paths, and giving the park a slovenly appearance. It would seem that our people should have some respect for, or pride in this historic ground. We have expended on these public grounds the sum of \$158.50 for hauling stone, for seats and top dressing, and repairs of fence.

The suppression of the Gypsy Moth is still our most important duty, as no reliance can yet be placed on foreign parasites for the extermination or suppression of either the Gypsy or Browntail pests. It does not yet seem to be under-

stood that your Park Commission is prosecuting this work under the immediate supervision of the state authorities, whose inspector appears on the ground often enough to keep well informed as to the amount of money expended and the work done. The State Superintendent has full power in the matter, and insists that certain work must be done. If the town does not do this work, the state authorities will do it with its own force at a greater expense to the town. We have not made, or used as large appropriations as many towns who have to meet similar conditions, but have been accredited with accomplishing more than many of them with the same expenditure. A serious setback the past autumn and early winter was caused by the appropriation being reduced by the town from \$3,500 to \$2,000, the first named sum being necessary to carry on the work as in the previous year, and as required by the State Superintendent, with the result that practically all work had to be abandoned for more than a month in the most important part of the year.

We append the report of our local superintendent of the work.

STILLMAN E. NEWELL, Chairman,
LAWSON B. BIDWELL, Secretary,
JOHN J. ENNEKING.

To the Board of Park Commissioners.

Gentlemen:—I submit herewith my report on the suppression of the gypsy and brown-tail moths from January 31, 1907 to January 31, 1908.

During the winter and spring of 1906-07, the entire town was thoroughly scouted for egg-clusters of the gypsy moth, with the following result.

Two hundred and ninety-seven colonies of this moth were found distributed fairly over the town—the heaviest infestation being on the northerly side, in the Hazelwood and Clarendon Hills sections, while Readville in the extreme southerly end, was found to be comparatively free from the pest.

These two hundred and ninety-seven colonies contained one thousand, one hundred and three egg clusters, which were all destroyed when found. About three-fourths of this infestation was in the residential sections of the town.

Considerable clearing was found necessary to prepare the colonies for burlapping, and on account of these colonies, twenty thousand, six hundred and eighty-five trees were burlapped. The trees along the streets throughout the town, numbering four thousand, seven hundred and eighty-six, were also burlapped, making a total of twenty-five thousand, four hundred and seventy-one burlapped trees which were closely watched and the burlaps frequently turned throughout the summer.

Twenty-six thousand, seven hundred and ten larvae and pupae were destroyed under these burlaps during the summer; larvae being found as late as August 27th, and pupae as late as August 30th. Many hundred were also killed by private owners in colonies on their own grounds. Spraying was found necessary in a number of instances, but the principal dependence was put upon the burlap method, as was the case last year.

A number of new colonies, mostly small, were located late

in the season, and everything possible done to exterminate them.

Most of the colonies throughout the town were small ones. The most serious one found was the Ewell colony near Clarendon Hills square. Here about two hundred egg clusters were found, mostly about the ground on rubbish and old lumber, and between the floor boards of a partly demolished building. This place was sprayed early in the season and later about five or six thousand larvae destroyed.

Another colony on Elm street contained about thirty egg clusters, none of which were found and destroyed, as they were all below snow line on our inspection of that territory. This proved quite a troublesome colony, being confined almost entirely to rose bushes, and therefore hard to eradicate. They were found too late in the season to make spraying effectual.

Another place of quite a serious nature was the edge of a tract of about one hundred and fifty acres, lying along the east boundary line between Hyde Park and Boston near Ashland street and Calvary Cemetery. Thousands of clusters lay just across our border line, and many of the trees were entirely stripped during the summer. This made it particularly hard for us to hold them at this spot, but by cutting and burning along this border, and also burlapping a strip on each side of Harvard street, which runs from Ashland street to Hyde Park, we have succeeded in keeping them pretty well under control, being helped somewhat by the partial clearing up of the worst places along Ashland street.

Seven hundred and twenty larvae, and four hundred and twenty-two pupae were found along the street trees, aside from the colonies, showing the amount carried by travel, and the advantage of burlapping the street trees. While these were scattered generally throughout the town, by far the greater portion of them were picked up in the northerly and easterly sections, and I am still of the opinion that much of

our infestation comes from towns to the north and east of us, where these precautions are not taken.

As it was voted in town meeting assembled last April, to have all this work done by the town, I have considered it as a whole and have not kept individual accounts with private property owners. This plan of work has many advantages, and allows much more to be accomplished in the actual suppression of the pests. No notices were sent out to property owners this fall thus saving an expense of about fifty dollars, this action being based on the supposition of the continuance of this plan of work.

Three men were regularly employed throughout the summer to attend the burlaps, and I have had one or two extra men for clearing work and brush cutting, as occasion required.

The results accomplished in Grew's Woods the previous season were made apparent in the inspection of last spring, when only two hundred and sixty-six egg clusters were found, as against four hundred and thirty-four of the previous spring when but a third of the territory was scouted. Nine thousand, eight hundred and fourteen trees were burlapped here, after the brush had been cut and burned, and eleven thousand, nine hundred and seventy-five larvae and pupae were taken under the burlaps. This is still the most serious proposition, as it is difficult to keep these pests from spreading, in a tract of woodland which is so much frequented in the larval season as are these woods.

The Stony Brook Reservation is infested all along the western border of these woods, and the section immediately across the Boston line is infested for its entire length and no work against the moths is being done there.

At the end of the larval season, the last of August, which ends the summer's work, the street burlaps were all removed and burned, but contrary to the usual custom, and at the request of the state agent, they were not removed from the woods or orchards, being cleaned and left on the trees to see

if they would be suitable for use another season. This, of course, is largely experimental and it is a question whether it will be more economical in the end.

The failure of the town to appropriate sufficient money at our last annual meeting in April to carry on the work for a year has proven to be poor economy. The appropriation made at that time to carry on the work until fall was made to last till about the first of November, but as the special town meeting was not called until January 2, 1908, the work was practically held up for two months. This delay, coming in a season when more could be accomplished than at any other time, has put a serious check on the work and will cause an ultimate expense far exceeding the amount asked for last April to accomplish the same results as would have been accomplished with that amount, had the work been allowed to continue uninterrupted.

It is expected, however, that at our coming annual meeting, this department will be put on the same basis as other town departments; unexpended balances to revert to the treasury at the end of the fiscal year, and provision made allowing one-sixth of the following year's appropriation to be drawn upon to cover the expenses of the two months intervening between the end of the fiscal year and the annual appropriation meeting. Without doubt, appropriations for this department will then be made to cover the year's work, and not for an indefinite period of time, as all previous appropriations have been made. This will be found to be a more practical and business-like method, as it is more economical; the special fall meeting being very indefinite and uncertain in its appearance, and allowing delays in the work, which are always dangerous in work of this nature.

The unusual open winter and almost entire absence of snow, has assisted us greatly in our winter scout for egg-clusters, and while it will be impossible to accomplish the work that would have been done had there been no delay,

we hope to be able to make up for it in a large degree—our success depending considerably on the weather conditions between now and the first of April.

I have now four regular inspectors employed for this scout. It will probably be necessary to employ one or two extra men for the clearing work in the early spring, depending on the number and condition of colonies located. Also one or two additional men will be needed throughout the summer to attend the burlaps.

In the winter's scout we have now covered about two-thirds of the residential section. Considerable territory including all the wooded sections of the town still remain to be gone over, as do also the street trees,—excepting the lower parts, or ground work. We continue to find scattered small colonies throughout the town, mostly in new locations from those of last year, showing conclusively the effect of surrounding conditions, as we find in the majority of cases that our last year's colonies are clean.

This must naturally be expected for several years, until our woods colonies are wiped out and the badly infested places just across our line to the north of us are cleaned up. This is an unfortunate condition of affairs, and makes it particularly hard for us to keep our town clean, as there is so much travel through all parts of the town, coming from the badly infested areas, that the larvae are unconsciously transported in many ways. It will therefore require the continuance of a most vigorous campaign against these pests, if we desire to keep our town free from their ravages, as we have succeeded in doing in the past.

The inspection of this winter has shown the Ewell colony, before mentioned as our most serious one of the past season, to be exterminated; which I think shows pretty close work under the existing conditions.

The brown-tail moth has given us very little trouble here the past year, and the necessary work is done in connection

with that against the gypsy moth. In last winter's scout, seven hundred and forty-three of the winter webs of this moth were cut off and burned, and during the summer there has been no trouble from that source. So far this winter they have been found in fewer numbers than last year.

This work is all carried on under state supervision, the state agent outlining the work to be done, and a state inspector following up the work about twice a week. My annual report has been submitted to Mr. F. A. Bates, field agent in charge of this division, and itemized monthly reports of expenditures are now submitted to Supt. Kirkland at the state office.

The expenses of the work for the fiscal year just closed have been \$3871.41. The total amount available for the work being \$4763.53, this leaves a balance on hand, January 31, 1908, of \$892.17.

The work of the current year, depending largely on the result of this winter's scout, has been carefully figured out and estimates made for the year's expenses. In all probability many more trees will require burlapping than last year—a conservative estimate being about thirty thousand. This is on account of the increased number of small, scattered colonies, and is in no way traceable to lack of attention to last year's colonies; being, as I have before referred to, the result of the unconscious transportation of the larvae, which is one of the most serious propositions to contend with in this work.

The agent has gone over this matter very carefully with me with the intention of keeping the expenses down as low as possible consistent with effective work, and we have been very conservative in our plans and estimates.

We have figured as a result that the estimated expenses of the year's work will be about \$4,650.00. With the balance on hand of \$892.00 this would require an appropriation of \$3758.00 and I would respectfully ask that a sum of at least \$3700.00 be appropriated at the annual meeting to properly

maintain this work for the ensuing year. Mr. Bates who is thoroughly familiar with conditions here, has gone over this several times estimating in different ways, and strongly urges that at least this amount will be needed to do the work as it should be done; and it is well known that where this is neglected, in every instance much larger sums are required to do the work, than would have been necessary had it been taken in time and done properly.

The present method of carrying on this work as it is done in our town, Milton, Brookline, and a few others, has proven so successful, and so much more economical considering the actual suppression accomplished, that despite the fact that the large majority of cities and towns are doing the work the other way, and charging the private work to the owners, it seems to me by far the wisest, best and most economical way for all concerned, to keep these moths in suppression here.

These pests are a public nuisance, and it is of equal benefit to all to have them destroyed wherever they may be. The worst infestations are liable to be on the property of a person who is not in the slightest degree to blame for there being there, and he should not, therefore, be compelled to stand the expense of removing them. When the money is appropriated by the town from the general fund, its equal proportion falls on all property owners alike, provided the land is assessed as it should be. Each bears his own part of the expense, and all share alike in the benefit for the common good.

It cannot be denied that a trained force of men can go through all the property and do the necessary work in a better and cheaper way than it can be done by being left to the property owners to do. Furthermore if the work is charged up, the town can only collect according to law, an amount equal to one-half of one per cent. of the assessed valuation of the property on which the work is done. In nearly every case the most expensive of our colonies to eradicate have been on land of low valuation and with no buildings

thereon. It is only natural from the workings of these moths that such would be the case, and in all such colonies, by far the greater portion of the expenses must necessarily be borne by the town, as the cost of taking proper care of them far exceeds the amount which can be collected.

Again, the work, if left to the property owners is, in but a comparatively few cases properly done. Many attempt it, and by doing it wrongly or only partially doing it, cause more harm than good. If in charge of one force, the superintendent may know at all times the state of infestation throughout the town, and govern his work accordingly. If a colony springs up in a particularly dangerous locality he can take extra precautions to stamp it out at once, as was done last year in the Ewell colony. This is a good example, as the necessary work on this colony covered land owned by several parties, and such work would not have been done had it been left to the owners to do.

If the work is charged up as the law provides, the owners must be given a chance to do their own work. There are also many other items of clerical work and unnecessary accounts which would have to be kept in this way of doing the work, which are not now in our present method. It seems to me our object should be to keep these pests down as much as possible wherever they are, and every dollar possible of the amount appropriated, put into actual suppression work.

This, I believe, can only be accomplished when work is done along the present lines, and I have entered somewhat fully into this matter, as I know it has been in the minds of some to change over the plan of work here, thinking the other way less expensive for the town, but I sincerely hope that this will not be done.

To prove that the other method of work has not been fully satisfactory in the towns where it has been done according to the present laws, is the fact that there is a bill coming up before the state legislature to have all work on

private property done by the cities and towns, which is the same method as we are now carrying on the work here.

This method need not interfere in the slightest, however, with property owners assisting us in our work. All information and help possible is always cheerfully given by the state or town forces, and the owners may be of a great deal of assistance by keeping their trees in proper shape, cutting down worthless brush, and decaying trees, blocking up holes in their trees, and doing such other work as may be outlined by the local forces, for the good of the whole. In this way much may be done to keep down the expenses of the work. With such help there seems to be no reason why these pests should ever get the upper hand here, and it is only when such co-operation exists that the best results are obtainable.

This report is accompanied by two maps; one showing the location of all colonies throughout the town; the other being a special map of Grews Woods, and showing the state of infestation existing there.

Respectfully submitted,

HARRY G. HIGBEE,

Local Superintendent.

ANNUAL REPORT
OF THE
CEMETERY COMMISSIONERS
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVE.
1908

REPORT OF CEMETERY COMMISSIONERS

No considerable extensions have been made during the past year, although lots have been prepared for use in various parts of the cemetery, and the work of preparation for spaces for single graves has continued.

The cemetery fund is now \$14,723.42, an increase of \$2,099.34 from last year. The increase in the last year has been marked because no additional land has been purchased.

The receipts and expenditures for the financial year ending January 31, 1908, are as follows:—

RECEIPTS.

Sale of lots	\$2,325.00
Sale of single graves	255.00
Interment and receiving tomb charges	638.00
Foundations and labor	358.64
Stone and wood	7.50
Fees for removal of bodies	40.00
Interest on fund	504.96
<hr/>	
Total	\$ 4,129.10
Balance on hand Jan. 31, 1907	12,624.08
<hr/>	
Total	\$16,753.18

EXPENSES.

Labor, etc.	\$ 2,029.76
Balance on hand January 31st, 1908	14,723.42
<hr/>	
	\$16,753.18

STATISTICS.

Lots sold	24
Single graves sold	51
Interments in lots	56
Interments in single graves	99
Interments in receiving tomb	5

Removals from graves and from receiving tomb to other cemeteries	1
Removals from graves to other graves in cemetery	11

A detailed report of the expenses is herewith submitted, and will be found in the part of the town report containing the items of municipal expenditures of the various departments.

GEORGE E. WHITING,
JOHN O'CONNELL,
CHARLES F. JENNEY,
Commissioners.

FORTIETH
ANNUAL REPORT
OF THE
OVERSEERS OF THE POOR
OF THE
TOWN OF HYDE PARK

FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVENUE
1908

FORTIETH ANNUAL REPORT OF THE OVERSEERS OF THE POOR

To the Citizens of the Town of Hyde Park, Mass.

The Overseers of the Poor respectfully submit their report for the fiscal year ending January 31st, 1908. In reviewing the work of the year we find many lessons to be drawn from our experience, of value to us as public servants, of interest to you as citizens, not only in the proper distribution of the public funds but its effect on the well being and morals of those who are recipients of this charity. The thorough investigation of each case as it comes before us, involving frequent visits to the home, that we may know conditions, visits to places beyond our limits and quite often long correspondence, by a continual going over and over all cases in hand, we keep in constant touch with every one and obtain the information we seek. In the conduct of the business, we have proceeded on strict business lines, but at no time have we lost sight of the fact that the worthy poor need our fullest sympathy and most courteous treatment. That no one may suffer unjustly, the benefit of the least doubt is given, until the real facts are revealed, and while deception is sometimes practised, evasive answers are made to questions and utter ignorance as to simple events, displayed, as a rule we find applicants well-meaning and honest. By applying business methods, good common sense and a close study of human nature, we believe that some of the so-called poverty would disappear. On the 7th of March, 1907, the Board organized, re-electing its officers and re-appointing Dr. John A. Morgan as Town Physician and Franklin C. Graham as Town Undertaker. You will find in the Overseers' report of last year an unexpended balance

of \$1.23 which was credited on our books to the Town, leaving us with no funds. As the Annual Appropriation Meeting was not held until the 10th of April following, we were thus forced to draw on the Town Treasurer, as provided in the Town By-Laws, for a sum equal to 1-6th of the amount of last year's appropriation which was \$1,333.33, and which would come out of what ever sum might be appropriated at the delayed Town Meeting.

NEW ROOMS.

In our last Annual Report we called attention to the necessity of providing proper quarters for the Overseers, and in July we received notice from the Board of Selectmen that Room 8 of the town offices was assigned to us. We have furnished the room in a simple manner and at small expense, and although not large enough for all our needs, is a decided improvement, and the wisdom of this change is already apparent.

PAUPER.

On account of complaints made to us we wish to say, that it is a shame that this word should be applied to those who are compelled to ask aid from the town, and he or she who applies it should remember the golden rule.

CAUSES OF POVERTY.

The causes of poverty are many, but the chief, directly and indirectly, is intemperance. Many of the cases of Pneumonia, Grippe, and Rheumatism and accidents reported to us, upon investigation, have been found to be caused directly or indirectly by a too free use of alcoholic drinks. Laziness and desertion figure to some extent and are found to be close companions of intemperance.

Eliminated, the causes might be reduced to genuine misfortune and sickness from natural causes.

DESERTIONS.

Of all the cases we have had to deal with, desertion of wife and children were the hardest and most pitiful, but with the aid of an efficient police we have been so far successful, as to have it very well understood that there is no safe abiding place within the limits of this town at least, for such offenders.

FILIAL DEVOTION.

In this enlightened age when the spirit of humanity prevails throughout the universe as it never has before, it is sad to know that any man would desert the mother who bore him, in her time of need.

The cry of the aged, "there is no place in this wide world for me," will rise to heaven, and a just God will answer, in his way and time.

MAINTENANCE.

By the system of accounting planned and adopted by us March, 1906, we can determine the expense of maintaining each person and family in a few moments, and discover any tendency to wastefulness or extravagance, and whether or not their calls for necessities of life are warranted, our aim being to make them economical, self reliant and self sustaining.

The increase in the cost of food supplies has had no material effect, while the increase in the cost of fuel has added slightly to the expense.

Hospital cases have largely increased, but goodly portion has been repaid by other cities and towns. The cost of boarding some of our charges increased on account of necessary changes and advancing age, when more care and attention is needed, and sickness in the families has been of the ordinary kind.

OMISSION OF NAMES.

In regard for the feelings of those who are so unfortunate to ask the aid of the town, we again omit the publication of names, but may at any time deem it of sufficient importance to do so.

SETTLEMENTS.

The hardest and most important work of the Overseers is to determine the legal settlement of every applicant. This often necessitates many inquiries, long search among records of years long passed, visits to other cities and towns and much correspondence. The work constitutes in a measure a history and is so termed.

This work if intelligently performed consumes valuable time and necessitates expense, and the benefits accruing from a financial standpoint are all important. The expense of any person aided by the town whose settlement is proven elsewhere, can be re-claimed, the expense of any person residing elsewhere and whose legal settlement is claimed here, if not proven to the contrary or goes by default, must be paid by the town.

The importance of this work can be better understood perhaps, when we say that the cost of supporting some of our charges, has run into the hundreds and even thousands of dollars.

The Overseers desire to do this work for the best interests of the town but are prevented by conditions over which they have no control, and by an inadequate compensation.

Financial Statement.

Appropriation	\$9,000.00

Overseers of the Poor.

ANNUAL REPORT
OF THE
ADVISORY COMMITTEE
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVENUE
1908

REPORT OF THE ADVISORY COMMITTEE

To the Citizens of Hyde Park.

The Advisory Committee begs leave to submit the following report. The committee consists of the following citizens:

Henry F. Arnold,
Francis M. Burns,
Henry S. Bunton,
Philip W. Carroll,
Arthur T. Byrnes,
J. Roland Corthell,
Philip P. Coveney,
Francis W. Darling,
Thomas F. Fallon,
John W. Griffin,
James D. Grant,
Stillman E. Newell,
John H. O'Connor,
Wilbur H. Powers,
John P. Rattigan,
Charles F. Spear,
John F. Sheehan,
Patrick H. Rooney,
Charles B. Whitney,
Samuel T. Elliott,
Fred J. Hutchinson,

• Gideon H. Haskell,
David W. Murray,
Edwin C. Jenney,
John Johnston,
Calvin H. Lee,
Alfred L. Lovejoy,
William W. Lewis,
Dennis W. Mahoney,
John W. McMahon,
Henry B. Miner,
Charles F. Morrison,
William E. Norwood,
William D. Preston,
George H. Rausch,
Charles F. Stack,
James E. Sheridan,
Gorham E. Stanford,
Irving C. Webster,
Edward L. Barrett,
Thomas J. McDonough,
George Jeffers,

George T. Brady.

On April 16th, 1907, the committee met and effected a permanent organization by the choice of Francis W. Darling as chairman and William E. Norwood as secretary.

The labors of the committee are necessarily confined to a short period before each town meeting as the various articles to appear in the warrant are not usually prepared and available for the committee's use until ten days or two weeks before the meeting.

This year we have had two town-meetings in January, one warrant containing twenty-seven articles and the other three articles. These were both very important meetings, the various articles carrying large appropriations. Your committee held ten meetings for the consideration of the articles in these two warrants. These meetings were largely attended and every article was carefully considered. We have been pleased to note the almost universal acceptance of our recommendations by the citizens.

The holding of a town meeting as late as January 29 is very unusual and as material for publication in the Town Report must be handed in, under the by-laws by February 5, the time between these two dates, five week days, was obviously inadequate for the committee to consider carefully the department appropriations for the ensuing fiscal year. We realize the necessity of careful scrutiny of the requirements of all departments this year. An increase in our tax rate seems inevitable but it should be made as small as possible. We are not yet in possession of any reliable information as to the amounts which will be needed for metropolitan charges and for state and county taxes. These will not probably be less in the aggregate and may be more than last year.

So far as shown by the reports of our sub-committees thus far, all town departments will co-operate with us in effecting such economies as are consistent with efficient management of town affairs.

During the next few weeks, the committee will be able to devote sufficient time to the consideration of the annual appropriations and will give the results of its deliberations to the citizens before the town meeting.

Respectfully submitted,

FRANCIS W. DARLING, Chairman,
WILLIAM E. NORWOOD, Secretary.

Hyde Park, February 5, 1908.

1908

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen.

Gentlemen:—I submit herewith my report of the Tree Warden work from January 31, 1907 to January 31, 1908. As in the year previous, but very little systematic trimming could be accomplished, owing to the small amount of money available for this work.

There have been many calls for trimming where branches or dead limbs have caused inconvenience or damage to private property, or where they have threatened the safety of pedestrians. These have all been investigated and attended to. Trees have been trimmed, cavities cemented, or wounds treated on the following streets:—Hyde Park avenue, Gordon avenue, Perkins avenue, Summer street, Thompson street, Sunnyside street, Huntington avenue, Dell avenue, Williams avenue, Pierce street, East River street, Albion street, Webster street, Water street and Beacon street.

On these first six named streets the work was taken up in regular order, going right through the street and doing the most necessary work on each tree. The last street to be taken in this manner was Hyde Park avenue, beginning at the Boston line and working toward the center of the town. Here the trees were in very bad shape, and much trimming and removing of dead wood had to be done. The trees were cleaned up in this way for a short distance when the work had to be given up on account of the lack of funds.

Anyone must realize, on considering this matter, that the meager amount of \$250.00, which is all that has been available for actual work in this department, will do but little in this kind of work; which must necessarily be slow and careful,

requiring a knowledge of the trees and their conditions—else more harm will be done than good. Many a fine tree has been permanently injured and disfigured simply by careless and improper trimming.

Many of our trees at the present time are badly in need of a thorough going-over to put them in a proper and healthy condition. Many others are dying from various causes and should be removed; as besides being unsightly and valueless for shade or ornament, they are a menace to the public safety.

The many wires passing through our street trees—principally the electric light wires—cause a great deal of damage. This has been alleviated to some extent when notice has been given of the trouble, but until the Electric Light Company can be induced to use more up-to-date methods in the protecting and insulating of their wires where they come in contact with the trees, the damage will still go on. There is absolutely no excuse for thus injuring the trees,—and it has been done to an alarming extent—as there are numerous and practical devices on the market for proper protection of the limbs and the holding of the wires. These may be seen in use in Milton, Dedham, Randolph, and other towns about, and there is no reason why they should not be used here.

If the townspeople care anything about our trees and wish to preserve them for the future they should no longer be neglected as they have been in the past, but should be put in proper shape and then kept so,—weeding out the useless ones, and replacing them with new growth.

This cannot be done for \$250.00. At least \$1,000.00 should be made available for this work if really practical results are to be accomplished. Other towns about us are spending much larger sums on this work every year.

I have not removed any trees the past year, as I have considered it my duty to use the money for the trimming and other necessary work, which seemed to me more imperative for the public good. More than half the amount of the money

appropriated would be required to remove the trees for which I now have applications.

During the past year I have received applications for the removal of fifteen trees, and after carefully considering the existing conditions, and holding a public hearing on the same, as required by law, I have granted permission for the removal of twelve of them.

Permission was granted the American Tel. and Tel. Co. to trim the trees along the line of their wires on Hyde Park avenue and Business street, this being done under my supervision. I also supervised the trimming done for the Police signal wires in various parts of the town. In both these cases, I allowed only slight trimming; in some instances in the latter case, requiring the position of the wires to be changed, rather than to trim in such a manner as to injure the trees.

A heavy storm in the nature of a cyclone, swept through our town on October 8, uprooting a number of trees and seriously damaging many more. The fine large willow tree which for so many years has adorned our public library grounds, was uprooted in this storm, and had to be removed.

The elm-leaf beetle has again caused considerable damage to many of our elms, practically defoliating them in some instances. As was mentioned in my last year's report, the most practical method of combatting these pests is by spraying the trees with arsenate of lead early in June, and it seems a pity that this could not be done. Thousands of the larvae, or slugs, of these beetles were destroyed by us later, under the burlap bands, in our inspections for the gypsy moth larvae. Much good may be done in this way when it is too late for spraying, and the larvae which collect in such quantities under the burlaps and about the base of the trees, may readily be collected and destroyed with strong soap suds or hot water. Many of the property owners sufficiently interested themselves in the trees in front of their residences to do this daily during the larval season and their efforts in this line have been

appreciated. The principal dependence, however, must be put on spraying if the foliage of the trees is to be preserved. The town of Milton has to spray its elms on account of this pest every year, last year spending \$1200.00 for this work alone. Dedham has also sprayed for the same reason for several years past.

I wish to again call attention to the matter of hitching horses to street trees, or allowing them to stand where they can eat off the bark or otherwise injure the tree. This is a practice of some persons, and has become by far too common; in many cases resulting in irreparable damage to the tree. There are state laws prohibiting this, and the violation of them is made subject to a fine not exceeding \$100.00 for each offence, the owners of the horses being held liable for the damage done. Similar laws apply to the cutting or otherwise injuring of trees; and no person has any right to cut or trim a town tree except the tree warden or his deputies, without permission in writing from the tree warden.

Linemen and horse owners would do well to take notice of these laws, and they should be rigidly enforced if our trees are to be allowed to grow properly and be of any value for shade and ornament along our public highways.

In the matter of improving the lighting system in our town, the trees are one of the most important items to be considered in the placing of the lights where they will do the most good. This matter is soon to come up, and I hope that those having it in charge will give due consideration to the preserving of the trees. Many lights are now so placed as to be of very little value when the trees are in foliage. I have trimmed where practical, with this thought in mind, alleviating the trouble to some extent; but in many cases the removal of whole trees would be required before any real benefit was obtained, when the slight changing of the position of the light would accomplish the desired result. In a heavily shaded street, lights should be suspended across the street,

and hung in the center, low enough to shine beneath the branches, and not as many of them now are, placed on the sidewalk, fastened to a high pole, and almost completely surrounded by a network of branches.

If gas is to be substituted for electricity it will be necessary to use great care in the digging of the trenches for the pipes so as not to injure the trees by the cutting of large roots. Escaping gas is also very disastrous to trees, and there are many instances of their being killed by it two years after the leakage has been stopped, as the gas permeates the soil to such an extent, and remains in the ground so long—I hope this fact may also be considered in the lighting question. Nearly every tree along Readville street has been killed or is now dying, as the result of gas, or, from the effects of a drain being put through the street several years ago. One of them, a large elm standing in the square near the Damon school was one of the largest and finest elms which we had in the town.

The expenses of this department for the year ending January 31, 1908, have been as follows:

Labor hire	\$184.17
Horse hire	55.00
Tools and supplies	10.83
Salary of Tree Warden	50.00
	<hr/>
	\$300.00

A detailed account of these expenditures will be found under the report of municipal expenses.

Respectfully submitted,

HARRY G. HIGBEE,

Tree Warden.

REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen.

Gentlemen:—As I was not appointed to the office of Forest Warden until early in the fall of last year, and as this is a new office for this town, and a comparatively new one throughout the state, there is but little to report on this work.

At the request of the State Forester, notices calling attention to the forest fire laws, were posted in conspicuous places throughout the town.

The duties of this office are principally to prevent the spread of forest fires on either public or private property throughout the town, and to prevent the unlawful setting of fires anywhere in the open within the town limits.

There are also other duties; as ascertaining the value of timberland on wooded tracts, the reforestation of waste lands, and ascertaining the prevalence and extent of insect pests or diseases injurious to forest trees; reports on all of these subjects to be made to the State Forester as often as requested by him.

Forestry, though yet in its infancy in this country, is rapidly coming to the front as one of the most important and practical, as well as one of the most interesting problems before the American public.

Much has been recently said and written on this subject to arouse the public sentiment throughout the state, and the recent stringent laws regarding the setting of fires has done much to assist in the preservation of our fast diminishing wooded tracts throughout the state.

I wish to call the attention of our residents to the following section of these laws, which is to be rigidly enforced:

"No fire shall be set in the open air between the first day of April and the first day of October, unless by the written permission of the forest warden. The forest warden shall cause public notice to be given of the provisions of this section, and shall enforce the same. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars, to be divided equally between the complainant and the town, or by imprisonment for not more than one month, or by both such fine and imprisonment."— (Extract from Revised Laws 32, Section 24.)

It is hoped that this will prevent the careless setting of brush fires, and that the people will interest themselves and do what they can to co-operate in the enforcement of these laws, which are for the best good of all concerned.

Respectfully submitted,

HARRY G. HIGBEE,

Forest Warden.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen:

Gentlemen: As Sealer of Weights and Measures I herewith submit my report for the year ending January 31, 1908.

I have visited 145 different stores and manufactories, making 175 calls. I have sealed and tested 1,145 scales and measures. I have sealed and tested 102 scales and measures and 450 milk jars which were brought to me, making a total of 1,697. Fees collected, \$105.33.

I condemned 2 platform scales, 3 counter scales, 3 spring scales, 1 oil pump, 21 dry measures, and 4 wet measures.

The following scales, weights and measures were tested:

- 27 Platform Scales over 5,000.
- 94 Platform Scales under 5,000.
- 119 Counter Scales.
- 90 Spring Scales.
- 497 Weights.
- 28 Yard Sticks.
- 10 Oil Pumps.
- 192 Dry Measures.
- 85 Wet Measures.

Respectfully submitted,

JOHN H. WETHERBEE,

Sealer of Weights and Measures.

REPORT OF THE INSPECTOR OF BUILDINGS

Hyde Park, Mass., January 31, 1908.

To the Honorable Board of Selectmen of the Town of Hyde
Park:

Gentlemen: A report of my doings as Inspector of Build-
ings for the year ending January 31, 1908, is as follows:

Whole number of applications made	63
Whole number of permits granted	62
Permits for new buildings	26
Permits for alterations and repairs	26

Inspection visits as follows:

February, 1907	52
March, 1907	43
April, 1907	22
May, 1907	45
June, 1907	35
July, 1907	30
August, 1907	20
September, 1907	25
October, 1907	42
November, 1907	27
December, 1907	30
January, 1908	28

Total	399
Visits to boiler and engine rooms	28
Visits to back yards, etc.	256

Respectfully submitted,

EDWARD A. HAWLEY.

Inspector of Buildings.

REPORT OF THE INSPECTOR OF ANIMALS

To the Honorable, The Board of Selectmen of the Town of
Hyde Park, Mass.

Gentlemen: I hereby submit to you the following report of my work as Inspector of Animals for the year ending January 31, 1908.

Glanders:—During the year there were reported eight (8) cases of horses having symptoms which indicated that they were suffering from this disease. Upon investigation four (4) of these horses were killed and the other four (4) were found not to be infected.

Inspection:—On October 1, instructions were received from the Massachusetts Cattle Bureau to make a complete inspection of all neat-cattle, sheep, and swine within the town. This inspection, as ordered each year, is made with reference to the existence of contagious disease. To the general physical condition of food-producing animals and the cleanliness and sanitary condition of the premises in which they are housed. During this inspection twenty (20) premises were visited and seventy-nine (79) cows found, none of these cows showed evidence of tuberculosis, and all were found in good physical condition, and the majority of stables in which they were kept reasonably clean, well lighted and ventilated and provided with suitable drainage.

Rabies:—There have been several cases reported to me of dogs having symptoms of rabies, but upon investigation none were found to be suffering from this disease.

In October a case was reported to me by the police, of a butcher exposing and offering for sale meat that had not been inspected. This case was prosecuted and the party found guilty.

Yours respectfully,

JOHN M. KIGGAN,
Inspector of Animals.

ANNUAL REPORT
OF THE
BOARD OF HEALTH
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON.
PHIL. W. CARROLL
530 ATLANTIC AVE.
1908

BOARD OF HEALTH
Organization.

CHARLES F. STACK, M. D., Chairman.

JOHN A. MORGAN, M. D.

BENJAMIN G. BATES.

JAMES G. BOLLES,
Inspector of Plumbing and Health Officer.

REPORT OF THE BOARD OF HEALTH

To the Citizens of Hyde Park:

We have the honor to present to you the following report of the work of the Board for the year ending January 31, 1908.

MORTALITY.

During the fiscal year there were 3 deaths from diphtheria, 3 from scarlet fever, 1 from whooping cough, 3 from cerebro-spinal meningitis, 21 from tuberculosis, 1 from typhoid fever. Among other diseases 22 died from pneumonia and 13 deaths resulted from accidents. The number of deaths from all causes reported to this Board was 180, not including 21 still births. This number of deaths with an estimated population of 14,492 gives a death rate of 13.89 per 1,000 inhabitants.

CONTAGIOUS DISEASE.

The following table will show the number of cases of contagious disease reported to the Board during the year of 1907. Comparison with the table of 1906 shows a large decrease in the total number of cases, but where last year's table showed 142 cases of measles, this year there were but 10. Nineteen hundred and seven shows an increase of 23 cases of diphtheria, and 17 cases of scarlet fever over last year. The increase in diphtheria being accounted for by the large number reported in April, the source of infection being a Milton dairy. Five of the scarlet fever cases were traceable to one case not reported to the board, the child being so slightly ill no physician was called. How many other cases came from this source we are unable to say.

We would again urge upon parents the importance of consulting a physician early in any suspicious or sudden illness

of the children and especially should this be done when the child has trouble in the throat.

	Diphtheria	Scarlet Fever	Measles	Chicken Pox	Typhoid Fever	Tuberculosis	Cerebro-Spinal Meningitis	Whooping Cough	Mumps	Totals
January	11	7	3	1	0	3	1	6	0	32
February	12	9	2	2	0	0	0	2	1	28
March	4	3	0	0	0	2	0	5	0	14
April	28	6	3	0	0	4	0	0	1	42
May	3	4	1	0	3	2	1	3	0	17
June	3	2	0	0	0	0	0	0	0	5
July	1	0	0	0	0	3	0	0	0	4
August	3	0	0	0	3	1	0	0	0	7
September	0	2	0	0	0	1	0	0	0	3
October	1	1	0	0	2	0	0	0	0	4
November	4	6	1	0	1	1	0	0	0	13
December	3	6	0	5	1	2	1	0	0	18
Totals	73	46	10	8	10	19	3	16	2	187
Deaths	3	3	0	0	1	21	3	1	0	32

PULMONARY TUBERCULOSIS.

The number of new cases of this disease reported during the year was 19. We thank the physicians of our town for their promptness in reporting to the Board cases of consumption. Education, fresh air and sunshine are the means to control and cure pulmonary consumption. We again remind our citizens that we fumigate any room or house previously occupied by a case of consumption.

On the 31st day of May, 1907, we removed our leprosy case to the leper colony on Penakese Island, where he is still under treatment.

DRAINAGE AND SEWERAGE.

There were 51 complaints of defective and overflowing cesspools. The owners of the same were ordered by the Board to remedy these nuisances and where practical, have connected with the public sewer.

There were 12 complaints of unsanitary dwelling houses,

and upon careful investigation it was deemed advisable to vacate 6 of them.

CHAS. F. STACK,
JOHN A. MORGAN,

Majority of Board of Health.

REPORT OF THE INSPECTOR OF PLUMBING AND HEALTH OFFICER

To the Board of Health of the Town of Hyde Park.

Gentlemen:—I submit herewith a report of the work done by this office during the year ending January 31st, 1908.

A record of the nuisances and complaints investigated and corrected is presented in the following table.

Overflowing or defective cesspools	51
Unsanitary condition of drains	7
Unsanitary condition of vaults	22
Unsanitary condition of tenements	12
Dirty condition of yards and alleys	6
Dirty condition of cellars	2
Unsanitary condition of dumps	2
Bad odors	5
Manure exposed and offensive	5
Dumping cesspool matter	2
Fowls a nuisance	4
Burning dumps	3
Miscellaneous	7
Total	128

All of the above complaints have been carefully investigated and the majority of cases satisfactorily adjusted without trouble.

PLUMBING.

184 applications have been filed at this office to do plumbing work. These applications called for the installation of the following fixtures, at an aggregate cost of \$33,050.00.

Water closets	225
Bath tubs	97
Lavatories	195
Sinks	98

Wash trays	87
Urinals	15
<hr/>	
Total	717

CONTAGIOUS DISEASE.

119 cases of contagious disease were placed in quarantine. 261 rooms and 2 hacks have been fumigated with formaldehyde gas, including two large school rooms. This is a large increase over last year but is accounted for by the amount of fumigating now being done in cases of tuberculosis (consumption).

We have received from the State Board of Health, and distributed to physicians 154 culture outfits for the diagnosis and discharge of diphtheria cases.

Yours respectfully,

JAMES G. BOLLES,

Inspector of Plumbing and Health Officer.

FORTIETH
ANNUAL REPORT
OF THE
BOARD OF ASSESSORS
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVE.
1908

ASSESSORS' REPORT

To the Citizens of Hyde Park:

The work of the assessors for the past year has been one of earnest effort to arrange a system which shall be complete and easy of access, giving a correct record of the valuations and property owners of our town.

To carry out this idea each individual item has been placed on a separate card with full description, giving owner's name, street, and lot numbers, where they can be obtained. These cards are arranged by streets and give a chance of comparison, which has never been had before. Over four thousand cards have been filled in for this purpose, and a case obtained for filing them. All who have seen this system have expressed themselves as pleased with the working of it.

A thorough canvass was made for the poll tax payers. These have also been arranged on cards giving name, residence, age, occupation, owner of house, residence previous year, number in family, whether liable to poll tax, or militia, owner of horses, cows or dogs. Over four thousand of these cards also have been written and arranged in alphabetical order, giving a complete list of all men in town. In connection with obtaining these names we would call attention to Chapter 12, Section 33, of the Revised Laws of Massachusetts, which reads as follows: "Keepers of taverns and boarding houses, and masters and mistresses of dwelling houses, shall upon application of an assessor of the city or town in which their house is situated, give the names of all persons residing therein who are liable to be assessed for taxes. Every such keeper, master or mistress refusing to give such information, or know-

ingly giving false information, shall be punished by a fine of twenty dollars for each offence."

Owing to the changes that have been made, we feel that the work has been more satisfactory this year than ever before, and we are still looking for suggestions that will help in accuracy and efficiency. Our aim is fairness to individuals and justice to the town.

In the reports for the last two years of the advisory board, and also of the assessors, attention has been called to the need of plans and maps of the town. This need still exists, as almost nothing has been accomplished in that line. This matter should be placed in the hands of some competent person who can push the work to an early completion.

We need very much a large map of the town, copies of which would be useful to other departments; also the different sections of the town laid into lots with area and lot numbers. The latest publication we have is an atlas nine years old and very inaccurate. We would indorse the suggestion of the Town Engineer that the town be divided into four sections and plans, large enough for hanging upon walls, be made from drawings already in hand, which would give lots and numbers and dimensions. These could be made in about three months, at a cost of about five hundred dollars, and would be of great use to us the coming year.

We received a visit from the First Assistant Tax Commissioner, Mr. A. B. Fales, of Somerville, who is making an official visitation to all cities and towns. He expressed himself as much pleased with what he saw and said that Hyde Park was up with the best in method and work.

Owing to the increase in State and Metropolitan Taxes, and an amount raised for the payment of interest on the Sewer Bonds above the regular appropriation, we had over twenty-three thousand five hundred dollars more to raise this year than last, which accounts for the increased tax rate this year.

GIDEON H. HASKELL,

Treasurer.

We, the undersigned, Auditors of Hyde Park, Mass., hereby certify that we have examined the statement of the Treasurer, Mr. Gideon H. Haskell, in account with the Hyde Park Public Library, and find the same to be correct.

WILLIAM J. DOWNEY,
GORHAM E. STANFORD,
FREDERIC C. STONE,

Auditors.

We have examined the vouchers and accounts of the following : Selectmen, Treasurer, Tax Collector, School Committee, Overseers of the Poor, Trustees of the Public Library, Board of Health and Cemetery Commissioners for the year ending January 31, 1908, and find the same to be correct.

WILLIAM J. DOWNEY,
GORHAM E. STANFORD,
FREDERIC C. STONE,
Auditors of the Town of Hyde Park.

SCHOOL CALENDAR, 1907-08

FIRST TERM.

Begins Wednesday, Sept. 11th, 1907; ends Tuesday, Dec. 24th, 1907
—15 weeks.

SECOND TERM.

Begins Thursday, Jan. 2nd, 1908; ends Friday, April 3rd, 1908—
13 weeks.

THIRD TERM.

Begins Monday, April 13th, 1908; ends Friday, July 3rd, 1908—
11 weeks.

1908-1909.

FIRST TERM.

Begins Wednesday, Sept. 9th, 1908; ends Thursday, Dec. 24th, 1908.

SECOND TERM.

Begins Monday, Jan. 4th, 1909; ends Friday, March 26th, 1909.

SCHOOL COMMITTEE'S REPORT.

To the Citizens of Hyde Park:—

For the first time in many years death has removed a member of the Board. Edward S. Fellows, Esq., our Secretary, died on the first of May, after a brief illness. He was positive in character, active and efficient in his work as secretary and as a member of the School Committee and honest and sincere in the performance of his duties as a citizen. We wish to place upon record our deep appreciation of his worth.

In all departments of a large and modern New England town, such as ours, difficult problems arise from time to time, and the school department is no exception to the rule. The demand for kindergarten methods, manual and physical training, special teachers to aid in the promotion of those who have not been ranked up, or to assist those who, by reason of sickness, non-attendance or other causes, have not been able to keep up with their classes, elective studies and a business course in our High School, and the manifold social duties of our pupils, all tend to make the problem of a modern education more complex than in the days of our ancestors.

Our citizens not having to use their surplus energy in building round houses and dodging Indians, or in clearing forests and spinning flax, have more time to consider the educational needs of their children. All not only desire but demand modern methods. That is right. We are living in the twentieth century, not the eighteenth. Our children must keep up with the times and sharpen their intellects to solve the problems which beset their generation. The tomahawk

question kept our ancestors busy, but it does not trouble us in the least. Yet, there are serious problems confronting our school department,—serious because they affect the welfare of our children and nothing can be of greater importance than that. Where are the parents who will not sacrifice themselves for their children? Surely they are not in this vicinity.

SCHOOL PHYSICIAN.

Shall we, in accordance with the law passed in 1906, have a school physician to look after the pupils and in case of contagious or infectious diseases to act promptly? The School Committee unanimously says yes, but it costs money and that money must be appropriated by you. It is urged that this is an office recently created and really unnecessary as is proved by the fact that it never existed until September, 1906. Well meaning citizens say why do we need it. It is true the Pilgrim Fathers had no such officer; it is likewise true that they had no superintendent of schools; paid for their own text books and generally conducted their schools in a different way from what this century sanctions. The tallow dip is a thing of the past; we are living in the days of the electric light. The pupil in the little red school house on the hill never heard of a furnace or a steam heater, and he roasted on one side and shivered on the other as he stood before a roaring wood fire or a red hot stove. Possibly the outdoor life, forced upon the children by their surroundings, lessened the need of medical inspection. But the school committee are satisfied that the law saying, "The school committee of every city and town in the Commonwealth shall appoint one or more school physicians, shall assign one to each public school within its city or town and shall provide them with all proper facilities for the performance of their duties as prescribed in this act," is a good one and we recommend that a reasonable sum be appropriated to comply with its provisions.

SCHOOL INCIDENTALS.

Our school buildings were constructed before we had town water or sewerage system, before the State passed laws touching ventilation and sanitation. Some of them did not provide the amount of light now considered essential. We have complied with the state laws in all respects, and one by one adjusted our school buildings to modern ideas, upon these subjects, but the Fairmount and Damon schools are reported to require more windows in some of the rooms. They are as good as they ever have been, but just the same, it is reported to us that their present condition is injurious to the eyes of the pupils occupying some of the rooms in those buildings. We are unwilling to bear the responsibility of injuring the eyes of any child in Hyde Park, by improper lighting, but it costs money to put in those windows, and is an extra just the same as the repairs on the Damon school building were an extra last year. If you will give us the money, we will give the children more light.

SALARIES.

The question of salaries is usually difficult. Teachers deserve adequate compensation, but the financial test is what are our neighboring cities and towns paying,—what are our teachers worth to them.

The State Board of Education says "Massachusetts has always led in educational salaries until within ten years; now we lag behind. We pay our normal school principals the price of an assistant in several normal schools of the West, while their principals receive from 30 to 100 per cent. more than ours. There are several cities, not large nor wealthy, whose salaries of grade teachers are 50 per cent. higher than in cities of the same size in Massachusetts, and many States have a minimum salary law."

Hyde Park does not pay as high as most of the cities and towns in greater Boston. Fortunately, the amount of the

salary does not determine the ability or quality of the teacher. We have succeeded in securing and keeping a corps of teachers we feel sure will bear favorable comparison with the teaching force of any of our neighbors.

Shall we increase their pay out of the fullness of our hearts, or keep them where they are out of the emptiness of our pocket books?

TEXT BOOKS AND SUPPLIES.

In order to make such changes as have been recommended and as seem advisable an increase is necessary in the appropriation for text books and supplies.

The School Committee recognizes the necessity of economy, as an examination of its expenditures as compared with other departments of the town in recent years will prove, but the cost of living, of wages, of everything we buy has increased.

There seem to be sufficient problems before us in the ordinary way, and we may be permitted to express the hope that no unnecessary burdens will be thrown upon us during the year.

We wish to thank our local press for omitting from its columns anything sensational or derogatory to our schools. We need the co-operation of the public, especially of parents, to aid our schools in every way. It is decidedly harmful to the pupils to spread abroad any stories against the schools. The usefulness of a good teacher may be destroyed by the talk of citizens who have no intention of doing an injury. If a teacher deserves censure, the best way is to report to the Superintendent in confidence and he will investigate with fairness.

In accordance with our promise, \$2000 has been taken from incidentals and used to make repairs upon the Damon school building.

It is with great regret that we have to report that George E. Johnson, Supt. of Schools, resigned at the close of the last

school year. Though he had been with us less than two years he made a strong uplift in educational affairs. He had declined to accept one offer when the salary was much higher than we could afford, but the call to Pittsburg, Pa., to superintend the public play grounds and summer schools was exactly in the line of his tastes. We wish him every success. Horace L. Brittain, Ph. D., in whom we have every confidence, was elected as his successor.

We do not expect much of an increase in the number of our pupils in our grammar and primary schools next year, and none whatever in the high school.

The pupils in our schools are furnished abundant opportunities to fit for life work or for higher education. The "good old times" did not compare with them. It is worth all it costs. The trend is upward, but the ideal is still ahead, and always will remain in that position. We aim in our school affairs to remain true to the thought expressed by our own poet, Longfellow,

"To act that each tomorrow
Find us farther than today."

WILBUR H. POWERS,
Chairman of the School Committee.

Read and adopted as the Report of the School Committee at the regular meeting of the Committee held January, 1908.

FRED J. HUTCHINSON, Secretary.

SUPERINTENDENT'S REPORT

To the School Committee of the Town of Hyde Park.

The tenth annual report of the Superintendent of the Hyde Park public schools is herewith respectfully submitted.

Below is a summary of statistics based upon the school census and school returns for the school year which ended June 21, 1907.

GENERAL STATEMENT.

No. 1.	High school, twenty rooms, Everett Street (sixteen occupied as class and recitation rooms).	
No. 2.	Damon school, eight rooms, Readville Street (four occupied by regular classes, one by special teacher).	
No. 3.	Hemenway school, one room, Walcott Street.	
No. 4.	Grew school, eleven rooms, Gordon Avenue (ten occupied by regular classes, one by special teacher).	
No. 5.	Greenwood school, nine rooms, Metropolitan Avenue (eight occupied by regular classes, one by special teacher).	
No. 6.	Amos Webster school, four rooms, Hilton Street (four occupied).	
No. 7.	Trescott school, four rooms, Rosemont Street (four occupied).	
No. 8.	Butler school, one room, East River Street (used for special purposes).	
No. 9.	Fairmount school, nine rooms, Williams Avenue (eight occupied by regular classes, one by special teacher).	
No. 10.	Weld school, two rooms, Highland Street (one unoccupied).	
Number of school buildings		10
Number of schoolrooms available		69
Number of schoolrooms occupied		60
Number containing high school department		1
Number containing eighth (highest grammar) grade		4
Number used for special purposes		1
Teachers.		
Supervisors of special subjects		4

Number of teachers regularly employed	54
Men teaching in day schools	8
Women teaching in day schools	46
Men teaching in evening schools	2
Number of day school teachers who have attended college.....	28
Number of college graduates	26
Number who have attended normal school	14
Number of normal school graduates	10
Number who have attended training school	4
Number of training school graduates	1

School Census.

Population of Hyde Park	15,500
Total Number of persons 5 to 15	2,649
Total number of boys 5 to 15	1,306
Total number of girls 5 to 15	1,343
Total number of persons 7 to 14	2,063
Total number of boys 7 to 14	1,021
Total number of girls 7 to 14	1,042
Total number of persons in Hyde Park in private schools	24
Total number of persons in Hyde Park parochial school (over 5 years of age)	1,021
Total number of male illiterate minors over 14 years of age	7
Total number of female illiterate minors over 14 years of age	7

Membership and Attendance.

Total number of pupils registered	1,922
Average membership	1,833
Average attendance	1,719
Per cent. of attendance	93.2
Number of pupils between 5 and 15 years of age	1,760
Number of pupils more than 15 years of age	298
Number of pupils between 7 and 14 years of age	1,264

-IMPROVEMENTS.

During the last months of Mr. George E. Johnson's incumbency, several notable improvements were made in the mechanical arrangements of our schools. In the summer vacation, eight new horizontal windows were put into the Greenwood building, increasing the effective lighting surface

for all purposes by from one quarter to one third, and for classes in writing which use the light mainly from one side, by one third to one half.

Before reporting the changes made since September 1, 1907, when the present incumbent entered upon the duties of superintendent, I wish to express my appreciation of the fine work done for the schools in the past by the School Committee and by their educational advisor, my predecessor, Superintendent George E. Johnson. The most important change in our school system made since September 1, 1907, was the founding of an ungraded school in the Amos Webster building, for the instruction of pupils, living anywhere in Hyde Park, who through the effects of illness or other cause, were temporarily or permanently in need of more individual attention than could be given them in the grades. Results have justified the action of the Committee. Already five children have been dismissed from the ungraded school to a regular grade, after having made sufficient progress to warrant the promotion.

During the first term of the academic year, 1907-1908, teachers and superintendent have largely focused their attention on the teaching of Reading, English Language and English Grammar, which all concerned have recognized as being especially in need of improvement. Three well attended teachers' meetings have been held which discussed these related topics at length. During November all the teachers of the grades visited the schools of Newton or Brookline or both with a view to observing the methods in language instruction there employed. As a result of discussion and observation, already very noticeable advance has been made in teaching these most important subjects of the curriculum.

In connection with this effort to improve the reading in our schools, a new series of readers have been introduced and a new teacher's manual has been put in the hands of every primary teacher to be used in conjunction with Mr. George

E. Johnson's manual already in use. It is believed that the introduction to a greater degree than formerly of the motor element will vivify the first stages of teaching reading and make the process much more interesting to the child.

After reading attention has been given to writing. Teachers felt the need of a graded system of copies. Our present most excellent Cadmus, while suitable for the higher grades, besides lacking variety of material, did not contain copies in a hand large enough for beginners. A new graded system of copy books has been adopted for use in the schools and will be put into general use in February, 1908.

The physiologies now in use are to be discontinued, and hereafter instruction in practical hygiene is to take a larger place than formerly. The syllabus of the state board will be taken as the basis of instruction and text books will be put into the hands of the teachers only.

In the high school, new text books have been adopted in the history of English literature, rhetoric and geometry.

By the appointment of a school physician, the School Committee not only complies with the state law, but places Hyde Park in line with the most sane and advanced educational thought. The exclusion of children from the school by teacher or other school officer on suspicion of having contracted a contagious or infectious disease was at best a makeshift. The responsibility, except in cases of emergency, is now placed where it should belong, upon the medical officer of the board. Having chronicled the progress that has been made during the past year, I would like to indicate some lines which, in my judgment, future advances should follow. One of the first things, it seems to me, that the board should grapple with is the

OVERCROWDING AND UNDERSTAFFING OF THE LOWER GRADES

which in some schools is accompanied by a meagre attendance in the upper grammar grades.

The accompanying diagram (A, p. 256) will show in graphic form the average number of pupils per teacher in the different grades, not the average number of children in each grade, since some rooms have several grades. S stands for sub-primary. The diagram then shows that each teacher who has any sub-primary pupils in her room has to teach 47 children on the average, while the average number of pupils for the grade eight teacher is but 35.8. A fairer proportion would be 30 or less for the sub-primary, and 45, or, better, 40 for grade eight.

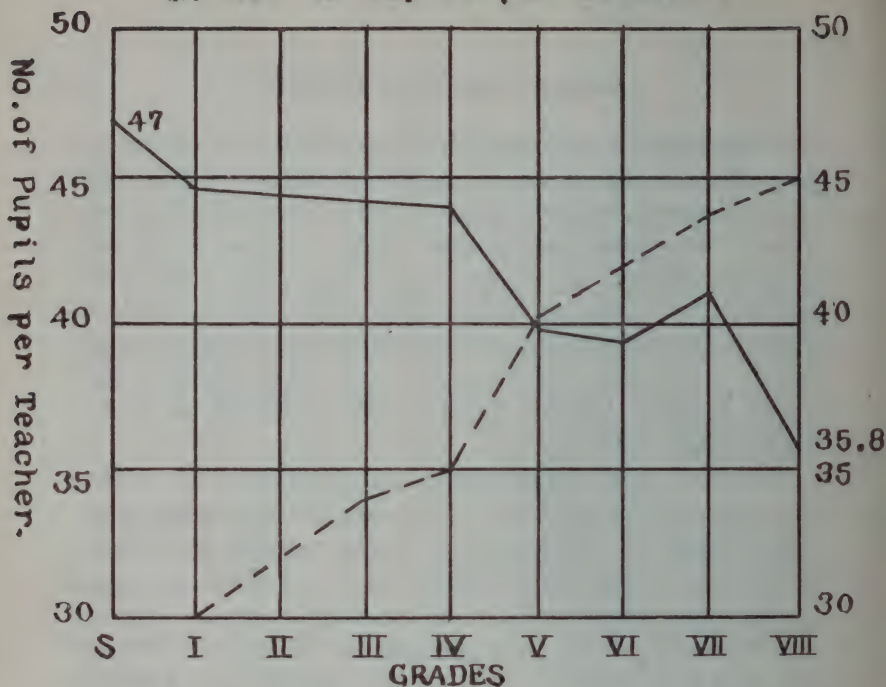

The heavy line indicates the rate of decrease in the number of pupils per teacher from the sub-primary to the 8th grade. The dotted line indicates what would probably be a fairer proportion of pupils for the teachers in the different grades.

Again the number of grades per pupil is much higher in the lower than in the upper grades, so that primary teachers not only have to teach more pupils, but pupils in a greater number of classes. This makes the highest efficiency impossible in the grades where efficiency is most imperatively demanded.

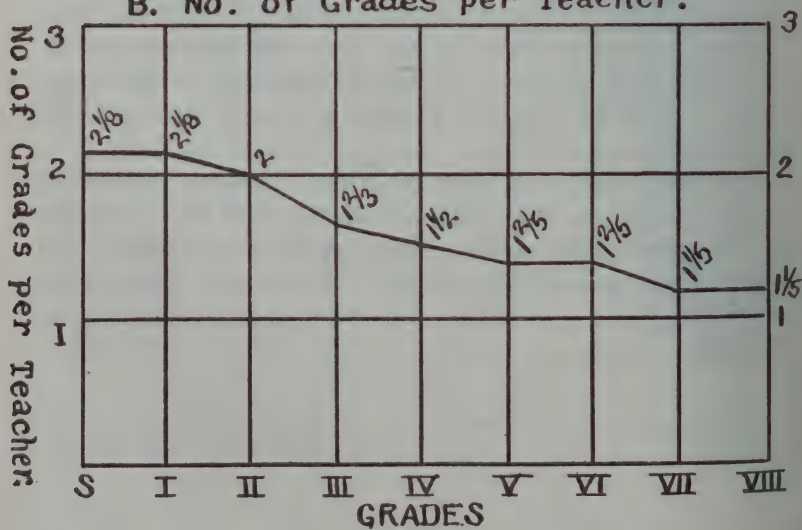

One reason why we sometimes get slipshod writing, execrable spelling, and inaccurate work in arithmetic in the upper grades, is because there has not been sufficient opportunity, owing to lack of time, for drill in essentials in the lower grades. Diagram B, p. 256 presents graphically the condition mentioned.

For this undesirable state of affairs I believe there is at hand a partial remedy which will involve little or no expense to the board. This remedy hinges upon an alteration in the status of the sub-primary classes. This change demands the attention of the Committee still more urgently on its own account.

A. No. of Pupils per Teacher.

B. No. of Grades per Teacher.

THE SUB-PRIMARY.

The sub-primary was begun with the idea that its name suggests, but has in the process of years become a first grade a little below the average in scholastic results. As applied to the schools of Hyde Park, the word sub-primary is a misnomer and works injustice in two ways: first, it gives some parents the impression that the sub-primary is a kindergarten and leads to the sending of young children to school who otherwise would be kept at home on grounds of health; secondly, when a child leaves Hyde Park for another town, he is apt to be given a standing one year lower than he should receive, since we really have nine grades in Hyde Park instead of the nominal eight.

The Committee might deal with the matter in any one of four ways.

I. The present system might be continued virtually as it is, simply renumbering the grades, calling the sub-primary the first grade; and so on through the series, the ninth grade being the last. This, in my judgment, while obviating the two objections above noted, involves the entrance of children upon regular school work at an age altogether too tender.

II. The change just mentioned might be made and in addition the age of entrance raised from five to six years. From the educational standpoint this is preferable, but some hardship and even injury might result by shutting out children whose parents through ill health or from other cause are unable to properly attend to the little ones during the day.

III. The sub-primary might be abolished entirely and a straight eight grade system established. If the age limit were placed at five years, the same objection would hold as holds against the first proposition. If the age limit were raised to six years, this proposition would be open to the same criticism as the second.

IV. The sub-primary might be made a real sub-primary, confining its attention to sense training, the development of

manual and muscular dexterity, and the acquisition of proper habits of speech, i. e. oral language. Since the methods of discipline and teaching, and the subject matter of instruction are so different in the sub-primary from those used in the grades, it will be necessary to teach the sub-primary classes in separate rooms. Failure to do so in the past has resulted in the present conditions. This, it seems to me, is the true solution of the difficulty. It would be impossible to have eight sub-primary classes throughout the town. This would entail too great expense; but if five were established in suitable places, all applicants could be accommodated, and with some rearrangements, no increase would be needed in the teaching force. The age of admission to the sub-primary might be fixed at five and to grade one at six.

Some of the advantages of this system are as follows:

I. Parents might enter their children in the sub-primary at five or the first grade at six as they wished. As the sub-primary would not teach reading and writing, those entering the first grade at six years of age would be at no disadvantage in comparison with those who had the sub-primary training as far as formal school instruction is concerned. Certainly children between five and six would be better at home if properly cared for and trained.

II. It would prevent a large amount of overpressure.

III. It would prevent injustice to children going into other schools.

IV. If proper centers were chosen, it would largely separate the little ones from their elders and delay those evil communications which are incident to play grounds even under the best of conditions.

V. It would provide a partial solution for the overcrowding in grades one, two and three, and would decrease the number of grades per teacher. In the sub-primary, where the work would consist largely of free play arranged for educational ends, where the demands of discipline would not be

so exacting as in the grades, and where the teaching would largely be concerned with manual occupations, 50 children could be taken care of in each room, or 250 in all. Even if as many children as at present were sent to the sub-primary, which is doubtful, this would account for all.

One objection which might be urged is that the substituting of five sub-primary centers for eight would compel some children to travel farther than at present. This is offset by the fact that frequent absences from the school would not be of such serious moment as if instruction were being given in regular scholastic branches. During bad weather the little ones might very well be kept at home with little disadvantage and perhaps in some cases to some advantage. If the sub-primaries were located in the Trescott, Weld, Hemenway, Grew and Greenwood, little crossing of the tracks would be necessitated, and after the putting in of the new crossing at Fairmount Avenue, none whatever.

The town of Hyde Park is very compact, no point being over a mile from the center. It will be readily seen that no child would have to walk an undue distance to get to a sub-primary school. In fine weather a little extra walk would be an advantage.

I trust that the Committee will settle this matter one way or the other within a short time, as until this is done, it will be impossible to go further with the outlining of the

CURRICULUM FOR THE GRADES

now in progress. The working out of a uniform curriculum, as Mr. Johnson stated in his report for 1906-1907, is of prime importance. The outline now in use is so meagre that it tells little to a new teacher just coming on the staff, and so indefinite that it has not prevented great diversity in results in the different subjects in the various school districts. We have practical uniformity in those subjects only which have special supervisors or teachers, i. e. sewing, manual training, music and drawing.

Now a system which makes no allowance for the individuality of teachers and the varying needs of pupils is a bad one. But in a town the size of Hyde Park, with but one High School and one superintendent, it is essential that there shall be a certain amount of work in each subject in each grade which shall be sine qua non for admission into the next grade. This should be an amount well under the capacity of the average pupil of the grade, so that the teacher may find time to teach such other things as may be desirable from her standpoint or that of the pupils.

In connection with the outlining of the curriculum it would be well to consider whether in the past enough consideration has been given to the teaching of manual as opposed to book subjects. Our Supervisor of Drawing has done much in the way of manual instruction in the grades, but more material and a literary education a more assured status is required. The ui a more assured status is required. The curriculum of our schools is too exclusively literary. It is a fair question why a literary education should be regarded as the only general one, the only one having a culture value. As it is, to too large a degree, our elementary grades prepare for the grammar grades, the grammar grades for the high school, and the high school for college. Preparation for life is an end which often does not seriously engage the minds of teachers or educators.

The following is taken from a report by Mr. George H. Martin, Secretary of the State Board of Education:—

"The most effective agency in the *intellectual* development of a boy is not books. It is experience in some form of productive industry. It is making something or doing something that has a value in itself when it is done . . . The man who goes back to the old farm, and says, as he looks about, 'Father and I cleared that wood-lot; that's the wall we laid; how well it has stood! We made that old harrow and that ox-sled, and we built the old hen-house,'—got out of that experience tired but deft hands, a brain to plan and a will to execute. . . ."

Time was when the average boy got all the instruction in manual arts necessary for his development outside of school. The result was that when he went to school he was able to profit by instruction.

Times have changed and what the home life once provided, the school must now provide. If not, the mental and moral fibre of our children must deteriorate.

In connection with this subject of hand and eye training should be considered the cognate subject of nature study, which should never be divorced from the actual handling of natural objects, particularly living things. As it is, the whole world of nature, as far as our curriculum is concerned, is a closed book to the child. The child or man who has reared a plant or animal is the better for so doing, morally as well as physically; and I believe it is the duty of our schools to encourage the keeping at home by the pupils of well ordered, though small, gardens where they may learn invaluable lessons of thrift, neatness and economy, as well as get more closely in touch with mother Nature. The reaction upon the homes would be great, particularly in those districts where dirt and disorder reign.

The work in gardening might be almost entirely outside the regular school work and school hours, such teachers as are willing, merely giving occasional supervision to the work of the boys and girls at home. Two or three premiums might be offered for well kept gardens.

I recommend that the land about the Butler school be put into a suitable condition for a garden, so that if any teacher or teachers should be willing with the aid of their pupils to make a central garden to serve as a model for the home gardens, there might be opportunity so to do. The expense to the Committee need not be over \$15 or \$20. If a taste for nature, gardening, and clean surroundings could be implanted where such tastes did not formerly exist, the forces working against immorality and disease, especially tuberculosis, would receive a great impetus.

The beneficial effect of hand training upon morals, though not evident at the first glance, is of prime importance. Our nervous system we inherit from a long line of ancestors who for the most part were concerned in manual pursuits. Manual training, in a broad sense, tends to preserve the balance of the nervous system, so essential to moral health. It provides an opportunity of keeping the child at work all the time without overpressure while at the same time he follows the bent of his interests. Work is the great remedy for moral disease. It creates habits of industry, and enables the child to become more readily a self-sustaining man, free from poverty, squalor, and therefore from many incentives to vice. It creates an attitude of respect for all forms of productive labor, an attitude which lies at the basis of our democratic social and political system.

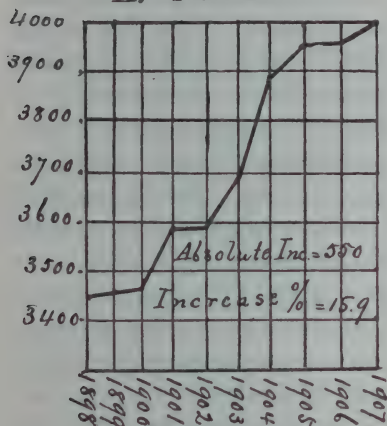

From the industrial standpoint, the town of Hyde Park, especially, should have a care for the teaching of the so called "three R's" and those subjects which tend to produce manual skill should be as efficient as possible.

Below will be found four diagrams illustrating statistics estimated from the poll books of Hyde Park between the years 1898 and 1907. The number of polls is represented along the vertical lines and the dates along the horizontal. The heavy line in diagram A represents the increase in the number of polls for ten years. That in B represents the growth in the artisan population liable to poll tax. That in C represents the fluctuations in the number employed in other occupations, such as the learned professions, business, clerking, bookkeeping and various pursuits of a more transient and unstable nature which cannot readily be classified. The curve in diagram D represents the number of unskilled laborers.

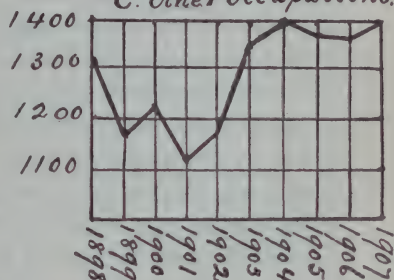

While the total number of polls has increased 15.9 per cent. in ten years, the number of artisans has increased 34.6 per cent. Other occupations have increased about 7 per cent., and laborers have decreased about 25 per cent. Practically the whole increase in population is accounted for by the in-

crease in artisans. An increase in the number of artisans is shown between 1900 and 1901, following closely after the founding of the Becker-Brainard Co. factories in 1899. A further increase occurs between 1902 and 1903, following the erection of Railway shops in 1901, and the B. F. Sturtevant

A. Polls.

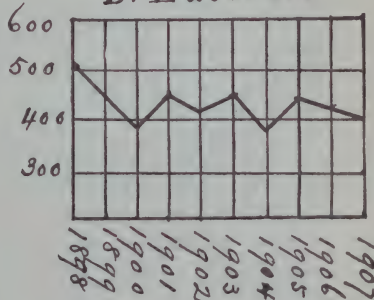

C. Other Occupations.

B. Artisans.

D. Laborers.

blower works in 1902. This increase of artisans up to 1903 is accompanied by a drop during the same period in residents of other occupations and laborers. Building in Hyde Park has been slow. It is somewhat like a jug that will hold only so much. When the artisans poured in they naturally displaced some laborers, as they could afford to pay higher rents than the latter. The unstable elements in other occupations were also temporarily affected. The fall of the curves in diagrams B and C after 1903-4 synchronizes with the curtailment and, later, the closing of the woolen mills.

It will be seen that Hyde Park is becoming more and more a town of artisan as well as a residential town. Unskilled laborers are decreasing, at least relatively. Should not local conditions have some effect on the curriculum of the schools? All trades demand trained hands and eyes. So also do many other occupations such as surgery, dentistry, typewriting, etc.

Less time given to books and more to productive activities would not only lead to greater industrial efficiency, but would be of incalculable advantage to those pursuing literary courses. Ennui, disgust for books would tend to disappear. The boy would be retained longer in the school and would soon learn that to become the best mechanic he must learn more from books. The average boy who is worth his salt wants to be out and doing something. He can see little connection between books and practical life, because little connection is made in the schools. Let both kinds of instruction, literary and practical, be given in our schools, and let the connection be made.

The foundation of courses in manual training and sewing was a step in the right direction. But there should be from the first a well balanced course of study in which due prominence should be given to manual instruction. Many teachers complain that the afternoons are almost wasted. No wonder. Man is the animal which does and makes things. Give the child a chance to do and make.

In my judgment the time has about come when the Committee should consider the question of introducing true in-

dustrial courses, not the manual training of the grades, into the evening school. Employers of labor complain that boys coming from the grammar schools are worse than no good during the first few months of their apprenticeship. If the town is not in a position to establish a continuation school giving a one year industrial course to graduates of grammar schools, in order to fit them for intelligent apprenticeship, can it not establish some industrial courses in the evening school? The bearing of this on the industrial future of Hyde Park is evident.

In this connection the question might be asked whether our High School pays sufficient attention to the demands of training for life. Most of the girls of this community, will pursue no higher course, but, without further preparation will enter upon that most important profession of all—that of wife and mother. Could not the High School, without weakening the culture value of its curriculum, offer some courses which would have a more direct bearing upon life?

THE LIGHTING OF SCHOOL ROOMS.

This is a subject which demands immediate attention, at least in two of our grammar schools; the Fairmount and the Damon. Tables showing the condition of all the school buildings in the town with regard to lighting are appended. In examining the tables it will be well to bear in mind the following elementary rules on lighting which are quite generally accepted by authorities:

I. The light should be as nearly as possible unitary and unilateral coming from the pupils' left side. If windows in the rear are necessary, the light from them must be entirely secondary, else the pupil will be working in a shadow.

II. The window surface in a standard school room should be one-fifth of the floor space.

III. The dimensions of the floor of such a standard room are about 25 x 30 feet, the greater light coming from one of

the long sides and the desks facing on one of the short sides. Where the width is more than 25 feet, as is the case in most school rooms in Hyde Park, the ratio should be more than proportionally increased. Even if the normal ratio is put at 1:6, which is too small, 1:5 would be needed in our school rooms. Probably 1:4 1-2 or 1:4 is the proper ratio.

IV. Children should never be required to face the light. It would be well if teachers were not compelled to do so.

In the tables where the dimensions of the floor are given, the breadth, that is the length of the side faced by the teacher, is given first. This always should be the smaller dimension. The dimensions of a standard floor would be written 25 x 30.

19

It will be noticed that most of the rooms in use are considerably more than 25 feet broad, and will, therefore, demand more window area than that represented by the proportions 1:5. Many rooms are broader than they are deep. The ratio of window to floor surface is for the most part under 1:5. The lighting is almost entirely bilateral, and the light in the rear often equals, or even exceeds, the light from left. In the summary it will be noted that out of the sixty rooms in use, three are in every way up to standard. These are in the High School building. Sixteen have fairly good illumination. Seven of these are in the High School. Of the remaining 41, 36 can be put in good condition by adding one or two windows, by using ribbed or prismatic glass in the upper sashes of the windows on one side of the room, or by both.

The effect of ribbed or prismatic glass is to increase the effective illumination by deflecting to a direction approaching the horizontal, rays which would otherwise fall to the floor and be absorbed.

Thirty-four new windows, at a cost of from \$20 to \$25 apiece would be needed. Factory ribbed glass can be obtained for 7 cents per square foot and sheet prismatic glass at 25 cents. About 600 square feet of such glass would be needed. The total cost of giving effective lighting to all these rooms would be from \$712 to \$1000, according to ruling prices and kind of glass used.

The lighting in the Hemenway can be made entirely satisfactory by closing three windows at one end, putting an equal number in one side, and rearranging the seating.

Only three rooms in the schools of the town are entirely beyond the reach of illumination by natural means. These are in the High School and should be provided with a modern equipment for artificial lighting. One of these rooms used every day has only 45 sq. ft. of window surface to 795 of floor surface, and is moreover provided with an entirely inadequate supply of artificial light.

Proper lighting is of vital importance. Not only is good eyesight permanently impaired by imperfect lighting, as statistics clearly prove; but eye strain carries in its train nervous and digestive disorders which may entirely destroy usefulness and lead to great economic loss, not only to the individual but to the community. It is said that the tubercle bacilli in fresh sputum, if exposed to direct sunlight in the open air, by the time that the sputum is dried and thus prepared for dissemination, will be rendered entirely harmless. The latest tests, made by Dr. John Weinzirl, indicate that ten minutes of exposure to such conditions is sufficient. When it is recognized that direct sunlight and pure air are sure death to the bacilli of tuberculosis, it must be admitted that proper lighting of our school buildings is essential. This is a humanitarian and economic question,—a question of national efficiency. A comparatively small sum of money will lift us above reproach in this matter.

Below will be found a table which enables one to compare the different primary schools and the grammar schools with one another as to their lighting and their percentage of children with defective eyesight. The lighting in the Grew and Greenwood has been improved but recently, while the proportion of window space to floor space is only one element which determines effective lighting; so that too much must not be drawn from the apparent correspondence between the two columns within each class of schools. The Fairmount is really worse off for lighting than the table seems to show, as excluding the special room, the ratio of window to floor space is but 1:7.5. The Damon, on account of its location near factories, an atmosphere sometimes smoke laden, and windows hard to keep clean, is also worse off than the figures seem to show.

Owing to the different average ages of the children, the primary and grammar schools should not be compared with one another.

SCHOOL	Ratio of Window to Floor Space	Per Cent. of Pupils Defective in Eyesight	
Hemenway.....	1:2.9	4.5 %	} Primary Schools
Trescott.....	1:3.7	10.6 %	
Weld.....	1:4.6	16 %	
*Amos Webster.....	1:5.1	16.6 %	
Greenwood.....	1:6.1	11 %	} Grammar Schools
Grew.....	1:6.6	14 %	
Fairmount.....	1:6.8	15 %	
Damon...	1:7	25 %	

* Six grades.

TEACHERS' SALARIES.

The average salary of female grade teachers in the 56 towns of Massachusetts is \$621. The average in Hyde Park is \$514.28.

I recommend that the maximum be increased from \$550 to \$600, to be reached in two years. In order that the taxpayers may feel that they are getting the worth of their money, and that good teachers may feel that it pays to do good work, I further recommend that increases be granted only after examination, such examination to consist of three parts, viz.:

I. The report of the superintendent on the class room efficiency of the teacher.

II. An essay on some pedagogical subject chosen by the teacher, to be passed upon by a committee of the board.

III. A written examination on two or three books selected by the teacher from a list drawn up by the superintendent.

I feel sure that our teachers would welcome such a test if by so doing they could win a much needed increase.

A word in general as to the condition of the schools in Hyde Park might be appropriate here. The corps of teachers is above reproach as regards amount of work, willingness to profit by advice, attendance upon school meetings and other educational gatherings. The superintendent has been cheered time and again by the loyalty of the teachers and their pro-

fessional ambition. His work has been made comparatively easy and very pleasant by their hearty co-operation.

The rate payers have reason to congratulate themselves and thank Providence that they have been able to obtain and retain the services of teachers so good as the very modest salaries paid. It is true that there are some weak teachers. That is to be expected when the minimum salary is as low as \$400. But we have some teachers equal to the best anywhere and fully equal to many teachers receiving as high as \$725 per annum. I bespeak for the teachers a more hearty appreciation on the part of parents, and a more continuous and vigorous support at home of the efforts put forth in the school room.

The attendance in the High School is the largest on record and the character of the work done is, on the whole, of a very high order. The Principal's report gives in detail an account of the changes and improvements made since last year.

The discipline of the schools, on the whole, is in excellent condition, and the educational progress of the boys and girls is as good as could be expected. The equipment of maps, charts, and books has been greatly improved in the last year but very much still needs to be done in this direction. In my judgment the taxpayers of Hyde Park receive full return for every cent invested. It is perhaps unnecessary to say that an increase in appropriation would be accompanied by an increase in efficiency proportionately greater.

Following this report will be found reports from the Principal of the High School and the Supervisors of special subjects. In conclusion, I wish to thank heartily the Committee, the teachers, and the parents, for their support during the first half year of my service in Hyde Park.

Very respectfully yours,

HORACE L. BRITTAIN,

Superintendent of Schools.

January 24, 1908.

REPORT OF HIGH SCHOOL PRINCIPAL

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir:—It gives me pleasure to submit herewith my second report as Principal of the High School.

ATTENDANCE.

The total enrolment to December 20, 1907, was 390, 11 more than last year. The membership December 20, 1907, was 374, 21 more than last year. The decrease in membership for the first term has been smaller this year; only about half of last year's decrease.

MEMBERSHIP BY CLASSES, DECEMBER 20, 1907.

Total	374

THE TEACHING FORCE.

Since school opened in September, there have been no changes in the High School faculty. This is in pleasing contrast with the corresponding period last year, during which five changes were made. Between May, 1907 and September, 1907, resignations were received from the following:

Miss Jane Kendall
Miss Marie A. Goddard

Miss Alice Riordan
Mr. Chester B. Story

Mr. C. W. Annable

The following were elected to fill the vacancies:

Miss Mary A. Averill, (A. B., Mt. Holyoke, A. M., Radcliffe)
Head of History Department.

Miss Laura B. Doran, (A. B., Boston University)
Head of English Dept.

Mr. Jacob Loring, (A. B., Bowdoin; Burdett Bus. College)
Head of Commercial Dept.

Miss Maud V. O'Neil, (A. B., Boston University)
Assistant in French and Mathematics.

Miss Bertha P. Brooks, (A. B., Smith; Springfield Bus. College)
Assistant in Commercial Dept.

Miss Marion Gee, (Framingham Normal School; Mass. College
of Commerce)
Assistant in Commercial Dept.; Office Assistant to
Supt. and Principal.

The election of an Office Assistant marks almost a new era in the administration of the schools, since the Superintendent and Principal, partially relieved of the endless details and clerical work, are enabled to give more attention to the larger issues; issues which count most for progress and efficiency.

Upon the co-operation, the daily work and daily influences of the faculty, the success of all efforts toward increased efficiency depends. I am especially glad, therefore, to write in terms of highest praise concerning the loyalty, ability, and personality of the High School corps.

COURSE OF STUDY.

The present course of study was put into operation at a time when the largest possible freedom was advocated for High School as well as college students, in selecting the studies they desired to pursue. It is true that the pupils and parents have presented to them suggestive courses outlined to fit for college, normal school, or business life, but these suggestive courses are only "suggestive" and pupils adhere to them only in so far as their future prospects of the veto of the Principal may interfere with their likes and dislikes. That the

pendulum has swung too far for the best interests of the average college student, is acknowledged by many able educators; still more reason is there to question the advisability of allowing so wide an opportunity for the display of individual preference and aversion in the choice of studies in the High School. It is quite possible, however, to arrange four carefully selected courses of study, which will meet the needs of practically all pupils in the school; courses which are more symmetrical and more conducive to continuity of purpose and effort than the rather free selection of studies by the pupil, each year, often yields.

I would not picture the present arrangement in too unfavorable a light, for it should be understood that English is now required of every pupil in school during all four years; Ancient History and Algebra are required the first year, and American History and Civics the fourth year. The elective system has its virtues, and probably a majority of pupils are pursuing well-balanced courses with fairly definite aims in view. Of the courses of many of the pupils, however, so much cannot be said, yet the courses chosen come within the prescribed regulations, and there is no sufficient reason, on the score of previous attainment, for the Principal to withhold his approval.

I would recommend, therefore, as a substitute for the present elective system, the establishment of four well defined courses of study, most of the subjects of which shall be required, but allowing, in some cases, the choice between two subjects within the course, such as the choice between French and German. By these means, such unusual combinations as English History and Greek, or Stenography and Advanced Physics, etc., will be avoided, as well, also, as courses containing little or no work in any foreign languages or in mathematics. A pupil, having chosen the course he desires to pursue, will be expected to continue in that course.

We are at work now upon courses embodying the foregoing

recommendations, together with outlines of the year's work in each subject pursued in the school. These we shall soon present to you for your consideration and such modifications as your experience and the relations of our work to the work in the grades may suggest. It is the earnest desire of the High School to adjust its work so as to secure the closest and most beneficial correlation with the work of the preceding years. This course of study, together with the outlines prepared for the work of each department, will form so important a guide to the Superintendent, School Committee, teachers, parents and pupils concerning the work of the school, that I would strongly urge the printing of the same in pamphlet form.

ELEMENTARY PHYSICS VS. ZOOLOGY.

By vote of the School Committee, the course in Elementary Physics for second year pupils was introduced in September, with these three objects in view: first, to present the elements of the subject to all pupils interested, whether they expect to take the advanced course or not; second, to provide a certain amount of preparation for the study of Chemistry in the succeeding year; third, to make possible a more thorough course in advanced Physics for college preparatory students in the senior year. The Science Master, Mr. Rice, felt so much the desirability of having such a course that he was prepared to forego his laboratory and study periods, in order to secure the four periods per week necessary for the new course. The opportunity to take a course in Elementary Physics diminished so much, however, the election of Zoology, that no class could be formed in the latter subject; so the introduction of Elementary Physics amounts, virtually, to the displacement of Zoology, though we are prepared to take up the latter again if there is sufficient demand for it. Since the Zoological laboratory is now used for Typewriting and Mechanical Drawing, Zoology, if taught again, would be accommodated in the Chemical laboratory which is large enough for both subjects.

COMMERCIAL DEPARTMENT.

In addition to securing more commodious quarters for the typewriting work, this department has been favored by the purchase of the "Right-in-Sight" copy holder recommended in the report of last year. The beginning classes in typewriting are using only the touch system, which will be the standard for the school in the future. Soon after school opened, the two Hammond machines were exchanged for two Underwoods, so that the department is now equipped entirely with machines which the graduates of the school are most likely to meet on securing a position.

In view of the fact that Algebra is required of all the pupils in the entering class four periods per week, it seemed unwise to require pupils of this class who elect Commercial Arithmetic, to pursue this subject also four periods per week, since such pupils would be spending over half their time on mathematics throughout the first year. It should also be noted that these pupils have, only a few months before, completed the Grammar school course in Arithmetic, and have not matured so rapidly, in the meantime, that they are prepared for work very much in advance of the Grammar school course. With the approval of the Committee, therefore, the equivalent of only two periods per week has been given to Commercial Arithmetic this year, and the time has been spent largely upon a review of the fundamental principles and on the speed drills in common operations. The other two periods per week have been devoted to business spelling lessons and practice in business letter-writing.

Your investigation of the lighting of the class rooms throughout the town has revealed the especial weakness of the Book-keeping room in this respect. Any improvement made in this room, by such expenditure as may come within the means of the Committee, will be thoroughly appreciated by the pupils and teachers of this department.

GIRLS' PHYSICAL TRAINING.

Miss Ethel L. Carver was elected High School Director of Physical Training to succeed Miss Signe Hagelthorne. Active work was begun on October 1. The cloak room for the men teachers, a room little used, was easily converted into a dressing room for the Physical Training classes, and about ten dollars was expended for wands and dumb-bells. The work is entirely elective and it has been so attractive and beneficial to the pupils that there has been comparatively little falling off in membership. A more detailed report of this work will be presented by the Director.

ATHLETICS.

Last year's report on this topic applies equally well to the work of this year. It is to be observed that schools are gradually assuming more supervision and more responsibility touching the Athletic interests of the pupils, and this seems certain to increase rather than to diminish. The wisdom of the Committee, therefore, in securing at least one assistant male teacher who shall be in immediate charge of the more important school sports is continually apparent.

MILITARY DRILL.

In my last report I referred to the proposed change in uniform for the cadets. The matter was fully presented to the parents by means of a circular letter. The replies received expressed a decided preference for the retention of the present style of uniform. No change, therefore, will be made.

In this year's entering class, the exceptionally large number of musicians available for positions in the drum corps, gave every incentive to strengthen and enlarge this branch of the military department. Six new bugles, United States army pattern, were purchased by the school, while the newly or-

ganized fife squad bought their own instruments. The entire drum corps now comprises sixteen members. Through the efforts and interest of the Military Committee, Mr. W. J. Wright was secured to give instruction to the corps twice a week from October to March. The work now done by the corps is very commendable and their proficiency gives impetus and spirit to the work of the whole department. Since most of the present members of the drum corps will continue in the same capacity next year, little or no paid instruction will be necessary again for some time.

The gun racks in the basement are not in good repair, and are not constructed with a view to securing the finest care of the guns on the part of the cadets. I would not advise new racks, nor the outlay of any considerable amount of money on the present ones. A few dollars expended here, however, will, I am sure, be returned in the shape of smaller repair bills for the guns in use.

HOURS OF SESSION.

On Monday, January 13, a change was made in the hours of the High School session. The High School now opens at 8.15 a. m. instead of 8.30 a. m., and closes at 1 p. m., instead of at 1.30 p. m. To make up for the fifteen minutes thus lost, the first recess (5 minutes) is now omitted, the second recess has been shortened a trifle and the devotional period abbreviated. The advantages secured by the change are two-fold: First, opportunity for 1-2 hour more of sunlight, fresh air and recreation in the afternoon, especially during the shorter days of the year; second, the separation of dinner and supper by 5 hours instead of 4 1-2. A very large majority of the parents and pupils are well pleased, so far, with the change. It is gratifying to note, also, that we have had slightly fewer cases of tardiness so far than we had under the old schedule. This change is not to be regarded as a finality, and return will promptly be made to the former hours if the new program

does not meet the needs of the pupils and parents better than the old one.

ROOM CHANGES.

The dropping of Zoology for this year enabled us to make a most beneficial change in the accommodations for Typewriting and Mechanical Drawing. Both of these subjects are now taught in the room formerly used as the Zoological laboratory. It has been a great relief to be free from the cramped quarters, poor light, and bad air of the old typewriting room, as well as the cold, uninviting room in the basement formerly used for Mechanical Drawing. The old Mechanical Drawing room has been used for the Evening School drawing, so this work is now entirely separated from the High School drawing, much to the convenience of both.

INSIDE REPAIRS.

During the summer of 1907, some interior painting and varnishing was done on the parts most in need of it. During the coming summer, a much larger amount of work of this kind should be done if the building is to be kept in the attractive condition so much desired. Many ceilings and side walls need to be whitened or tinted and the dado in the corridors and on the stairs should be painted.

Several of the class rooms are furnished with desks taken from the old High School building. The tops of these have become badly soiled and very unsightly through years of use. From sanitary, therefore, as well as aesthetic reasons, I would urge that these desks be revarnished after a thorough cleaning with turpentine. The expense will be about \$3 per room. This has been done already as an experiment in room 21, and we find the gain in appearance and cleanliness to be enormous, compared with the slight expenditure involved.

The floor dressing, which was first applied in the summer of 1906, continues to demonstrate its value, and should be re-

newed each year in all places subject to much wear. The chief defect is in soiling the skirts of the lady teachers; for this we have not yet found a remedy.

CLOCKS AND BELLS.

The clock and bell system continues to be very unsatisfactory, notwithstanding the amount of money, labor and thought expended upon it. The root of the trouble now appears to be defective wiring or insulation when the system was installed. This weakness is especially apparent in the wiring for the bells, which have been our chief source of annoyance this year. The basement bells have been out of commission for some time and are now disconnected. The expense of rewiring for all of the bells, even with exposed wires, would be perhaps \$125 to \$150. If no other solution of the difficulty presents itself soon, and the present bell system has to be abandoned, I would recommend the installation of one large gong in the corridor on each floor, four in all, instead of separate bells in each class room. The expense for the four gongs would not be over \$60. The cost of maintenance would be very small and they would serve the purpose just as efficiently as the separate bells for each room.

OUTSIDE REPAIRS.

Last spring, two waste paper barrels were placed at convenient points in front of the school, and two more were secured later for the pine grove in the rear of the school. These have been a very strong incentive toward keeping the school grounds and the adjacent streets free from litter; the improvement in this respect has been very marked.

The most urgent need now, outside of the building, is the repairing of the driveway leading to the entrances.

In June, the Class of 1907 presented to the School, copies of the following works of art:

“The Divine Shepherd,” by Murillo

"Aurora," by Guido Reni

"Rembrandt as an Officer," by Rembrandt

The first two are hung in room 17 and the last in room 23.

The installation in the Principal's office of an extension telephone, connected with the instrument in the Superintendent's office, has been a great convenience not only to the Principal, but to all who have occasion to communicate with either office.

For the proper protection and more convenient use of the many maps connected with the History department, I would recommend the purchase of a wall case which may be secured over the blackboard in the History room.

The number of cases of tardiness in the High School I believe to be needlessly large. A share of the blame attaches, I think, to many of the parents who keep the pupils at home to do morning chores, or send them on an errand at the last moment. Without the positive cooperation of the parents, the School can make little improvement in the situation. In a circular letter concerning the work and regulations of the School, which I desire soon to send to the parents, I hope to bring this matter forcibly to their attention and enlist their most active support.

I wish, in closing, to express the great pleasure I have had in serving the school administration as High School Principal, and to thank you, the School Committee, and the High School faculty, for the unfailing support and many courtesies which have been the basis of this pleasure.

Very respectfully yours,

I. A. LEE,

Principal of High School.

January 25, 1908.

REPORT OF DRAWING SUPERVISOR

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir:—It gives me much pleasure to report to you concerning the drawing in the public schools of Hyde Park. I can truly say the work for the past year has been both successful and enjoyable. I have laid special stress on the latter, urging the teachers not to make the work irksome either to themselves or their pupils. Too many times we are tempted to use up our own strength and the patience and good will of our classes in trying to make that particular lesson a success, that is, successful in having good results to show in the end. For this reason we are aiming this year to both get and give enjoyment by each lesson, and let the result be some knowledge and power on the part of the pupil, rather than a finished product at the expense of all else.

In the lower grades we are using more illustrative drawing than heretofore, in fact we use it as a focussing point toward which all other phases of drawing, construction, representations, and designs lead. We try to have our subject for illustration connected either with other school work or with outside interests of the children. In November we used Indian life for our subject because the Indians appear in both history and language work at Thanksgiving time. We constructed wigwams, papoose cradles and moccasins, and made pouches and blankets, designing after Indian fashion the borders and decorations of each. When this was done the children were ready to make graphic illustrations of Indian camps, more especially the home of little Hiawatha, since they were familiar with the descriptions given in Longfellow's poem.

This winter we are trying much the same scheme except that we have appealed to the outside interests of the children. We are drawing skates, mittens, snow-shoes and sleds, to be fol-

lowed by pose drawings in winter costume. This will be their material for illustrating the winter sports and the boys and girls taking part in them. The children thoroughly enjoy illustrative drawing, which is one of the best excuses for its existence, besides its wonderful training for observation combined with imagination.

This is the work of the third and fourth grades. The younger children do not follow so systematic a plan, though in the fall they draw vegetables and fruits followed by illustrations of harvest scenes. We use reading book stories and Mother Goose Rhymes for subjects because the little folks are slow to imagine pictures and need a subject with whose interpretation they are thoroughly familiar.

This work is not carried beyond the fourth grade because it ceases to be a pleasure to older children. They are not satisfied with their attempts, having become more critical of their own work, and more afraid of the criticism of the teacher and fellow pupils. While we give to the first grade, difficult toys to draw, we would not attempt them in an upper grade because the toy has lost its interest to older children, and they see only the difficulty of representing its intricate construction.

We find it much easier to unite all forms of drawing with the other studies among the little children, especially with reading and language—reading, dramatization and illustrative drawing naturally going hand in hand. In the upper grades we sometimes find the drawing and arithmetic closely connected, and often a knowledge of geographical maps is a help in the understanding of working drawings, and vice versa.

But object drawing and design must stand more by themselves in these grades, except that we may design covers for written work in other studies.

The classes in the High School are larger than in years before, especially the freshman classes. The course has been much the same as usual, except the addition of a little manual

work in the form of wood block designing, cutting and printing. This is found both interesting and instructive. Later I shall take up stencil making and printing. Both these forms of work give the classes a chance to make a design and put it to some actual and practical use. The fact that in the end there is to be something made of use as well as of beauty, stimulates an interest in the whole execution of the work in the class-room, and often arouses an interest to repeat the process outside.

My aim is to introduce as much as possible, the application of design to material of different kinds, in all the grades, for there is little satisfaction in making a design unless it can be applied to something either useful or ornamental.

Thanking you and the Committee for their interest and support, I am

Very respectfully yours,

FLORENCE M. WOOD,

Supervisor of Drawing.

January 24, 1908.

REPORT OF THE SUPERVISOR OF MUSIC

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir: For the past seventeen years the Normal Music Course has been the text book used for music in our public schools. Since the introduction of this course other methods have been published, some of which I have examined, but none have appealed to me so forcibly as the "New Educational Music Course." For its adoption I ask your earnest consideration.

Pupils completing this series of books will have enjoyed singing the highest type of vocal music, selections from the great oratorios and cantatas, also grand operas and comic operas. The great symphonic and sonata themes are represented and smaller forms of instrumental music, as well as famous part songs, college songs, folk songs of all nations, the best known hymns and some of the best songs of American composers. To this music are set some of the familiar poems every child should know. Not only from an educational and musical standpoint, do I advocate this course of music, but from an economical one as well. Please compare the cost of books we are using, with those of the New Educational Course. Publishers of both systems allow a discount of 1-6 off from list price.

Grades	Normal Course	Educational Course
1	Chart \$10.00	None
2	32c	22c
3	32	30
4	36	30
5	36	30
6	60	35
7	40	40
8		50

All the New Educational books are cloth bound, while those we are using have pasteboard covers, quite an item, if service is considered.

The interest in music in our schools has been well maintained during the past year; the teachers have given their best efforts and systematic progress accomplished.

Miss Margaret I. Townsend has assisted the Supervisor since September devoting one day each week with satisfactory results. For the interest and support of the Superintendent and School Committee, I am indeed grateful.

Yours respectfully,

B. HAROLD HAMBLIN,

Supervisor of Music.

January 23, 1908.

REPORT OF EVENING SCHOOL

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir:—In making this report of Evening School, I think it well, as heretofore, to compare numbers of the past four years as follows:

Enrollment:

1904-05	298
1905-06	258
1906-07	226
1907-08	387

Average Attendance:

1904-05	145
1905-06	131
1906-07	113
1907-08	125

1907-08	Enrollment	Membership	Av. Aten.
English Dept	260	170	79
Business Dept.	79	63	26
Draughting	48	29	20
Total	387	262	125

In calling the attention of our townspeople to the Evening School, I wish, first of all to ask you to consider the great number of foreign born young men and women who have come to Hyde Park to work in our shops. Many of them are well educated young people, who can neither speak nor understand one word of English. The illiterate, ignorant foreigner is with us, too. Both classes are eager to learn English. Some of the most ignorant want to study literature; and many a pupil is anxious to work in fractions when he can scarcely add a column of figures.

We have also the bright, ambitious young Americans,

anxious to get on in the world, who wish to study bookkeeping, stenography, or mechanical drawing.

On November 4 and 5, 387 registered in the various departments, and on Thursday evening, November 12, there were 185 pupils in attendance.

Mechanical drawing classes have been well attended. In my opinion, the interest shown in this department is worthy of better equipment. Although two new lights have been added this year, still others are needed. The nature of the work calls for a cleaner room. The instructor strongly recommends that another and better equipped room be used for mechanical drawing.

In the four English departments, there has been a good interest, and I believe a steady progress. Pupils have been advanced from one room to another, working slowly but surely toward the first English room.

Although no regular High School department has been formed, yet, in our first English class, pupils in Latin, algebra, and Civil Service requirements have been coached, along with the ordinary arithmetic, writing and English. Of the 67 enrolled in this department, 46 attended, with an average attendance of 22. One important feature in this department has been the formation of a list of books to be read. Pupils have been urged to attend our Public Library on Friday and Saturday evenings.

Delightful elements of Evening School are the eagerness for knowledge and the freedom to choose whatever studies one desires. We must respect a young man or woman who, after working all day in factory or kitchen, will come and study all the evening. The enthusiasm of the opening nights dies away, to be sure. As the novelty wears off, those not interested drop out of the ranks. From our 387 enrolled pupils, only 262 have become regular attendants. Our low average attendance is due largely to evening work and holiday visits and festivities.

From our experience this year, I would strongly recom-

mend for another season, two terms of Evening School: one, from October 15 to December 15; thus allowing for the extra evening work and preparations for Christmas; and a second term from January 8, after the New Year is well ushered in, until the close of the season, whenever that may be.

I hope that a rigid system of grading will not be adopted in the Evening School. To my mind, that would defeat the very end and aim of the Evening School, which is to furnish a school home for any orderly young person, on any evening or evenings when he can attend.

A pleasant event this year was our Christmas entertainment in the High School hall, when the Art treasures there were explained and a fine program of music and readings was given, with remarks by our Committee and the Superintendent. This entertainment was of a high order, and the talented artists, all of Hyde Park, freely gave their services. Through the generosity of several public spirited citizens, two hundred boxes of Christmas candy were provided for this entertainment. It is proposed to give a second entertainment and exhibition of work at the close of the year. We believe most heartily in these entertainments for several reasons: they make the school course more attractive; they place the Evening School on a plane with the Day School; and they give variety and culture to the lives of many whose daily round is "all work and no play."

I have faith to believe that our best work for the year is yet to come. We have several students who are always here, and who are intensely interested. Good results must surely follow their efforts.

Respectfully submitted,

MRS. J. F. MOOAR,

Principal of the Evening School.

January 21, 1908.

REPORT OF SCHOOL PHYSICIAN

To the Hyde Park School Committee.

Inasmuch as the fiscal year of the various departments of the town government is now about to close, it seems best that the report of the School Physician should be presented to you at this time. The work of inspection this year has covered but the final four months. Immediately after my appointment, the Principal of the High School and the teacher in Physical Culture deemed it desirable that the young ladies in that class should pass such an examination as should determine the advisability of such exercise, in each individual case. There were one hundred and ten such examinations made by me, with the result that one was excluded from all part in these exercises, and, in the case of two others, it was thought wise to eliminate the more strenuous parts. I believe this result fully justified the making of these examinations, and prevented actual injury in these three cases. There have been during these final months of the year, nineteen exclusions from school, on account of symptoms of contagious diseases, and many more referred cases where physical defects and non-contagious illnesses have been called to the attention of the parents, and requests made that the advice of the family physician in regard to them be at once sought. I believe that a further spread of a threatened invasion of a severe type of scarlet fever has been, by these procedures, rendered less liable, if not actually prevented.

There has been one general inspection of all the school buildings, special attention being given to the condition of sanitaries, ventilation, heating and proper lighting of the rooms, concerning which a detailed report was earlier presented to you. I believe these general inspections should take place at least twice yearly and reports made to you,

that a high standard of all school property and conditions may obtain.

I believe also that there should at once be installed, telephones, in each of the school buildings, for use in case of accident, and also, that the Superintendent of Schools and the School Physician and the masters of the schools, may at all times be in ready communication. There also should be more co-ordination of effort existing between the teachers, the Board of Health and the School Physician. This undoubtedly will obtain when all become accustomed to conditions which are now new.

In concluding this report, you will pardon me for a bit of personal reminiscence. As I am writing, there comes to my mind the picture of a school-room, where, as a young lad, I first sat at my desk, as a High School pupil. I remember seeing at the teacher's desk, the scholarly young man, a recent graduate from college, who was to be the principal of the school, and beside him a taller and more dignified personage, familiar to us all, for he was the village doctor. He was also the chairman of the school committee. I remember after the bell had sounded and we sat at attention, and the opening exercises of the school were completed, that this physician, taking in his hand a crayon, walked to the blackboard facing the pupils, and wrote thereon these words: "Mens sana in corpore sano." I then listened to my first medical lecture, and the subject was "Hygiene and Physical Exercise." It has been the aim of all educators for many years to produce not only a sound and cultured mind, but to produce that mind in a sound and well-developed body, and there has been, from time to time, steady progress in the construction of buildings for school purposes, better lighted, better heated, better ventilated and with the best possible sanitary conditions prevailing. Along with this has come physical training that the object, a sound body, might be attained. I believe in this latest move, medical inspection of the schools, a far greater step has been taken toward the attain-

ment of this most desirable object, a sound mind in a sound body.

Respectfully submitted,

A. D. HOLMES,

School Physician.

GIRLS' PHYSICAL TRAINING

HYDE PARK, MASS., January 20, 1908.

Horace L. Brittain, Superintendent of Schools.

Dear Sir: Physical training for the girls this year is confined to the High School, where it is an elective course open to all four classes. It is aimed to make this training of the body go hand in hand with the development of the mind; therefore Physical Training is marked just as is any other study,—the system of marking being based, however, on effort rather than on result. Examinations are given each term to determine more accurately the individual standing.

About one hundred girls have elected the subject; they are divided into three classes, each of which meets once a week in the assembly hall. Gymnasium suits and gymnasium shoes are required for members of the classes.

Individual physical examination at the beginning of the year insures that each girl is able to take the work; and at this time cases in need of corrective treatment are assigned special exercises.

The class work follows the Sargent method. It comprises wand and dumb bell exercises, free work (without apparatus), military drill, marching calisthenics, and games. The exercises are accompanied by music, which greatly adds to the interest and enthusiasm of the classes.

The program for the year includes an exhibition of the class work. As soon as the weather permits, the class meets out of doors for competitive games.

The number of girls electing this subject shows the general interest in the work; and the enthusiasm seems to be well sustained.

Thanking the Superintendent and the Committee for their

support, and Mr. Lee especially for his very helpful co-operation, I am

Very respectfully,

ETHEL L. CARVER,

Physical Director.

REPORT OF SEWING TEACHER

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir: Sewing was started in the schools, October, 1906. One lesson a week is given; one hour and a quarter to the seventh grade and two hours to the eighth, in the Grew, Fairmount, and Greenwood schools. At the Damon School, seventh and eighth together had one hour, but in September, 1907, the grades were separated and one hour given to each.

At the start, the work of the two grades had to be the same, the foundation stitches taught by the use of models, and then their application on some garment.

The subject was new to the pupils and it took some time for them to accustom themselves to it, and teacher and pupils were strangers to each other.

At the close of school in June, 1907, when the work at the start and at the close was compared, there could be seen the gain the pupils had made.

When school began in September, 1907, the new eighth grades showed at once the advantage of their year's training. One difficulty to contend with, is to so arrange the sewing that pupils will have an interest in their work, and at the same time, give them what is absolutely necessary for them to have to become good needle-women in the future. This is very hard at times as the scholars are much older than in other schools where sewing is started and the time allowed, two years, is short. In most schools, sewing is started in the fourth or fifth grade and continued three and four years, and at the age at which the pupils here are beginning, in other schools, garment work and dressmaking are taught.

I have tried to do the best that could be done in the short time allowed. The pupils are showing great gain from month to month, and the interest in the work is steadily growing.

I wish to thank the Principals and teachers of all the schools for their hearty co-operation with me in the work and I hope the parents of the pupils will show their interest in the work by coming to see us during our sewing period and see for themselves what is being accomplished.

Yours respectfully,

ANNE A. JENKINS,

Sewing Teacher.

REPORT OF THE WOOD WORKING CLASSES

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir:—The second year of Manual Training in the Hyde Park Schools opened in September, 1907, at the beginning of the school year, with an enrolment of one hundred and sixty pupils, including boys of the seventh and eighth grades from the Fairmount, Greenwood, Grew and Damon Schools.

The Manual Training room is on the first floor of the Grew School and has a full equipment for work likely to be done by boys of the grammar grades, with accommodations for twenty-one boys, if necessary.

The educational system used is the Sloyd system. Although this system recognizes that to a great extent individual methods must be used with different boys, it insists on a certain progression of exercises from the easy to the more difficult and the making of finished objects for use. It is obvious that this progression can be found in a great variety of objects. Thus one can appeal to the individual interest and taste of the pupil.

Yours respectfully,

M. GERTRUDE BURNABY.

REPORT OF THE TRUANT OFFICER

Horace L. Brittain, Supt. of Schools, Hyde Park, Mass.

Dear Sir:—I hand you herewith a report of services rendered by me as Truant Officer of the Hyde Park schools during the year ending December 31, 1907.

Cases of truancy investigated	11
Cases of absence with parents' permission investigated	6
Cases of absence on account of sickness investigated	26
Cases of absence on account of lack of clothing investigated	10
Cases of absence on account of removal investigated	81
Cases of absence for all other causes investigated	79
Transfer cards investigated	128
<hr/>	
Total number of cases investigated	351
Cases of truancy prosecuted	1
Truants committed	1
Total number of visits to schools	278

Acting under the authority of the Superintendent of Schools during the summer vacation I examined applicants for schooling certificates, and approved forty-seven such certificates.

Respectfully submitted,

J. F. KATZMANN.

Truant Officer.

Chorus — "Farewell" Barnby

March — "Our Nation's Guard" Brooke

High School Orchestra

Grace L. Campbell, Accompanist

Class Ode.....Edythe G. Wyman

We as classmates have assembled,
That we may our farewells take,
Of all that in our hearts we treasure,
For our dear old high school's sake.
Through its cherished rooms we've wandered
Oft and on for four long years,
Till we cannot say with gladness,
"Farewell, Alma Mater dear."

But although with thoughts of sorrow,
For the parting now so near,
We must take our leave of high school,
And go forward without fear.
There within the dim, dark future,
With its glimmering walls of gold,
Shining forth in words resplendent
Is a truth of ages told: —

On the world's bright, gilded pathway,
Walk with footsteps sure and slow,
Lest a misstep on the journey
Lead unto the depths below.
Look before you and not backward,
And with thoughtful, jealous care,
Live a life that shall be honored,
In the world, and everywhere.

Snags and pitfalls there are many;
You will meet them all along,
But with joyous, martial footsteps,
Cheer the others with your song.
Look not to the field of battle
For a coronet of fame,
In the common daily routine
You may win a fairer name.

Proving brave and true and honest,
 Always kind, and always pure,
 Ever in your life's broad journey,
 Strive for courage to endure —
 It is thus the message endeth
 Like a bolt sent forth from heaven,
 And in letters bright beneath it,
 Gleams, "The Class of Nineteen Seven."

CLASS OF 1907

Florence Madeline Adler	Ruth Hope
Arthur Stuart Andrews	Robert Sawyer Jigger
John Lincoln Barry, 3d	Mary Teresa Lucey
John Becker, Jr.	Alan Malcolm MacIntire

Words of Song

Classmates, we are assembled here
 To bid our last farewell
 To these old halls which are so dear,
 And friends we love so well.

Here first we met our teachers true,
 In Childhood's happy day,
 And pledged allegiance to old Grew
 While wending on our way.

Upward and onward for eight years
 We've worked with steadiness,
 Sometimes with hopes, sometimes with fears,
 But still with "Faithfulness."

Good-bye, good-bye, to thee we'll be
 Most loyal and most true,
 And hold thee in our memory —
 Our class of five plus two.

THIRTY-FOURTH
ANNUAL REPORT
OF THE
Trustees of the Public Library
OF THE
TOWN OF HYDE PARK
FOR THE
YEAR ENDING JANUARY 31, 1908

BOSTON
PHIL. W. CARROLL
530 ATLANTIC AVENUE
1908

ANNUAL REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The Trustees are glad to be able to report another year of successful operation in all departments of the Library.

No new policies have been tried and some plans which at one time seemed desirable have been shown by the experience of others to be of more than doubtful utility; so that by watching experiments elsewhere we have been saved both trouble and expense.

Miss Adams, who was absent at the time of the last report, was heartily welcomed on her return in October with her health fully restored. During her absence, Miss Carrie C. Higbee rendered acceptable service.

The total circulation, which has risen to over 75,000 this year, is the largest in our history and continues to increase from year to year, while the per cent. of fiction shows a gratifying decrease.

The citizens are heartily invited to ask the librarians to aid them in looking up any subjects upon which they are asking information. If the desired help cannot be given at once, it will be sought for and given later.

Frequent visits to the Library on the part of the Trustees have convinced them that the Reading Rooms have never been more generally or more wisely used.

The details of the work and much other information will be found in the Librarian's Report which is appended.

For the Trustees,

HENRY B. MINER,

Chairman.

REPORT OF THE LIBRARIAN

To the Board of Trustees of the Hyde Park Public Library.

Gentlemen:—The report of the Library for the year ending January 31, 1908, is herewith submitted.

The general work of the Library has been about the same.

The number of books issued in any one day was less than in some previous years but was more evenly distributed through the week. The net increase in the number of borrowers was somewhat larger than the previous year. The giving out of books does not measure the work or the influence of the Library.

We have been almost continuously supplied with pictures by the Library Art Club. The following sets of pictures have been exhibited: Scotland, No. 1; American Parks; Paris, No. 1; Norway, No. 2; the Sargent Pictures; Italian Fountains; New Brunswick; Babies in Art; Yellowstone Park, Nos. 2, 3; Russia; Up the Rhine; Hiawatha. The pictures of Russia, Norway, the Rhine, the Yellowstone and Hiawatha were especially enjoyed.

Eleven hundred books have been rebound. This seems a large number, for which poor paper, poor original bindings, and, in some cases, poor care taken of books by borrowers, were responsible. About thirty-five hundred books have been repaired and as many covered.

The Young People's Room has been made even more cheerful and attractive by its newly finished walls. "You have something new here every time I come" is a remark sometimes heard. 22,008 books have been issued in this department. The average daily circulation was 72.

Great care is taken to add to the shelves only the best books. The influence of this department cannot be overestimated.

The work at the Readville Branch has steadily advanced. The attendance has been on the increase and more children's books are in demand. 4,353 books were issued, an increase of 838 over 1906. The net increase in the number of borrowers was 59. Sixty-two new books were purchased for the branch.

STATISTICS.

Central Library.

Number of days the Library was open	304
Total circulation	70,901
Periodicals issued for home use	4,275
Largest monthly issue (March)	7,011
Smallest monthly issue (August)	5,015
Average monthly issue	5,908

TOWN ACCOUNTANT REPORT

Sewer Assessments	12,977.67	
Street and Sidewalk Assessments	1,640.41	
Tax Deeds	8.20	
Temporary Loans, Treasurers' Notes	45,000.00	
Tileston Street	2,500.00	
Town Treasurer and Collector's Office, Repairs	250.00	
Water Commissioners' Office, Furniture and Supplies	99.70	
General Fund	55,109.37	
	<hr/>	\$431,075.30

The accounts of the Treasurer and Collector have been verified.

The Treasurer's balance shows \$24,957.26

The Accounting department shows 24,916.46

A difference of \$40.80

which consists of the Police Special Officers' pay-rolls unpaid on account of legal action of Civil Service Commission.

There should be a careful inventory taken of all Real Estate and Personal Property of the Town in the hands of the various departments, and a copy of same be submitted to the Accounting department for record.

Respectfully submitted,

A. T. BYRNES, Town Accountant.

WOODLAND PLACE.

McDermott, Hugh.

Any person not assessed a Poll Tax who is entitled to be so assessed may apply to the Board of Assessors to be assessed in accordance with the following ACTS of 1895. [Chap. 61.]

AN ACT RELATIVE TO THE REGISTRATION OF VOTERS.
Be it enacted, etc., as follows:

SECTION 1. Every male applicant for registration shall present a certificate from the assessors, or a tax bill or notice from the collector of taxes, showing that he has been assessed as a resident of the city or town on the preceding first day of May, and the same shall be accepted by the registrars as prima facie evidence of such residence, or he shall present a certificate from the assessors that he has been a resident for the six months next preceding the election at which he claims the right to vote, and the same shall be accepted by the registrars as prima facie of such residence. If a male person was a resident of the city or town on the first day of May, and was not assessed a poll tax by the assessors of said city or town on the first day of May, such person in order to establish his right to be assessed, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be assessed, and who shall also testify under oath to the truth of the statement of the applicant in regard to his right to be assessed at the place claimed by him as a legal residence on the first day of May.

SECTION 2. Every male person moving into a city or town subsequently to the first day of May, and claiming the right to vote at an election and desiring to be registered by the registrars of voters, shall appear before the board of assessors, accompanied by two witnesses who shall testify under oath that they are registered voters of the ward or town in which he desires to be registered, and who shall also testify under oath to the truth of the statement of the applicant in regard to his being a resident of the city or town for the six months next preceding the election at which he claims the right to vote. The assessors shall give the applicant a certificate stating that he has complied with the provisions of this section.

The assessors will be in session at their office second and fourth Monday evenings during the months of September and October from 7.30 to 9 P.M., also on such days as may be appointed by the registrars of voters.

HYDE PARK, July 15, 1908.

REPORT

— OF THE —

SELECTMEN AS A COMMITTEE

— ON —

STREET LIGHTING

HYDE PARK, MASS., December 21, 1908.

TO THE CITIZENS OF HYDE PARK, MASS.:

At a meeting of the legal voters of Hyde Park, held January 29, 1908, the following vote was passed:

VOTED, that the question of the lighting of the streets of the town, and any contract or contracts for street lighting for a term of years, the locating of lights, and any other details, be referred to the gentlemen composing the present board of selectmen, (Edwin C. Jenney, John Johnston, James D. Grant, Alfred L. Lovejoy and James E. Sheridan) as a committee, with the following instructions:

1. Any contract or contracts made shall be to furnish light from lamps, as agreed, every dark hour of every night of the year from one-half hour after sunset until one-half hour before sunrise; it being the true intent and meaning of this clause that light shall be furnished, within the limits of the time aforesaid, whenever the town is not well lighted by the moon, and that the prevailing usage shall be that of shutting off the lights one hour after the moon rises and of turning them on one hour before it sets; it being understood and agreed that the Chief of Police of the town shall have authority to order said lights turned on at any time when, in his

\$107,111.15 During the same period our town paid this corporation for municipal purposes about \$12,000. We have no means of ascertaining what our citizens have paid during the same time for electricity for commercial and residential purposes, but we are of the opinion that something more than double this amount is a proper estimate. If our estimate is correct about two-thirds of the business of the Hyde Park Electric Light Company is selling its product to outside corporations. It sells current to the Old Colony Street Railway; Dedham and Franklin Street Railway Company; Blue Hill Street Railway Company, and has in the past sold to the Boston Elevated Railway Company, all amounting annually to about \$70,000, and this in addition to the Hyde Park lighting. The officers of the Hyde Park Electric Light Company are, as we understand, the same officers who are in control of the Old Colony Street Railway Company, and the greater part of the electric current which the Hyde Park Electric Light Company has sold has been sold to the Old Colony Street Railway Company. In other words the officers of the Old Colony Street Railway Company as such have purchased of themselves as officers of the Hyde Park Electric Light Company practically the entire current with which to operate their railway system through this section of the state.

As far as the Hyde Park Electric Light Company is concerned at the present time, it appears that the smallest part of their business is supplying electrical current to our citizens, and in approaching the question of their income from various sources to determine the question as to the amount which should be charged to our citizens for their light, consistent with the actual cost of production, we find that no accurate information can be given or determined, as the plant as now operated receives motive power from the same boilers which operate both the lighting and power systems.

We have no hesitation in reporting that the lighting part of the plant is unserviceable and unfit to continue in use in

any electric light plant to-day. We regret to say that this condition of affairs has existed in our lighting system for many years and is in a large measure responsible for our poor service both from a municipal and commercial standpoint. The officers of the company do not hesitate to state that they cannot furnish electrical current which will meet with satisfactory results to our town, without remodelling the entire electric lighting part of their plant, which would cost them from eighty-five to one hundred thousand dollars.

The Hyde Park Electric Light Company is now furnishing as we understand the Old Colony Street Railway Company current at about $1\frac{3}{4}$ cents per kilo-watt, which price is perhaps responsible for its failure to supply our needs at what would seem to us a proper price for our commercial and municipal lights.

We are informed that the Hyde Park Electric Light Company a few years ago sought to have its corporate interests consolidated with the Old Colony Street Railway Company, but failed to get the necessary authority. This could probably now be accomplished if the local company could be equitably relieved of its property which is now necessary to furnish electricity to our citizens. If no other way presents itself for us to get electric lighting at proper prices, the General Court might be petitioned in some proper form, so that all parties could be equitably and fairly protected.

The Hyde Park Electric Light Company as originally organized, was a public-service corporation for this town; our citizens desired its organization and the company was pleased to do business with us. They are still a public-service corporation and as such should not be allowed to compel our citizens to pay to it, any higher price than adjoining towns are at present paying. We should not be obliged to, as it were, subsidize this company because we have been a good customer. We are in competition with the towns and cities around us and our development as a municipality is

dependent upon a proper tax rate and a proper administration of our municipal affairs. Our street and commercial lighting is one of great importance to us.

INCANDESCENT OR TUNGSTEN LAMP.

It is universally admitted that up to about one year ago there had been no development in "incandescent" lighting during the past twenty years. The so-called "tungsten" lamp for street lighting purposes was at the time of the appointment of your committee in the experimental stage. It was freely claimed, however, that the tungsten lamp would produce a much higher candle-power light at a price much less than the old carbon light. The Hyde Park Electric Light Company in any proposition which it submitted to any committee of the town, failed to specifically bind itself to furnish the tungsten lamp. The company's refusal was based upon the claim that the endurance, and cost of renewal of a new lamp was an unknown quantity.

On November 11, 1908, your committee received the following letter from the local company.

BOSTON, November 11, 1908.

MR. EDWIN C. JENNEY, Chairman,
Committee on Lighting Contract,
Hyde Park, Massachusetts.

DEAR SIR:

Confirming statement made at last evening's conference with the Board,—

I beg to state to you that in using the term "incandescent," which perhaps expresses more to the trade than layman, this Company intended to convey the information, and hereby states that it will use what is commercially known as the thirty-two candle-power "Tungsten" lamp.

As stated, at the time the subject was first considered, this lamp was in an experimental stage; it has passed that stage and is now considered standard, being in very general

use. It represents today the best that there is in lighting, and is a vast improvement over the old types, which have practically undergone no change for more than twenty years.

Respectfully,

ROBERT S. GOFF,

General Manager.

In the consideration of the question of making a contract which would bind the citizens of Hyde Park for possibly the next ten years, it seemed to us that if the Company did not know what it could agree to in relation to the "tungsten light," then the town ought not to bind itself for a period of ten years without accurate knowledge as to what we could expect. If, as was claimed, the cost of electric lighting by the incandescent system was to be materially reduced owing to the discovery of the tungsten lamp, then the citizens of our town should have the benefit of the changed conditions. The prices received prior to the letter of November 11, 1908, above referred to, by any committee of the town, were all based upon the following condition. "The incandescent lights which we propose to furnish will be of the most modern type of street lighting lamps, and will be of at least thirty-two candle power."

Your committee, from information which it received from many sources, has always maintained that in the use of the "tungsten lamp" a much lower price should be given to the town.

The refusal of the company to reduce its prices to meet the changed conditions is, of course, a source of regret to your committee. Our refusal to act upon the figures given your committee seems to us fully justifiable. The Edison Company of Boston who are at present supplying thirty-two towns and cities in what might be called Metropolitan Boston, recognizing the changed conditions voluntarily promulgated July 1, 1908, to all municipalities using its current, a very material reduction in their street lighting prices, and we feel

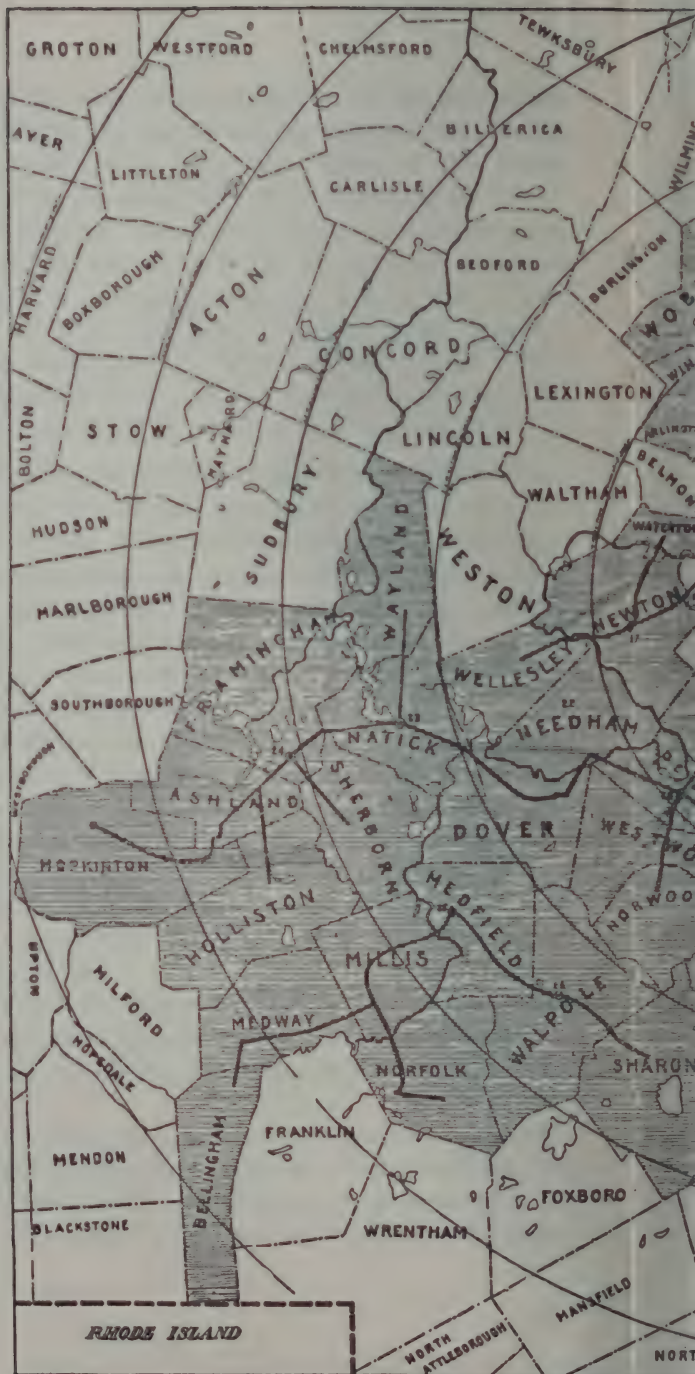

that the town of Hyde Park should have its streets lighted as cheaply as Milton, Canton, Dedham, Sharon, and Boston and about twenty-five other towns and cities in the Boston area. It does not seem just that Hyde Park should have to pay eighteen dollars per annum for a thirty-two candle-power light when the towns and cities above set forth on the same schedule in which we are interested pay \$14.67 for a forty candle-power (one-fifth more light) tungsten light, which is the price all the municipalities covered by the Edison system have to pay on our schedule. A full discussion of comparative prices is to be found in another part of this report.

THE DEDHAM AND HYDE PARK GAS COMPANY.

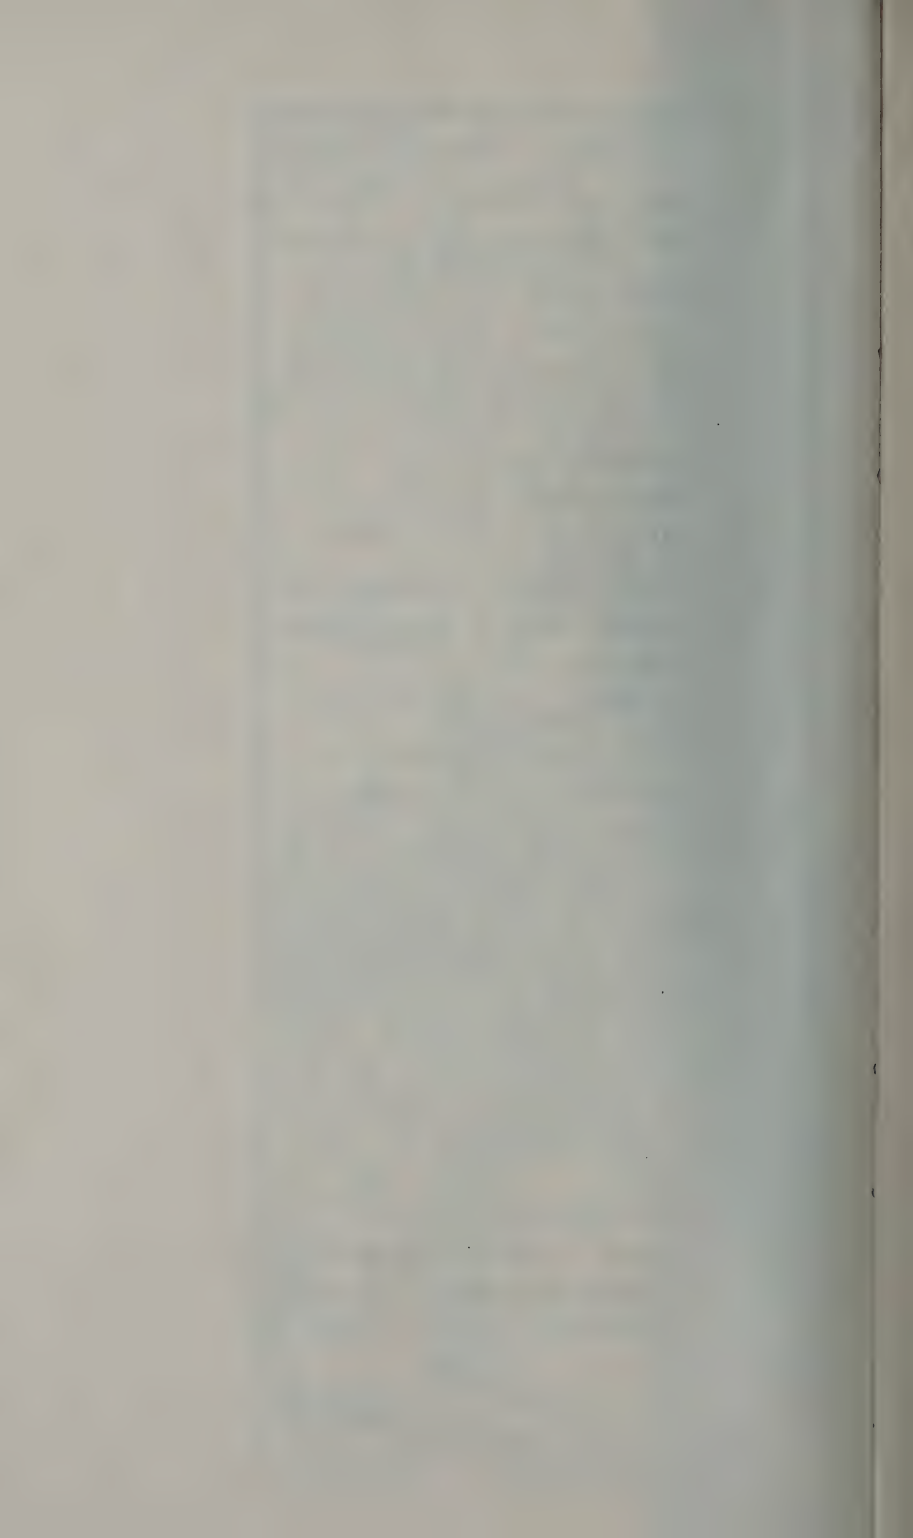

This company as presently operated purchases its entire supply of gas from the Boston Consolidated Gas Company, and has no operating expenses for manufacturing gas. Their entire expense in this regard is based only upon the amount of gas which they buy and sell. As we understand, the entire product for the town at the present time is metered to the company at a low price per thousand feet. During the past year our local company purchased over forty million feet of gas. The average price paid by consumers of gas in the state in 1886 was \$1.72 per thousand feet. This price has steadily decreased until at the present time the average price is about ninety-seven or ninety-eight cents per thousand feet. The gross price received by this company is \$1.20 per thousand feet, the average price to consumers in 1907 was about \$1.07 per thousand feet.

We believe that the company should reduce its prices to our citizens so as to correspond to the prices charged to others, using the same supply;—Boston Consolidated Gas Company.

The gas company has given your committee, and previous, committees appointed to consider this question, the same price in relation to the installation of gas lamps. To light the town with gas all night, under the estimated number

of lamps required would cost approximately \$22,800, which price the town would not be able to consider.

The last annual statement made by the company to the Commissioner of Corporations indicates that this company is upon a paying basis. We feel that it should use a part of its surplus earnings for the extension of its gas mains in accordance with the repeated requests of our citizens. Many of our important sections at the present time do not have the opportunity to use the gas which this company has the sole right to furnish our citizens. We earnestly recommend that some action be taken to compel this company to extend its gas mains into many of our outlying districts, as whatever rights it may now enjoy in our town are rights which the citizens of this community have given to this corporation in past years. They are a public-service corporation and should serve the people and community in which they are located, to aid business and the enjoyment of our homes to every extent within their power consistent with the amount of money invested or interests involved. We feel that this company, with all these questions in mind and consistent with its own interests, can immediately, whether the lighting contract or any part of it is awarded to them, extend its gas mains into the East River Street section, including Rugby, part of Fairmount, Hyde Park Avenue, Readville, Sunnyside and many other points in various parts of our town where, up to the present time, they have neglected to comply with the reasonable requests of our citizens.

The Dedham and Hyde Park Gas Company is at present operated and controlled, with the exception of the local manager, by men who are not residents of this Commonwealth. All correspondence with this company has to be sent to New York or Indiana for reply. We believe our citizens should insist that every privilege which this public-service corporation can give to our citizens should be furnished by them.

ELECTRIC COMMERCIAL LIGHTING.

The question of our commercial lighting was not referred to your committee, but many of our citizens have presented it to us in such a way that we deem it of enough importance to use every endeavor to have the lighting company agree with us that a new schedule shall go into effect on the signing of any contract for municipal lighting, reducing the schedule for commercial lighting. There appear to be many schedules, but we will not undertake to discuss them. The matter which to us seems to call for municipal attention is the schedule for residential lighting. At the present time the schedule for our residential lighting is twenty cents per kilowatt hour, with a discount of 10% if paid within 15 days; and the citizens have to pay for renewals and breakages of lamps. In the thirty-two towns and cities as set forth in this report the price for commercial lighting is 12 cents per kilowatt hour, and the renewals and breakages are supplied free by the company, except tungsten lamps. The effect of all this being called to the attention of our citizens, in our opinion is a sufficient argument that there should be a radical change in the commercial rate for our town, and we would ask for further instructions in regard to this question.

In conclusion we desire to report to the town that we have been unable to make any contract which we could recommend to our citizens covering an all-night schedule on a moon basis of twenty-two hundred hours, with either or both of these companies, to come within \$15,000. The last communication which we had with the electric light company in regard to this matter was under date of December 8, 1908, and is as follows:—

HYDE PARK, MASS., December 8, 1908.

HYDE PARK ELECTRIC LIGHT COMPANY,

DEAR SIRS:

We have considered the last schedule submitted by your company to our committee at our last conference in relation

to your price for our municipal lighting, and the contract referred to our committee by the town. We regret that you have been unable to make any reductions other than the small ones enumerated in your last communication. We consider that the prices quoted are higher than our town ought to pay, or our committee recommend. It has been presented to our committee by many citizens that there is general dissatisfaction existing in our community in regard to our commercial lighting system, and we had hoped that when our contract for municipal lighting was satisfactorily agreed upon, for recommendation to the town, that an agreement could have been arrived at, which would be satisfactory to our citizens upon both propositions.

We deeply regret, as above set forth, that the prices quoted to us for municipal lighting cannot form a basis for a recommendation for a contract to our citizens. We cannot help sharing the opinion that the price for commercial lighting should also be materially reduced. This latter matter is not one which was referred to us for action, nevertheless, it is of vital interest to our citizens and one concerning which we should have been pleased to arrive at an understanding with your company.

There are at the present time as we understand, thirty-two towns and cities adjacent to Boston, including every town and city which directly adjoins our own, who are furnished light cheaper for municipal purposes, and under a contract for commercial lighting which is much cheaper than any price you have quoted to us. As we are unable to come to any agreement which will be satisfactory to both parties upon the propositions contained in this letter, to wit: A municipal contract which is substantially in accord with the rates charged other municipalities similarly located and adjacent to us; also an agreement that our commercial lighting shall be furnished at substantially the rates charged adjoining towns and cities, we feel that we should report all facts back to the town for its action or instruction.

It is our intention to hold a town meeting immediately, at which time we shall report to our citizens our inability to reach a satisfactory understanding with your company upon prices for lighting. We should of course be pleased to hear further from your company on the subject matter of this letter before said meeting. In the event of our not hearing from you we shall assume that your company has nothing further to say or to offer.

Very respectfully
 EDWIN C. JENNEY,
 For the committee.

SCHEDULES AND PRICES.

In another part of this report the number of lights we are now operating is fully set forth. Under the schedule as therein described the town is paying about \$13,000 per annum, which includes the amounts paid to the Hyde Park Electric Light Company and the Dedham and Hyde Park Gas and Electric Light Company. At the time of the appointment of this committee the town voted that a new contract was to be made; that the committee was to consider the location of lights, the lights to burn twenty-two hundred hours, or the moon schedule; and the price not to exceed \$15,000 for both contracts. The present lights with the present companies under the new schedule would cost the town about **\$16,260**. This would continue our present schedule light for light, but nothing more. Under the same schedule prevailing in Boston and thirty-odd towns and cities as above enumerated, and shown by the map which is made a part of this report, including gas lights which we now burn, the price would be **\$12,572**, which would continue our present schedule light for light, on an all-night moon schedule.

Your committee is of the opinion, using small lamps as a basis, that the town would require from one thousand to eleven hundred small lights to meet the present lighting

demand of the town, including extensions in important sections of our town. For the purpose of illustration we will take a thousand lights as a basis of comparison on question of prices.

1,000 all-night gas lamps	\$22,800.
1,000 electric lights thirty-two candle power	
\$18.00—\$17.65 each	17,755.
1,000 gas lamps, moon schedule	19,800.
1,000 electric lights, Edison prices, forty candle power	14,670.

Your committee is of the opinion that about seventy-three arc lamps should be maintained in our principal streets and public squares; and that the balance should be the smaller lights, either tungsten, gas, or both, and submit the following schedules of prices.

SCHEDULE "A"

The price for seventy-three arcs by the local company would amount to, at \$93 per lamp	\$6,789.
The current price for adjoining towns at \$62.10	\$4,533.30
The difference per year	\$2,255.70

SCHEDULE "B"

The prices for 625 small electric lights to be run in connection with the seventy-three arcs, are as follows:

Electric lights on quoted prices \$18 and \$17.65 each	\$11,136.
Seventy-three arcs at \$93 each	\$6,789.
	<hr/>
	\$17,925.

SCHEDULE "C"

625 All-night gas lamps at prices quoted	
\$22.80 each	\$14,250.
Seventy-three arcs at \$93 each	\$6,789.
	<hr/>
Total	\$21,039.

SCHEDULE "D"

312 electric lights, (moon Schedule)	
\$18 each	5,616.
313 all-night gas lamps \$22.80 each	\$7,136.40
Seventy-three arcs \$93 each	\$6,789.
	<hr/>
	\$19,541.40

SCHEDULE "E"

Schedule now prevailing in thirty-two towns and cities around Boston. Edison Co. Prices.	
Any number of arc lights, ten-year contract.	each, \$62.10
Incandescent forty candle power, tungsten, any number,	each, \$14.67

SCHEDULE "F"

Hyde Park Electric Light Company, seventy-three arcs	\$6,789.
Hyde Park Electric Light Company, five hundred incandescent lights at \$18. and \$17.65	each, \$8,930.
Hyde Park Gas Company, one hundred and twenty-five gas lights at \$25.65 each,	\$3,206.
	<hr/>
Total	\$18,925.

SCHEDULE "G"

The same schedule, Edison Company's prices, with one hundred and twenty-five gas lamps	\$15,074.33
--	-------------

Difference per year	\$3,850.67
---------------------	------------

SCHEDULE "H"

Edison Electric Light Company seventy-three arcs	\$4,533.30
--	------------

Edison Electric Light Company six hundred and twenty-five, forty candle-power Tungsten,	\$9,168.75
---	------------

	\$13,702.05
--	-------------

The price, as shown in schedule "B," same number of lights by the Hyde Park Company as in this schedule "H" is	\$17,925.
	\$13,702.05

Difference per annum	\$4,222.95
----------------------	------------

On a ten year contract, difference would be over	\$40,000.
--	-----------

We recommend to the town that your committee be instructed in behalf of the town to apply to the Massachusetts Gas and Electric Light Commission by petition or otherwise, for a proper order to issue recommending that the Hyde Park Electric Light Company furnish electric lighting to this town for municipal and commercial purposes at a price consistent with the prices charged neighboring municipalities.

We recommend that your committee be requested to enter into negotiations with the Edison Company of Boston with the idea of asking this corporation to supply our town with electric current.

We recommend that the selectmen be requested to petition the Massachusetts General Court at its coming sitting for legislation to enable our town to contract with the Edison company of Boston for both commercial and municipal lighting for our town at prices consistent with those charged to municipalities adjacent to us.

We recommend that your committee before preceeding upon any of the above recommendations, to use all reasonable efforts to make a contract with the local companies for our street lighting together with a reduction of our commercial lighting prices. At prices in accord with our neighboring municipalities,

EDWIN C. JENNEY,
JOHN JOHNSTON,
JAMES D. GRANT,
JAMES E. SHERIDAN,

Committee on Street Lighting.

P. S. Alfred L. Lovejoy a member of your committee has removed from Hyde Park and John W. McAfee, a member of our present board of Selectmen, has acted with your committee in its work and joins in this report.
